August 13, 1898.

DRS. SOMERS & DOHERTY.

DENTISTS.

Office—Y. M. C. A. building, Moncton.  
References—New York College of Dental Surgery, and University of Pennsylvania.

Visits will be made to Kent County every month.

Harcourt on 16th, 17th and 18th.  
Kingston on 19th, 20th, 21st and 22nd.

## Women Need Not Suffer

From those terrible side aches, back aches, headaches and the thousand and one other ills which make life full of misery.

### DOAN'S KIDNEY PILLS

are daily proving themselves woman's greatest friend and benefactor.

Here is an instance: Mrs. Harry Fleming, St. Mary's, N. B., says: "The use of Doan's Kidney Pills restored me to complete health. The first symptoms I noticed in my case were severe pains in the small of my back and around the loins, together with general weakness and loss of appetite. I gradually became worse, until, hearing of Doan's Kidney Pills, I got a box from our druggist. I am pleased to testify to their effectiveness in correcting the troubles from which I suffered."

### MR. WILLIAMS' TALENTS.

The Bookman reprints an old handbill, which was circulated in the north of England early in this century. It will be easily seen that Mr. James Williams was a man of parts.

I, James Williams, parish clerk, sexton, towncrier and bellman, make and sell all sorts of haberdasheries, groceries, etc., likewise hair and wigs drest, and cut on the shortest notice. Also—

N. B.—I keep an evening school where I teach at reasonable rates, reading, writing, singing and sums.

N. B.—I play the hooboy occasionally, if wanted.

N. B.—My shop is next door, where I bleed, draw teeth and shoe horses, all with greatest skill.

N. B.—Children taught to dance, if agreeable, at sixpence per week, by me, J. Williams, who buy and sell old iron and coals—shoes cleaned and mended.

N. B.—A hat and pair of stockings to be cudgelled for, the best in 5 on Shroft Tuesday. For Particulars inquire within, or at the horse shoe and bell, near the church, on either side of the way.

N. B.—Look over the door for the sign of the three pigeons.

N. B.—I sell good ayle, and sometimes cyder—Lodgings for single men.

### THE FAST ATLANTIC LINE.

MR. DOBELL SAYS IT WILL BE NOT LESS THAN 20 KNOTS.

MONTREAL, Feb. 23.—The Star's London correspondent cables an interview with Mr. Dobell to-day regarding his present mission. He gives an emphatic assurance that the Canadian government has no intention of reducing the standard of the proposed fast Atlantic service. The suggestion made that the government would accept as a compromise a combined freight and passenger service of 17 or 18 knots be stated, was quite inaccurate. Twenty knots at least is the speed upon which the government intends to insist. Mr. Dobell hopes to put the whole matter through shortly on this basis. He absolutely denies the current reports that the Petersen affair, he says, is entirely off.

### EVERY SPRING.

Miss Maggie Barnes, Lunenburg, N. S., writes: "I have taken B. B. every spring now for some years, to purify my blood and keep my system in good order, and can honestly say I do not know of its equal anywhere."

### LAIN IN THE SAME GRAVE

ST. JOHN, Feb. 24.—One of the saddest sights ever seen in Fairville was the funeral to day of the Lowery brothers, John, David and Andrew, of South Bay, victims of pneumonia following a gripe. A sister lies seriously ill with fever. The bodies were conveyed to Cedar Hill cemetery where they were laid in one grave.

## Save Paying Doctor's Bills

—BY USING—

Bentley's Liver Pills.

25 Pills for 10 cents.

Read the Home Testimony from people that you know.

Folly Village, Dec. 7, '97.

A well known resident of Londonderry is Mr. James Fleming. He speaks to Kumfort Home Remedies as follows:—

"I like JAMES FLEMING, Bentley's Liver Pills."

better than any I have used. They seem to exactly suit me.

### THE PLUMBER IN CLOVER.

(From the Atlanta Constitution.)

The joke on the plumber will not do at this particular time. The wise man knows better than to trifle with him now. A citizen said yesterday.

"The main thing now is to get the plumber to the house and lock him in. I finally succeeded in capturing one, and while I had him I treated him royally."

"A wfully cold morning," he said, as he walked in.

"Yes sir," I answered meekly, "it is pretty cold. You'll find something on that sideboard sixteen years old. Perhaps it'll warm you up, sir."

"It will," said the plumber with conviction, as he sampled it.

"Then he jerked his coat and went to work."

"I knew that at noon hour he would want his dinner, and he started for it just as the clock chimed."

"But I had anticipated him, and turkey and dressing were awaiting him in the dining room."

