A MAIDEN TO HER MIRROR.

(New York Mail and Express)

My love has said that I am fair,
He finds me fair to view;
My love has praised my golden hair,
Has praised my eyes of blue.
He vows that I am beautiful
All other maids above,
I only know I am content
Because I please my love.
And if he swears that I am fair,
I would not fairer be;
And if he praise my golden hair,
'Tis praise enough for me;
And if I do but please my love,
'Tis all I ask to know;
And thus I am all maids above,
In that he tells me so,
My dear love tells me so.

My love has said I am his fair,
My lover loves me true;
My love has stroked my golden hair,
Has kissed my eyes of blue;
He vows that I am worshipful
In every sooth it must be truth,
Since I have won my love,
And if he swears that I am fair,
I could not fairer be;
And if he kiss my eyes and hair,
'Tis sweet content to me,
And if I can but charm my love
Naught else I seek to know;
And thus I am all maids above
Because he loves me so,
My true love loves me so.

MARITIME PROVINCE NOTES.

Chatham World: It is feared that the schooner Mary Eleanor, owned by Messrs. Anderson of Church Point, has been lost with all on board. She left Church Point for Sydney or Summerside about ten days ago, with a load of hemlock lumber. Mr. John Anderson, who was in town on Tuesday, said she had not been heard from. A lot of lumber, corresponding to her cargo, has been picked up on Prince Edward Island. Mr. Wm. Anderson's son Ernest, a fine young man, was on board. She was commanded by Capt. John McIntyre, and manned, besides Ernest Anderson, by John Savoy and Veneau, all of Chatham or its vicinity. Mr. Savoy was married, his wife being a sister of Pilot Jimmo. The schooner was on the bar Wednesday night, 7th, threw some of the cargo overboard, and went to sea on Saturday, the 10th, leaking. She was stranded when coming into the river, coal laden, several weeks ago, and was bought in at auction by Messrs. Anderson.

Was it murder? is the question now agitating the minds of the people of Picton, N. S., concerning the body of Ernest Munn, found dead on the railway track, and supposed to have been killed by falling off a moving train last Tuesday night. The coroner's inquest has been twice adjourned so as to elicit all the facts in connection with the investigation. The night of his death three or four fellows were with Munn and some were drinking.

COMING! COMING!

Cold weather is expected shortly, are you prepared for it? Have you got plenty good warm underclothing? This is a very important thing this season of the year. We have a large stock of underwear on hand and feel sure that we have something that will just suit you. Then again, what about Overcoats, Ulsters, Reefers, Gloves, Hose, Caps, etc.? We have a good stock of these also, which we will be on y too pleased to show you.

LADIES' COATS.

We have a few of the latest styles of Ladies' Coats, well made, very pretty, prices right.

BLANKETS, BLANKETS.

Good wool Blankets, gray and white; different weights and sizes.

RUBBERS & OVERSHOES.

We have the utmost confidence in recommending the rubber goods that we are selling.

1st.—They have the reputation of being the highest grade made in Canada.
2nd.—They are New Stock.

It will pay you to come to our store if in need of anything in the above lines.

A. & R. LOGGIE

There was 'also fighting and it was said Munn's life was threatened. One woman says she can swear she heard a man crying for mercy. The man was sober and the fact that a pool of blood was found a considerable distance from the place where the body was found creates suspicion.

The Newcastle Advocate says: Diphtheria is prevalent in Newcastle, Southesk, and Blackville. It broke out here about a month ago, and since then the doctors have made every effort to prevent its spread, and they have now the disease fairly in check. Miss Alice Keogh, the 12 year daughter of Mr. Patrick Keogh, Blackville, died of diphtheria in the convent here, Tuesday evening, Nov. 13.

The Rhodes, Curry Co., of Amherst, N. S., have completed their order of 140 tenement houses for the Dominion Coal Co., Cape Breton, and have received a repeat order from the same Company for 600 tenements, the greater number of which will be built between Glace Bay and Bridgeport. When it is considered that there are probably not more than one thousand houses in Amherst, the magnitude of this order can be more fully realized. It will require about 4,000,000 feet of lumber for the construction of these buildings, and about 300 men will be steadily employed for a year, as the contract is to be finished by the end of 1901. The houses are principally six room tenements.

