

A WAY OF ESCAPE.

From the Endless and Terrible Tortures of Dyspepsia.

Dodd's Dyspepsia Tablets the Cure, the only Cure—They Cure Naturally and for all Time—And They Never Fail.

Why is it that women suffer more than men? The question has been asked hundreds of thousands of times, but no satisfactory answer has ever been given.

Meanwhile, gentle, loving, patient women go on, bearing her heavy load.

You can see the ravages of ill-health on thousands of otherwise lovely faces, every day. The sallow, weary-looking woman is enduring the miseries of Dyspepsia; that one, whose face is prematurely wrinkled, whose eyes have lost their brightness, and who bears, unconsciously, a look of continual pain, is a victim of Indigestion.

In the majority of cases women suffer needlessly. They are like the occupants of a burning house, who, although the doors are open, refuse to make their escape.

This is true of all who suffer from Dyspepsia, Indigestion, Biliousness, Soar Stomach, Flatulence, Nervous Debility, Catarrh of the stomach and all other ailments of stomach and digestive organs. It is true because there is a way of escape from suffering.

The way of escape—and there is no other, remember—is through the use of Dodd's Dyspepsia Tablets. They prevent or cure these diseases by removing their cause—imperfect digestion. They digest the food, tone and strengthen the stomach, and stimulate the bowels. They clean out the system, supply pure blood, establish perfect digestion.

KRUGER FLIES AND BOTHA RESIGNS.

LONDON, Sept. 14.—The following has been received at the war office from Lord Roberts:—"Machadodorp, Kruger has fled to Lourenzo Marques and Botha is obliged to give over the command of the Boer army temporarily to Viljoen on account of ill health, and in consequence of this I have circulated a proclamation as follows:—"The late President Kruger with Reitz and Archives of South African Republic crossed the Portuguese frontier and arrived at Lourenzo Marques, and will sail to Europe at an early date. Kruger has formally resigned the position which he held as president of the South African Republic, thus severing his official connection with the Transvaal. Kruger's action shows how hopeless in his opinion is the war which has now been carried on for nearly a year and his desertion of the Boers cause should make clear to his fellow burghers that it is useless to continue the struggle longer. It is probably unknown to the inhabitants of the Transvaal and the Orange River Colony that nearly fifteen thousand of their other fellow subjects are now prisoner of war, not one of whom will be released until those now under arms against us surrender unconditionally. The Burghers must by cognizant of the fact that no intervention in their behalf can come from any foreign powers, and further that the British Empire is determined to complete the work which has already cost so many lives and carry to a conclusion the war declared against her by the late gov't of the Transvaal and Orange Free State, a war to which there can only be one ending."

WHO HAT NOS HEARD Of Kendrick's Liniment. Thousands have used Kendrick's, the best for The household And stable.

A trial of Wheeler's Botanic Bitters will convince you of their value as a system regulator.

You will not regret it if you always keep Kendrick's Liniment in the house. Try KENDRICK'S LINIMENT.

A GREAT BOOK.

At the last World's Sunday-school Convention held in London, England, there was exhibited, side by side, 350 Bibles, on one shelf, no two of the same language. There is no other book in the world that has been printed in so many different languages, or in so many sizes and shapes as the Bible. More copies are sold annually than five of the most popular novels combined. This condition has been largely brought about by the great advance in Sunday-school work which has been fostered by the International Sunday-school Convention. Mr. Marion Lawrence, Toledo, Ohio, is the General Secretary, and will send circulars describing the work to those who wish to learn more about it.

Corn Sowing

Is a process conducted by the agency of light boots all the year round. Corn reaping is best conducted through the agency of Putnam's Painless Corn Extractor, the only safe and sure-pop corn cure. Putnam's Extractor is now widely imitated. Beware of all poisonous and sore producing substitutes; they are dangerous to use and they are sold simply because they afford the dealer larger profits.

TAKING THE REINS.

The promising Pennsylvania pacer Sidney Pointer, 2:14 1/2, by Star Pointer, has been a mile in 2:07 1/2.

It is said that Ben Kenny will not race Rita E, 2:15 1/2, this year, but will save her for another season.

Congressman Joseph W. Bailey of Texas will breed nothing but trotting horses and Angoras on his new ranch.

May Overton's pacer by Bow Bells, dam Rosy Morn, is stepping quarters in 33 1/2 seconds without extending himself.

Straight Ticket, by Baron Wilkes, who took a new record of 2:21 1/4 in a winning race at Bradford, Pa., June 27, is totally blind.

