BETTY AND THE BABY.

(Louisville Times.)

My home seems deserted; I'm lonely and sad; I miss all the pleasures of home I once had;

I try to be cheerful, I fail to be glad Since Betty left home with the baby. I sit in my rooms, and I read and I write; I whistle and sing, but the only delight That is mine is to joyfully dream every night

Of Betty, who's gone with the baby. It seems that its mother's sweet face I can see

As I dandle the baby in joy on my knee, But no man was ever more lonesome than me. Since Betty's been gone with the baby.

The house is a picture of silence and gloom As I walk through its halls that are still as a tomb, Like a crazy man, silently searching each room

For Betty, who's gone with the baby. She had "gone to see ma," and its many a mile

Every day that she stays seems a terrible while, And I'll never be happy or able to smile Until Betty comes home with the baby.

'Twill be joy to my heart when the message shall come That the hen and her chickens no longer will roam, Gee! won't this old rooster crow loudly at home

When Betty gets back with the baby!

MARITIME PROVINCE NOTES.

A man named LeBlanc was drowned together with his horse while crossing the Restigouche river on the ice opposite Campbellton a few days ago.

Mrs. Fulton McDougall of Sackville, returned from Picton last week, bringing with her for interment the remains of her only daughter, Kathleen. She was accompanied by her sister, Maggie Dawson. Shortly after her arrival this young lady was seized with meningitis and died Wednesday afternoon. The sympathy of the community goes out to Mrs. McDougall in her sorrow.

A sad drowning accident occurred at Chatham last Saturday afternoon, a son of John H. Lawlor, stonecutter being the victim. It appears he was skating along in company with a son of George Johnstone, a lad of about his own age, when both skated into an air hole. Lawlor disappeared at once, and was never seen again after the cold water of the river closed over him, while Johnstone managed to catch the ice and supported himself until he was rescued in a very gallant manner by Gilbert Perry, who was sailing an ice boat in the vicinity.

Arthur Drake, aged seventeen years, a cooper employed at St. Patrick's Home for boys, at Halifax, accidentally shot himself with a revolver last Monday morning and died two hours afterwards from his injuries. Young Drake had been employed at this institution about five weeks. He had in his possession a thirty-two

WE WISH

All our many friends and customers

A MERRY CHRISTMAS

AND

A Happy and Prosperous New Year.

A. & R. LOGGIE

calibre revolver, and about eight o'clock Monday morning he was in the kitchen with five of the boys belonging to the institution. He was showing the revolver to the boys and explaining to them how it could be discharged. He had a box of cartridges and he filled the chamber and as he was pressing the chamber back in position the hammer struck one of the cartridges and the ball went crashing into the side of his head near the ear. Drake fell to the floor unconscious and bleeding, while the boys hurried for assistance. The Brothers at the Home did everything possible for the unfortunate young man until the arrival of Dr. Walsh. The doctor probed for the bullet, but as the bullet had entered the brain it was a hopeless case and young Drake died at 10 o'clock without ever regaining consciousness.

Chatham Commercial: A lady entered a Chatham tailoring establishment the other day, and as she was chatting to the proprietor, she espied something on the floor which immediately took up her attention and she exclaimed: "Oh! I have often heard of a tailor's goose, but really that is the first one I ever saw," pointing to the article on the floor. It was a curling stone!

A telegram received at Amherst by Mr. Edward Trueman announces the death in California of James Bent. The deceased was a brother of the late Mrs. Prince of Moncton, and the late Benson Bent of Fort Lawrence and brother-in-law of the late Edward Trueman, the late Rev. John Prince and the late A. A. Stevens, all of whom have passed away within the last thirteen months. He was a brother to Charles Bent of Fort Lawrence, Mrs. A. A. Stevens and Mrs. Edward Trueman of Amherst.

Moncton Times, Dec. 12: The extreme cold weather of the last few days has had the effect of stopping traffic between Point du Chene and Summerside for the season. The S. S. Northumberland crossed to Summerside yesterday morning from the Point, but on account of the rapid accumulation of ice in the Straits has hung up. This is rather earlier than usual for the suspension of traffic between Summerside and Point du Chene. The Northumberland as a rule continues on this route until Christmas or latter.

