Heart Palpitation.

A QUEBEC LADY RELEASED FROM GREAT SUFFERING.

She Had Tried Many Medicines Without Avail, but Ultimately Found a Cure Through the Use of Br Williams' Pink Pills.

Few bodily afflictions are more terrible than disease of the heart. To live in constant dread and expectation of death, sudden and with last farewells unspoken is for most people most awful to contemplate than the most serious lingering illness. The slightest excitement brings suffering and danger to such people.

For several years, Mrs. Gravel, wife of P. H. A. Gravel, foreman in Barry's cigar factory, St. John's suburb, Quebec, was such a sufferer, but thanks to Dr. Williams' Pink Pills she is again in the enjoyment of good health. Mrs. Gravel 6ays: -

"My general health was bad for several years, my appetite was poor, and I was easily tired, but it was the frequent sharp pains and violent palpitation of my heart which caused me the greatest alarm. I tried many medicines, and was treated by several doctors, but in vain. Finally I became so poorly that I was not able to do any household work, and was frequently confined to my bed. At the suggestion of one of my friends I decided to try Dr. Williams' Pink Pills. After taking a few boxes I began to gain new strength and vigor. The pains in my heart were less frequent and less severe, and in every way my health was improving. I continued using the pills until I had taken eight boxes, when I had completely recovered my health I have gained in flesh; my appetite is good, and I am able to do all my household work without feeling the awful fatigue I was before subject to. I am very thankful to Dr. Williams! Pink Pills, for they have truly released me from much suffering, and I hope that others may be induced to try this wonderful medicine."

Dr. Williams' Pink Pills cure by going to the root of the disease. They renew and build up the blood, and strengthen the nerves, thus driving disease from the system. Avoid imitations by insisting that every box you purchase is enclosed in a wrapper bearing the full trade mark, Dr. Williams' Pink Pills for Pale People. If your dealer does not keep them they will be sent post paid at 50 cents a box, or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville,

ELDER-DEMPSTER BOAT WRECK

ED. ST. JOHN'S, Nfld., May 4.- The British

steamer Montpelier, of the Elder Dempster line, of Liverpool, from Cardiff, April 7th, and Las Palmas, April 20th, for Montreal, while bound up the St. Lawrence went ashore last night in a dense fog at Duck Island, three miles from Cape Ray, at the entrance to Cabot Strait. Nothing has been heard of the crew. The ship is probably a total loss.

Later-The Montpelier struck at 9 o'clock last night and beat out her bow and bottom on the rocks. She is break ing to pieces to-day. Her crew landed to day from the steamer's boats, in which in the darkness.

a comparatively new boat, having been built in 1897. She was bound for this

MILBURN'S RHEUMATIC PILLS are a specfic remedy for Rheumatism, Sciatica, Lumbago, and Neuralgia. They eliminate the acids and poisons from the system, ease the pain and cure the disease. Price

OTTAWA LETTER.

OTTAWA, 4th May, 1900 .- Parliament re-assembled on Tuesday afternoon, after an adjournment from the preceding Thursday owing to the fire. One of the first acts of the members was to vote \$100,000 in aid of the sufferers, and \$41,-000 for the immediate reconstruction of two bridges that had been destroyed and the Hull Post Office. The size of this appropriation will afford some notion of the disastrous nature of the fire and the misery they were in 1896. As compared with and want that it has brough to thousands of people in Ottawa and Hull. It is not remembered that the Dominion Government ever made as large a contribution towards the sufferers by any calamity which has occurred in Canada It was fortunate for the many victims that their trouble came upon them at a time when the Dominion treasury was full, and that the members of Parliament were able with their own eyes to measure the extent of the distress.

One of the strong compensating features of this disaster is the proof which it has brought of the sympathetic connection which prevails among all parts of the Dominion. The call for help has been responded to by every city in Canada and by at least three of the Provincial Government. Another feature which is full of encouragement is the aid which has come from England. At this moment of writing the subscriptions at the Mansion House at London reach close upon \$100,-000, and messages of condolence have been received from Her Majesty and from many titled personages. L rd Strathcons has sent \$10,000, Lord Mount Stephen \$5,000 and the Earl of Derby \$5,000. Several commercial corporations doing business in Canada have also respondedgenerously.

It is worthy of remark that large donations have also come from the United States, in money, in feod and clothing, and in the loan of machinery for some of the industries that were destroyed. At this time it looks as if the relief fund would reach nearly \$1,000,000 and this will be sufficient not only to relieve the 1m. mediate wants of the homeless and destitute, but to lay the foundation for the restoration of the houses which have been burned. The sufferers are for the most part laborers and artisans, who have been left without a dollar of means, very little insurance, and their livelihood taken away in the destruction of the mills. Wisely the Railway Committee of the Privy expended the money available will enable | Council, Mr. Blair reported to Council the commissioners to re-build 1,500 suitable houses, superior in sanitary provisions and general conveniences to those which were wiped out, and ensure greater safety for the future. This plan, of course, is based upon contributions in small instalments from the sufferers, so that the properties will become theirs in time without making them feel that they have been wholly the recipients of charity. All this, however, remains to be develop-