Mr. S. H. Jones, of Summerside, P. E. I., shipped 630 lambs to Boston last Monday morning. He made another shipment Thursday.

The Campbellton Telephone says: New modern station houses will shortly be erected at Moffats, St. Alexis, Green Point, Beresford and Nigadoo.

G. J. Pike & Son, wholesale grocers, of Halifax, N. S., are in financial difficulties. A meeting of the creditors was held last Wednesday when a statement was made showing liabilities of \$60,000. An offer of 25 cents cash was made and is under consideration.

The steam saw mill owned and run by Mr. McCaskill at Little Narrows, C. B., was destroyed by fire last Monday night; loss about \$2,000; no insurance. The fire is supposed to have been caused by carelessness on the part of some of the workmen during the absence of the proprietor.

A severe accident occurred last Monday at the Superior school house at Hampton, N. B. A number of boys were in the cloak room together, when one of them, a lad named Russell Fenwick, son of T.

Watson Fenwick, an employe of the Ossekeag Stamping Co., was pushed with such violence against the wall that his collar bone was snapped in two, and he was taken to his home, where his uncle, Dr. J. Weston Smith, with the aid of Miss Travis, a professional nurse, set the fractured bone and made him as comfortable as possible under the circumstances.

On Saturday last an elderly woman named Youmans arrived by train from Fredericton on a visit to friends in Hampton, N. B. After she had left the train she discovered that she had left her purse on the seat of the car by which she had travelled, and hastened back to obtain it. As she reached the track the train was in motion, yet she ventured to step to the car platform, only to find herself struck back and prostrated on the station platform. Ready hands were extended to her help and Dr. Wetmore rendered what surgical aid was necessary. Although somewhat bruised by the fall, she was not seriously injured.

At a meeting of the Imperial Hotel Company held at Halifax, N. S., last Monday, it was decided to build a hotel to cost a quarter of a million dollars. The urgent need of better hotel accommodation here has long been felt and the Masonic block has been bonded as a site for the new structure, which will be six storeys high and will cover the entire square. It will be first-class in every particular and will be capable of entertaining five hundred guests. At yesterday's meeting half the necessary stock was subscribed in a few moments.

Fire visited the farm of R. W. Kinsman & Co., one and a half miles from Canning, N. S., last Wednesday night. The farm is the largest in Nova Scotia, some thousands of acres in extent, and the Hon. F. W. Borden, Minister of Militia, is largely interested in it. A large barn was completely destroyed, together with all its contents, including 90 head of cattle, a third of which were thoroughbred; 12 horses, 100 sheep, 6,000 bushels of potatoes, 150 tons of hay, farming implements and machinery and other property.

St. John Globe: The adjourned official enquiry into the cause of the loss of the steamer City of Monticello, which was opened at Yarmouth on Tuesday, was resumed here to-day before Capt. W. H. Smith, R. N. R., Capt. Bloomfield Douglas, R. N. R., and Commander Spain.

The local police have received a circular from the police department of Chris-

tiania, Norway, asking that a strict watch be kept for Helge Sinding, a defaulting bank manager, who has appropriated a very large sum of money. The fugitive was traced to Odessa, Russia, in September, and in October was known to have been in London. Being a clever linguist and somewhat of a navigator Manager Sinding is supposed to have taken passage on some sailing or steam craft for this side of the water, possibly as a common seaman. He is described as a man of medium height, fair haired, beardless, bright blue eyes, slight build, stooping carriage and rather long featured. He is wanted in the Christiania courts, and any information of him is requested to be telegraphed to Royal Norwegian department there.—St. John Star.

The three masted schooner Lena Pickup, Matheson, master, went ashore Wednesday night at 6 o'clock near Black River, St. John Co., and within two hours was smashed to pieces. The second mate, a man named Chiffon, of Newfoundland, was drowned. The rest of the crew reached shore with great difficulty.

Word has been received at Halifax of a double drowning at West Dover. Maynard Young and his son, a lad of fourteen or fifteen years of age, left West Dover last Friday in a dory to attend to their nets, and up to Monday morning no tidings had been heard of them. Some fishermen from a schooner found the dory, and there is no doubt the father and son have been drowned. A large family and widow are left. Mr. Young was about forty years of age.

A stranger supposed to answer the description of John McIntyre, who is wanted for assaulting two old ladies, in South Corinth, Me., on Sunday last, was seen in the vicinity of Grand Bay.—St. John Sun.