The Sackville correspondent of the Moncton Transcript says: Our farmers are in excellent spirits in consequence of the improvement in the price of hay. Good hay is bringing \$8 a ton in Sackville, and a good deal is being shipped, mostly to

Halifax. Charles George has shipped five carloads and expects to double that amount before the end of the season. J. L. Black has sold fifteen or twenty carloads. Albert and Wesley Fawcett, Fred George, George Campbell & Sons and others are busily engaged in pressing and shipping. There is complaint about the scarcity of cars, but as the demand has been sudden it is not surprising that it cannot be met very promptly.

Queens County Gazette: Mr. Geo. A. Wilson, our popular mail carrier, will soon give up the mail and go to Ottawa where he has secured an appointment in the government employ.

A young fellow named Bigay was struck in the face with great force by a crane while attending to his duties in the car works, at Amherst, last week. His nose was broken and his face badly cut about the eye.

Queens County Gazette: An aged and much respected resident of Rusiagorish passed away on Saturday from the general debilities of old age in the person of Mark Carr, in the 98 year of his age. He leaves one son, Mr. George Carr, with whom he resides, and one daughter. The funeral took place from his late residence at 1 o'clock on Tuesday afternoon.

The Fredericton Gleaner says: Mr. Geo. J. Barrett received a postal card from his friend, Karl Creelman, of Truro, N. S., who is making a bicycle tour around the world and earning his expenses as he goes. The card was written at Benares, India, which is 500 miles from Calcutta, on Nov. 13th. Creelman was then in the hospital, where he had been for two weeks, suffering from malarial fever, but was convalescent and hoped to soon resume his journey. From India he intended going to South Africa and asked that letters be addressed to him at Cape Town.

The Atlantic Grindstone company, of Providence, Rhode Island, which purchased the grindstone quarry at Lower Cove, N. S., some months ago, intends equipping the quarry with modern machinery, and largely increasing the output. The power is to be supplied by two 125 horse-power Mumford boilers, and a 250 horse-power Robb Armstrong engine, which are being built by the Robb Engineering company.

A sad accident occurred at Hampton last Thursday morning which may involve serious consequences. A large wild cat had been noticed about the premises of residents on the hill north of the bridge across the creek, whose lair was traced

Wednesday by the sons of Heary Flewelling, and Thursday morning Audrey Flewelling and Frank Ross, a close neighbor, decided to go into the woods and shoot it whilst Aubrey returned to his home to get another gun. He left one loaded with partridge shot standing against the back door of the house, which is occupied jointly by James Blair and Frank Ross. Mrs. Ross, who is in delicate health, came out of the back door and was just entering that of Mrs. Blair to go up stairs, when her dress caught against the gun, dragging it down, and as it struck against the steps, was discharged, the contents striking the side of her right leg near the calf and tearing away a part of the bone. Mr. Ross fortunately was close at hand and in a few minutes Dr. Wetmore, Dr. Smith and Dr. Warneford were all present, who speedily got her into as comfortable a condition as possible.

Mrs. C. T. Robinson of Hampton has just received the sad news of the death of her brother, J. W. Ritchie Ray, who died at his home in Butte, Mont., after about two months' illness. He was the son of the late Andrew Ray of Richmond, Carleton County, N. B., and leaves a wife, two brothers and three sisters.

Miss Beaulieu, daughter of Louis Beaulieu of Edmanston, N. B., died very suddenly recently under peculiar circumstances. As she was crossing the Temiscouata railroad bridge the train darted by her like a flash and frightened her to such a degree as to cause her death.

The Yarmouth Times says—Moncton appears to be a bad place for consumptives. Statistics last year, give the number of deaths from this disease as 71, an increase of 41 over the previous year.

The St. John Globe says: Schooner Karmoe, Capt. Ritecy, reached port Friday from Bay of Islands, Newfoundland, with a cargo of 875 barrels salted and 200 barrels pickled herring for E. M. Robertson. This is the first cargo of herring from Newfoundland for many years.

The garrison chapel at Halifax, built in the early part of the century, was destroyed by fire Friday afternoon. The building was one of the historic buildings of that city and thousands of England's troops have worshipped there. Hundreds of tourists visited it each year, anxious to see the Sunday parade. The building is not insured. The fire started from the furnace.

