MEN'S Ready-Made CLOTHING.

Those who have seen our new stock of

MEN'S READY-MADE CLOTHING

will agree with us in making the statement that we have the best values in BLUE and BLACK SERGE SUITS that have been offered this year. If you are a judge, one glance at the goods and the make-up will convince you that what we say is right; and then if you examine them more closely you will see that the Lining, Trimmings and finish is first-class.

If you are in need of a Suit come and see ours, and if we have nothing ready-made that will just suit you, perhaps we can sell you a piece of cloth to make a suit. We have an excellent range of English and Canadian Tweeds, Serges, Worsteds, Mixed Vicunas, etc., which make up very nicely. You are sure to see something that will suit you.

Weak Back and Spinal Pains.

Pains in the back number their victims in thousands. Only very powerful and penetrating remedies will reach these distressing complaints, but Polson's Nerviline is as sure to cure them as anything in this world can be sure. Rub Nerviline over the sore spots night and morning, and see how quickly it drives out the pain. Five times stronger than any other. Good for internal and external use. Large bottles 25c.

TO BURN OUTLYING TOWNS.

CAPE TOWN, July 26.—There is a reason to believe that the Boer leader Scheeper intends attacking a number of outlying villages, which are without garrisons, over a large area of Cape Colony, in order to terrorize the loyalists and obtain recruits.

An eye witness furnishes some particulars of the doings of Scheeper at Murraysburg. On the 6th, says my informant, the Boer commandant and his forty men had a gala day, burning the public offices, Mr. Sherwood's house and shop, also Mr. Innes's house, besides endeavoring to blow up the latter's office. They also burned the farm at Vleiplaats belonging to Mr. Herboldt, member of the Cape Legislative Council. Scheeper stated his intention of burning the magistrate's residence on his return to the village, and many loyalists, including the acting magistrate, the clerk, and the postmaster, were given twenty-four hours to leave. A proclamation was then issued by Scheeper, declaring that as the inhabitants were not protected by the British, he proclaimed Murraysburg to be Free State territory, and promised to protect the people from the English and to issue supplies. At the same time he threatened to burn the farm of any man who gave information to the British and to deport him, with his stock, to the nearest Boer military post. Mr. Herboldt is stated to have been unable to leave his farm as all the draught animals had been taken. Scheeper declared that his next bonfire would be Richmond.

WONDERS OF THE HEART.

All the blood in a human body passes through the heart in about three minutes. The heart beats 70 times a second, 4200 times an hour, 100,800 times a day, throwing out 2½ ounces of blood a second, 656 lbs. an hour, 7½ tons a day. It is only when supplied with pure, rich blood that the heart, an organ 6 inches long by 4 inches wide, can accomplish this enormous amount of work and rebuild its own wasted tissues. Dr. Chase's Nerve Food is the most effective treatment available for heart affections because it forms new, red corpuscles in the blood and gives to it that life sustaining quality which is necessary to the health of every organ.

HIS OBSERVATION.

"It is strange how often the undeserving seem to prosper," remarked the thoughtful man.

"Yes," answered Senator Sorghum. "I have noted such a tendency in affairs with growing apprehension. Every once in a while some one without any money or influence worth mentioning gets an office."—Washington Star.

MARITIME PROVINCE NOTES.

NEWCASTLE, July 25.—Thomas Hurst, a young man hailing from Roxbury, Mass., committed suicide yesterday afternoon by blowing out his brains. It seems that he was desperate in love with Victoria McTavish, daughter of Donald McTavish, whom he met in Boston, while working together in the same hotel. His suit was rejected by Miss McTavish, who returned home a few weeks ago. Hurst followed the girl here and upon being refused an audience threatened suicide, but his threats were not taken seriously. He wrote a couple of letters which he afterwards tore up saying he could not live without her. Yesterday he drove to the McTavish house and being refused admission, shot himself through the head. An inquest is now being held. The body of the unfortunate young man was sent to Boston for interment.

Mr. F. E. Winslow, as agent for the mortgages, the Royal Trust Company of Montreal, took possession of the Maritime Sulphite Co.'s works on Saturday. The mortgage is for \$500,000, and was given to secure the payment of bonds issued by the company. Mr. Winslow paid the wages due, about \$9,000, taking from the men assignments of their claims, and kept the machinists at work on repairs that had been begun. It is likely that operations will soon be resumed under new management. There are a good many large local claims for lumber. Mr. D. Sullivan's is about \$6,000, Mr. Kingston's over \$4,000, and Mr. Foley's of Barnaby River over \$1,400. And there are many others. Writs of replevin have been issued for the purpose of trying to recover some lots of logs that have been delivered.—Chatham World.

