# Women Need **Not Suffer**

From those terrible side aches, back aches, headaches and the thousand and one other ills which make life full of misery. Most of these troubles are due to impure, imperfectly filtered blood-the Kidneys

are not acting right and in consequence the system is being poisoned with impurities.

### DOAN'S KIDNEY PILLS

are daily proving themselves woman's greatest friend and benefactor. Here is an instance:

Mrs. Harry Fleming, St. Mary's, N.B., says: "The use of Doan's Kidney Pills restored me to complete health. The first symptoms I noticed in my case were severe pains in the small of my back and around the loins, together with general weakness and loss of appetite. I gradually became worse, until, hearing of Doan's Kidney Pilis, I got a

box from our druggist. I am pleased to testify to their effectiveness in correcting the troubles from which I suffered.

LABOUR'S PROSPERITY.

WAGES ONCE CUT VOLUNTARILY RESTORED BY AMERICAN EMPLOYERS IN MANY SECTIONS.

BRUNSWICK, Me., March 9.--Notices were issued at the Cabinet Cotton Mills announcing an increase in wages on April 3, equal to the reduction made in January, 1898. About one thousand hands are affected.

SACO, Me., March 9.-The operatives of the York Corporation were notified that an advance of wages would go into effect in the cotton mills of the company on April 2. The mills employ about one thousand five hundred hands.

### His Mongoose Experience.

"Although I sold tickets in a red cirous wagon for years," continued the dinee museum man, "I was badly fooled once in an animal deal. I mean by this that I fooled myself. I got a letter from a collector, who wanted to know if I would buy a mongoose. I wrote back to have it shipped at once, and it was to be in the museum ready for exhibition one Monday morning. I had a rather hazy idea of what the beast looked like, but I was sure that it was something big, with tusks, and I told our artist to go ahead on that idea and spread himself.

"He did. The picture he evolved would catch any one's eye at any range. He took a whole frame of canvas and painted for a background a tropical island, with the mongoose chewing up sailors on the shore.

"The picture was finished Sunday, and I couldn't help but rub my hands for me did not seem to afford me more when I looked at it. The moment it than temporary relief from the pain and was hung out people flocked around it, and the early morning attendance Monday was remarkable. The doors were opened before I got down, and as I went up stairs I could hear a subdued growl. " 'That's the mongoose,' I said to

myself. 'The idiots haven't fed it.' "It wasn't the mongoose. It was the crowd growling like a Roman mob behind the scenes. They had been lured by the picture, and when they got to the cage labeled 'Mongoose' they could

One day a worthy Kulu housewife came out from her cooking and, standing on the ledge of rock at her door, emptied a pan of boiling water into the rank herbage growing below. It fell, Medicine Co., Brockville, Ont. splash, on the back of a sleeping leopard, who jumped perpendicularly into the air as high as the roof of the but. What might have happened next? Who can say? But the astonished woman dropped the pan with a clang upon the rock, and the leopard took one leap down hill. The pan followed, and the leopard's downward leaps became lon- son, of Bath Beach, L. I, known the ger and swifter as the pan bounded aft-

Martin P. Connolly, who was the highest tenderer for the output of binder twine at the Kingston penitentiary, has arranged with the Ontario Binder Twine Co., of Toronto for the distribution of the twine for the season of 1899.

Over two hundred boxes containing 1764 gold bricks, valued at \$10,151,624.-05 were received at the mint in Philadelphia, Saturday, from the United States Celery Compound, be made use of withassay office in New York. The gold will be coined into ten and twenty dollar gold pieces.

Within ten years 38 British bankers and merchants have left estates of an average value of £515,577 each. Coal and iron masters and engineers to the number of 110 left an average of £240,487 each. Ninety-three money lenders left an aggregate of £19,444,878, and 193 manufacturers left an average estate £309,-

There died at Onemee, Ont., Mary Ann Hannah, a woman of 112 years of age. She was a native of Ireland and retaining possession of her faculties to the last was able to relate events of the rebellion of 1768, which she remembered as a child. She never married, and was never photographed till last summer, when an excel- BASIL HAYDEN'S THIRTY-YEAR lent picture of her was secured.

## IN SPRING TIME

Paine's Celery Compound Is the Giver of Health and New Life to the Sick and Disesed.

Spring, with its bright sunshine, lengthening days, warm rains, and its promises of a new life in nature, is fast approaching and will be hailed with true delight by the old and young who are enjoying full health and bodily activity.

'To thousands the coming of spring means a fuller cup of agony and suffering; it is a time when the dark grave claims many victims.

