LA LAYAN I É DES FRANÇOIS CAN-ADIENS OU ACADIENS.

Nos lecteurs Français ont de toute parts entendu beaucoup d'expressions de loyauté de dérouèment à la mère-patrie depuis quatre à cinq mois. Chacun s'est plu à faire valoir ses sentiments envers la couronne Britannique, son attachement aux institutions qui dirigent la politique de notre pays, avec la plus grande liberté civile et religieuse

On a fait les plus solennelles déclarations du dévouêment le plus sincère et le plus généroux qui devait alles jusqu' à l'héroisme, promesses qui ont trouvé leur ac complissement dans la conduite chevaleresque de nos soidats Canadiens tenant le front dans l'attaque la plus sanglante, la plus redoutable, et même temps la plus glorieuse, et qui devait sceller le sort de l'Anglet rre dans cette q erre jusqu'alors pleine d'échecs, de revers, de menaces, même pour la suprématie Britannique dans le Sud de l'Afrique.

La lovanté des Canadiens Français n'avoit jamais été mise en question En vain les Américains des Erats Unis avaient-ils antrefois essavé de tenter les Canadiens en les appelant à eux par les promesses les plus entrafuantes! L'audace de leur envahissement du Canada, ren coutra la fière hardiesse d'un petit peuple loyal, et le général Montgomery en voulant gravir le promontoire de Québec, la ville la plus fiancaise du Canada, expira sous les balles des sentinelles françaisescanadiennes. Le Canada était souvé à l'Augleterre. Et nous aurious à écrire une épopée si nous roul ous nous arrêter sur la stratégie chevaleresque, la bravure du Colonel Salaberry qui, sur le bord du Lac Champlain, avec une poignée de soldats Canadiens Français, recula une immense année Américaine. Lorsque plus tard les Feniens voulurent faire une invasion sur le Canada, bien prompts furent les Canadiens Français à s'entôler pour aller rencontrer et dérouter à l'instant les d'acrimonie et de per écutions, accords à ennevuis de la couronne Britannique.

Et comment les chefs Conservateurs peuventils pousser l'audace jusqu à accuser Sir Wilfrid Laurier de manquer de loyaute après que à l'occasion du Jubilé, ce chef Canadien Français a fait les déclarations ade patriotisme, de lovanté et de reconnaissance envers la couronne Britannique pour tous les bienfaits que le Canada a reçus de tout temps, et surtout pendant le règne quasi-séculaire de Notre Gracieuse Reine Victoria, la plus grande souve raine du ptus grand pays à la fin du plus grand siècle de civilisation Et pendant que Sir Wilffi : Laurier déposait aux pieds du trone Impérial les hommages de tout le peuple Canadien, n'entendions-nous pas resonner dans toutes nos villes, dans toutes nos compagnes, dans nos villages les plus isoles, depuis les côtes du Cape Breton jusque sur les côtes du Pacifique, ou les Français-Acadiens on Canadiens, respiraient l'air de l'atmosphère Britannique, n'entendions-nous pas l'echo incessant des voix françaises qui chantaient à l'envie les vertus et les talents de Victoria, ses vertus de mère et d'apouse, aussi bien que ses talents de Souveraine, Partout l'éloquence de nos orateurs, et la plume de nos écriviaus la proclamérent grande comme femine, et grande comme reine. Tous, d'un sentiment commun et spontané, mirent en relief l'habileté, le tact, la sagesse de conseil de notre reine, que les plus grands revies diplomatiques du siecle avaient en occasion de reconnaitre et d' admirer. Nos Canadiens-Français se plurent à redire combien souwent les Palmeiston, les Beaconsfield les Gladstone, ces Leteraux du monde politique, avaient tronvé dans les couseils de cette femme, la solution des plus grands problemes qui avaient inquiété le gouvernement; combien souvent les Ministres du gouvernement avaient dû, les un saprès les autres, s'incliner et exprimer la meme admiration pour cette femme incomparable qui, à la tête du plus grande gouvernement constitutionel, ou le Sonverain est cense legher sans gouverner, a su tout-fois gouverner avec sagesse, et legher avec

"I had a very severe attack of La Grippe, which left me all run down, very nervous, without appetite, and extremely weak. Very often I could not sleep at night, and I was much troubled with profuse perspiration, which naturally caused me much annovance. Learning of the good effects of Milburn's Heart and Nerve Pills. I began taking them, and much to my gratification they have braced me up, invigorated my entire system, and made me feel like a new man. I am now all O.K., and highly recommend these pills to anyone suffering as I did."