Fellfare, 2:10 1/4, sensational pacer on the Montana circuit several years ago, is at work on the trot at the Cleveland track.

The Canadian pacer Arbutuskan, 2:05 1/2, is good this year. He turned the Hamilton (Ont.) half mile track the other day in 2:10 1/4.

Larabie the Great (3), 2:12 1/4, is great just now. He worked in 2:10 1/2, trotting the last quarter in 31 1/2 seconds at Detroit the other day.

The California filly Eula Mac, 2:27 1/2, by McKinney, 2:11 1/4, now 3, is reported to have recently trotted a half in 1:04 1/2 at Santa Rosa.

Walter S, whom Ed Geers gave a grand circuit trotting record of 2:12 1/2 in 1896, recently took a pacing mark of 2:20 1/4 and third money at Saugus, Mass.

John Penman, formerly driver of Royal Victor, 2:08 1/4, who was reported to have died in South Africa, is said to be alive and well and in the service of the British government.

Friends of C. H. Brosman are anxious to back Imp at weight for age against Ethelbert, Kinley Mack, Jean Beraud and any horse in training, mile and a quarter, for \$5,000 a corner.

The best green pacer at the Nashville track is in John Hull's string. He is a bay stallion, by a full brother to Star Pointer. The first time he was asked to go a mile at anything like speed he stopped all round the track in 2:25. He is expected to beat 2:10 before the close of the season.

FACTS ABOUT HAIR.

The encyclopedias regard hair falling below the feet of women as extraordinary.

Several years ago Miss E. J. Whitten, of Topsham, Me., was said to have hair eight feet in length.

Marie Antoinette wore a pompadour and rolls thrown back past her ears. Queen Anne wore side curls.

A hair is a succession of cylindrical or elliptical horny cells. Curly or kinky hair is due to sudden "breaks" in the regularity of the cellular structure.

Short hair was the style under the Francis I regime, but with the court of Louis XIII came long hair as a fashion. curls, wigs, powders, periwigs and perukes.

Samson's strength was attributed to his long hair, and his fate is charged up to Delilah's shears. Absalom's wealth of tresses was the cause of his own death.

In Egypt long hair was considered an incumbrance. It was a feature of beauty among the Hebrews and Greeks. Roman ladies used artificial hair and set the pace for future coiffures.

Peasant girls in the south of France cultivate and sell their hair as a regular business practice. Traders who attend the fairs purposely to traffic in tresses frequently find hair five feet in length, and hair six feet long is very scarce.

RECENT INVENTIONS.

Razors can be conveniently sterilized by a new apparatus which has a tank for heating the water or sterilizing liquid, provided with a hood which confines the steam, slots being cut around the edge of the hood for the insertion of the razor blade.

In Maryland a man has patented a shirt having a detachable bosom, which can be easily removed and a fresh one put in its place when soiled, the shirt having a series of buttons, to which tongues on the edges of the bosom are attached.

For army use a combined shelter tent and cape has been designed, having a canvas cover of pyramid shape, with a removable cap at the top, which is taken off for the insertion of the head, a telescopic pole being attached at the end of a bayonet to support the device as a shelter tent.

To give an alarm when a door or window is opened a new device is formed of a spring actuated bell secured to a strip of board, with a second piece of board hinged to the first and opened into a wedge for insertion under the door, which when opened closes the wedge and starts the alarm.

TOWN TOPICS.

The town of Brunswick, Me., owns 1,000 acres of land, which it will plant in white pine as a public investment.—Mechan's Monthly.

When St. Louis gets on its best bib and tucker to welcome her world's fair visitors, she must have a new city hospital, better streets, pure, slightly water and a sound and sensible municipal administration.

Public parks are money getters for a live town. Buffalo is the greatest grower on earth, and no city has made more liberal provisions for parks. It will pay Birmingham to follow the example of Buffalo.

A gold mine has been located on one of the streets of Keswick, Shasta county, Cal., and there are indications of an oil vein in another. The population will soon have to move away. The town is altogether too valuable merely to be lived in.

THE COOKBOOK.

Cucumber is excellent if well floured and fried a light brown.

In making drip coffee allow one tablespoonful of coffee to each cup of water.

Potatoes, beans and peas are heating vegetables, consequently should be eaten sparingly during the hot weather.

In estimating the amount of chicken salad to serve a company the proportion of five large chickens to 30 persons is a safe one.

In ordering pork for a roast ask always for young pork. Young roasted pork makes quite as good a salad as veal and is especially good in combination with celery and a little tart apple.