George Muttart died suddenly Thursday at Summerside of hemorrhage of the brain. Mr. Muttart was for some years a member of the town council and one of the best known residents of that place. Lately he has travelled through many parts of Nova Scotia with his merry-go round.

Queen's County Gazette: Mr. Henry Gilchrist died on Saturday night at the advanced age of 93 years and 5 months. He was the oldest man in Gagetown and might well be termed one of the village landmarks. His funeral took place on Monday, interment in St. John's church cemetery.

Advices from Wolfville, N. S., state that an ecclesiastical council of Baptist churches met there last week to deal with the ministerial standing of Rev. C. C. Burgess, accused of immoral conduct. Twenty-eight churches were represented. After a discussion, from which the legal aspects of the case were excluded and simply the moral aspects dealt with, it was unanimously resolved that the accused be deposed from the Christian ministry, and that Wolfville church exclude him from its membership.

A new post office is to be opened at the Cove, Bocabec, shortly. Such an office will prove a great convenience to the summer visitors at this popular resort.—St. Andrew's Beacon.

Another of the aged residents of Chatham parish passed away, in the person of William Forrest of Rock Heads, who died on the 19th inst., at the advanced age of 92.

The ferryboat has been struggling nobly to maintain connection with Cross Point notwithstanding the snow and ice floating in the river. She made her last trip for the season yesterday.—Campbellton Events.

Mr. E. J. Mabon, of Charlottetown, has been promoted to the position of manager of the Bank of Nova Scotia in Sydney. Mr. A. J. Gordon formerly of Charlottetown and who a few weeks ago was relieving in the North Sydney branch has been promoted to the position of accountant at Montreal.

The Yarmouth Times says a number of families have been left in bad circumstances on account of the loss of their bread winners in the City of Monticello disaster. Several persons have interested

themselves in discovering needy ones and think that the ratenayers should meet and vote a suitable appropriation to the benefit of the sufferers.

The capital stock of the New Brunswick Telephone Company has been increased from \$150,000 to \$250,000 on 5,000 shares of \$50 each. The company's new line from Fredericton to Chatham and Miramichi district will be in operation in a short time. The wires have been strung and exchanges placed at Stanley, Buiestown and Doaktown.

Mr. R. A. Jacobson, of Campbellton, has received word of the death of his brother Herbert at Jacksonville, Florida. Deceased was first officer of a fruiter plying between Europe and Jacksonville. On the day of the great storm in which the Monticello was lost she was lying at anchor outside the harbor and was swamped by the great tidal wave, all hands being lost.

Herbert McLaughlin, a young man about 19 years of age, son of Mr. McLaughlin McDonald, of Cherryfield, met with a rather serious accident Wednesday night about 23 o'clock, while engaged with a number of companions charivaring a married couple near his home. McDonald was firing a parting salute and in order to make as loud a report as possible, had loaded the musket with a heavy charge, adding shot and a bullet. The gun was somewhat ancient and was not equal to the performances of other days, the result being that it burst, blowing off the thumb and a portion of the young man's left hand. McDonald was driven to town and had his hand dressed by Dr. White and was afterwards taken to the hospital. McDonald is an employe of the I. C. R. blacksmith shop and although he will have a maimed hand for life as the result of the unfortunate accident, yet barring unforeseen complications, will have good use of the injured member.—Times.

Frank Geldard came nearly shooting his brother Parker, at Elgin, Albert Co., on Monday last week. The two boys were in the garden. Frank was tossing a revolver in his hand when it went off. The ball entered the left side of his brother's coat, grazed his shoulder and came down his coat sleeve.

Moncton Transcript: The death of Mrs. Cynthia M. Prince, widow of the late Rev. John Prince, occurred this morning about 9 o'clock. Mrs. Prince has been ill for the past week with pneumonia, and for the past day or two suffered considerably. Deceased was seventy-eight years of age. She was twice married, her first husband being Mr. Mariner Wood, of Sackville. Mrs. Prince was a step-mother to Senator Wood. Two brothers of deceased reside in California and one in Fort Lawrence. The sisters are Mrs. Stevens, who resided with the deceased in Moncton, and Mrs. Trueman, of Sackville.