Thomas Monk, a miner in the employ of the Baltimore-Nova Scotia Gold Mining Company, was instantly killed at the company's mine at Caribou, Thursday. Monk was working in the shaft when some rocks caved in and falling upon Monk crushed his life out. His fellow-workmen hurriedly removed the rock off the man's body, but he was dead when they reached him. The deceased belonged to Pleasant Harbor, Halifax County.

ARICHA, July 26.—Conrad, the six-year-old son of Captain Alexander Boudrot, Collector of Customs, was drowned here yesterday afternoon by falling off Gerrior's wharf. No one witnessed the accident. Captain Boucher, of the Lillian Maud, saw a hat floating in the dock and on going to the wharf saw the body lying in about four feet of water.

WOODSTOCK, N. B., July 25.—This morning as train No. 32, that leaves at six o'clock, was passing a point a short way above Benton, the body of a man was discovered lying a part way across the track, cut almost completely in two. The body is that of a young man apparently about thirty years old; dark, with a mustache. It is generally thought he was a tramp and that he was stealing a ride on an excursion train from St. Stephen last night, and fell between the cars.

GLACE BAY, N. S., July 25.—Shortly after midnight fire was discovered in the auction rooms of Gunn & Holley, underneath the P. W. A. Hall, on the south side of Main street. When the volunteer firemen reached the scene of the conflagration the fire was spreading rapidly, and it was not long before the P. W. A. Hall was a mass of flames. The firemen were greatly hampered on account of the scarcity of hose and water, but they fought the blaze with unremitting energy. The Mayor wired to Sydney for assistance. Notwithstanding the efforts of the firemen the flames spread to Gillis's restaurant and dwelling house on one side, and to J. K. McNeill's store on the other side. From the last named building the flames spread to the house owned by John Carmichael. The citizens felt that the town could not be saved, but the firemen displayed true grit, and at 1.30 o'clock the blaze was under control. The buildings destroyed were: P. W. A. building, occupied by Gunn & Holley and P. W. A.; John Carmichael's house, occupied by Mr. Hardigan and family, late of Sydney Mines; store owned by John McNeill; Daniel Gillis's building, occupied by McIsaac & Cassidy, was badly gutted. The origin of the fire is unknown. If it had not been for a downpour of rain the total

business part of the town would probably have been destroyed.

WOODSTOCK, N. B., July 26.—Very many people viewed the body of the man killed by Thursday night's train below this town, but no one has been able to identify him and the remains will be interred in the Methodist cemetery tomorrow. Marshal Harvey yesterday received from the chief of police, Rufus R. Wade, of Boston, a photograph of the suspected wife murderer, Joseph Wilfrid Blondin, and a description of him. Strange to say the photograph and description exactly fit the unknown man killed. Blondin's age is given as 33, weight 150 pounds, wearing a dark mustache, complexion pockmarked, protruding chin, and cast in one eye. This description is identical with the man killed. The India ink marks on the left forearm are also noticed in the circular. Coroner Hay is satisfied that the man is Blondin. The unknown man had no marks on his clothing or papers in his possession by which he could be identified. Marshal Harvey has telegraphed to Boston that the general opinion here is that the man killed is none other than Blondin, and he is awaiting a reply.

IF YOU CATCH COLD.

Many things may happen when you catch cold, but the thing that usually happens first is a cough. An inflammation starts up in the bronchial tubes or in the throat, and the discharge of mucus from the head constantly poisons this. Then the very contraction of the throat muscles in the act of coughing helps to irritate so that the more you cough the more you have to cough. It is, of course, beyond question that in many cases the irritation started in this way results in lung troubles that are called by serious names. It is in this irritated bronchial tube that the germ of consumption finds lodgment and breeds.

Great numbers of people disregard cough at first, and pay the penalty of neglect. Cough never did any one any good. It should be dispensed with promptly. Adamson's Botanic Cough Balsam is a well known remedy, and it is the surest and quickest cough cure known to-day. It does not deceive by dragging the throat. It soothes the irritated parts and heals them, then the cough stops of its own accord. The action of this medicine is so simple that it seems like nature's own provision for curing a cough. Every druggist has it. 25 cents. Be sure to get the genuine, which has "F. W. Kinsman & Co.," blown in the bottle.

HURTFUL AND HELPFUL GIVING.

TWO EXPERIENCES IN THE LIFE OF THE SUNSHINE SOCIETY'S PRESIDENT-GENERAL.