"When night came he wanted to return to his family; but I telephoned, and was informed that they were in excellent health and could spare him for a week. So I gave him the best room in the house, with two servants to wait on him until he got sleepy."

"For three days I had him at work. All the neighbors who had broken water pipes called and paid their respects to him. Those who couldn't get to him left their cards, with pressing invitations for him to call."

"Finally he said he wanted change of scene, and if I'd just quit killing him with kindness he'd guarantee that the pipes would never burst again. Whereupon I gave him a blank check, told him to fill it out to suit himself, and he departed by a secret doorway, though he was pursued ten blocks by a dozen neighbors who had more broken water pipes than he wanted."

### DIFFERENT FIRES.

Should your clothes catch fire, throw yourself on the ground and roll over and over. If possible snatch a rug or blanket to wrap round you. Flame mounts. If therefore, you are standing up, the flame is sure to rise towards the face, and many lives have been lost because the victims inhaled the flame and smoke, or the hair burned briskly and destroyed the flesh to great a depth. Never throw water on burning oil. Flour will extinguish it. If in a place of amusement, if the alarm of fire is given, sit quite still. Your rising may create panic, and rush to the doors is more dangerous than the flames for while the doors are open there is always a chance for an orderly crowd to move out but once choked by fainting women and stumbling crowds disaster is inevitable. In a burning building get down to the floor and crawl—all the air is on the lowest level—and, if possible, hold wet towels over the lips to the forehead.

A wet pillow slip with two holes punched for eyes and then drawn over the head has saved many a life. It is always possible to obtain this if you are awakened in the night by a cry of fire, provided of course that you have more than a few minutes warning and that there is water in your pitcher. This wet pillow case is often of more importance than the purse or the bit of jewelry we spend precious moments in securing.

### THE RECRUIT WAS READY.

Here is a story of a raw recruit who proved a rather dangerous one to joke with. An officer approached and asked for his rifle.

"Let me see your rifle," the raw recruit handed over his rifle and a pleasant expression stole over his face. As the officer received the weapon, he said, in a tone of deepest disgust:

"You're a fine soldier. You've given up your rifle, and now what are you going to do?"

The young fellow turned pale, and putting his hand in his pocket, drew out a big knife, and preparing for business, said in a voice that could not be misunderstood:

"Giv' me that rifle, or I'll bore a hole through you in a minute!"

The officer instantly decided not to play any further with the raw recruit, and the rifle was promptly surrendered.—Nashville Banner.

### What is it?

Catarrhoea is a liquid, fragrant and cleansing, which rapidly volatilizes when inhaled. What is it for? It is an absolute, never-failing cure for catarrh of the throat or nasal passages. Is this true? We are so sure that it will cure you that we will send you prepaid, a free sample of Catarrhoea and an inhaler if you send your address within one week. Write us. N. C. POLSON & Co., Kingston, Ont.

### THEY'RE GREAT TRAVELLERS.

"What's that?" asked Farmer Cortosel, pointing over his wife's shoulder to the magazine she was reading.

"It's a picture of one of the sun spots."

"By jing!" he exclaimed reflectively, "these here bacilluses seems ter be gittin' inter everything."—Mexico Herald.

Cook's Penetrating Plaster.

### A FISHERMAN'S TRIALS.

Exposure While at Sea Brought on an Attack of Sciatica Which Caused the Most Excruciating Agony.

Mr. Geo. W. Shaw, of Sandford, N. S., follows the occupation of a fisherman, and like all who pursue this arduous calling is exposed frequently to inclement weather. Some years ago, as a result of exposure, Mr. Shaw was attacked by sciatica, and for months suffered intensely. He says the pain he endured was something agonizing, and he was not able to do any work for some months. His hip was drawn out of shape by the trouble, and the doctor who attended him said that it had also affected the spine. After being under the care of a doctor for several months without getting relief, Mr. Shaw discontinued medical treatment, and resorted to the use of plasters and liniments, but with no better results. He was advised to try Dr. Williams' Pink Pills and finally decided to do so. After using them for a couple of weeks, he found a decided relief, and in about two months' time every trace of the trouble had disappeared, and he has not since been troubled with any illness. Mr. Shaw says he occasionally takes a box of pills to ward off any possible recurrence of the trouble.

Those attacked with sciatica, rheumatism, and kindred troubles, will avoid much suffering and save money by taking Dr. Williams' Pink Pills at the outset of the trouble. Sold by all dealers or sent postpaid at 50c. a box or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

### BIG FIRE AT MANILA.

SUPPOSED TO HAVE BEEN STARTED BY INSURGENTS.

