

CIRCUIT COURT.

The March Circuit Court for the County of Kent opened here last Tuesday before Chief Justice Tuck. As there was no criminal business no grand jury was summoned. The following petit jurors were in attendance, viz:—John B. Wright, Alex. Mundle, Antoine Boudreau, Hilaire Gallant, Arthur E. O'Leary, Alfred Sheridan, Ludger Leger, George W. Robertson, Abraham Dickenson, Hidulph Barriean, Damien D. Goguen, Cliff Atkinson, Henry Hickey, Dominique M. Cormier, Sigefrois S. Leger, Frederick S. Peters, Hilaire Babineau, Pierre L. Richard, Donald McBeath, Eusebe Comeau, David Mundle.

One civil cause, John Heskett vs. M. F. Keith, was entered for trial. This is an action for negligence and mal-practice brought by the plaintiff against the defendant, a medical doctor. It appeared that while the plaintiff was working in the woods in the spring of 1895 he met with some accident from a blow on the eye, or as he alleged through cold, which caused a severe inflammation in the left eye from which he suffered great pain and was confined to the house for five days, when Dr. Keith was called in from Harcourt, examined the eye and prescribed treatment and medicines. Two days after Dr. Keith again visited his patient and directed him to continue the application. Immediately after he left the house the plaintiff abandoned the treatment and four days thereafter sent for Dr. Olloqui, of Kingston. Dr. Keith being that day on his way to Mr. Heskett's, learned that Dr. Olloqui had been sent for and abandoned his proposed visit, returning home. Dr. Olloqui saw the patient twice and after the lapse of about eighteen months the sight of the right eye became very much affected, and the plaintiff alleged on the trial, was nearly destroyed. He claimed that not only was the sight of the left eye destroyed because of improper treatment, but that the top of the sight of the right eye was also, consequent upon the ill-treatment. Dr. Keith proved that the diagnosis which he made of the disease was what is known in medical language as panophthalmitis, and the treatment he had pursued and recommended was the prescribed and recognized treatment and that at the time of his first visit the disease had made such rapid progress that no skill could have saved the sight. In this he was fully sustained by the opinion of the medical testimony.—Dr. McCully of Moncton, a specialist in diseases of the eye and ear, and Dr. Ferguson formerly of Kingston, now of Moncton who has also devoted special attention to these specialties.

The trial occupied three days and was very hotly contested. H. A. Powell, Q. C., and H. H. James for plaintiff; J. D. Phinney, Q. C., and R. A. Irving for defendant. Their addresses and the Judge's charge occupied the whole of Thursday and the court house was crowded the whole day, a number of ladies being present during the afternoon and evening. His Honor's charge was recognized as being strongly in favour of the defendant, as to the legal features of the case, leaving certain questions of fact to be found by the jury, though at the same time somewhat clearly indicating his own view as to these also. One of the jurymen appeared however to be uncertain as to his opinion and the Jury were required to remain in their room for two hours when they returned into Court, answering by a vote of six to one all the questions in favour of Dr. Keith, for whom a verdict was then recorded. The plaintiff applied for a stay of postea which was granted, and the case may possibly come before the fall Court. A pleasant feature of the proceedings during the sitting of the Court was the presentation by Mr. Hutchinson, Q. C., on behalf of himself and the members of the Kent Bar, of congratulations to Chief Justice Tuck upon the fact that he had just completed a term of fifteen years upon the Supreme Court Bench of the Province.

Mr. Hutchinson's speech was as follows: YOUR HONOR.

The members of the Bar of this and other counties now present have asked me to recall to your Honor's mind the fact that you were elected to the Bench on this the 15th day of March A. D. 1885 and we felt that we could not in justice to our own feeling allow that important fact—well known to us all—to pass without expressing, not only our admiration of the manner in which you have discharged the very important duties of your position since that period but also to express our absolute and unqualified appreciation of the ability, of the integrity, of the candour and fairness which you have always displayed.

Had I time to have sat down and written out my thoughts and feelings and those of my brother barristers I doubtless could have expressed our feelings toward your Honor in more appropriate language, but impromptu as they are pray accept them as a simple token of the esteem we have for you and in this let me also add not only yourself but your family.

On resuming his seat the audience rose and cheered, the ladies not being less vociferous, if more mild, than their husbands, fathers, brothers, etc. The chief Justice in his inimitable way replied heartily thanking the Bar for their kind expression of feeling and among other things stated that while now he could resign and lead a life of comparative leisure, yet such would not be his course but that he would resign only at the call of death.

His Honor was frequently interrupted by applause. Just before the Court adjourned sine

die Mr. Phinney, Q. C. moved—all members of the Bar rising and approving—that the address of Mr. Hutchinson and His Honor's reply be made a matter of record which motion was carried amid further congratulations.

LA LOYAUTÉ DES FRANÇAIS CANADIENS OU ACADIENS.

