The sleepers are the most magnificent and perfectly equipped cars ever seen in that city. There is absolutely no carving in the interior, the panels being inlaid with wood in the most artistic designs. Altogether the exterior and interior of the cars combine everything that art and modern ingenuity can supply to make travel enjoyable. In naming the beautiful new sleepers, the Minister of Railways has highly honored the two principal towns of Kent.

Miss Keswick is a very charming and accomplished young lady and her many friends, both at her home and elsewhere will be no doubt surprised to hear of her engagement. She has been for the last three years at Hopeworth, Bristol, R. I. and during her sojourn there, has made a host of friends. Mr. Schmertz is associated with the R. C. Schmertz Glass Company of Pittsburgh, Pa., and is well known and popular there as elsewhere and his kind and genial disposition has won for him many friends. The land is situated in the Parish of Saint Paul and was conveyed by the father to his son, the plaintiff's debtor, upon the son giving a bond to support his father and mother during their lives. The son got into difficulties, conveyed the property back to his father. Judgment was given for defendants with costs. W. B. Chandler, Solicitor for plaintiff and Dr. A. A. Stockton and Wm. D. Carter for defendants.

OBITUARY.—"In the midst of life we are in death," has once more been practically illustrated in the death of Alfred Mundle, of Nicholas River, in his 25th year, Saturday, April 8th, inst. A week before he was at work as usual when he took cold which produced pneumonia, to which he so speedily succumbed. He was a most exemplary young man, kindly and genial, and held in esteem of the residents of the community, and in the love of all who knew him well. Having publicly "put on Christ, he witnessed a good confession, adorning "the doctrine of God his Saviour" in life. He bore his illness not merely with fortitude but calm and happy resignation to the divine will, and joyed "Also in tribulation." He welcomed death with a smile and in the peace of one accompanying "through the Valley," and gave loving councils to those about him; urging a holy, earnest and devoted life and service. To those about his couch it did seem as Longfellow sang, "There is no death; it is but the suburbs of the life elysian whose portals we call death." All present felt his "chamber was privileged beyond the common walks of men—quite the verge of heaven." We trust his earnest desires for all his young companions may be realized for time and eternity. The funeral was one of the largest ever held up river though the roads were very bad. His family have the sympathy of all who know them. A chaplet from a loving hand.

—A very sad accident occurred at Dorchester, Tuesday. Willie, the second son of Mrs. Walter Dobson, was accidentally killed by being struck behind the ear with a batted baseball. The billiard tables are all new. Phelps Brothers will manage the business.

—The cut of hemlock on the Penobscot this year is very small and already the prices, both of logs and lumber, have risen considerably. Says the Bangor News: "The stock of old hemlock logs on the river this spring is very small, so that the market must be supplied from the new crop mostly. The conditions of the market is indicated by the fact that hemlock logs that were selling at \$5.50 to \$6 per M a year ago, are now worth anywhere from \$7 to \$8, while boards that sold in Boston a year ago at \$10 per M are now in brisk demand at \$12 to \$12.50 per M."

—Stocks of spruce deals in Liverpool and near-by ports on April 1st were 9,014 standards, compared with 13,625 standards a year before. The Timber Trades Journal of April 8th says: "The steamers from St. John, N. B., and Halifax, N. S., have brought forward much larger quantities than we are accustomed to have imported at this time of year, but the 2,650 standards which have arrived have not only been swallowed up, but 1,200 standards of old stock have likewise gone into consumption. Shippers of these goods are not inclined to sell excepting at full prices, and we do not look for any reduction for some time to come."

—The strong northerly wind of the last few days has been favorable to goose shooting and some of the sportsmen from town have been quite successful.

Every bottle guaranteed. 25 cts., 50 cts., and \$1.00.

PETER'S MILLS AND SOUTH SIDE.

APRIL 14th.—Not seeing any notes from this side for some time and thinking (Vida) must be to busy and (Moccasin Moose) has long since taken his departure, I will endeavour to let you know how things are going on in our locality.

Some of our men who took a great interest in the last election, are working at the Breakwater. Others are disappointed although they turned their coat that day.

Mrs. James Irving received the sorrowful news last week of the death of her sister, Mrs. Geo. W. Ayer, of Shediac.

William visited this side last Sunday on a matter of business.

We are pleased to learn that Miss Alma Irving who has been dangerously ill for a long time is recovering under the skillful treatment of Doctor Bourque.

William and his wife had a falling out and having left it to arbitration, they agreed to separate.

Capt. Anderson of the Salvation Army, visited this side on Wednesday.

Capt. Geo. intends leaving soon for Newcastle.

Mr. Donald McBeath is hauling logs to the mill, he intends building a new barn.

Mr. Frank Curwin has left for Buctouche to join W. S. Loggie's Sch., the Leigh J., which is being repaired on J. D. Irving's slip.

A young man from Main River if often seen wending his way to the point. I think we are going to lose one of our fair ones.

Mr. James Long, Jr., expects to leave soon to join the Steam Dredge St. Lawrence.

An interesting affair took place on this side on Tuesday morning. A man from Richibucto and his two sons armed with hammers and sticks, visited a house which they claimed to be theirs, and drove the inhabitants out. A warrant was issued for the man's arrest, but not being able to secure a constable in town able to take him, he was let slip off in the team next morning.

RAMBLER.

Chase's Nerve Food and you will impart to them the new life and vigor of perfect health. Face out and fac simile signature of Dr. A. W. Chase on every box of the genuine.

Mayor Parent, of Quebec, during his recent visit to Ottawa, brought the matter of the Plains of Abraham to the notice of Sir Wilfrid Laurier and says that the Government is ready to renew the lease of the property from the Nuns at a reasonable rate. It is not likely, however, that the Nuns will consent to another lease except at a very large figure and most people here believe that the Federal authorities should purchase the property right out.

COOK'S SURE COUGH CURE.

T. Nosse, consul general of Japan in Chicago, is at Ottawa to urge upon the government the advisability of disallowing the Japanese exclusion bill passed last session by the legislature of British Columbia. He pointed out that Japan was an ally and friendly to Great Britain. He is also anxious to see that no duty is imposed on tea.

Could Only Whisper.

Often Colds settle on the Throat and Bronchial Tubes, and make the voice hoarse and husky, and an effort to speak, distressing. It may be reduced to a whisper or lost entirely for a while. In cases of this kind nothing will so soon give relief and restore the voice as

**Dr. Wood's Norway Pine Syrup.**

This is what Thos. J. Smith, Caledonia, Ont., writes:—"A year ago I had a very severe Cold which settled on my lungs and throat. I got so bad I could scarcely speak louder than a whisper. I tried several Cough medicines but got very little relief until I used two and one-half bottles of Dr. Wood's Norway Pine Syrup, which completely cured me." Price 25c.

**Laxa-Liver Pills** cure constipation without any griping, weakening or sickening. Price 25c., all druggists.