MANILA, Feb. 23, 9.10 a. m.—Immense damage has been done by fires, which are believed to have been started by insurgents last night. There was some fighting in the streets during the night, but the Americans quickly quelled the uprising. A number of the insurgents were killed and several American soldiers wounded.

Between 600 and 700 residences and business houses have been destroyed. Fires were started at several points simultaneously and, spreading with all rapidity all efforts to control them failed. Hundreds of homeless natives are huddled in the streets, making the patrol duty of the Americans very difficult.

With daylight this morning the enemy commenced worrying tactics at various parts of the American line, apparently for the purpose of withdrawing attention from affairs inside the city. Every available man was sent to drive them away, with the result that there was desultory firing all the morning.

From 8 to 10.30 a. m. the United States double turreted monitor Monadnock joined in the engagement, hurling ten-inch shells over the American lines into bodies of the enemy as indicated by the signal corps. So far the American casualties are one man killed and ten wounded.

From the high towers of the city fires can be seen burning at a dozen different points outside. Some of these are probably due to the Monadnock's shells.

Business is practically suspended for the time.

Major General Otis to-day issued a general order directing all the inhabitants of Manila until otherwise ordered to confine themselves to their homes after seven o'clock in the evening, when the streets will be cleared by the police. The general also warns incendiaries and suspects that they will be severely dealt with if discovered in any locality.

### Ninety Per Cent

Of the people are afflicted with some form of humor, and this causes a variety of diseases. The reason why Hood's Sarsaparilla cures when all others fail is found in the fact that it effectually expels the humor. Scrofula, salt rheum, boils and all eruptions are permanently cured by this great medicine.

Hood's Pills are the best family cathartic and liver tonic. Gentle, reliable, sure.

### MIXED ORDER.

First Customer (after looking at bill of fare)—I'll have roast sucking-pig, mashed potatoes and cauliflower.

Second Customer—Give me toad-in-the-hole, scarlet runners and turnips.

Third Customer—Cold beef, without horseradish, cabbage and a glass of portor. Waiter—Yessir.

Glides to speaking tube and yells breathlessly—One pig mashed colly toad scarlet turnips cold beef (without horse) cab and portor.

Fourth Customer (facetiously)—Waiter! bring me a dog-biscuit and a bit of celery.

Fifth Customer—Calf's head without brain sauce. Waiter—Yessir.

Shouts down speaking tube. "Biscuit for puppy with small salary and calf's head without brains."

## CASTORIA

For Infants and Children.

The smallest signature of *Dr. H. H. H. H.* is on every wrapper.

### IT IS A MISTAKE.

To sleep exposed to a direct draught at any season.

To work when you are not in a fit condition to do so.

To conclude that the smallest room in house is large enough to sleep in.

To think that the more a person eats the healthier and stronger he will become.

To imagine that if a little work or exercise is good, violent and prolonged exercise is better.

To take off heavy underclothing out of season simply because you have become overheated.

To think any nostrum or patent medicine is a specific for all the diseases that flesh is heir to.

To go to bed late at night and rise at daybreak and imagine that every hour taken from sleep is an hour gained.

To believe that children can do as much work as grown people, and that the more they study the more they learn.

To give unnecessary time to a certain established routine of housekeeping when it could be much more profitably spent in rest or recreation.

To imagine that whatever remedy causes one to feel immediately better—as alcoholic stimulants—is good for the system, without regard to the after effects.

To eat as if you had only a minute in which to finish the meal, or to eat without an appetite, or to continue after it has been satisfied merely to gratify the taste.

### HOW MR. CHUGWATER GOT LEFT.

Mr. Chugwater entered the store with the confident air of a man who knew exactly what he had come to buy, and was prepared to pay cash for it.

"I want a Butterworth patter No. 99, 674," he said, "for a 38-inch waist."

"Are you sure that's the right size?" asked the young woman behind the counter.

"Yes, that's the size my wife told me to get."

"Is it for her?" said the young woman, with some hesitation of manner.

"I don't know that it makes any difference," rejoined Mr. Chugwater, slightly raising his voice. "But I have no objection to stating that it is."

"I beg pardon, but—would you mind telling me how much she weighs?"

"She weighs about 150 pounds."

"I thought so, said the young woman, reaching promptly for something in one of the pigeon holes behind her. "It's a 28-inch size the lady wants. A 38-inch would be about the right size for a 375 pound person, and we don't keep it in stock. Twenty-five cents, please."

Mr. Chugwater paid the money, put the pattern in his pocket, and walked out of the store with a curious feeling that he had shrunken three or four sizes too small for his clothes and that forty giggling girls had seen him shrink.—Chicago Tribune.