(Continued from page 5)

La semaine qui vient de s'écouler est remplie d'événements importants, tendant tous à l'appréciation des services du Canada à l'Empire, Britannique et l'accentuation de la direction du parti Liberal dans l'unification de cet Empire.

Le discours de Sir Wilfred Laurier sur la motion de Mr Bourassa restera dans les annales du Canada le monument d'éloquence parlementaire suprême depuis la confédération. Ped je discours aussi forts et aussi patriotiques ont été prononcés dans le Parlement Anglais.

La Providence conduit les destinées de ce monde, et Elle avait réservé à notre pays un homme d'origine Française qui devait s'élever à la hauteur des circonstances, nourrissant dans son cœur un patriotisme élevé, réunissant les connaissances historiques et parlementaires, l'éloquence et la sublimité du langage, le dévouement le plus sincère à son pays, la loyauté la plus fidèle à la couronne Britannique enfin le génie, le tact et l'éloquence nécessaires pour ébranler d'un coup cet échafaudage de bigoterie politique de Clark Wallace et de Geo. Foster qui tous seront laissés sous cet céroulement dans une impuissance complète à l'avenir.

La presse de Londres fait de magnifiques éloges de ce discours qu'elle met au rang des meilleures pièces d'éloquence parlementaire Anglaise. Les idées émises par Sir Wilfrid Laurier feront la base des négociations pour l'unité de l'Empire Britannique. Avec Sir Wilfrid Laurier et Mr. Tarte nous n'hésitons pas à déclarer que si nous devons être appelés à participer dans les guerres de l'Empire, et à contribuer au maintien de l'armée, nous devons être représentés dans le Conseil Impérial. Ce serait notre droit, et nous avons les hommes qualifiés à tous égards, capables de prendre leurs places au palais de Westminster à côté des Salisbury, des Chamberlain, et des autres célébrités Britanniques.

Sir Wilfrid Laurier n'en céderait à aucun d'eux, et bien d'autres connu Mr. Tarte, Mr. Fielding, Sir Louis Davies, Mr. Blair et Mr. Mulock, tons doués des connaissances et des talents nécessaires pour la direction de nos relations avec l'Empire et les autres pays du monde. Bientôt nous pourrions signaler avec joie des noms Français-Acadiens des Provinces Maritimes qui ne manqueraient pas de s'élever avec leurs compatriotes de Québec.

La prise de Bloemfontein, en ranimant le courage des troupes Britanniques, a démoralisé les troupes des Boers qui voient arriver la fin de la guerre avec la perte inévitable de toute prestige national. Toutefois, s'il nous a fallu admirer leur courage, leurs tactiques militaires, et leurs agencements diplomatiques, nous devons en même temps nous étonner de la conduite singulière et injustifiable de la République Américaine qui, par l'entremise de son Président Mr. McKinley, a osé, contre l'esprit de toute loi internationale sur la demande du parti agressif seulement, offrir à l'Angleterre sa médiation, au moment où la victoire est assurée.

Est-ce là le remerciement que l'Angleterre devait attendre de sa position envers l'Amérique dans sa guerre avec l'Espagne! A tout point de vue, c'est bien une nouvelle intervention Américaine.

AN OLD THEORY EXPLODED.

The old-fashioned theory of tearing down disease was entirely changed by the advent of Dr. A. W. Chase's Nerve Food, which cures by creating new rich blood and nerve tissue. Through the medium of the circulation and the nervous system they strengthen and invigorate every organ in the human body.

CORRESPONDENCE

Mr Editor: We the undersigned do hereby most earnestly and gratefully acknowledge the great interest that "Ut Prosim" has taken in our welfare. We also beg to differ from "Ut Prosim" on some vital points set forth in the essay, which we have neither time nor inclination to discuss, as those opinions are not worth a Corn Cob as far as we are concerned. And amongst the many perfections of writer of said essay, charity don't appear to be the most prominent. The low order of dances therein portrayed do not exist in "Our Country District." Test the Urine...

It tells the state of the Kidneys—To make the Kidneys healthy use Dr. Chase's Kidney-Liver Pills. The up-to-date physician ascertains the health of the kidneys by an examination of the urine. It is not necessary, however, to be an expert in order to tell if the kidneys are deranged. You can conduct an examination yourself. Allow the urine to stand for twenty-four hours in a glass bottle or vessel. If at the end of that time it contains a sediment resembling brickdust you may be certain that the kidneys are sluggish and inactive, and that they are leaving deadly poisons in the system which will in time produce terribly fatal complications. As an invigorator of the kidneys Dr. Chase's Kidney-Liver Pills are of inestimable value. They act directly and naturally, and make the kidneys, liver, and bowels regular, active, and healthy. Dr. Chase's Kidney-Liver Pills positively, permanently, and promptly cure Bright's disease, kidney and liver disorders, backache, lumbago, rheumatism, and all the painful and fatal complications of the filtering organs of the body. The sale of this great kidney remedy is enormous throughout this continent and Europe. The merit is proclaimed by scores of thousands of grateful cured ones.
