CARE OF THANKS.—We are requested on behalf of the ratepayers of Main River school district number three, to thank all those who, not residing in the district, offered their services which were kindly appreciated by all concerned.

SPECIAL OFFER.—Until the 15th July I am offering at a great reduction my complete stock of eye glasses and spectacles. Every eye can be suited, far or near sighted people can get what they want. I have also the gold, silver, nickel and allumnic framing, and what is called the "rimless" which is a beauty. Call and see. DR. BOURQUE, Richibucto.

HONOR TO A KENT COUNTY BOY.—In recognition of the work he has done in obstetrics, Dr. Robert Jardine has been elected a Fellow of the Royal Society of Edinburgh. This coveted honour is one which is possessed by exceedingly few Canadians. Last summer Dr. Jardine spent a month with his parents at Jardineville. His many friends in Kent will be pleased to learn of his success.

PAINT! PAINT! PAINT!—Having recently opened a Carriage, repair and paint shop in Rexton, I am now prepared to do all kinds of carriage work at the shortest notice and the lowest prices. I also intend to do house painting in any part of the county. Any person wishing good first class painting at prices to suit the times would do well to call on or write I. W. MITCHELL, Rexton, Kent Co., N. B.

DEATH OF A FORMER RICHIBUCTONIAN.—An exchange from Nelson, B. C., of a recent date, says: "The death occurred last night at the city hospital of P. W. DesBrisay, the civil engineer. Deceased came to Vancouver many years ago and worked for a time with the C. P. R. He was also assistant City Engineer for some months. He leaves a wife and family who reside on Cordova street. Mr. DesBrisay was a native of Richibucto, N. B., and his family are among the oldest and most respected residents of that Province."

HUMPTY DUMPTY NEXT FRIDAY.—The Humpty Dumpty Company will give an entertainment in Rexton in the public hall on Friday, June 21st. The Evening Mail, Halifax, Friday, May 10th, says: "Humpty Dumpty opened at the Academy of Music last evening to a good-sized house. The company, headed by James R. Adams, kept the audience in an uproar of mirth from beginning to end. The pantomime proving ridiculously funny. The flying ring gymnasts, Frank Hansen and Fred Newal, did excellent work and performed many difficult feats in an admirable manner. Gorman and Proctor, in their musical sketch, "Hot Scotch," met with marked appreciation. Miss Proctor has a charming voice and an equally captivating manner." Seats on sale at Brait's store.

ANNUAL SCHOOL MEETING.—Our annual school meeting was held in the grammar school room last Saturday and was attended by a large number of rate payers. The several reports of the Trustees, Secretary and Auditor were read, discussed and unanimously approved. G. V. McInerney, E. q., who has filled the position of trustee continuously for the last fifteen years and who by operation of law would be retired this term, declined acceptance of a nomination to continue as trustee. It is but just to that gentleman to say that during the long term he has acted as trustee his conduct was fair and just to all and met with the approbation of his colleagues and with the entire approval of the rate payers. Dr. Bourque was nominated to fill his place, who in a very modest, neat and appropriate speech accepted the nomination. The assessment for the year was found at one thousand dollars. The debt was reduced \$200 this last year and now is only \$450—it will this year be reduced \$200 more. By a very large majority vote, the course pursued, the capacity and good management of Mr. Cowperthwaite was approved and his continuance as principal recommended.

LETTER FROM SOUTH AFRICA.

The following letter was received by E. S. Scott from Alfred Shaddick, who went to South Africa with the Baden-Powell constabulary, will be of interest to his friends in Richibucto as well as other readers of THE REVIEW.

Heidelberg, S. A.
May 13th, 1901.

