A Haunted House.

"The haunted house in this case," said the old college man, "was occupied by a very estimable and intelligent gentleman. He did not believe in ghosts, but two nights had made him look old and careworn, and there were certainly loud, strange and startling noises in his attic. They would continue right up to the time that some one entered the haunted room, but the opening of the door was the signal for a most oppressive silence.

"Half a dozen of us college fellows asked permission to investigate, and it was gladly granted. We waited till we heard the noise, and I assure you that there was plenty of it. It continued until we had crept up stairs, but ceased when we entered the attic. We waited there without result till big Hicks of the football team, carried out a plan. We closed the slide to the dark lantern, slammed the door noisily, as though leaving, and then settled down to wait. Presently the noise began. We flashed the light in its direction, and there was a jug rolling back and forth rapidly, the handle striking the floor with a loud thud.

"Must be spirits in that jug," laughed big Hicks, but his laugh was a tremble. 'We'll see,' and he let go with one of his famous kicks that shattered the uncanny vessel. Then every fellow let out a yell and jumped as though trying to knock a hole in the roof. A rat had crawled into the jug, and had been frantically trying to get out."—Detroit Free Press.

WANTED TO BE UNMARRIED.

A young couple went to a minister, got married, but a fortnight after the man came back and told the minister he must unmarry them again; that he couldn't live with that woman. But, said the minister, I can't unmarry you, you know you took that woman for better or for worse, aye worse than the devil himself, for if you resist him, he will flee from you, but if you resist her she will fly at you.

Maud:—Do you pin your faith on Charles?

Ethel:—I'm not satisfied with pinning—I want a good hard knot tied.

Minister:—Do you love truth, my little man? Tommy (doubtfully)—Well, I dunno;—I hate awfully to get caught in a lie!

Rev. Barebones:—Where have all the former missionaries gone? Chief Bogloo (sneering)—They journeyed further into the interior, boss.

"I wish I could make both ends meet!" signed Patty, "I've got a new hat and a new pair of shoes, and then I wouldn't need anything else."

Wife:—They say that conversation is merely the art of talking back. Husband—I suppose then that you are merely a conversationalist.

She:—Why did you lose your temper so unfortunately at that game of cards? He:—It was the only thing left I had to lose.

"A woman's idea of a down-trodden wife is one who," said the Cornfed Philosopher, "does not ask her husband to account for every cent of his money."

"I rise for information," shouted an excited politician.

"I am very glad to hear it," said a bystander, "for no man wants it more."

"Here Bill," gasped the man on the ground to the man who was jumping on him with a pair of heavy boots, "that ain't fair. This is a fight; it ain't football."

A man never more sincerely congratulates himself than when he realises that he has narrowly escaped making an ass of himself.

The late Oliver Wendell Holmes used to be an amateur photographer. When he presented a picture to a friend, he on the back:

"Taken by O. W. Holmes & Sun."

"Society women do lead such aimless lives." "Aimless, do they? Well, I know a society woman who can throw a teacup or a rolling-pin just as accurately as a man."

Grandpa:—Don't get scared, Willie, the tiger is about to be fed; that's what makes him jump and roar so." Willie (easily)—"Oh, I ain't afraid of him, grandpa, Papa's the same when his meals ain't ready."

"I wish I was a warship," he said, regretfully, after opening and examining his salary envelope. "Cause why?" they asked, with natural curiosity. "I wouldn't mind being docked, then," he answered.

Einstein: "Key, you must nod your head as you speak all the time."

Key: "Vy nod, fader?"

Einstein: "Because you wear der glass out looking through it so much."

Magistrate: "If you were there for no dishonest purpose, why were you in your stocking feet?"

Burglar: "I heard there was sickness in the family, your worship."

Blobs: "What nonsense it is for newspapers in their accounts of weddings to describe the brides being led to the altar."

Slobbs: "How so?"

Blobs: "Why, most of the girls could find their way in the dark."

Winifred (insinuatingly): "Mr. Randolph comes to see you every day, doesn't he?"

Julia: "Oh, yes; but he's very easily entertained."

Winifred: "He must be."

