

## RAILROADS.

## INTERCOLONIAL RAILWAY

On and after Monday, Nov. 26th, 1900 trains will run daily (Sunday excepted) as follows:—

LEAVE KENT JUNCTION.

Accommodation for Moncton and St. John ..... 13.07  
Accommodation for Newcastle and Campbellton ..... 13.07

Vestibule Sleeping and Dining Cars on Through Express trains between Montreal and the Maritime Provinces.

All trains are run by Eastern Standard Time. Twenty-four Hour Notation.

D. POTTINGER,  
General Manager.

Railway Office, Moncton, N. B. 26th November, 1900.

## KENT NORTHERN RAILWAY.

## TIME TABLE.

10.20	Dept. Richibucto, Arr.	15.00
10.35	Kingston,	14.45
10.55	Mill Creek,	14.25
11.10	Grumble Road,	14.10
11.20	Molus River,	14.00
11.40	McMinn's Mills,	13.40
12.00	Arr. Kent Junction, Dept.	13.20

Trains are run by Eastern Standard time.

Trains run daily, Sunday excepted. Connect with I. C. R. accommodation trains north and south.

WILMOT BROWN.

General Manager and Lessee.

Richibucto, Nov. 26th, 1900.

## MONCTON AND BUCTOUCHE RAILWAY.

1900 SUMMER TIME TABLE. 1900 On and after Monday, November 26th, 1900, trains on this railway will run as follows:

10.10 Arr. Moncton ..Dep. 15.35  
8.00 Dep. Buctouche. Arr. 17.35

(Eastern Standard Time)

Train from Buctouche connects at Humphrey's with I. C. R. train for Halifax, and at Moncton with the C. P. R. train for St. John, Montreal and United States points, leaving at 13.10 and I. C. R. train for Campbellton leaving at 10.35.

Train for Buctouche connects at Humphrey's with I. C. R. day express from Halifax, and at Moncton with all I. C. R. trains from east and north arriving not later than 15.25.

"Making Fast Time"

We are making a great record. No other fence can compete successfully with the "Page." We now make our own wire and so get just the peculiar quality we need. Hence, we now furnish a still better fence than ever. Prices lower this year. Better look into it. Not room here for prices. We also manufacture lawn fences and gates. High in quality and low in price.

WALKERVILLE, ONT.

## THE DOMINION PARLIAMENT.

## REPORT OF BUSINESS AT THURSDAY'S SESSION.

OTTAWA, March 8.—Private business held the attention of the house again yesterday. On motion of Sir Chas. Hibbert Tupper the Yukon liquor returns were referred to the committee on public accounts.

Premier Laurier introduced a bill to amend the alien labor law. It provides for a penalty of not less than \$50 or more than \$1,000 for all violations of the law, which prohibits the importation of for eigners under contract direct or indirect by advertisement or otherwise.

Proceedings may be taken by the consent of the attorney general of the province in which the complaint is laid or by permission of a judge before whom information is laid. The deportation of aliens is provided for.

Hon. Mr. Fielding announced that the budget speech would be delivered next Thursday.

The debate on Mr. Bennett's motion re the betterment of conditions for improving Canadian trade was resumed by Mr. Maclean.

Mr. McDonald, liberal, favored the improvement of Canadian waterways at any expense and Montreal as the national port. He showed that thousands of dollars were annually lost by lack of facilities for loading cattle.

## LOCOMOTIVES FOR THE I. C. R.

Hon. Mr. Blair stated that twenty locomotives had been ordered for the Intercolonial at the Kingston works for nineteen thousand dollars each without competition. Mr. Blair defended Grand Trunk contracts for Intercolonial purposes. He contended that they were payments for value received, and that it would have been ridiculous for the government to attach any condition to the agreement preventing the building up of American ports. He devoted an hour to defending the government's canal policy.

Mr. Hughes contended that the maritime province ports should have a preference over Portland, Boston, and New York, and emphasized the claim that the conservative policy stood for the development of Canadian ports.

Mr. Bennett replying to Mr. Blair, contended that no reply had been made to the question at issue. He suggested a bounty for carrying grain by Canadian routes. He withdrew the motion.