DEAR FRIEND:

As I was sitting in my tent here to-day I thought I would write you a few lines to let you know how I am getting along. We are having a heavy sand storm here to-day, the sand blows about so thick that you can hardly see ten feet. Well, I guess I will start and tell you about our trip. We sailed from Halifax on Friday and the first five or six days out we had a little rough weather, and besides that most of the boys were sea sick. The voyage was not very pleasant at first, but they soon got over it. Eleven days out we arrived at St. Vincent; we had no sooner got into the place than the steamer was swarmed with boats full of negroes and they would dive for money that the boys would throw overboard to them. We did not stay there long; it took us four days after we left there before we crossed the line and in that time we had five deaths. Old Father Neptune was aboard and he got used pretty rough, but some of the officers got hauled over the coals. It was not very hot crossing the line because it was cloudy all the time. We had a lot of sickness aboard—fever, black diphtheria and measles, but I have escaped all so far. We arrived at Cape Town on the 24th. We did not even stop long enough to see the place; we arrived at half past one o'clock in the morning; the place looked very pretty from the water at night with all its lights beaming right under the base of the high table mountain. There were also about two or three hundred steamers and sailing vessels in port when we arrived. We did not go ashore until after dark and then we went right aboard the cars, but it was 11 o'clock before we got out of Cape Town and it took us six days to come up to where we are now. We had to pass a medical examination at Cape Town, one at De Aar, one at Springfontein and another one here at Heidelberg. Baden-Powell was here to-day and inspected us. The Canadians are not all stationed in the one place, four hundred of us are stationed here, four hundred at Bloemfontein and four hundred at Krugers-dorp. We are having a very good time here, we have three hours drill each day and nothing else to do. Sometimes we have a little march out about twelve or fifteen miles or so. We can lay here at nights and hear shooting going on around us. I don't expect it will be very long before we will be out at it. We are liable to be at it any day, perhaps before this letter reaches you. I would not be sorry to see some fighting and I do not care how soon we are into it. Well, I guess I will close for this time. I have been in good health, and have never been a day sick since I left; I only hope I will always remain as well, I will be happy and contented. I like the place fine. Hoping this will find you well, I remain your friend,

Prices 25, 35, 50c. SEE GRAND STREET PARADE AT NOON EACH DAY. Seats on sale at Brait's Store.

Rakings.

—Tiger Tea is good tea. For goodness sake use Tiger.

—Sailing parties are the order of the day.

—There was quite a heavy frost last Friday night and vegetables in some gardens were quite badly bitten. It turned the potatoe tops a dark brown or almost black color.

—A grand picnic in aid of the Public Hall, Rexton, will be held at that place on Wednesday, the 10th day of July. A big day is expected. Posters will be out in a few days announcing it.

—A correspondent from Nelson, B. C., says: "Nelson this year gives a prize of \$500.00 for a game of base-ball. Jasper Phair, formerly of Richibucto, will be in the pitcher's box for the Nelson team."

—The annual entertainment by the pupils of St. Louis Convent at St. Louis, N. B., will take place on Wednesday, June 26th. Doors will open at 6 p. m. Performance will begin at 7 p. m., sharp. Admission, 25c., reserved seats, 35c.

—The wedding took place on the 12th inst., at Medford, Mass., of Mr. Burton F. Pendleton to Miss Grace E. Scott. The bride is a daughter of Mr. Wm. Scott, of Jardineville, Kent Co. THE REVIEW joins in wishing the young couple a long and happy life.

—Mr. R. Phinney has bought the Rusk building on Queen St. and is having it moved alongside the tan shop on Court St. He intends having it fitted up for a shoe shop. His rapidly increasing business in the line of shoe making necessitates this improvement.

—The quickest trip ever made from this port by any sailing vessel was made last week by the schooner Maggie Roach, Capt. William Weston. She left Rexton on Tuesday morning for Charlottetown with a load of lumber and was back to Rexton on Thursday night, just taking three days to make the trip. This is the fastest trip on record.

—We have just received a copy of the July number of the Delineator which is by far the best magazine in the world. The Delineator contains all the latest fashions as well as a number of articles by the best writers. The most noticeable feature of the magazine is the beautiful three-color painting in an article on the Pan-American Exposition.