Arkansas Native—"How much for takin' the pictures of my children?" Photographer—"Three dollars a dozen." Native—"Wa'al, I reckon I'll have to wait a spell; I hain't got but 'leven children at present!"

(Mother (suspecting that some of the presents have already been pawned)—"And where is that pretty mantel-clock?" Daughter—"Well, you see, it was a French clock, and George could never quite understand it."

She wept bitterly. "Ha, Ha!" said he, and turned on his heel. Then he left her. It was not until a more experienced one had told her that the proper weep in the presence of a man is to weep sweetly that she understood her failure.

Daughter: "Did you find out what it was that papa cut out of the paper?"

Mother: "Yes; I bought another copy. I've read it all through, and I can't see anything wrong about it. It's an article on the healthfulness of housework."

Publisher: "I wish you would write us a good sea story."

Great Author: "But I have never been to sea."

Publisher: "I know it. I want a sea story that people can understand."

Mr. Slimpurse: "What—what did your father say when you told him we were engaged to be married?"

Miss Beauty: "He was most kind. He said if you would call for him to-morrow with a carriage—I think he said your carriage—he would go with you to look at any double-fronted house you think of buying for me to live in."

PAINS IN THE BACK.

Are Usually the Result of Imperfect Working of the Kidneys—These Can Only be Restored to Their Normal Condition by a Fair Use of Dr. Williams' Pink Pills.

Mr. Albert Mintie, of Woodstock, Ont., now engaged in the insurance business, is well known in that city and surrounding country. Some three years ago Mr. Mintie was living at South River, Parry Sound District, and while there was attacked with severe pains in the back. At first he paid but little attention to them, thinking that the trouble would pass away, but as it did not he consulted a local physician, and was told that his kidneys were affected. Medicine was prescribed but beyond a trifling alleviation of the pain it had no effect. In addition to the pain in the back Mr. Mintie was troubled with headaches and a feeling of lassitude. He was forced to quit work, and while in this condition, weak and despondent, he decided to try Dr. Williams' Pink Pills. He purchased a half dozen boxes and was not disappointed with the result. Before they were all used Mr. Mintie was feeling almost as well as ever he had done. The pain in his back had almost disappeared, the headaches were gone, and he felt greatly improved in strength. Two more boxes completed the cure, and he returned to work hale and hearty as ever. Mr. Mintie asserts that his return to health is due entirely to Dr. Williams' Pink Pills, and he still occasionally uses a box if he feels in any way "out of sorts."

The kidneys, like other organs of the body are dependent upon rich, red blood and strong nerves for healthy action, and it is because Dr. Williams' Pink Pills supply these conditions that they cure kidney troubles, as well as other ills which have their origin in watery blood, or a shattered nervous system. Sold by all dealers or sent postpaid at 50c, a box or six boxes for \$2.50 by addressing the Dr. Williams' Medicine Co., Brockville, Ont. If you value your health do not take a substitute.

TIPS FOR INVENTORS.

Any person, citizen, alien, man, woman or child, the first and original inventor, may secure a patent.

All patents do not pay, but you cannot tell whether or not yours is going to pay until you get it. When you get it, try to do something with it. Do not expect some one is coming along and offer you a fortune for it. Have your invention written up, illustrated and described so as to bring out all the valuable features. Send marked copies of the notice to every responsible manufacturer in your line. If your invention is worth anything, you will get an offer for it.

Small inventions pay best. Many handsome fortunes have been derived from seemingly trifling inventions. The "13" puzzle earned a dozen fortunes. A little tin cap now universally used on beer bottles in place of corks, is earning barrels of money annually. These simple ideas should not be dismissed from your mind as being too trivial; they may be worth a fortune. Many persons would have secured wealth and fame had they been careful and thoughtful enough to give practical shape to the apparently simple but bright ideas that occurred to them while engaged in daily occupation.

A CONTRACTOR WRECKED.

Constitution Undermined by Nervous Complications—South American Nerve Worked a Complete Cure.

Nervous prostration and liver complications so afflicted J. W. Dinwoody, contractor, Campbellford, that physically he was almost a total wreck. His druggist recommended South American Nerve. A few doses gave him great relief, induced sound sleep, and a few bottles built him up and cured him so that to-day he is as strong and hearty as ever. Sold at Short's Drug Store.