Messrs. Glime and Hoyt, who are in St. John in the interests of the proposed ferromanganese blast furnace, made a second inspection of the site the City Engineer has recommended. This is the vacant lots at the eastern end of Broad street, with the privilege of crossing the I. C. R. track and reclaiming land for a wharf, etc., in Courtenay Bay. The gentlemen, after a careful inspection of the property, expressed their satisfaction with it and announced that if they are able to make arrangements with the Council they will locate there.

First and Foremost

In the field of medicine is Hood's Sarsaparilla. It possesses actual and unequalled merit by which it cures all diseases caused or promoted by impure or impoverished blood. If you have rheumatism, dyspepsia, scrofula or catarrh you may take Hood's Sarsaparilla and be cured. If you are run down and feel weak and tired, you may be sure it will do you good.

The favorite family cathartic is Hood's Pills.

COOK'S NEW BLOOD PILLS.

NEW BRUNSWICK AS A SPORTING COUNTRY.

In a well written article on the game resources of New Brunswick in a recent issue of the National Sportsman, of Boston, the following appears:—

If New Brunswick is justly called the sportsman's paradise, it is by no means true that the medal of honor should be awarded exclusively to the lover of the gun. The whole region of the province of New Brunswick, in a similar way as the state of Maine, fairly bristles with lakes, ponds, rivers and streams. In the counties of St. John and Charlotte alone are located more than one hundred lakes where the speckled trout reigns supreme. It would be useless to attempt to give descriptions, or even name the countless numbers of lakes and streams that are fairly alive with that which delights the heart of the eager fisherman: speckled trout. It is only within the last four years that Americans have discovered the wonderful resources of the New Brunswick region. The fad of the day was to venture into the wilderness of the Moosehead or the hunting grounds of the Dead River region. While it is not the desire of the writer to in anyway belittle or underestimate the excellent hunting and fishing opportunities still abounding within the borders of the Pine Tree State, it is only desired to acquaint the lovers of the gun and rod with a region new and full of resources, that are seemingly inexhaustible for many years to come. A large volume would be needed to relate the wondrous success and experiences of American sportsmen as they entered the hunting grounds of New Brunswick and returned to the States with narratives and accounts of experiences which they will carry in stock for reminiscences for the rest of their natural lives. But it is fair to say that it is estimated during the fall of 1899 that some two hundred moose, one hundred and fifty caribou, one hundred deer and some fifty bears were killed by visiting American sportsmen alone."

Charlatans and Quacks

Have long plied their vocation on the suffering pedals of the people. The knife has pared to the quick; caustic applications have tormented the victim of corns until the conviction shaped itself—there's no cure. Putnam's Painless Corn Extractor proves on what a slender basis public opinion often rests. If you suffer from corns get the Extractor and you will be satisfied. Sold everywhere.

INVENTION AND ADVERTISING.

Invention and advertising go hand in hand in the progress and development of the world. What business can you conceive of that is carried on without the aid of patents? And what brings business success in any line quicker than advertising? Hardly a day passes but the news comes of the invention of some labor-saving device, the influence of which is to accelerate and cheapen the production of some staple. But you may have the best thing in the world and if no one else knows it, what good is it to you? The press, more specially in recent years, has stood as a bill board of publicity for the inventor, manufacturer and dealer in novel, new and useful articles, and as such has brought into communication thousands of this class from the remotest sections as well as the populous centres. This should not be forgotten when you wish to reach the greatest number likely to be interested.

Communication of Messrs. Marion & Marion, Patent Attorneys, Montreal, who will send, upon receipt of 10 cents, a copy of the "Inventor's Help," a 148 page book, containing practical information for inventors.

An All-Round Remedy.

Mrs. Hannesson, Binscarth, Man., writes: "I have used Haggard's Yellow Oil for Sore Throat, Cuts, Scalds and Frostbites for a long time and consider it the best all-round household remedy made." Price 25c. all dealers.

First boarder—A man shouldn't quarrel with his bread and butter.
Second boarder—Not unless he boards.

USE - - -

HAWKER'S TOLU OF WILD CHERRY BASLAM

It will cure any cold. Price 25 Cents.

HAWKER'S CATARRH CURE.

A positive cure for Catarrh or Cold in the head.

THE CANADIAN DRUG CO., ST. JOHN, N. B., SOLE AGENTS.