When men and women are burdened with death-dealing sicknesses, such as kidney disease, liver complaint, blood troubles, rheumatism, neuralgia, and the terrible after effects of grippe, spring has no charms for them. They have allowed themselves to sink into a condition of misery and helplessness during the winter that must quickly terminate life, unless that true health and life giver. Paine's out delay.

The nervous system, weak and unstrung must be fortified; the blood, sluggish, im.pure and watery, must be made clean and fast flowing, and every organ of digestion must be toned up to true health pitch.

Nature's wonderfully successful medicine, Paine's Celery Compound, does this good work as no other remedy can do. It acts as a nerve and brain food, it gives life to stagnant blood, it banishes permanently kidney disease, liver complaint, rheumatism, dyspepsia and other troubles that make life a misery.

The thousands of thankful letters received from Canada's best people are the hest and strongest proofs that Paine's Celery Compound cures. When your life is in danger do not be misled by common advertised medicines, as many of them are dangerous and unsafe. Ask for the kind that has cured your friends and neighbors -the kind that "makes people well."

cure. She said :- "As a result of the trouble I suffered terribly. At time the pain would be confined to my back, and at other times it seemed to affect every nerve in my body, from the top of my head to my toes. As a result I was reduced greatly in strength, and was unable to stand upon my feet long enough to attend to my household work. When doing any kind of work which required a standing position I had to provide myself with a high chair as a means of support. The medicine which the doctor prescribed I was gradually growing weaker and weaker. Finally the doctors suggested that I should use Dr. Williams' Pink Pills, and acting on his advice I began to take

A Malady That Nakes Life Almost Un-

them. I had only used a few doxes when the agony I had suffered for months began to abate, and I began to regain my strength. I continued using the pills for a short time longer, and was again in full possession of my health and strength, and able to do my nousehold work. I have never enjoyed better health than I am

Dr. Williams' Pink Pills cure because they supply the blood with its life giving properties and strengthen weak nerves. All diseases due to either of these causes are speedily cured by the use of this medicine. When last seen the leopard had just achieved a leap of about 350 feet to the very bottom of the ravine, thousands of feet below, and the pan had whirled about 500 feet over it on to the opposite with Barnum & Bailey, and has been the side. The leopard would have eaten the old woman with pleasure, but a pan which first scalded half the hide off him and then bounded clanging in his wake from the top of the Himalayas to the plains below was something which he could not face. -Good Words.

### Is Your Name Here?

A contributor has been amusing himself by trying to answer the question or series of questions, What man in the history of the world whose name began with A-and after that every other letter of the alphabet in order-exerted the greatest influence upon the thought and conduct of mankind?

Of course there are some letters which are not very prolific in the names of great men, but we think most of our readers will be surprised to see how many of the most illustrious names in history are included and how few are excluded.

In some cases the compiler seems to have selected names quite as much with a view to comprehending in the list men of many countries, as because the name given was that of the greatest man of his time. The list follows:

Aristotle, Baco, Confucius, Darwin, Ezra, Franklin, Goethe, Homer, Isaiab, Justinian, Kant, Luther, Mohammed, Newton, Ossian, Plato, Quintillian, Rousseau, Shakespeare, Tasso, Uhland, Virgil, Washington, Xavier, Young, Zoroaster.-London Globe.

#### Dangers of Laughter.

It is surprising to learn from the highest medical authority in England that laughter may be injurious.

Medical Journal, cannot very well kill, but it may do harm. Hysterical girls and boys with kindred nervous affections are often given to immoderate laughter, which tends to increase nervous exhaustion.

Dr. Feilchenfeld relates an instructive case in which a little girl suffered from very definite cardiac symptoms after immoderate laughter. The patient was 13 years old and had previously been free from any sign of heart disease. After laughing on and off for nearly an hour with some companions chest and was seized with fits of coughing, followed by cardiac dyspnœa, very well marked. Feilchenfeld believes that the cardiac disease directly resulted from immoderate laughing.

Garden, a distance of 85 feet, this morning, with probably fatal results.

Danaldson travelled for some years star attraction at the Sportsmen's show now running in the garden. He has been making two dives daily. The tank is less than 8 feet deep, and on two or three former occasions Donaldson did not have the success expected, and came out of the water with hemorrhages from the nose and ears.

Harry Cornish has had charge of the water sports, and it was he who this afternoon gave Donaldson the signal to dive.