He withdrew the motion with the expressed hope that the government would get down to business and save Canada's interests.

Mr. Richardson's motion to remove the tax exemption from the C. P. R. lands granted as subsidies was considered. Richardson and Oliver (liberal) bitterly opposed Laurier's six months' hoist.

Laurier's amendment passed by 110 to 8.

## Humors

Come to the surface in the spring as in no other season. It's a pity they don't run themselves all off that way; but in spite of pimples and other eruptions, they mostly remain in the system. That's bad.

Hood's Sarsaparilla removes them and cures all the painful and disfiguring troubles they cause. Nothing else cleanses the system and clears the complexion like Hood's.

One of the big speculators in the street recently went to a banker and said that he wished to borrow \$1,000,000.

"All right," was the response, "what is your security?"

"My cheek," was the airy and surprising reply.

"Well," responded the banker thoughtfully, "your security is good enough, but I shall have to decline the loan, as our vaults aren't large enough to hold it."—New York Tribune.

Home Work—profitable—congenial—easy—on new plan. Be your own workmaster in your own home! Send your address on postcard and we will send you particulars. PEOPLE'S SYNDICATE, Dept. C, 117-119 St. Toronto.

**WHEELER'S BOTANIC BITTERS**

A reliable and effective medicine for cleansing the blood, stomach and liver. Keeps the eye bright and skin clear. Cures headache, dizziness, constipation, etc. Purely Vegetable, large bottles, only 25 CENTS.

## CANADA TO AUSTRALIA.

Sister of the Southern Sea,  
On this thy day of gladness,  
Canadian hearts reach out to thee,  
And not in fear or sadness;  
The Nation that steps forth to day,  
May write a stainless story;  
"Advance, Australia," on thy way  
To everlasting glory.

The timbers of thy Ship of State  
Are chosen well and rightly,  
Her lines are drawn with skin so great  
Swiftly she'll sail, and lightly;  
No hostile border swarms with foes,  
No pauper millions crying,  
No Arctic blizzards waft the snows,  
Where Spring is never-dying.

Then welcome to your rightful place,  
Fairest of Britain's daughters;  
This day we offer, face to face,  
Hands stretched across the waters,  
A pledge of love that shall not die,  
Of free and firm alliance;  
To all who envy or deery  
The Empire bids defiance.

## A COSTLY BOER REVERSE.

Kitchener under date of March 7 says: "The Boers failed in a determined attack upon Lichtenburg. Our losses besides the two officers previously reported were fourteen men killed and twenty wounded. The Boer general Celliers was killed. De Wet's position variously reported as his men scattered through Orange Colony. Our troops marching north reached Petrusburg to-day."

French reports further captures of a fourteen pounder creusot with carriage and limber complete, and one hotchkiss, making total of seven guns. The total number of Boers who have been placed "hors de combat" since the Western operations began is 979 men. Lord Kitchener states that a large quantity of ammunition, horses, cattle, etc., have been captured without casualties in Cape Colony. He further reports:—"Col. Parsons found a small commando north of Aberdeen and attacked them. Kritzinger's commando yesterday entered Pearson, but Gerringer from the West turned them out, and Delisle headed them off on the road to Somerset East."

According to the Sun the surrender of Botha would have been accomplished before now, had Kitchener been in a position to conclude the terms of surrender. When the surrender occurs, the Sun adds, it will include the surrender or entire dispersal of De Wet and involve the termination of the war.

## A TRUCE CONFERENCE.

A later despatch from Pretoria says that Kitchener and Botha had a conference to-day on Gun Hill. Botha was alone and Kitchener was accompanied by his secretary.

## GOSSIPING NEIGHBOURS

People will talk, and when neighbours get together there is very likely to be something said about Dr. Chase's Ointment, and the surprising cures it is effecting among sufferers with piles and itching skin diseases. It is by word of mouth, from friend to friend, that the fame of this great Ointment has girdled the globe. It stands to-day as the only actual and guaranteed cure for every form of itching, bleeding and protruding piles.

## A PREFUNCTIONARY PROMISE.

The groom entered alone and said confidentially:

"Do you use the word 'obey' in your marriage service, Mr.—?"

"No," said the minister. "I do not, usually."

