RESOLUTION OF CONDOLENCE.—At the last regular meeting of Court Favourite I. O. F., Kingston, a resolution of sympathy was proposed of which the following is a copy.

TO BRO. ROBERT PHINNEY.

In the deep dark cloud of sorrow which has again gathered over your home, we, your brother Foresters desire to express our heartfelt sympathy with you at this most trying season of bereavement. We feel that it is not possible to fathom the grief that stirs the heart at such times. There is only One who can do that. May He who measures all our need administer through His Holy Spirit the Comforter, that soothing comfort and consolation so necessary in this hour of sorrow.

Signed on behalf of: H. A. MEEK, ROBT. G. GIRVIN, Favourite. GEO. A. HUTCHINSON

—Last Thursday the Kent Northern snowplow ran off the track several times between town and the Junction, delaying the train several hours.

—The assessors for Richibucto parish, Messrs. Jas. L. Hutchinson, A. E. O'Leary and Etienne Leger, are preparing the assessors' lists for publication.

—Mr. B. Schacter arrive Monday from Chatham. He has decided to remain in town for the next two weeks to sell off his large stock of dry goods. He is offering bargains such as have never been offered in town. See his advt.

—Mail advices from Australia say the colonists are taking up the question of penny postage. The Postmasters General of the different colonies have been invited to a conference to consider the matter. It is said they all favor penny postage.

—In enumerating those natives of Kent Co. who have attained political distinction in our last issue we omitted the names of H. A. Powell, M. P., of Westmorland, and Mr. Venoit, M. P. P., of Gloucester. Both these gentlemen were born in Richibucto.

—Miss Margaret Coates, formerly of Kingston, Kent County, a graduate of Acadia, is spending her second year in Paris, studying the French language. She has recently finished the translation of a book from the French for the Russian author, Prince Tolstoi.

—Mr. Sam B. Girouard, J. P., one of the most highly respected, and the oldest resident of St. Mary's, Buctouche, passed quietly away at his home on Sunday afternoon, 12th inst., aged 87 years. The funeral took place on the 15th. He leaves a wife, two sons and four daughters to mourn their sad loss.

—The substructure of the Kingston bridge was completed on Saturday. The stone piers are pronounced by competent judges to be first class, and the approaches all that could be desired. The footway is one feature that will be highly appreciated. When the fine steel superstructure will have been finished, this vicinity will have a bridge second to none on the north shore.

—Michael McKinley, aged sixty years, who lives at 94 Queen street, St. John, received fatal injuries Saturday afternoon on board the str. Coban, which is discharging coal at Robertson's wharf. He was working in the hold of the ship when a large lump of coal, which had fallen from the tub in use in removing the cargo, struck him on the head. The lump weighed nearly 200 pounds. He lived but a short time.

—A cynic tried registering as plain John Smith at European hotels. He got a cold, dark room at the top of the house. At the next place he prefixed judge to his name, and was given better quarters. At the next he registered as "Hon.," and came down a floor; presently he was "Maj.," and got a bath-room attached to his next quarters. As he moved from place to place he increased his importance. As "Col.," he was given a good room on the first floor; and when he registered as "Gen.," he was given the best suite in the house at a discount.

—The smelt fishing season closed on Saturday, the time having been extended ten days. Very few fish were caught during the extension, partly owing to the weather and partly to the scarcity of fish. The fishermen all seemed glad that the season came to an end. Indeed most of them had taken their gear off the ice before the time had expired. The season's operations were quite satisfactory, a high price having been paid for the fish. About five hundred tons were shipped from Richibucto Station. The price paid the fishermen averaged about three cents per pound throughout the season.

—A resident of Notre Dame, Kent county, in Moncton on Saturday, stated that the opposition in that place on election day circulated \$50 in Confederate money, and that those duped were terribly angry. He further stated that after the game had been discovered one of the circulators of the money received a severe thrashing and had to make himself very scarce in that neighborhood.

[The Government candidates were cognizant of the fact that a large amount of bogus money was to be circulated by the Opposition. Probably more of the worthless stuff would have been circulated had it not been for the warning the electors received beforehand.]

—The residence of Jonathan Glendenning in East Galloway about four miles south of Kingston, was totally destroyed by fire Friday afternoon. The building was occupied by Mr. Glendenning and his brother John and wife and two small children. When the fire was discovered both the men were absent from home and all the woman could do was to save herself and her children. Mr. David Scott, a neighbor, was the first to arrive on the scene, but nothing could be done to save anything from the burning building. All the furniture, clothing and provisions in the house were lost, besides all the grain crop, potatoes, etc. There was no insurance and the loss is very heavy.