couronne d'Augleterre. La population Française n'a besoin ni des harangues, in des lecons ou des menaces des Clark Wallace, des Foster, ou des Hetherington pour réveiller son patriotisme ou sa loyauté qui sont devenus instinctifs dans son coeur. Le sujet Français du Canada n'a pas besoin qui'on lui déroule les pages de l'histoire pour lui donner cause à son émotion. Sa loyauté, sa reconnaissance sont constamment soutenus a la vue de cette liberté politique qui lui sourit à chacun de ses pas; à la vue de ce drapeau majestueux tendrement déployé sur les mers et les montagnas de l'univers par le bieufaisant zéphire de la chrétiente et de la civilisation; par la contemplation de ce puissant acte d'emancipation que l'Angleterre dans l'oubli de trois siécles la religion Catholique sur tous les terrains, sur toutes les îles, sur toutes les mers ou son pairilen pouvait flotter. bienfait immense, le plus grand acte législatif qui une nation puisse promulguer envers une autre de convictions religiencies les plus sympathiques et les plus éloquentes étrangères, et qui a été si roblement, si loyalement, et si généreusement réciproqué dans le Canada par Sir Wilfrid Laurjer, Mr. Blair, et Sir Oliver Mowatt, par l'introduction de cette politique de conciliation chrétienne dans le Canada, qui a introduit sur les bâses les plus solides, la paix, l'harmonie, la concorde entre les différentes races qui forment notre population; paix, concorde et harmonie qui ne serait jumais troublées nonobstant les perfides accusations de quelques agitateurs bigots, qui ont recours à cette dernière planche de salut, dans leurs vains efforts à renverser un parti politique qui a accompli plus pour le progrés du pays dans trois an, qu'ils n'ont euxmêmes accompli pendant dix huitans.

Mais, disent ces agitateurs sons vergogue, Sir Wilfrid et Mr. Tarte ne voulaient pas envoyer de contingent au Transvaal! Its ne voulai-ent pas que le Canada prisse: t part aux guerres de l' Empire.

Migrating Birds.

The distances over which birds migrate vary between wide limits and are often surprisingly great. The bobolinks, which rear their young on the shores of Lake Winnipeg and go to Cuba and Porto Rico to spend the winter, twice traverse a distance exceeding 2,800 miles, or more than a fifth of the circumference of our earth, each year. The kingbird lays its eggs as far north as the fifty-seventh degree of lat- reign of Her present Majesty, Queen Vicitude and is found in the winter in South America. SHE WANTED TO DIE. (St. John Gazette, Saturday.)

Shortly after eight o'clock last evening while Sergeant Campbell and special Officer Killen were on duty on Charlotte street, a well dressed woman, giving her name as Mrs. Charles Newcombe approached the officers and gave them the startling announcement that she had

she exhibited an empty phial. The officers took the woman to a more secluded place on the street, where they questioned her and examined the bottle. The phial was labelled "Laudanum." The woman said she was tired of life and

poisoned herself, and was likely to die at

any moment. To prove her statements

wanted to die. The police suggested to the woman that she accompany them to the police station but to this she stoutly objected. Dr. Berryman who happened to be in the police station when the unfortunate woman was taken there, suggested that she be taken at once to the hospital for treat-

On her arrival at the hospital in company with officer Killen, she was immediately placed in the operating room and Dr. Macaulay at once got the stomach pump at work and the poisonous fluid was extracted.

The woman who is about 28 years of age, has not been in the city long, but during her short stay here has attracted some attention. To the police, the woman said her maiden name was Nettie Kimball. She had not been leading a good life lately and desired to end it all. She formerly belonged here but had

resided in Boston up to a few days ago when she returned here. It was only yesterday afternoon that she engaged a team from a livery stable and went for a drive. She acted so strangely on the streets that people thought she had been drinking, On Charlotte Street by reckless driving she

knocked down an old man named Daly. Captain Jenkins heard of the affair, and hunted the woman up, but allowed her to depart upon her explaining that it was

The poison taken by the woman was sufficient to cause death, and but for the timely action of the police and Drs. Berry man and Macaulay, the drug might have had its effect.

To-day the unfortunate woman is out of danger and recovering. She will be taken before the police magistrate on being released from the hospital and called to account for her actions.

COOK'S NEW BLOOD PILLS.

The Beginning of Heart Failure

Thin, watery blood, and weak, exhausted nerves the real cause-Dr. Chase's Nerve Food the preventative.

Persons subject to thin blood and nervous exhaustion may well tremble at the mention of heart failure, as they have in their system the beginnings which lead to weakness of the heart. The vitality of the heart is amazing considering the immense amount of work it does, and so long as it is supplied with plenty of rich, red blood it plods on untiringly, rebuilding its waste as the blood passes through.

Once the blood gets thin and the nerves starved and exhausted the waste gradually becomes more rapid than the restoring process and finally some to cease and life departs. Headaches, pains in the back and limbs, sleep-

lessness, weaknesses and irregularities of the feminine organs, palpitation of the heart and nervous disorders are sure indications of thin, Dr. Chase's Nerve Food forms new red eor-

puscles in the blood, puts vital energy into the nerves, and stops the wasting process that would ultimately end in heart failure, nervous prostration or paralysis. It is the world's greatest restorative for men,