"Well," said the expectant benedict, "I have come to ask you to marry me now, and I want it used."

"Certainly," replied the other. "It shall be done," and presently the couple stood solemnly before him.

"James T—," said the clergyman, "do you take this woman to be your wedded wife?"

"I do."

"Do you absolutely promise to love, to honor, and obey her so long as you both shall live?"

Horror and rebellion struggled with the sanctities of the occasion on the bridegroom's face, but he chokingly responded "I do," and the meek bride decorously promised in her turn.

After the ceremony was over the bridegroom said excitedly aside to the grave minister:

"You misunderstood me, sir, you misunderstood me! I referred to the woman's promising to obey."

"Ah, did you indeed?" serenely answered the minister. "But I think what is good for one side is good for the other, don't you? And, my friend, it is my advice to you to say nothing about it, for as an old married man I can tell you you'll have to obey anyhow."

## Just as Good!

Perhaps! Don't you run the risk, though, but always buy the well-tested and sure-pop corn cure—Putnam's Painless Corn Extractor. Sure, safe and painless. Putnam's removes corns painlessly in twenty-four hours. If your druggist does not sell it, send 25 cents to N. C. Polson & Co., Kingston, Ont., and they will send it to you post paid to any address in Canada or U. S.

"Well," she asked her old bachelor brother, as she took the baby away from him, "what do you think of the dear little darling, anyway?"

"Oh, I dunno," he said, "I guess me-by it'll do to raise."—Chicago Times-Herald.

It will work while you sleep, without a gripe or pain, curing Constipation, Biliousness, Sick Headache and Dyspepsia, and make you feel better in the morning.

## THE WORLD OVER.

NEW YORK, March 6.—On board the steamer Hohenzollern, which arrived and anchored at quarantine tonight from Genoa, Naples and Gibraltar, is W. O. Deputy, an officer of the United States secret service, with a prisoner in irons.

The prisoner is Lois Darrell, formerly sergeant in troop C, seventh United States Cavalry, who is charged with murdering and robbing his comrade at Pinar Del Rio, Cuba, in June last.

Darrell, after the crime, succeeded in escaping to New Orleans where he embarked for South Africa. Officer Deputy arrested his man at Beira, Africa, but was obliged to go to Lisbon in order to obtain a requisition for his extradition. The papers were finally received on January 20th and Officer Deputy started for New York with his prisoner.

A reward of \$2,000 will be paid Officer Deputy when he arrives at Havana where the prisoner will be turned over to the United States authorities. He will leave for Havana on Saturday.

WASHINGTON, March 7.—An interesting account of successful experiments in wireless telegraphy is contained in reports received at the state department from consul George W. Roosevelt, at Brussels, Belgium. The experiments were conducted by Emile Guarini, the inventor of an automatic repeater. He first attempted to transmit wireless messages direct from Brussels to Antwerp, a distance of 25 miles, and thoroughly established the futility of attempting to send messages over such a distance without the aid of captive balloons or masts. He then turned all his attention towards the transmission of the electric rays by relays, and in this, it is stated, was entirely successful. He telegraphed from a station on top of a structure in Brussels to one on the tower of St. Rombant church in Malines. Numerous messages, says Consul Roosevelt, were received and transmitted with great distinctness, and two messages were received at a time when communication with the ground from the transmitter had been interrupted. This was the first instance on record where wireless messages were exchanged between two large cities with the antennae placed on high monuments, and with out the help of captive balloons or kites. The rays arriving at Malines traversed several towns—Schaerbeek, Haren, Vilvorde, Epheghem and a large part of Malines itself—over chimneys, monuments, woods and other obstacles which tend to stop or weaken the electric radiations.

Mr. Guarini's system involves the method used in ordinary electric telegraphy of relays and translations, the apparatus at intermediary stations repeating the message automatically as received. Mr. Guarini represents a formidable argument against the hope that great distances will ever be traversed at a single flash.

"The world is round," he says, "and the rays spread in a straight line."

PRETORIA, March 7.—It is said in war circles that the leaders of the burghers in the field will surrender with the majority of their followers if assured of an amnesty and assistance in starting life afresh and if free pardon is granted to the rebels.