Fire occurred in the Daily News office at Truro, N. S., Saturday morning, which was easily extinguished. Water played havoc among the type, machines, etc. The loss is heavy. Partially insured.

The Bathurst correspondent of Events, Campbellton, writes: A steady improvement in the smallpox epidemic. "There is a steady decline on the number of patients, and it has not spread into any new territory."

St. John Globe: Mr. and Mrs. Jeremiah Harrington, Simonds street, suffered a sad blow, Friday, in the death of their eighteen-year-old daughter Gertrude, a bright young woman, who died quite suddenly from heart failure. Only two weeks ago Mr. and Mrs. Harrington were called upon to mourn the death of a daughter but one year older than she who died to-day. The young women were close companions and the first death was a severe shock to the sister, Gertrude, and it is thought hastened her death. Six brothers and three sisters survive, and have the sympathy of all friends in their affliction.

Mr. Ralph Colpitts, of Hopewell Hill, aged 51 years, died very suddenly Thursday afternoon. While at work in the morning putting outside windows on his house he was suddenly taken ill with a violent headache and vomiting. Before noon Dr. L. Chapman, of Albert, was summoned. When the doctor arrived Mr. Colpitts was in an unconscious condition and died without speaking about three o'clock.

The dinner given by the Liberals of Halifax Thursday evening to Sir Wilfrid Laurier and his cabinet ministers was the most magnificent political demonstration that ever took place in Nova Scotia, and has probably never been surpassed in any

city in Canada. It came off at the Armories, a building admirably suited to entertain such a company. The number of guests present was upwards of 500.

HALIFAX, Dec. 14.—Steamer Peliki arrived from Sydney this morning to repair damage sustained by grounding in the St. Lawrence. The vessel almost foundered on the passage, the hull having been broken in by the heavy sea. The ship also took fire and narrowly escaped destruction by the flames. It was only after desperate efforts that the ship reached port. Mrs. Macombrey, wife of the captain, was almost washed overboard.

Sore Throat

and hoarseness with their attendant dangers may be speedily averted and remedied by the use of Nerviline. Excellent to gargle with—ten times better than a mustard plaster and more convenient for the outside, and speedily allays inflammation. Nerviline cures because it is five times stronger than other remedies—penetrates the tissues instantly, soothes the pain, and cures simply because that's what it is made for. Druggists sell it.

FROM LOWELL TO NEW BRUNSWICK.

RICHLY BRED JERSEY BULL COMES FROM HOOD FARM TO CENTRAL NORTON.

James Gilchrist, of Central Norton, N. B., has just received from Hood Farm Lowell, Mass., a richly bred Jersey bull that has a most interesting pedigree. Hood Farm is owned by Mr. C. I. Hood, the proprietor of the well known medicine, Hood's Sarsaparilla. It is the home of the famous World's Fair cows, Brown Bessie and Merry Maiden. Notwithstanding his journey, Mr. Gilchrist states that the animal was taken from the boat at St. John in excellent condition, and he is very much pleased with him. In selecting this bull, Mr. Gilchrist showed that he was after the best, and he evidently appreciates the fact that the best is in the long run the cheapest and pays the greatest profit.

The name of the bull is Pedro 17th of H. F. 59184. He is a son of Pedro Signal Landseer and his dam is Leonette. Pedro Signal Landseer is a son of Young Pedro, who has ten daughters with records over 14 lbs., including Eurotisama, 27 lbs. 11-1/2 oz. in one year, at one time the holder of the silver challenge cup for the largest fealty test of any Jersey. Young Pedro is by the \$10,000 Pedro, sweepstakes bull at the World's Fair.

Leonette, the dam of Mr. Gilchrist's bull, and her full sister Leoni 2nd, were foundation cows in the Hood Farm herd and the manner in which they have bred prove the wisdom of their selection. They are by Toltec, the sire of 23 in the 14 lb. list, and their dam is Leoni, test 18 lbs. 7 oz., out of the imported cow Brunette's Lass, 15 lbs. 10 oz. Toltec is a son of Tormentor and Oonan, both well known. Leonette has a better record of 15 lbs. 3 oz. Her son, Leonette Landseer, has 10 daughters in the list, including Mary of Glenois, test 27 lbs. 3/4 oz., the sweepstakes cow at the Texas State fair, 1897. At the same time Leonette's Landseer was sweepstakes as best bull. Leoni 2nd's test is 18 lbs. 3 oz. of butter in a day.