LIES TOLD BY FOOTPRINTS.

Telltale Shoes Worn by a Man in a Searching Party.

"Showing how misleading circumstances may be," said a railroad man, "a remarkable affair happened a good many years ago in south Georgia. The keeper of a little store near the Florida line was murdered one night and the place set on fire. Several negroes were suspected, and the whole countryside turned out to search for evidence. In the rear of the burned store was a marshy place, in which the footprints of the murderer were plainly discernible, showing that he had worn a pair of heavy brogans, the right heel of which seemed to have been split in a very peculiar manner directly across the middle.

"Among the searchers was a well to do young farmer, and as soon as he saw the footprints he was horrified to recognize the marks of his own shoes which he had on at that very moment. The split heel was the result of a chance blow with an ax while cutting wood, and the impression in the marshy soil was absolutely unmistakable. The crowd was worked up to a pitch bordering on frenzy, and, realizing his extremely critical position, the young man had presence enough of mind to make some excuse and slip away. He went straight home, put on another pair of shoes, hid the old ones and rejoined the party.

"Two or three days later the crime was traced by certain evidence to a negro who worked on his farm. The fellow broke down and confessed and incidentally cleared up the mystery. On the night of the murder, according to his story, he had noticed the brogans on the porch of the farmhouse and appropriated them, intending at the time to merely rob the store and fly the country. After killing the storekeeper he changed his plans and came home, thinking to divert suspicion by remaining quietly at work. Consequently he returned the shoes where he found them.

"After he had made this confession the farmer told his own story and produced the telltale footwear. Heaven only knows what might have happened had he been caught with them on his feet the first day of the search."—Exchange.

DUEL WITH POTATOES.

How a Kentucky Preacher Turned a Desperado into a Riddle.

One way of combating an evil practice is to make it look ridiculous. It was by this means that dueling was stopped in a certain district in Kentucky. A traveling preacher named Bowman—a strong, muscular fellow—was conducting services in Kentucky. At one of his meetings a well known desperado character created a disturbance, and, being publicly rebuked by Bowman, sent him a challenge to fight. Bowman, the challenged party, had the choice of weapons. He selected a half bushel of Irish potatoes, as big as his fist, for each man, and stipulated that his opponent must stand 15 paces distant, and that only one potato at a time should be taken from the measure.

The desperado was furious at being thus freshly insulted, and made an indignant protest, but Bowman insisted upon his rights as the challenged man, and threatened to denounce the desperado as a coward if he failed to come to time. As there was no way out of the fix but to fight, the desperado consented. The encounter took place on the outskirts of the town, and almost everybody in the place was on hand to see the fun. The seconds arranged the two men in position, by the side of each being a half bushel measure filled with large, hard Irish potatoes. Bowman threw the first tuber. It struck his opponent and flew into pieces.

A yell of delight went up from the crowd, which flurried the desperado, and his potato flew wide of the mark. Bowman watched his chance, and every time his opponent stooped for a potato another hit him in the short ribs, knocking the wind completely out of him, and doubling him up on the grass. The people were almost crazy with laughter, but Bowman looked as solemn as if he had just been preaching a funeral sermon. The desperado was taken home and put to bed, and staid there for more than a week before he recovered from the effects of the Irish potato duel.

Turkish Police Justice.

A trifling dispute between a Kurd and an Armenian on a street in Constantinople led to an amusing instance of justice as it is dispensed by the Turkish police.

A tobacco box was found on the sidewalk, as alleged, by a Kurd. An Armenian claimed the box as his own. Neither would give in, and the dispute waxed warm. From words they were near coming to blows when a policeman came up. But he could not decide the question of ownership.

At last the Armenian suggested that the policeman ask what was in the box. "Tobacco and cigarette paper," said the Kurd promptly.

"The box contains nothing but a 25 cent piece," said the Armenian, smiling. The officer opened the box and, finding the Armenian was right, settled the dispute by giving him the box.

"The Armenian is the owner of the box," he said. "The Kurd is a liar." Here he smote the Kurd over the head. "Allah be praised! For my trouble in deciding this complicated affair I will keep the 25 cents."

Heliographs in 1500.

In "The Art of Warre," by Nicholas Machiavelli, dated 1500, and translated by Peter Whitehorne, at the end of the book the translator has added some original matter. Here is "How to write and cause the same that is written to be read far off without sending any message." "A captain besieged in any town or fortress unable to communicate without by letter may, by night, so far as light can be seen, and by day, as far as a burnished glass can cast the sun on a hut or suchlike, may be descried—his having arranged with his friends the order of signal—one or two lights being flashed, hidden or displayed again." What is this but the heliograph of the present day?—London Chronicle.