### A BAYONET THURST

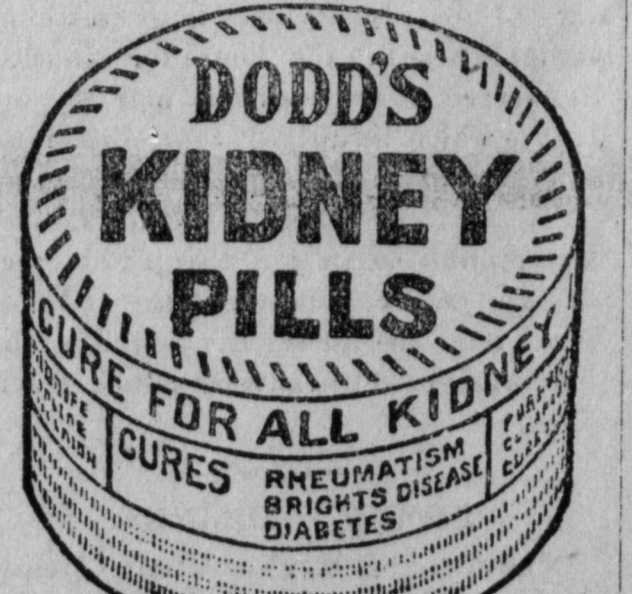

is a pin scratch to the tortures of Indigestion and Dyspepsia. The bravest soldier will weaken before the onslaught of these redoubtable enemies to health. Dr. Von Stan's Pineapple Tablets break down the strong holds of disease, build up and fortify the wasted nerve force, put new life, new hope, new energy, hoist the banner of victory instead of the flag of distress. 35 cents. Sold by W. W. Short.

### WORLD'S FAIR PICKEREL CAUGHT.

While fishing through the ice recently Tim Smiley, of Delavan, Wis., hooked a 22-pound pickerel. Attached to the fish was an aluminum tag, fastened by a ring through its tail. On one side is stamped "The Fisheries Building," on the other, "From the Fisheries Exhibit at the World's Columbian Exposition, 1893. Age 5 years. Weight 14 pounds." The tag has the appearance of oxidized silver, but is very hard. The edges are worn away, but the engraving is clear and distinct.

Smiley lives by himself in a cabin back from the lake about two miles. He says he intends to have the fish preserved, with the medal attached, and may present it to the Field Columbian Museum. Fisherman here think the dates and weights will be valuable in determining the age of fish of this species.—New York Sun.

## Substance and Shadow

If you want a horse worth \$100, you'd be silly to pay \$100 for his photo only. If you need DODD'S KIDNEY PILLS you'd be silly to buy an imitation.

DODD'S ARE SOLD IN BOXES LIKE THIS. TAKE ONLY

DODD'S

## LOOK WELL

### TO THE BOYS AND GIRLS.

If They Are Delicate and Sickly, Paine's Celery Compound will Make Them Strong and Robust.

Boys and girls who are ailing, weak and sickly are suffering from a weakened condition of the nervous system. The nerves tissues and muscles of our boys and girls are extremely delicate and sensitive, and quickly disturbed by ill health.

When you find your dear ones nervous, cross, irritable and weak; when they do not sleep well; when they have headache, variable appetite, sallow skin, sunken eyes and skin troubles, be assured the blood is foul and thin, and nervous force is at a low ebb. Children with weak stomachs and weak organs of assimilation cannot thrive on their ordinary daily diet. They are in need of a special nerve medicine, tonic and blood cleanser like Paine's Celery Compound, noted for its wonderful flesh building and nerve bracing qualities. Paine's Celery Compound is the great and only true medicine for weak and frail bodies and unstrung nerves; it has no equal as a medicine for the young.

In the past, grateful parents in every part of our Dominion have gladly testified to the great work that Paine's Celery Compound has done for their children.

We strongly counsel mothers and fathers to have their boys and girls use Paine's Celery Compound at once if they are not showing signs of healthy and natural growth. Paine's Celery Compound is pleasant to the taste, free from all dangerous narcotics, and cannot harm the most delicate child.

### NO MORE CONCESSIONS.

WASHINGTON, February, 22.—Since the breaking off of the Anglo-American negotiations the American newspapers are waking up to the importance of the questions considered by the Commission. During the Commission's session there was either a lack of interest or an ignorance of the value of the questions involved. For the past two days there has been a disposition to review all the old questions which have been at issue between the two countries and to express the opinion that the negotiations will not be continued in August.

Without any purpose to start a flood of rec
