**A BRIGHT RETORT.**

A lieutenant of hussars, who was not the most polished in his manners, having joined his regiment, was asked by his colonel what his father was.  
"A farmer," said the other.  
"Pity your father did not make you follow his trade."  
"Pray, sir," asked the lieutenant, "what is your father?"  
"A gentleman, sir."  
"Pity he did not make you one," replied the other.—Gaiety.

**EMPLOY YOUR IDLE TIME, IT'S AS GOOD AS CASH.**

"Work at home" is an idea that will appeal to those who will have a good deal of spare time during the coming winter. To secure the services of such the Yorkshire Mfg. Co., of Toronto, are offering remunerative home work to be done with their Automatic Seamless Knitting Machine. Their work is that any one can easily learn and could be done by different members of the family according as they had leisure—a good way to make the idle minutes pay the rent and buy the firing. See their announcement in another column.

A man suffering excruciatingly from toothache meets a friend and tells him his woes.  
Friend—Ah, I had just as bad a toothache as you yesterday, and I went home and my wife pitied me and made so much of me that the toothache disappeared! You take my tip!  
Sufferer—Is your wife at home now, do you think.

Scarlet fever is epidemic in Ottawa.

A reliable and effective medicine for cleansing the blood, stomach and liver. Keeps the eye bright and skin clear. Cures headache, dizziness, constipation, etc. Purely Vegetable, large bottles, only 25 CENTS.

**PEOPLE RECOVERING**

From Pneumonia, Typhoid or Scarlet Fever, Diphtheria, La Grippe or any Serious Sickness

Require the Nerve Toning, Blood Enriching, Heart Sustaining Action of Milburn's Heart and Nerve Pills.

It is well known that after any serious illness the heart and nerves are extremely weak and the blood greatly impoverished. For these conditions there is no remedy equals Milburn's Heart and Nerve Pills. It restores all the vital forces of the body which disease has impaired and weakened. Mr. T. Barnicot, Aylmer, Ont., says:— "About a year ago I had a severe attack of La Grippe which left my system in an exhausted condition. I could not regain strength and was very nervous and sleepless at night, and got up in the morning as tired as when I went to bed. "I had no energy and was in a miserable state of health. "Milburn's Heart and Nerve Pills, which I got at Richard's Drug Store here, changed me from a condition of misery to good health. They built up my system, strengthened my nerves, restored brisk circulation of my blood, and made a new man of me. "I heartily recommend them to any one suffering from the after effects of Grippe, or any other severe illness."

**LORD ROBERTS TO SAIL HOME.**

AND ON THE WAY HE WILL VISIT ST. HELENA.

JOHANNESBURG, Dec. 7.—Baden-Powell has fixed the headquarters of the Transvaal police force at Modderfontein where the dynamite factory buildings are being used as barracks. Lord Roberts, who turned over the command to Kitchener will embark for England on a steamer that will call at St. Helena. He is expected to arrive home by January second. Prior to leaving Roberts issued farewell orders, praising the army for their conduct during the campaign. He referred to the sufferings and hardships of the troops which he said they endured uncomplainingly. He added they marched enormous distances with incredible speed over precipitous mountains and through dense jungles, food and clothing often a scarcity and were continually shot at by some invisible enemy. They acted according to the highest standard of patriotism and made the army respected and feared in South Africa. In conclusion Roberts said: "I regard you, my gallant comrades, with affection and admiration, You will live in my memory to my life's end."

**Pain in the Back**

Makes life miserable for many. Can it be cured? Yes, in a night. Nerviline gives a complete knockout to pain in the back, because it is stronger, more penetrating, more highly pain-subduing than any other remedy extant. One drop of Nerviline has more power over pain than five drops of any other remedy, and it is true strength you want when you've got a pain. Your money back if it is not so. Druggists sell Nerviline.

Mrs. Crimsonbeak—You talk about women being untruthful about their ages! You gave out that the event was your twenty-sixth birthday celebration.

Mr. Crimsonbeak—So I do, dear. "You know you're over 40."  
"Yes, but there were quite a number of my birthdays passed without being celebrated."

**Cook's Penetrating Plaster**

Father—What do you mean by kissing my daughter? I don't like it.  
Young Staylate—Don't you? Well, I do!