—Sunday being the twenty-seventh anniversary of the I. O. F.'s formation, some thirty-five of the order from Rexton and Richibucto marched to St. Mary's Episcopal church in the morning where service was held by the pastor, Rev. H. A. Meek. The weather was fine although a little cold, and the church was crowded, every pew being taken as well as chairs in the aisle. Quite a number from Rexton attended.

—We would like to see some of the young men of the town get together and make arrangements for a celebration on the 1st of July. We do not see any reason why Richibucto cannot have as good a celebration as other towns, and we would suggest that some one call a meeting for this (Thursday) evening and see if something cannot be done. We will do all we can to make it a success if some one will start the ball.

—During the school meeting at the Little North West on Saturday morning some of the ratepayers of that district began quarrelling over the finances and as a result Mr. John Davis was severely beaten by one Daigle and is now lying in a precarious condition, there being small hopes of his recovery. He was kicked almost to insensibility and at last account was bleeding inwardly. Drs. Bourque and Tozer are in attendance.

—Dr. DeAlva, representing the German Medicine Company, of Galt, Ont., with a small company of ladies and gentlemen visited Richibucto last week and gave performances on Wednesday and Thursday nights. Dr. DeAlva intended remaining until Saturday night but on account of the very windy weather, which almost blew his tent down, he was compelled to close up his tent. The two performances which he gave were very much enjoyed, the audience being kept in continuous laughter. He left on Monday for Buctouche.

MAIN RIVER NOTES.

As the concert is over I have a few moments to spare and will utilize them in writing a few items of interest to Main River people at home and abroad.

It is useless to give our concert mention in these columns for all who were present know better than words could describe, the credit due our young amateurs.

Miss Kennedy, our school teacher, spent a few days with friends up the river, to recruit herself after her exertions at the concert.

The Misses Hannah and Myrtle Horton, of Fall River, Mass., who are visiting friends here, were the guests of Mrs. W. W. Graham last week.

Invitations are out for the wedding of Miss Lizzie Lawson and Mr. Isaac Atkinson.

A number of our Main River people attended a dance at Pine Ridge on Thursday evening last. All praise the hospitality of the host and hostess.

Our school will close in two weeks' time much to the regret of all, for with its closing we lose our beloved teacher.

Work on the bridge over McKay's Creek is progressing rapidly, but the crew who were employed on the new bridge were compelled to quit work on account of a scarcity of lumber.

Thoughts of the concert still require a small portion of my attention and distract my mind so I can think of no more news.

Thanking you, ladies and gentlemen for your kind attention, you may now proceed to the next column of interesting reading.

STAGE MANAGER.

If your dealer has ever tried them himself he will certainly recommend Magnetic Dyes for home use.

REXTON NOTES.

JUNE 18.—The annual school meeting was held in the Superior school room here on Saturday last, Dr. J. L. McWilliam occupying the chair. H. M. Ferguson, E. q., the retiring trustee, was re-elected unanimously. Mr. Ferguson has acted trustee and secretary for fifteen years consecutively, and his election to that office is ample proof that during all that time he has given perfect satisfaction. Mr. Geo. F. Atkinson was elected auditor for the ensuing year. Miss Mary McLean, who has taught here and in Jardineville for the last eight and a half years, has resigned. Her place will be taken by Miss Sadie Forster. The school is in a flourishing condition, and the district strong financially.

Mr. Graham Jardine will sail for England on board the barque Valona, which is now completing her cargo outside the bar. Mr. Jardine goes for his health.

These pills are a specific for all diseases arising from disordered nerves, weak heart or watery blood.

They cure palpitation, dizziness, smothering, faint and weak spells, shortness of breath, swellings of feet and ankles, nervousness, sleeplessness, anaemia, hysteria, St. Vitus' dance, partial paralysis, brain fog, female complaints, general debility, and lack of vitality. Price 50c. a box.