THE CANADIAN FORESTERS.

BRANTFORD, Ont., March 1.—The twentieth annual meeting of the High Court of the Canadian Order of Foresters opened here yesterday. In his annual report the High Chief Ranger said the order has grown until now it numbers 33,000 members. The past year has been most successful, no less than 5686 new members being added. At the close of 1898, the surplus amounted to \$701,173.75. Forty-seven new courts have been instituted. The death rate last year was low, being only 4.56 per member. During the past year, 137 death claims have been paid. These amounted in all to \$143,937. High Secretary White presented his annual report, showing a total membership of 30,789, of these 15,134 are connected with the sick and funeral benefit department, 2,212 members have been relieved and the sum distributed among these in their sickness was \$42,066. The sick and funeral benefit fund according to the report of Dr. Young, associate of the medical board is not in as satisfactory a shape as the insurance fund. The auditors report called attention to the fact that the order has now on hand \$2,209 for each \$1,000 of insurance.

SHELL THE ENEMY OF HEALTH AND HAPPINESS.—Is the Stomach Sour? Is there Distress after Eating? Is your Appetite Waning? Do you get Dizzy? Have you Nausea? Frequent Sick Headaches?—forerunners of a general break up. Dr. Von Stan's Pineapple Tablets dispel all these distressing symptoms. They aid the digestive organs, care the incipient or the chronic cases. 25 cents. Sold at Short's Drug Store.

CAPITAL PUNISHMENT FOR WOMEN.

It is a remarkable coincidence that two women are under sentence of death in North America at the same time, one in Canada and one in the state of New York, and that both will probably suffer the penalty of their crimes at about the same time, save an exchange.

There does not seem to be any reason for commuting these sentences unless the authorities take the sex of the prisoners into consideration and establish the precedent that women shall not be subject to capital punishment.

Cordelia Viau, of Quebec, plotted with her paramour to murder her husband and when he hesitated to commit the deed struck the blow herself. Mrs. Place, of New York planned the death of her step daughter and carried out her criminal intent in a brutal manner, not hesitating afterward to attempt the life of her husband.

Every effort has been made by the friends of the condemned persons to save their lives and in this they have been assisted not only by the sentimentalists whose pity overcomes their ideas of justice but by those opposed to capital punishment. The Governor General of Canada and the Governor of New York state cannot see their way clear to interfere. The friends of Cordelia Viau have even appealed to Lady Minto—a move that was as useless as it was distressing to the recipient of the request for intercession, and now the friends of Mrs. Place are putting forward the plea of insanity. It is claimed, at the time when she committed the unnatural and horrible murder, her state of health was affected unfavorably by causes that cannot exist in the case of a man. It is certainly an ingenious plea, and one shrewdly adapted to have an influence upon the persons with whom the fate of whom the murderers now rests.

Effects Were Wonderful.

"I had been troubled for years with pains in my sides and kidneys and had aches in all parts of my body, owing to stomach and liver troubles. I began taking Hood's Sarsaparilla and its effects were wonderful. In a short time I was entirely cured." MRS. FRANKIE, 209 Ossington Avenue, Toronto, Ontario.

STOCK BREEDERS' MEETING.

The Maritime Stock Breeders' Association met at Sussex Wednesday. The president and secretary presented their reports, followed by a stirring address from Col. Wm. Blair.

C. A. Archibald gave a short report of the annual meeting of the Dominion Short Horn Breeders' Association, Toronto.

There was a discussion upon unjust discrimination in railway freights upon stock shipped over the I. C. R.

At the evening session Major H. Montgomery Campbell, president of the Sussex and Stoddard Agricultural Society, welcomed the association to Sussex and Kings county. B. W. Chipman made an appropriate reply.

C. A. Everett gave an eloquent and stirring address setting forth the aims of our exhibitions in the development of stock raising and other industries.

B. W. Chipman gave an able address upon the development of the agriculture of the Maritime Provinces through intelligent stock raising. Personally he believed that Jersey cows were the acme of intelligent breeding.