Three thousand persons were present and saw the diver lean from the platform, and, falling slowly forward, made the plunge. He shot straight downward, but it was plain before he had gone half the distance that he had lost control of hi body. He struck the water head first and failed to come up. Small circles of blood came bubbling up from the bottom, and Harry Reedy, the amateur swimming champion, and an attache of the garden, plunged into the water. The men dove several times, and finally Reedy brought Donaldson to the surface. He was apparently dead, with blood flowing from his mouth, nostrils and ears, and from wounds on the head.

Donaldson was carried to one of the dressing rooms and attended by several physicians. He was them removed to the New York Hospital. He has a fractured skull, with compression of the brain, and the left side of the face is crushed in. The Laughter in itself, says the British surgeons at the hospital say that his death is only a question of hours.

Witnesses of the accident say that as Donaldson left the platform the colors which were wrapped about him became loose. His attention was diverted, and he did not have his wits about him when he struck the water. He weighed more than 200 pounds and struck with terrific force.

Donaldson is 45 years of age. Just before making this dive he said he intended to challenge Kearney T, Speedy, she suddenly felt stabbing pains in the the champion high diver of the world.

### Cures While You Breathe.

It is so simple and so certain in its action, so mild, yet cleanses as by fire. Caterrhogone is an absolute cure for catarrh.

Spring millinery openings took place in Montreal this week, and the attendance

was unusually large. One house says that on Wednesday there were in its warehouse buyers from every province of Canada, from Vancouver and Brandon in the West, to Charlottetown, St. Stephen, St. John, etc., in the Eastern provinces.

Harrison Watson, curator of the Canadian section of the Imperial Institute, informs the Department of Trade and Commerce that a German firm is anxious to procure large quantities of Canadian in Nelson county he is spending his desalmon, salted in barrels, to be dried in Germany. It is considered that British Columbia handlers might find a good market in Germany, but the price would not compensate dealers in salmon on the Atlantic coast.

A notable event occurred at Logan, Mich., Saturday in honor of the wedding anniversary of Donald McDonald, aged 108, and his wife aged 92, the oldest married couple in the state. The aged couple danced a Highland fling and sword dance, in the presence of all attending the remarkable affair. Highland pipers furnished the music. The noted couple were married in Invernesshire, Scotland, 69 years ago The issue of their marriage was 18 children, all of whom are living. They have 84 grandchildren and 224 great grandchildren. "Old Donnie's" grand-Flora McDonald and the Scottish heroine. The aged pair were the recipients of many valuable presents.

### ASTHMA GASPS

The wheezing and strangling of those who are victims of Asthma are promptly relieved by a few doses of Dr. Chase's Syrup of Linseed and Turpentine.

The elevator owners of Manitoba hav sent notices throughout the province to the effect that they will not be responsible for the condition of wheat stored in the elevators after March 10th, owing to the excessive moisture in the grain. The elevator men fear that the damp wheat will heat and become totally burned when

warm weather sets in. It is reported that some dealers have bought damp grain and paid a No. 1 hard price for it, and stand to lose from ten to twelve cents a bushel.

SWORE HE WOULDN'T PUT HIS FEET ON THE EARTH BECAUSE HE LOST HIS "NIGGERS."

(From the Philadelphia Times.)

BARDSTOWN, Ky., March 2.-Living ten miles east of this place is one of the most singular characters in the State. Now in his seventy-fifth year, he has not touched his foot to the earth for over thirty-years. Living in a comfortable residence, surrounded by many acres of the best land clining years in solitude.

Basil Hayden is one of the wealthiest farmers in a district composed of half a dozen counties, and is descended from a family well known in the pioneer annals of the State. Many of them have also been distinguished in the different lines of

life.

Basil Hayden, or "the Hermit," as he is known throughout the section in which he lives, in his youth was a social leader and very popular to a large circle of friends. When the war broke out he en. tered the Confederate army and made a good soldier to the end. When he returned home he found his slaves free and his properly greatly damaged. The emancipation of his negroes affected him seriously and he brooded over it constantly. He became silent and morose, declining father was a brother of the historical all overtures of friendliness on the part of his neighbors. He declared the Lord had dealt harshly and unjustly with him in depriving him of his slaves, and out of revenge he registered a terrible oath that he never again would put his foot to the Lord's ground. And so far he has kept his vow.

> Never since his registration has he appeared without his door, nor will he have converse with any save two, and then his words are of the briefest possible character. His landed interests are extensive, and, under the management of a competent overseer, yield him a handsome income. The overseer makes his reports to the queer old man in his darkened retreat, who gives his directions and orders as tersely as possible. He has never spoken to a woman in any manner since his self-imposed exile, nor will he allow one to be employed upon his place.
