This will be a treat in music to all who attend. Blanche Duncan, whose talent with the guitar can scarcely be surpassed also performs quite aptly on violin, banjo and autoharp. Captain Hudson, of Sydney Mines, with coronet and singing and Lieut. McWilliam with coronet will also render a very appreciative entertainment. Don't fail to attend these services. Admission, 10c., children, 5c.

DEATH OF THOMAS FRECKER.—The death occurred on Sunday morning, after an illness of several months, of Thomas Frecker, aged 79 years. Deceased, who had been living for the past few months with his daughter, Mrs. John White, came to Richibucto about 41 years ago. He was born on the Orkney Islands and came to Chatham when quite young where he lived for a number of years. Mr. Frecker was married twice and was the father of eleven children, 7 girls and 4 boys. His youngest son Thomas arrived home from the United States Tuesday evening just in time to attend the funeral of his father. Deceased was very highly respected and his many friends in Kent as well as outside will regret to learn of his death. The funeral took place on Tuesday afternoon from the home of his daughter Mrs. White and was quite largely attended. Rev. A. D. McLeod officiated. Interment was made in the Methodist cemetery here. His family have the sympathy of the community in their bereavement.

OBITUARY.—Mrs. Julia A. Horton, a well known and highly respected resident of the southern section of the city, died last night in her home, 340 Stafford road, after an illness extending over many months. Mrs. Horton's ailment was of such a nature that death was inevitable, but it was not thought until a day or two ago that the end was so near. Several weeks ago an operation for cancer of the throat was performed and seemed to give temporary relief. She had been gradually weakening and about a week ago she took to her bed and remained there until the end. Although her latter moments were painful, she retained consciousness and was surrounded by her children at the time of her death. She was of a very genial nature and was universally esteemed by all who knew her. She had a wide circle of friends who will sympathize with the bereaved children. Mrs. Horton was born in Main River, N. B., 58 years ago and has for many years resided in this city. Her husband died nearly 20 years ago. She leaves six children, one of whom is "Doc" Horton, the well known football player, and another Mrs. Fred Wright, wife of the well known motorman on the Columbia street line. The funeral took place at 2 o'clock Sunday afternoon from her late residence and was largely attended. The services were conducted by the Rev. Joseph Butterworth, pastor of the Harrison street church, who spoke words of consolation to the bereaved relatives. The pall bearers were Isaac Campbell, Albert Pine, Burton Pine and Russell Thorrott. Exercises at the cemetery were conducted by the Druids in accordance with the ritual of that order. The body was placed in a tomb and was taken to New Brunswick for interment.—Fall River, Mass., Daily Herald.

DEATH OF MRS. R. N. DOHERTY.—After years of patient suffering the mortal remains of the late Mrs. R. N. Doherty, of South Branch, were laid at rest in the burying ground of St. Andrews Presbyterian church, at Kingston, Kent, on Saturday, April 27th. She found a happy

relief from her protracted sufferings on Thursday morning, 25th ult., surrounded by her sorrowing husband, only son, D. M. Doherty, youngest daughter, Serena, and other friends, where, amidst tears of sorrow for their loss was blended thanks that her intense sufferings were over. During her fifty-four years with us here she experienced much bodily pain from different afflictions, all of which was borne with christian fortitude and cheerful resignation. During her term of usefulness and ability her many acts of kindness and charity in her immediate neighbourhood so endeared her to the hearts of all that their loss is considered that of a near and dear friend. So manifest was this feeling that near friends and neighbours solicited the privilege of acting as pallbearers on the occasion, which was pleasingly permitted. A very impressive and salutary service by the Rev. Mr. Townsend was held at the house, the substance of which must have proved very edifying and comforting to the bereaved ones. Considering the condition of the roads, the procession to the grave was very large, extending nearly a mile. Mrs. Doherty saw the light of day for the first time fifty-four years ago at Portauquique, Colchester Co., N. S., being the fourth child of John W. and Margaret Davison, now both dead. From several of a family but one brother and sister remain, both now living near San Francisco. Her brother, Woodbury Davison, lives in Oakland and her sister, Mrs. Hickman, in Alameda. Her only son, D. M. Doherty, is in the employ of Baird & Peters, of St. John. Her eldest daughter Minnie was the late wife of Mr. John Irving, of Baecouche, who left two daughters, the elder of whom resides with her grandfather in South Branch, while the other is with her aunt in Vancouver. The late Mrs. Doherty's third child, Lorraine, is the wife of Wm. J. Bowser, Esq., of Vancouver, and the youngest daughter, Serena, remains at home with her father. Friends from Colchester, N. S., were at the dear sufferer's bedside for some time, administering all the care and comfort that it was possible for poor human nature to bestow, which was gratefully acknowledged, while the greatest source of strength and consolation was a rigid dependence on the Great Comforter. We will all miss her, but the beautiful life she lived and the example of christian fortitude she exhibited through all her sufferings will leave an impress that will not easily be effaced. "Blessed are they who die in the Lord for their works do follow them."

Earth Eaters.
The custom of eating earth is practiced in widely separated regions and is particularly in vogue among negroes and American Indians and has even been observed in Europe. The anthropologist Lasch says that German quarrymen spread clay on slices of bread and eat it with evident relish. A certain kind of earth that is found in Persia is considered an epicurean dish, and in the Malay archipelago there is an earth known as "amphib." which is dug by some natives, who sell it to the people as a food. The practice of earth eating has spread to a considerable extent in China, New Caledonia and New Guinea, and Humboldt observed it in various parts of South America.
Some anthropologists tell us that among many savage peoples pregnant women are particularly disposed to the habit of eating earth and clay. In Guatemala during certain religious ceremonies the faithful are often seen to devour statues made of clay, and the practice in that country therefore is allied to religious superstition. This barbarous habit of earth eating is most injurious and is said to often result in consumption, inflammation of the liver and anaemia.
