SKIM MILK FOR CHICKENS.

A test of the value of skim milk for chickens was made last year at the Indiana Experimental Station with two lots containing ten Plymouth Rocks and ten Houdans. Each lot was given all the would eat of a mixture of crushed corn, bran and ground oats, 2:1:1. Both lots were also fed cracked bone, cabbage and lettuce and had access to water. The amount of these articles consumed is not recorded. The two lots received the same treatment in every respect except that Lot 2 was given all the skim milk they would eat in addition to the grain ration. The test began July 11 and closed September 5. During the test one chick in Lot 1 died. Lot 1 consumed 179.9 pounds of grain and the average weekly gain per chicken was 2.52 oz. Lot 2 consumed 217.3 pounds grain and 90.4 pounds skim milk and the weekly average gain per chicken was 4.46 oz. The following conclusions were drawn:

"If skim milk be added to the ration fed to the young chickens it will increase the consumption of the other foods given. The great increase in average gain was coincident with the periods when the greatest amount of skim milk was consumed. Skim milk is especially valuable as a food for young chickens during the hot, dry weather and becomes of less importance as the chickens grow older and the weather becomes cooler."

Permanent Cure of Chronic Constipation.

Perhaps you've suffered with constipation for years, tried all the pills and purgatives you ever heard or read of, without getting any more relief than the one dose of the medicine afforded.

Then you were left worse than before, bowels bound harder than ever, the constipation aggravated instead of cured. All the miseries of constipation—Headache, Sick Stomach, Biliousness, Pimples, Eruptions, Blood Humors, Blotches, Piles, and a thousand and one other ills crowded back on you again with redoubled severity.

Wouldn't you consider it a blessing to be cured of your constipation so that it would stay cured? So that a repetition of all the suffering you have endured would never come again? Burdock Blood Bitters can cure you—cure so that the cure will be permanent.

That's where it differs from all other remedies. It makes a thorough renovation of the whole intestinal tract, tones the bowels, acts on the liver and stomach, and causes all the digestive and secretory organs to so work harmoniously and perform their functions properly and perfectly that constipation, with all its attendant sickness, suffering and ill health, become a thing of the past.

Miss Arabella Jolie, living at 99 Carrière Street, Montreal, Que., bears out all we say in regard to the efficacy of Burdock Blood Bitters in curing constipation permanently. This is her statement:

"For over a year I suffered a great deal from persistent constipation and could only get temporary relief from the various remedies I tried until I started using Burdock Blood Bitters. I am thankful to say that this remedy has completely and permanently cured me and I have had no return of the constipation."

AGUINALDO WILL SURRENDER.

END OF THE PHILIPPINE INSURRECTION NEAR AT HAND.

ST. LOUIS, Mo., May 18.—A cable from Manila says: "It is reported here that Aguinaldo has decided to accept terms of peace offered by the American Philippine commission and that he has started his representatives from San Isidro for Manila. He is said to have reached this decision at a conference held at San Isidro the day before Lawton attacked, and that the fight took place after the decision for peace had been reached. The reports are believed here, and the final peace is assured."

LONDON, May 18.—There is no rumor of the surrender or approaching surrender of Aguinaldo current in this city. The Filipinos here reiterate that the latest cable despatch from Aguinaldo emphatically repudiates any intention to submit and contains the phrase: "We demand absolute independence, or will fight to the death."

WASHINGTON, May 18—Gen. Otis cables as follows:

MANILA, May 18.

Adjutant General, Washington, D. C.: Representatives of the insurgent cabinet and Aguinaldo, in the mountains twelve miles north of San Isidro, which was abandoned on the 15th instant, will send in a commission to-morrow to seek terms of peace. The majority of the force confronting MacArthur and San Fernando has retired to Tarlac, tearing up two miles of railway; this force has decreased to about twenty-five hundred. Scouting parties and detachments are moving to-day in various directions. Kobbe with his column at Kandava, on the Rio Grande. The great majority of the inhabitants of the provinces over which the troops have moved are anxious for peace, supported by members of the insurgent cabinet. Aspect of affairs at present favorable.