It is good for the dairy interests of any section to have a bull of this breeding introduced into a herd. The improvement in stock and in dairy products as a result of such a purpose it is hardly possible to estimate.

PLUM PUDDING AND MINCE PIES often have had effects upon the small boy who over indulges in them. Paine-Killer as a household medicine for all such ills is unequalled. Avoid substitutes, there is but one Paine-Killer, Perry Davis'. 25c. and 50c.

CUTTING IT SHORT.

"You can bet if I were nominated for president I wouldn't fool away my time writing a long letter of acceptance that nobody reads."

"What would you say?" "Thanks, I'll run!"—Cleveland Plain Dealer.

CLEMENT'S LOSSES

ARE UPWARDS OF FIVE HUNDRED MEN.

LONDON, Dec. 15.—Lord Kitchener's message to the war office is as follows: "Pretoria, Dec. 14.—Clements brought in his force to Commando Nek unopposed. The casualties were, I regret to say, heavy. Killed, five officers and nine of other ranks; missing, eighteen officers and five hundred and fifty-five of other ranks. These latter were four companies of the Northumberland Fusiliers who were stationed on the hill, and some Yeomanry and other details sent up to support them. Names and nature of wounds are being telegraphed from Cape Town."

"Broadwood's brigade took no part in the engagement. The Boers suffered severely."

"Knox drove De Wet north to the Thaba N'chu Ladybrand line, which was held by our troops. De Wet's force, about 3,000 strong, made several attempts to get through during the day, assisted by a force of Boers operating from the north. These attacks were driven back, though some of the Boers of the south were able to get through the line."

Writing later, Dec. 14, Lord Kitchener reports that while passing the lines in the neighborhood of Thaba N'chu, De Wet's force lost considerably. The South African Light Horse and Thornycrofts mounted infantry captured a fifteen pounder taken at De Wetsdorp, a pompon, several wagons with ammunition, twenty-two prisoners and several horses and mules. A portion of the enemy has not been able to pass north.

GEN. CLEMENTS' LOSSES.

LONDON, Dec. 15.—Lord Kitchener reports that eighteen officers and five hundred and fifty men are missing from Gen. Clement's force. They consist of four companies of the Northumberland Fusiliers. Judging from the message these were captured by the Boers.

Clement's casualties, December 13, amounted to five officers and nine men killed and many apparently wounded.

Every Movement Hurts

When you have rheumatism. Muscles feel stiff and sore and joints are painful. It does not pay to suffer long from this disease when it may be cured so promptly and perfectly by Hood's Sarsaparilla. This medicine goes right to the spot, neutralizes the acidity of the blood, which causes rheumatism, and puts an end to the pain and stiffness.

Biliousness is cured by Hood's Pills. 25c.

FATAL INCOMPATIBILITY.

"It is useless to urge me, Mr. Cabokia," said the Boston girl, firmly, yet with infinite sadness. "I am not insensible to the many good qualities you possess, but I feel I could never love a man who accents 'denominational' on the second and penultimate syllables."—Chicago Tribune.

COULD SCARCELY WALK

Mr. George Thompson, a leading merchant of Bluefield, Ont., states:—"I was troubled with itching piles for fifteen years, and at times they were so bad I could scarcely walk. I tried a great many remedies, but never found anything like Dr. Chase's Ointment. After the third application I obtained relief, and was completely cured by using one box." Ask your neighbours about Dr. Chase's Ointment, the only absolute cure for piles.

THEY LITTLE KNEW.

"Hadn't we better burn all our love letters, Ethel?" "Oh, no, Herbert. Maybe after we've been married a while we'll get dull some evening and want something funny to read."

SOLID GOLD We give this beautiful Solid Gold Ring with a ruby and two pearls, for selling only one Little Parisian Beauty Pin at 10c. These Pins are finished in gold and enamel, prettily engraved and neatly carried, three to a set. They are such splendid value on account of their beauty almost every house. Send us this advertisement and we will forward the Pins. Sell them, return the money, and this beautiful Solid Gold Ring will be sent you by return mail, absolutely free. **Bonington Novelty Co., Box 96 Toronto, Can.**