even in a bad cause. For weeks the Opposition have been hammering away on the budget, developing nothing new and saying nothing that was interesting, and yet after the short recess of four or five days they returned to their cold porriage with an eagerness that might have deceived a casual visitor into the belief that they spent the night lying off the coast they relished it. What they are really waiting for daylight. The crew had many doing is simply to mark time until all 1 arrow escapes while launching the boats danger of an election in June is past. That danger ceased to exist some time of spirits in the different countries was as MONTREAL May 4. - The Montpelier is ago; but such is the dread of the Conser- follows: Canada 0.66, United States 0.86, vatives of an appeal to the country, and so strong is the hope that something may Britain 1.02. These figures make it clear port in ballast from the Canary Islands. turn up to their advantage, that they hang that while the people of Canada have not Placer Mining on with a grim doggedness which, while it declared in favour of prohibition, they is annoying to those who would like to are nevertheless the most temperate peosee the business of the House disposed of ple in any civilized land under the sun. and costly to the country, cannot but be admired as an of jet lesson in pertinacity.

> is without a single element of novelty to You will proceed next to having inflamed sioners, on the second day of July, 1900. relieve the monotony of the daily debates. They still argue that England should not son's Botanical Cough Balsam will give receive a preference from us unless she is willing to give a preference in return. will not in your case. All Druggists, 22c. Little by little this line of reasoning leads them into an attitude of stronger hostility to the Empire, and, strange to say, they Ky., with the murder of Gov. Goebel. accompany their anti-Imperialism with many reproaches upon the loyalty of Liberals. It will be seen that they are thus playing a very funny double game, although it is very difficult to see what they can possibly accomplish by it. The Scriptural axiom that one cannot serve two masters is equally applicable to politics. The Conservatives cannot oppose a preference on the ground that it is not mutual, and yet claim that they are doing this in a spirit of super-loyalty to Great Britain. Nor can they get sensible people to believe that England is being humbugged on one hand, and that Canadian industries are menaced on the other.

The cold logic of events continues to be against the Tories. The returns of exports and imports for the nine months of the fiscal year up to the end of March show an aggregate trade of \$275,632,510 against \$235,662,353 for the same period of 1899, an increase of \$39,970,163. Imports for the nine months amounted to \$185,639,293, as compared with \$112 760,-006, and exports to \$139,973,223 as against \$122,872,347. For the month of March alone the increase over March 1899, in exports is about \$2,000,000, and in imports over \$2,000,000. The customs revenue

in the nine months also shows a development of \$3,265,030. This promises to be by all odds the most remarkable year in the history of the Dominion, and it would not be surprising if the increase in trade for the entire twelve months amounted to nearly as much as the increase for the entire 18 years of Conservative rule.

The bank statement tells the same story for March that it has done for many months past. In all important respects it shows large growth, except in overdue debts, which are now not half as large as the month of March last year the deposits have increased by \$22,000,000, and the discounts, which indicate the measure of commercial activity, by \$39,000,000. The money in circulation is larger by \$5,000, 000, and the business with foreign banks was doubled. The entire situation in this regard points to continued prosperity and business enterprise.

Much ado has been made by the Conservative press over the price of coal oil. It is thought to be good party tactives to attribute the rise in the price of oil to legislative favours granted to the Standard Oil Company; but the facts utterly disprove this contention. The legislation referred to has relation to the privilege of importing oil in tanks, either by rail or steamer. This concession was not made to help the Standard Oil Company, but was granted in direct response to the repeated petitions of the people of the Maritime Provinces. The old system of importing in barrels operated hardly against them, and year after year they besought the late Government to permit importation in tanks. They were refused. The | in the County of Rent, under and by virincoming Government, however, in keep- tue of and in pursuance of the authority ing with their policy of reducing taxation on the necessaries of life, acquiesced in their appeal. If oil has advanced in price it certainly has not done so on that ac-

count, as any reasonable man will see. The only case in which an issue arose the Government was settled last week, and it was settled against the Company. It seems that a year ago the Standard works are located, and to increase it from points along the Niagara frontier. This Sarnia, thus reducing competition. An appeal was made to the Minister of Railways, and after a full investigation before against the Standard Company. On his recommendation the rates have been reduced at points along the American boundary, and left as they are at Sarnia This action is highly appreciated by coal oil dealers, and is expected to reduce the present cost to consumers by at least two cents, possibly three, per gallon.

The debate in the House last week on the subject of prohibition came to noth. ing. It is not my purpose to say anything at this time on one side or the other; but One cannot help but admire persistency advantage may be taken of the occasion to present one or two encouraging facts in relation to the consumption of liquor in Canada The Inland R venue figures of several countries are just now before me, and a comparison is very much in favour of Canada Having reference to last year, it is found that Canadians con sumed 3 99 gallons per head of beer, as compared with 12.60 by the people of the above mentioned evenings after Kent and bounded as follows:-United States, 26.00 by the Germans and | the hour of closing. 31.30 by the British. The consumption Germany 1.89, France 1 94 and Great