**Lumbago**

is Rheumatism of the back. The cause is Uric Acid in the blood. If the kidneys did their work there would be no Uric Acid and no Lumbago. Make the kidneys do their work. The sure, positive and only cure for Lumbago is

**Dodd's Kidney Pills**

Benedick—It is said that most of the people who commit suicide are unmarried. How are you going to get around that?  
O'Batch—Oh, well, I s'pose after a fellow has been married awhile he gets so he can put up with almost anything.

COOK'S ANODYNE LINIMENT

**WHEN I'M A MAN.**

When I am grown to be a man I'll be like papa, if I can, I'll have a moustache, stiff and brown, And when I'm thinking I will frown Three little wrinkles 'tween my eyes, To make me look so old and wise, I'll have some gold-framed glasses, too, To make my eyes as good as new. And when I go down town each day I'll read the paper all the way, I won't have very bushy hair, Like Mozariski, such a scare! But in the middle of the head I'll have a round bald spot instead.

When I am grown to be a man I'll be a good one if I can, I will not smoke, or drink, or swear, And I'll be honest, kind and fair, And if I have some boys like me, You'll see what a good pa I'll be! I'll give my children lots of fun, And buy them peanuts by the ton. Mamma says, though, that if I plan To be so good when I'm a man, I must begin now, right away, And be a good boy every day. So, when a grown man I am quite, It will be easier to do right, (I'd like to know, though, just for fun, How old pa was when he begun.)

FRANCIS P. CARSON.

**THE WORLD OVER.**

CHICAGO, Ill., Dec. 6.—While lying at the point of death with cancer of the stomach, Louis Marden, a retired merchant of Chicago, got up from his bed and dragging himself into an adjoining room, secured a revolver and shot himself through the heart. Death was instantaneous.

CHICAGO, Dec. 6.—A special to the Chronicle from Catlettsburg, Ky., says: William Gibson, the man who has been long sought for torturing and killing his daughter, was captured yesterday at Irwin hall, Carter county, and was brought after dark to the House of Sheriff Davis. County Judge Everett made an order removing the prisoner for safe keeping to Maysville. Deputy sheriff Gieger and jailer Hurd left the city for Russell, Ky., to take the train for Maysville. Further along the line the train was boarded and the coaches searched but no sign of the prisoner was found. At various points crowds are collected waiting for the news of the capture of the prisoner by the mob, and it is certain that if he should be taken he would be burned alive. It is thought the officers, having heard of the stationing of the mobs at the depots, have taken the prisoner off the train at some small village and are now in hiding.

PLATTE CENTRE, Neb., Dec. 6.—Only the prompt arrival of Sheriff Birnes and four deputies summoned from Columbus prevented lynching as the culmination of a series of shooting affray here yesterday. The town is greatly excited. W. J. Gentleman, a wealthy stock man, who caused the trouble, held the entire village at bay and shot four men, one of whom may die. Gentleman, inspired by a grudge over a cattle suit several months ago attacked Martin Burns, a farmer on the street. Infuriated after the fight Gentleman secured a shot gun and went in search of his enemies. He entered the blacksmith shop of Solson and shot the owner. Marshal Hayes tried to arrest him and was shot in the back. Finally overpowered, the man was taken to jail and there drew a revolver and shot into the crowd that had gathered and Henry Tanger and Robert Wilson were badly wounded.

LONDON, Dec. 6.—One thousand beer drinkers within a mile radius of Manchester are ill, and sixty have died. The result is a panic extending nearly all over the country, and the revival of an agitation for the compulsory use of malt in brewing. The poison has been traced to one firm, supplying Midland and Northern breweries with sugar for making cheap beer. The sugar is made from sulphuric acid, obtained from pyrites, which is brought from Spain and contains arsenic.

CHICAGO, Ill., Dec. 6.—A special to the Record from Ashland, Ky., says:—Gibson, the man accused of killing his two-year-old stepdaughter by forcing a red hot poker down her throat has been arrested here, and is now in the hands of a mob, that seems determined to lynch him.

It is said a mob has taken Gibson from the officers. The mob is made up of iron-workers, who propose to kill him by throwing him into a blast furnace.