"When I was trying hard to get through the State University on a very little money," writes Mrs. Cynthia Westever Alden, the President-General of the International Sunshine Society, in The Ladies' Home Journal for August, "one day an old-time friend looked me over, and taking out a ten-dollar bill, handed it to me, saying: 'You actually look as if you did not get half enough to eat. Take this money and straighten up a bit. Don't forget to pay it back to me when you can. I don't believe in giving money to anybody.' Now I was not an object of charity, though I was sadly in need of Sunshine. I put the bill away and cried as if my heart would break. After waiting some days I sent the same ten dollars back, saying I was glad I could return it to her so soon. To this day I hear of her telling how she helped me financially when I was 'hard up.'

"Another woman, that same week, asked me why I did not take my meals at the restaurant where most of the students took theirs. I replied that it was a little too expensive for me. The next day I was called in by the proprietor of the restaurant, and asked if I could find time to look over the books of the concern and verify the work done by some one else, and if I would take the pay out in meal tickets. I thought it merely a bit of luck that had come my way. But at the close of the term the proprietor told me that my friend had paid for my meal tickets. Did the kindness offend me? I cried just as hard as I had cried over the ten-dollar bill, but it was a different sort of a cry."

THE RECENT MYSTERY AT OTTAWA.

DEATH OF MISS BELLA MORRISON IS STILL UNSOLVED.

OTTAWA, July 25.—The mystery surrounding the death of Miss Bella Morrison is still unsolved, but information is fast being collected to strengthen the theory of murder. On Saturday Ald. J. E. Ashwith related a circumstance that has a most important bearing on the case. It seems that George Roe and five others were driving in from Chelsea Sunday night, between seven and 8 o'clock when they passed a cab going toward Chelsea. Their attention was drawn to the cab by the very peculiar appearance of it. The windows were all covered over tightly with newspaper, and every crack in the cab was stuffed up with paper. They were so struck with the appearance of the cab that they stopped their rig and stated after it for some time. Mr. Roe said he even suggested that the cab should be stopped, but it was decided that the act might be construed into highway robbery so they let it go on. At the time, of course, the party didn't know anything about the present mystery. The body was not found till Tuesday morning.

The alleged threatening of Miss Morrison by a man who is said to be living in Missouri is borne out by Mrs. Akeson, the dead girl's sister. Mrs. Akeson remembers having called on her sister one evening last summer, when she was in the employ of the late Mr. John Hardie, on Maria street. She found her very nervous and afraid to go out, and, on inquiring the cause, she learned that the man in question had just been there. He was admitted at the front door by a member of the family, otherwise he never would have been allowed to enter. As soon as Miss Morrison saw him, she opened the kitchen door and ordered him out. He went at once, but said, "You will be sorry for this, Bella!"

Mrs. Akeson further stated that her sister had been very intimate from childhood with a young man who is now in the States. They had corresponded ever since he went to the States, and Mrs. Akeson thought they might be engaged. As she had seen little of her sister this summer, owing to her other sister's illness, she did not know positively; but she knew that she was expected to come home soon, and that her sister was much pleased about it, a fact which still further discredits the suicide theory. Mrs. Akeson thought that the man who had annoyed her sister had been jealous of this man. She did not know where the rejected lover was at the present time.

Miss Beatrice Orton says she saw Miss Morrison on Sparks street between 9 and 9.30 on the Saturday night before the body was found. She was with another young woman.

A True Brain Food.

Must replace the feeling of lassitude and mental tiredness by clearness and strength of mind. Not that it goes directly to the brain, that were foolish. The true brain food must be carried by rich, red blood. If mental fatigue worries and alarms you look not to the brain, but the stomach and assimilative organs. No remedy yet discovered, possesses the marvellous brain strengthening power that Ferrozone has demonstrated in thousands of cases. Ferrozone does not stimulate the brain into a fitful glow, but by improving digestion, strengthening the nervous system, stimulating, assimilating, giving new strength to the heart, it sends a stream of red vitalizing blood to the brain. This is a true brain food. Ferrozone is sold by R. O'Leary, General Merchant, Richibucto.

BRINGING HIM TO TERMS

"I would like to have your photograph for an article to be published in our Sunday paper," said the representative of the sensational journal.

"Couldn't think of it," said the man whose sudden fame was due to the fact that his son had eloped with a variety actress. "I have no desire for notoriety."

"Of course," was the reply, "if you prefer to have me sketch you from memory after I get back to the office!"

"Take it!" cried the man, hastily tendering the photograph. "I've seen some of those memory sketches."—Chicago Post.