After the meeting all the visiting members and a number of local gentlemen were entertained at supper at the Queen Hotel by Major Campbell. The meeting broke up with hearty cheers for Major Campbell.

Scrofula, salt rheum and all diseases caused by impure blood are cured by Hood's Sarsaparilla, which is America's Greatest Medicine.

"You look nice enough to eat," exclaimed the youth. "And so I do," replied the maiden; "three times a day."

'Tis But the After-Effects Of Grippe And The Common Diseases That Make People Look So Weak and Deathlike.

PAINE'S CELERY COMPOUND

THE GREAT DISEASE BANISHER AND TRUE HEALTH BUILDER.

The writer a few days ago enjoyed a half hour walk with a well-known physician on one of Montreal's crowded business streets.

Meeting with a great many pale and sallow-faced men and women—young and middle-aged—the writer asked his physician friend the question: "Doctor, we are passing scores of sick looking people; does this fact prove that we are deteriorating as a people in health and general physical development?"

The physician's answer was very much as follows: "A large number of sickly looking and half-well people have passed us to-day, which, I am sure has prompted your question. You must remember that grippe has been epidemic during the winter, and has left thousands in a sad condition of health; then there are other common causes of sickness that have been operating, such as insomnia, headaches, digestive disturbances, blood troubles, rheumatism, and kidney and liver ailments. All these have contributed to sickness and deaths this year, and those we have passed are but a few of the victims. The same conditions exist in all countries, and I would not care to state positively that as a people we are deteriorating in true manhood and womanhood. Early attention to, and sensible care and treatment, of present weaknesses will bring all back to good health."

The class of sick people to whom the city physician referred stand in urgent need of Paine's Celery Compound, if they would quickly regain nerve force and power, weight in flesh, fresh blood and sound bodily health. There is nothing known to physicians of the most extensive practice equal to Paine's Celery Compound for building up the weakened body. When the great compound is used, all weaknesses soon become things of the past, and solid health, refreshing sleep, natural appetite and vivacity of disposition make life a pleasure.

A BLOW FOR CUPID.

"It was pretty hard luck to have a cloud over the honeymoon before we had been married two hours," complained the newly married man, according to an exchange, "and the only excuse I could offer for my horrible mistake was that the worry and excitement of the day had driven away what little sense I had remaining."

"We were married at high noon, and left almost immediately for the train. I was kept so busy dodging old shoes and lice when we left the house that I must have reached the railway station badly rattled. We reached the station barely in time to catch our train, and I rushed up to the ticket window at once. Then, once more we had to run the gantlet of admiring friends, who think it is smart to throw rice down one's collar and have it sift down into one's shoes."

"We got aboard at last, and when the train started I heaved a big sigh of relief. When the conductor came around for the tickets I handed mine over, and, after looking at it for a moment, he asked if the lady was traveling with me."

"That was the last straw, and I snapped out to him to mind his own business. 'That is what I am trying to do, he answered, coolly. One more fare, please."

"Then it flashed upon me that in the hurry and excitement of the moment I had overlooked my wife and bought but one ticket, and I wilted right then and there. I paid the other fare and tried to laugh it off, but the look that my wife gave me will linger with me as long as I live. It took me two hours to argue my wife out of the impression that I didn't love her any more, and she isn't fully satisfied yet."

CHATHAM MAYORALTY.

World: Who is to be the next Mayor? A great many think that Mr. Winslow should be asked to serve another term. He has given the business of the town a great deal of intelligent attention, and knows more about the water works project than anyone else. It would be only a graceful recognition of his services to ask him to serve another term. Mr. W. B. Snowball is mentioned as likely to be nominated for the office, but he is probably not in a hurry to leave his aldermanic seat for the Mayor's. He is no doubt, willing to wait. Ald. Loggie is favorably mentioned as the coming man. A requisition will, we hear, be presented to Mr. M. S. Hocken, asking him to allow himself to be nominated as a candidate for the board of aldermen, and one or two others are spoken of as probable candidates for civic honors and responsibilities. Mr. Winslow announces that he will not offer for a second term, but he could hardly refuse to remain in office if offered reelection by acclamation.