UTICA, N. Y., Dec. 6.—Two persons were killed in this city yesterday morning by coming in contact with electric wires that had been broken from poles by the storm during the night and hung down to the sidewalks. The first victim was a Pole, about twenty years old, who was on his way home from one of the mills, where he had worked during the night. In the darkness he ran against a small wire which hung over the sidewalk. He caught it in both hands and then fell to the ground, where he writhed a moment and lay quite still and died, but retaining the grasp on the wire that carried the current. He was unmarried and had no relatives in this country. The second victim was an Italian lad, fifteen years old. He was on his way to one of the mills and in crossing a street one of his hands touched a suspended wire that had been broken from a pole. He was heard to cry out and when others came to the spot where he was lying he was dead. The snow broke down thousands of wires and the telephone, telegraph and car service are

badly crippled. Several horses have been shocked by electric wires during the morning and one was killed.

LONDON, Dec. 6.—The war office has received a despatch from Lord Kitchener, dated Bloombfontein, Dec. 6, announcing that Delarey with 500 Boers attacked a convoy proceeding from Pretoria to Rutenburg, at Buffelspoort, Dec. 3, burning half of the convoy, killing 15 men and wounding 23, including Lieut. Baker. The Boers also suffered considerable. Assistance was sent from Rutenburg, and commando Nek and the Boers driven off. Advices say that DeWet crossed the Caledon, Dec. 5th at Kareport drift, making for Odendal. Knox was following him.

VANCOUVER, Dec. 6.—James Breen, who represents New York and other American capitalists, has bought \$5,000,000 shares in the Dominion Copper Co., of which Mackenzie and Mann, the Canadian railway magnates, are at the head. The basis of the deal was \$2,000,000, and most of that amount has been transferred in cash.

PATERSON, N. J., Dec. 7.—Mrs. Wm. C. Cook and her four children all became seriously ill here last night after eating supper and it is believed they were poisoned by tea, which had been purchased yesterday. To-day the mother and oldest daughter were said to be out of danger, but the younger members of the family were in a precarious condition. The tea will be subjected to a chemical examination.

**A Gift to Give**

It is often difficult to decide what to get your friends for holiday gifts. Here is a suggestion:

"Good morning, Jennie, I have brought you a nice present," said Gertrude, as she handed her friend a neatly wrapped package.

The pale, weary looking girl, who was slowly recovering from severe illness, opened the bundle and held up a large bottle of clear, rich medicine.

"Hood's Sarsaparilla!" she exclaimed. "I have been reading about it to-day and wished I had a bottle."

On New Year's Day Jennie was able to be out on the street, and to her friends who remarked how well she was looking she simply said, "Hood's Sarsaparilla," and every one of them knew it was this great medicine that had given back her health.

**AN INVENTOR'S STRUGGLE AND ULTIMATE REWARD.**

Victor Belanger, a Frenchman residing in Boston, has for thirty-one years been struggling along in the face of reverse after reverse. He has, in that time, invented and patented a number of things. He has spent time and money in experiments and in the exploitation of ideas, only to be rebuffed time after time and to be confronted by the mocking face of failure.

But some time ago, Mr. Belanger had pointed out to him one of the defects of the spinning frame by George O. Draper, one of the members of that famous New England family. Mr. Belanger started at work systematically and the result was that, although he was three years at it, he has now devised a plan which makes the Carroll ring a back number in the words of Mr. Carroll himself. With the device at present in use, it is possible to make only from 7,000 to 10,000 revolutions per minute, while with the invention of Mr. Belanger, 40,000 can be made without difficulty. That represents a speed of 4 miles a minute, and this invention nearly quadruples the capacity of every spinning mill in the country.

The rewards have been in the measure of the achievement. A Company has been formed, and it is understood that Mr. Belanger has received \$2,500,000 in stock and a very handsome cash payment besides. Three years ago he was leading a miserable existence, half clothed and half fed, but to-day he lives in affluence at his home at San View, where he maintains a gorgeous house, a feature of which is a great onyx bath tub. This story points to its own moral.

The Inventor's Help, a 148 page book, published by Messrs. Marion & Marion, Patent Attorneys, Montreal and Washington, will be sent to any address upon receipt of 10 cents.

**Children Cry for CASTORIA.**

'Lester dear,' said Mrs. Giddings, anxiously to her husband, 'I don't like that cough of yours.'  
'I'm sorry,' replied Giddings, 'but it is the best I have.'
