Cooking Bown South.

A thoughtful Virginian of mature years undertook yesterday to explain to me why southern people living in the north revert so often to the old fashioned cooking "The beauty of the southern family dinner lay in the seasoming of the food to suit the taste of all the members of the household, individually and collectively. Old Aunt Dinah, or Aunt Sarah, or Aunt Chloe, the cook, knew exactly from years of practice what each of the children liked, what the father submitted to and what the mistress demanded, and she could

The Woman of It.

The Philadelphia Record says: "Almost the first thing a visitor does upon entering the room in which the Declaration of Independence was signed is to add his autograph to the vast collection of more than 20 years. Well, one woman only yesterday wanted us to cut the tape for her, because she claimed she was a descendant of one of the signers and thought she had a right to sit in his chair, and she went away mad when we wouldn't make an exception in her case.

Old and New.

An English newspaper contains an interesting parallel, discovered by a classical scholar. First comes a translation from the original Greek of Antipater of Thessalonica

Once upon a time, when a ship was shattered at sea, two men fell at strife, fighting for one plank. Antagoras struck avay Pisistratus. One could not blame took cognizance. The other swam ashore; but him (Antagoras) a dogfish seized. Surely, the avenger of the fates rests not, even in the watery deep.

Then an incident recorded in the London Chronicle serves to translate the story into a modern event and to show

how life repeats itself: Two bluejackets, named Friday and Painter, were capsized from a boat at Weymouth. After a struggle to get into the waterlogged boat Friday beat his comrade off, and Painter swam ashore. Friday got into the boat and was drown-

His Mustard Plaster. The mustard plaster is a harmless looking wafer, but it must be handled with as much circumspection as a woman. There was a newly married man once whose wife told him to put on a mustard plaster to cure a cold. He had faith in her, and put it on. Then he went to sleep, being gifted with the power of sleeping under torments which is not given to one man in a thousand. The plaster seemed to him somewhat unreasonably hot, but he argued that the hotter it was the better. Besides, he had confidence in his wife. Next day he found a well developed blister on his chest, and his wife only laughed and said she had supposed any one would when it hurt him. Though that was 11 months ago, the mark of the plaster is still upon the man like a brand, and he now regards his wife's remedies with suspicion. - New York Commercial Advertiser.

Married by Blood. In the island of Banquey there is a tribe of Dusuns differing widely in language, religion and customs from other tribes bearing that name. Marriages are performed in the forest in the presence of two families. There is no public gathering or feast.

The rite consists in transferring a drop of blood from a wooden knife in the calf of the man's leg to a similar cut in the woman's leg. After marriage the man takes the bride to her home, where he resides in future as a member of the family.

TRIED TO DO THE TOWN BUT THE TOWN

DID HIM. The train was late that night, writes a Companion contributor, and Atlanta seemed a long way from the South Georgia town in which I was compelled to stay several hours. I curled up on a bench in the little wating-room and went to sleep. Voices awakened me after awhile. Then I found that some of the men from the village had come in to spend a sociable evening around the stove. A big, broad redhaired young man had the floor, and was relating an experience, which as I

judged, had recently befallen him. 'Yes, sir,' he was saying, 'when I was in Altanty t'other week, I just thought I'd take in the town; so I went into one of him; it was for his life. 'It was quiet a few seconds, then, 'Yes, you owe me five dollars.'

'I was surprised, but I only yelled back, 'I don't no sich thing.' 'Yes,' said the voice.

'No!' said I, as loud as I could ho!ler. 'You don't say!' 'Yes I do say, and what's more I'll tay
