FALL RIVER, MASS.

APRIL, 28.—Not having seen any notes from this city for some time, and thinking that our correspondent of the past had been struck by a blizzard or snow slide during the severe winter that has passed, I thought I would send out some reading matter from our spindle city called Fall River.

The weather is fine and farmers are nearly done planting and times are fairly good. A great many French Canadian's are returning after having been in Canada for the winter and during the time of the war with Spain.

A few days ago I was on a car going to the centre of the city when a large party of French Canadians boarded the car and an old man that seemed to be the head of the party tendered the conductor a two dollar Canadian bill which the conductor refused to accept, and the old man went through the car touching the passengers for a nickle apiece. When he got sufficient to pay their fares he gave it to the conductor. The old man evidently was unused to the swaying of the cars and when they begin to sway and rock he went down on his knees in the middle of the car there being no seats vacant. Well, if that crowd didn't laugh it was a wonder.

Russel Thurrott formerly of West Branch N. B., and of late years of the Fall River Bleachery has been appointed Station agent for the New York, New Haven and Hartford Railroad at Whittenton Junction.

HAVE PAID UP.

WASHINGTON, May 1.—The last move in the negotiations terminating the war with Spain occurred to-day when Secretary Hay paid to the French ambassador, M. Cambon, the \$20,000,000 provided by the treaty of peace for the cession of the Philippines. The payment was made in four treasury warrants of \$5,000,000 each, and was received by M. Cambon as completely liquidating the obligation of the United States in this connection. The ambassador deposited the \$20,000,000 in the Riggs National bank of this city, and the cashing of the warrants is expected to be made later through the City National bank of New York. The Spanish government was notified by cable of the payment, but nothing will be done as to forwarding the funds to Europe. Spain directs the exact course to be pursued.

A MONSTER LOBSTER.

YARMOUTH, April 28.—A monster lobster was caught off Yarmouth harbor, by Eben Crosby and his two boys, and has been shipped to Boston. It was a male and a very giant of his kind, measuring three feet in length, and with a width from tip to tip of spread claws of nearly seven feet. It weighed twenty-five pounds. The legs were larger round than a grown man's thumb. When it was got into the dory the huge crustacean made a desperate struggle and at once seized two eleven inch lobsters with its claws and bit them in two. It struck the dory so hard with its claws that it was feared the boat would be stove. Crosby and boys succeeded in plugging the claws with wooden pegs and bound the fish up with cords. It was too large to get into a lobster crate, so it was tied on the top of a crate and shipped to Boston. It is believed to be the largest lobster ever captured.