(Signed) OTIS.

Great satisfaction was expressed by the war department officials with the news contained in the despatch of Gen. Otis. The belief was expressed that the end of the insurrection was at hand. The wisdom of refusing any terms to the first commission and impressing the insurgents is everywhere commended. On this account no doubt is expressed that the new commission which is on its way to Manila will be ready to accept the favorable terms which Gen. Otis has been ready to grant upon the actual surrender and cessation of hostilities.

SCROFULOUS SORES.

Mrs. Annie Wright, Dereham Centre, Ont., writes: "I had Scrofulous sores on my face was all one running sore. I tried Burdock Blood Bitters and before I had taken six bottles I was completely cured."

A DRY THIEF.

Some miscreant with a thieving tendency gave evidence of great dryness last night by breaking a hole in a pane of glass in the city market building in the stall occupied by Mr. Jackson Steeves and stealing therefrom two small bottles of mineral water. The thief took great pains to smash only the corner of the pane and remove just enough glass to permit a hand to reach through and emerge with a bottle. The trick was well designed and the perpetrator apparently only wanted a couple of bottles as several more could have been obtained as easily as one.

This is about the smallest thing in the burglary line ever heard of in the city.—Times, Thursday.

A PROHIBITORY LAW FOR CANADA, BY PROVINCES.

TORONTO, May, 1899.—The Executive Committee of the Dominion Alliance again appeals earnestly and confidently to the friends of prohibition to consistently carry on still further the noble work they have been pushing with so much zeal and effect. This they can do by giving all possible aid and support to our friends in Parliament in their effort to carry out the plan described in the following Report which was adopted by a large meeting of our Legislation Committee, composed mainly of Members of Parliament favorable to prohibition.

REPORT ON PLAN OF ACTION.

"That this Committee re-affirms that total, national prohibition of the manufacture, importation and sale of intoxicating liquors for beverage purposes, is the only right and effective remedy for the evils of intemperance, and must be steadily pressed for until attained.

"That although the Canada Temperance Act has been found to be productive of much good, your Committee believe that it is not a sufficient embodiment of the present prohibition sentiment of the people, and that the simple extension of its operations to provincial areas would not at all meet the requirements of the present situation.

"That in view of the refusal of the Government to accept the Plebiscite as a sufficient mandate for a national prohibitory law, and the fact that with one exception every province and territory has recorded a substantial vote and a large majority in favor of such legislation, your Committee—while urging prohibitionists to maintain their agitation for total prohibition—believes that at the present time the temperance reform would be materially aided by the enactment of legislation upon the lines hereinafter set out, namely:—

"(1) An Act totally prohibiting the manufacture, importation and sale of intoxicating liquor for beverage purposes in any province adopting or bringing into force such an Act by a vote of the duly qualified electors.

"(2) Voting upon the question of the bringing of such legislation into force in any province to be at the time of the holding of a general federal election, in order to save expense and secure the largest possible vote upon the question.

"(3) Such legislation, when adopted by any province, to be unrepealable for a period of time long enough to ensure a fair test of its effectiveness.

"That a committee be appointed to take steps to secure the introduction into Parliament at the earliest possible date of a Bill to carry out the foregoing suggestions, the committee to have power to vary the methods suggested as may appear best to secure the results aimed at."

ONLY AN INSTALMENT.

The Alliance Executive regret that no more comprehensive action than that proposed is at present open for their support. They will not accept as a settlement of the liquor question anything short of Total National Prohibition. Nothing else can be fully satisfactory. Nothing less is final. The new proposal though far ahead of anything yet attained, will only be taken as an instalment. Whether or not it is secured, the agitation must go on for a still better law, and for what is now more needful than ever, the election to Parliament of men who will fairly voice the demand of the nation for the suppression of the liquor traffic.