BLOEMFONTEIN, March 7.—De Wet is without guns and is hard pressed. Steyn is at Smithfield and Bruce Hamilton's column is preparing to advance. The Boers are occupying positions at Rouxville and Bushman's.

BOSTON, Mar. 7.—Thomas J. Burns, despondent, as he says, of his inability to obtain steady employment killed his young wife, Hannah, to whom he had been married less than two months, by cutting her throat with a razor at her home, No. 2, Washington Place, South

We give a handsome open face, gold filled Nickel Watch, American Lever Movement for selling only 2 doz. packages of Sweet Peas. Send at 10c. a package. Each package contains a splendid miniature of the most fragrant varieties of all colors. You can earn this fine Watch in an afternoon by setting to work at once. Mail this advertisement and we will forward the Seeds. Sell them, return the money, and we guarantee safe delivery of your Watch at once. Write to-day, as the season for getting seeds is short. Seed Supply Co., Toronto.

Boston, about 5 o'clock yesterday afternoon. Twenty minutes later Burns was in custody and the police were investigating one of the most brutal crimes which has demanded their attention in years.

Burns is 24 years of age, and his wife was one year younger. Burns was married Jan. 20 to Miss Hannah Dooley, an employee in the marking room of one of the large departmental stores where Burns himself had been employed until he lost his position something over a year ago. Since that time he has been employed as waiter in different places, but his income was small and irregular.

LUDDINGTON, Mich., March 7.—Securely locked in the impenetrable ice pack that has choked Ludington harbor for three days, the six powerful winter steamers of the Pere Marquet Railway Company has been churning the ice and working without avail for forty hours. High westerly winds have prevailed since Sunday and the entire shore of Lake Michigan is ice bound as far as the eye can reach. In places the ice barrier is piled up twenty feet high. In the channel where there is usually twenty feet of water the slush ice extends to the bottom. The imprisoned fleet includes the car ferries Muskegon and Pere Marquet steamers 2, 3 and 4. All are sheathed over with a dense and brilliant coating of ice. Passengers from the incoming boats walked ashore on the rough ice yesterday, after descending from the boats by means of ladders. The blockade is the first of the winter. In places an absolute embargo on freight traffic.

AMSTERDAM, March 7.—Queen Wilhelmina and Prince Henry have received deputations bearing wedding gifts. The nation's gift consisted of a diadem, a necklace, two bracelets of diamonds and sapphires. Other presents consisted of silver and china services. The railways furnished a complete royal train.

NEW YORK, March 7.—Louis J. McKenna, a clerk in an insurance office, is in St. Luke's hospital recovering from a surgical operation, one of the rarest known to modern science.

The operation is known as gastroenterostomy, and consists of removing the patient's stomach, cutting away the pylorus and several malignant growths in its vicinity, and restoring the stomach to its former place. McKenna was resting easy last night, and the physicians say that if the present improvement continues he will be up in a week.

McKenna complained of pains in his stomach and was troubled with insomnia. This condition called for an examination, which disclosed a tumor as big as a hen's egg. The point where the incision was made—the pylorus—is the exit of the stomach into the intestines, the other opening being the extreme through the oesophagus. The stomach was cut away from the intestines, and the organ was lifted completely out of its old place and laid on a cushion of antiseptic cloths placed on the patient's chest. Then the doctors cut away the tumor, and cut off the pylorus, the other malignant growth being also thoroughly cut away. The stomach was then put back in its accustomed place, having been joined to the intestines with silk sutures. But little blood was apparent throughout the whole operation, which lasted one hour and fifteen minutes. The patient rallied at once, and it was then seen that the operation was a success.

LONDON, March 8.—The Vienna correspondent of the Daily Express says: "Seven dungerian villages have been isolated by the floods. All along the banks of the Danube and its tributaries great damage has been done. The lower quarter of Buda Pesth is flooded to a depth of five feet. The bitter cold is driving wolves from the Carpathian mountains to the villages below. They have killed twelve people during the last four weeks."

