### THE BIRDS' BARGAIN.

Oh, spare my cherries in the net! Brother Benignus prayed, and 1 Summer and winter, shine and wet, Will pile the blackbirds' table high.

Oh, spare my youngling peas!" he prayed "That for the abbot's table be, And every blackbird shall be fed-Yea, they shall have their fill," said he

His prayer, his vow, the blackbirds beard And spared his shining garden plot, In abstinence went every bird, All the old thieving ways forgot

He kept his promise to his friends And daily set them finest fare Of corn and meal and manchet ends, With marrowy bones for winter bare.

Brother Benignus died in grace; The brethren keep his trust and feed The blackbirds in this pleasant place, Purged, as dear heaven, from strife and

# LOVE BY WIRE.

It is not at all certain who first discover ed it, probably the housemaid at 3030-two rings Whenever the bell rang, no matter what number of rings, and the housemaid was within hearing distance, it was her habit to get to the telephone as soon as possible and put the receiver to her ear. and she did it so deftly and noiselessly that the persons talking over the wire never knew they had a listener. The girl at central knew it early also, as it was her duty so weld the wires over which Cupid shot his darts back and forth between 1662 and 8030-five rings But if she knew it she paid no attention to it and only felt a slight annoyance at the frequency of the service demanded

The discovery I refer to was the affair between the girl at 3030-five rings and the young man at 1662, and the only publicity it had was over the telephone wires The conversation that must necessarily and frequently have taken place between the young persons in private has, of course, no place in this story The wire that conveyed the conversation herein set down was a party line That is to say, it connected jointly four telephones in & south side neighborhood The number o the joint line was 3030, and each of four subscribers had a designated number of rings by which they might be called. I know none of the subscribers personally. and the story came to me from a person who learned it from another person to whom it was told by 3030-four rings, who was described to me as a widow of 40 or thereabout, who has strong leanings to ward the romantic side of life and who dearly loves a love affair

Next I learned it from the femining cousin of 3030-three rings, who is described as a spinster of uncertain age. who dotes

Thirdly, I learned it from Miss Warwick Bool Evard, whose maid had received full particulars from the housemaid at 3030 -two rings.

That surely should be evidence sufficient to warrant its further publicity, if that indeed were necessary In fact, it may be an old story already

No telephone on the party line had more calls than five rings. Where the other telephones had one demand five rings had a dozen This was enough to convince the other subscribers that there was an attractive young woman at the one end of the wire and a man at the other Following is the first conversation between 1662 and 3030-five rings reported to me. It comes from the housemaid at 3030-two rings, so I infer that she was the first discoverer. Subsequent conversations came from all three sources and must therefore be approximately correct

### What Would You Cive

To be cured of catarrh? If you or your friends have this disease, you know how disagreeable it is. Its symptoms are inflamed eyes, throbbing temples, ringing noises in the ears, headaches, capricious appetite, and constant discharge of mucus. Fortunately its cure is not a question of what you will give, but what you will take. If you will take Hood's Sarsaparilla, the great constitutional remedy. which thoroughly purifies, enriches and vitalizes the blood, you may expect to be completely and permanently cured. The good blood which Hood's Sarsaparilla makes, reaching the delicate passages of the mucous membrane, soothes and rebuilds the tissues and ultimately cures all symptoms of catarrh.

The customs receipts of the Dominion received during the four months of the fiscal year show an increase of \$372,907 over the same period of last year. For the month of October alone the receipts have amounted to \$2,389,951, an increase of \$923,944.

### MRS. ANTHONY WADE.

OF KINGSTON, SUES CHELSEA, MASS. POLICE FOR \$4,000. (Chelsea, Mass., Post.)

Chief of Police Drury of Chelses and Officer Golden of his force have got them. selves into a false arrest case which is already international.

The Superior Court at the Suffolk Court ache tonight, pet? Better, I hope. Do you House will hear this morning a civil suit in which Georgiana Martin, a young woman from New Brunswick, asks \$2000 each from the chief and the patrolman, alleging that she was arrested, detained at the station three days without having been taken before a magistrate, and finally dismissed by the police without arraigr-

ment. The British consul, Mr. Blount, has personally interested himself in the case. A reporter of the Post saw Miss Martin last evening at 5 Cottage street, where she has been taken temporarily in by Mrs. Spence, and where she was to share a room with Mrs. Spence's little daughters. She is a plump and pleasing girl of 19. She tells her story in straightforward fashion and accounts for all of her time since coming to the United States like this:

"I came here last March from Kings. ton, N. B., where I lived with my mother and brothers. One of my brothers worked in Massachusetts and his last letter was from Chelsea. He lived with Thomas Gallant and worked in the gas works.

"I got into Boston about 9 o'clock in the evening and asked a gentleman in the station the way to the Chelsea cars. He asked me where I was going and said he was a minister in the North End mission. He took me to the mission for the night and in the morning they telephoned and found out that my brother had gone to work on the Portland boat.

I said I was going to leave. She wouldn't out without a hat or coat-it was Sunday morning-and went to a lady on Ash street, where I had been buying clothes. "At noon I went out again and met Officer Hoyt, or White. I told him about it, and later he and Officer Edgett went

I told him I was as much a lady as he was a gentleman, and then he grabbed me by the arm and rang for the patrol wagon. I was taken to the station. I hadn't anything to eat since supper the night before. Nothing to eat was brought to me the next morning, but to tell the truth, I couldn't eat and wasn't hungry anyway. But in court I staggered-I don't know whether it was because I was weak or nervous.

"They took me before Judge Bosson. He asked me if I would go home to New Brunswick if they sent me. I said I my mind, and said I couldn't go home and I didn't care what they did with me. They told that to the judge, and he said he wanted the case continued till the next day. Chief Drury stood up and said that would be an expense to the city, because the matron would have to stay all night with me.

"Then the judge asked me if I was guilty of street walking. I didn't know what street walking was, so I said yes and he gave me sixty days on the island. I didn't have anything to eat till 6 o'clock, when I got to the prison.

MAKE USE OF Paine's Celery Compound

The Only Medicine That Gives Nerve Force, Strength and Endurance.

Trainers and athletes in every department of athletics must be vigorous and healthy men if they would excel in bicycle races, football, running, jumping, skating and snowshoeing. The athlete should have a well balanced nervous system, blood fresh and pure, and the organs of digestion should at all times be in the

best condition. For many years Paine's Celery Compound has been the chosen health restrer of our best and most prominent athletes. It has done wonderful work and kept in condition men who have made world-wide reputations.

The celebrated John Graham who has trained athletes in Harvard and Columbia Universities, and who is now superintendent of Boston's famous gymnasium, says: "I have used Paine's Ceiery Compound to my benefit, and have no doubt that any per on undergoing great physical strain will find it a grand strengthener."

J. R. Watson, Boston, holding the world's championship as jumper and pole vaulter, says: "The strongest of athletes often feel languid and drawn out ... I have tried many things, but have found is thing that does me so much good as Paine's Celery Compound." James Michael, the great bicyclist, Hjertberg, the champion steeple-chaser,