A Remarkable Canal.

Running from Phillipsburg to Newark, N. J., there is a remarkable canal. It is 60 miles long and was operated before any railroads were built in the state. At times it runs side by side with the Lackawanna railroad. Locks are not used, the boats being drawn up and down elevations on great cars on a track 18 feet wide.

Shifting the Malady.

"Is your cousin sensitive about her deafness?" "Oh, no; she says she isn't deaf, but that people nowadays mumble awfully when they talk."—Indianapolis Journal.

"Hit the Nail On the Head."

If you have eruptions, pains in the head or kidneys, stomach trouble and feelings of weariness, "Hit the nail on the head." Hood's Sarsaparilla is the hammer to use. It will purify your blood. The masses praise it for doing this and making the whole body healthy.

Sick Headache—"I was troubled with sick headaches. I took Hood's Sarsaparilla, my husband having been cured of salt rheum by it, and soon it made me feel like a new woman." Mrs. Robert McAfee, Deerhurst, Ont.

Hood's Sarsaparilla Never Disappoints

WEDNESDAY'S STORM.

TWO SHIPS A TOTAL WRECK AT BATHURST

CHARLOTTETOWN, Sept. 14.—This province was visited by a terrible storm on Wednesday night, destroying telephone wire communication. Reports by letter state that the fruit crop is nearly ruined. Thousands of bushels of plums have been destroyed. The damage cannot be estimated. Barns belonging to John McPhee at St. George's were blown down. The bridge at St. Peter's was badly damaged and wharves in various sections were almost destroyed. A schooner, salt laden, was driven ashore and is a total loss. A schooner from Shippegan is ashore. In the gale the residence of Lenuel Hayden, Elmsdale, was burned to the ground. The family barely had time to escape with their lives.

BATHURST, Sept. 13.—Messrs. Sumner Co.'s tug Nyanza, with Norwegian Vice-Consul Gilbert, returned from the wrecked vessels this afternoon.

The Andvake, 1,053 tons, with a full cargo of deals loaded by the Sumner Co., for Wm. M. McKay, had her foremast broken and yards all smashed and she was full of water.

The Gilda, 750 tons, partly loaded by Adams, Barnes & Co., was driven up into shallow water and is a total wreck.

The portwarden, John E. O'Brien, with Jacob White and James Gammon, held a survey this afternoon on the Andvake and condemned the vessel.

The Italian barque, Marie, Madre B, 744 tons, anchored near to the other vessels rode safely through the storm. She had not commenced taking in cargo.

There were no casualties. It is reported that Andvake's heavy cables broke from the great strain, and the vessel ran into the Gilda which accounts for the latter losing one of her masts and getting rigging damaged. Both crews say the storm was the worst they ever experienced. Old people here fail to remember the like. The tide was the highest in thirty years.

THERE ARE OTHERS, But only one Kendrick's Liniment. The greatest Modern household Remedy.

You cannot fatten a horse that is out of condition. First give Granger Condition Powders, a valuable tonic and blood purifier.

For pains and lameness use Kendrick's Liniment.

Buy KENDRICK'S LINIMENT.

The exhibition building at Kentville was totally destroyed by fire on Friday night. As the building was some distance from the town the services of the firemen could be of little avail. There was \$1500 insurance on the building, and the fire is supposed to have been incendiary. An investigation will be held as to the origin of the fire.

Children Cry for CASTORIA.

The Athletic grounds at Moncton have been converted into a salmon pond.

COMBINATION OFFER.

In order to extend the circulation of THE REVIEW and to introduce one of the brightest Canadian dailies into this section of the Province, we will make the following combination offer:—

THE MONTREAL DAILY HERALD

—AND—

THE RICHIBUCTO REVIEW

will be sent to subscribers for one year for \$1.50

The Montreal Daily Herald is an 8-page daily with 16 pages or Saturday and is without doubt one of the best papers in Canada. Considerable of its space is devoted to agriculture, while its editorials are unsurpassed. We can recommend it as one of the newsiest and brightest papers in the Dominion.

The HERALD and REVIEW combined will keep any family posted on the doings of the world, local and foreign, and at the price quoted are within reach of every family in the County.

Cut the blank out and return it to us with your subscription and we will have the two papers forwarded to your address.

Enclosed find \$1.50 for which send me for one year THE REVIEW and The Montreal Daily Herald.