CHICAGO, March 8.—A branch organization to be known as the Shipmasters Protective Association was formed in Chicago yesterday to affiliate with the marine engineers and boiler makers, who are now striking in South Chicago, Buffalo and several other lake port. No engineer will take a vessel out with a captain who does not belong to the order. In return, the shipmasters will pursue a reciprocal policy. The shipmasters also demand that engineers, mates and all other members of the crew of a vessel shall be employed by the captain and not by the shipowner as heretofore, and that all take vessels be classified according to tonnage, and that captains be paid salaries according to the tonnage grading.

## A CATARRH SPECIALIST

Mr. James Spencer, Clachan, Ont., says:—"I have been a sufferer from Catarrh for 15 years, which became chronic. I have spent a lot of money and consulted several doctors, among others a specialist in London. I have tried everything I could hear of or see advertised without doing me any good. But thanks to Dr. Chase's Catarrh Cure, I am completely cured after using three boxes of it. I recommend it to anyone suffering from catarrh."

To say always "got"—not "gotten." Her pupils were taught—not taughten. And 'twere proper for us To remember that thus Our language is wrought—not wroughten.

—Detroit Journal.

General William W. Henry,  
With Us in Canada.

HE IS AMERICAN CONSUL IN QUEBEC CITY.

STRONGLY INDORSES  
Paine's Celery Compound  
THE MARVELLOUS  
SPRING MEDICINE

Many of the wondrous successes and decisive victories of Paine's Celery Compound over disease and death are well known to the people of the seven provinces of our Dominion.

No other medicine ever given to suffering humanity has met with such approval from physicians, from nurses caring for the sick, from men and women of culture and influence, and from the sensible and thinking people of the toiling class. All unite in one grand chorus of praise—"Paine's Celery Compound is earth's best and surest spring health restorer and health-giver."

General William W. Henry, American Consul, in the city of Quebec, writes as follows about Paine's Celery Compound: "It gives me great pleasure to indorse Paine's Celery Compound, both on account of the results obtained from personal use of the remedy and knowledge of the remarkable cures it has performed. I believe it has no equal in curing diseases of the nervous system and building up those who are weak and out of health. It has cured several friends of mine of rheumatism in its worst form, and I have no hesitancy in recommending it to all afflicted with that disease."

## DOMINION NEWS.

ST. CATHARINES, March 7.—A mysterious fire which broke out yesterday afternoon in an unoccupied room of the customs department on the second floor, post office building, did considerable damage and destroyed valuable papers. When the fire appliances in the building were brought into use it was discovered that the large nozzles of the fire hose had been stolen and the hose otherwise disabled. From this and other suspicious facts it is believed there was a desperate plot to destroy the government property. The department has been asked to investigate the affair.

Toussaint Prefontaine, Montreal, has entered an action against Jacques Grenier, ex-president of the defunct Banque Du Peuple, for \$55,000, on the ground that he had lost that amount through the failure of the bank, due to guilty neglect of Grenier to do his duty as president.

The Port Arthur and Fort William delegation which called on Mr. Tarte at Ottawa on Wednesday wanted a subsidy for an interprovincial steamship company to do business between Halifax, St. John and the upper lakes. They also spoke of the importance of winter navigation on Lake Superior.

VICTORIA, B. C., March 7.—In the latest newspapers from Japan an account is given of the barbarous murder of Captain Watts Jones in China. It is said that he was received with apparent friendliness in the yamen of Shan Si, and was in the act of receiving his pass port when his hands were struck off. He was then taken outside the yamen, sliced in several pieces and his head cut off. His companion, a Roman Catholic bishop, was put to a lingering death, his tortures being inflicted so gradually that it was four days before death relieved him. A letter from Kiang Si states that many anti-Christian disturbances have recently occurred in several places within the prefecture of Chin-gan. One hundred thousand famine sufferers are in danger of death in Shen Si.

VICTORIA, B. C., March 8.—Word has been received from London that Sir Joseph Trutch, first lieutenant governor of British Columbia after confederation, was thrown from his carriage and received injuries which it is feared will prove fatal.

VANCOUVER, B. C., March 8.—Steamer Empress of India brings advices from Singan Fu that distress from famine is increasing with the severity of the weather, and more than 100,000 persons will perish from cold and hunger. Many stations for free distribution of rice have been established, but they are pitifully insufficient.