THE GOVERNMENT SHOULD HAVE ACTED.

The Prohibitionists of Canada claimed and claim, that the substantial majority for prohibition recorded in the Plebiscite throughout the Dominion, including the splendid majority of 107,948 in that part of Canada outside Quebec, ought to have been sufficient to warrant the Government in introducing into Parliament such legislation as would fairly embody the will of the people thus expressed, and they were deeply disappointed and dissatisfied when informed that the Government had refused to take such action.

THE COMMITTEE'S POSITION.

When the Legislation Committee met at Ottawa, they had to deal with the situation in view of this refusal, which they found to be endorsed by many Members of Parliament. The recorded vote of the Province of Quebec, namely 28,582 for prohibition, and 122,614 against, and the fact that this great vote against prohibition had peculiar features, such as being mainly polled in one large area of the country, and by the electors of one special national origin, were advanced as reasons against interfering with existing conditions in that province. The committee had to decide upon a course of action, knowing that the Government had a strong majority in the House of Commons, and being convinced that Parliament would not enact a prohibitory law to take effect in the Province of Quebec.

THE ONLY COURSE OPEN.

There is much force in the argument that Quebec, being a part of the Dominion, ought to loyally accept the decision

of a majority of all the voting electors, and that prohibition would be a benefit to that province. We have however, to deal now with the facts that, in the opinion of our friends, Parliament could not be induced to enact a law of national prohibition, and that at present we can only secure prohibitory legislation for the other parts of the Dominion.

SUBSTANTIAL PROGRESS.

The legislation proposed in the report of the Committee, will be a long step in advance. It will enable each province to secure prohibition of a more thorough and effective kind than could be enacted by a Provincial Legislature.

It was suggested that Parliament might be asked to enact such legislation directly without any further voting. In reply to this it was claimed that Parliament would not accept even the great majority polled for Dominion prohibition in different provinces, as evidence that the people of those provinces would support a narrower measure.

It was also argued that the right of Parliament to enact special legislation for a part of the Dominion, is not as clear as the right to enact a law for the whole Dominion, to come into force in any locality after an affirmative vote of that locality, which principle is already recognized in the Canada Temperance Act.

For similar reasons it was thought that the end aimed at might be most readily attained by alteration and extension of the C. T. Act, removing its defects and making it a strong comprehensive and effective measure, applicable to a whole province or territory. The sub-committee appointed, will, however, carefully plan out all details, with a determination to have the new law as thorough-going and as workable as it can be made.

The further voting proposed will be, not like the Plebiscites already taken, a mere expression of opinion, but actual law-making action, bring prohibition into force by a majority vote in any province. Voting should be at next general election without any preceding petition.

The proposal to vote at the time of a general election, and to have no repeal voting before the law has had a fair opportunity, are good. Penalties and provisions for enforcement must also be strong, definite and simple.

AN APPEAL.

Men and women of Canada! who have so loyally, unselfishly and patiently striven to redeem our land from the awful curse of intemperance, and whose work under God's blessing has been crowned with so much success, we appeal to you again! Another opportunity has come to us. If we are true to it we make Canada a safer place for the weak and tempted, and secure for our people greater comfort and prosperity than they have yet known. We may obtain a law that will make many a home happier, lift heavy burdens from many sorrowing hearts and destroy the now lawful temptation that if it continues will degrade and destroy those you love and cherish. We may win speedy blessing and success, and make another advance towards the hoped for time when the terrible drink evil will be utterly overthrown.

WHAT TO DO.

There is no time to spare. Let everyone who sees this circular take action, to help this important movement. Secure resolutions endorsing it from meetings and societies. Have these resolutions published. Write to Members of Parliament urging them to support the legislation proposed. Write your approval of the plan to your local newspaper. Send the Alliance Secretary any suggestions or advice you can offer. WORK! NOW! "for God and Home and Canada."

On behalf of the Alliance Executive. F. S. SPENCE, J. J. MACLAREN, Secretary, Chairman.
