INVENTOR'S WORK.
For the benefit of our readers, we publish a complete list of Canadian and American Patents recently procured through the agency of Messrs. Marion & Marion, Patent Attorneys, Montreal and Washington, D. C.

70,669—Dosithée Arbiue, St. Placide, P. Q., Potato harvester.
70,678—Hector Boudreau, Montreal, P. Q., Means for fastening grain car doors.
70,680—Stanislas W. Laroche, Valleyfield, P. Q., Stirrup attachment for beds and tables.

70,701—S. O. Cosper Coles, London, England, Manufacture of Reflectors.
70,717—Emilien A. Manny, Beauharnois, P. Q., Life boats.

The "Inventor's Help," a 148 page book, containing practical information for inventors, the cost of patents in the principal countries of the world, and how inventors are swindled, will be sent to any address upon receipt of 10 cents.

WHAT MAKES YOU COUGH.

Did you ever wonder just what it is that makes you cough? In a general way it is understood to be an involuntary effort of nature to eject something from the breath-pipe. As a matter of fact, merely a slight throat inflammation caused by a cold will cause a cough to start, and the more you cough, the more you want to cough. If you allay the inflammation in the throat your cough will stop.

Don't lull the sensitiveness of the throat with medicine containing a narcotic, but give it soothing and healing treatment. This is difficult, because the inflamed parts are in the way of the passage of food and drink. The true cough remedy is something that will protect the throat from the ill effect of catarrhal discharges and also from the irritation of swallowing food. Such a remedy is Adamson's Botanic Cough Balsam, which for many years has been conquering the most obstinate coughs. It is a soothing compound prepared from barks and gums. Its beneficent effect is quickly felt and the work of healing promptly begun. If you once take Adamson's Balsam for cough, you will never be satisfied without some of it at hand for any new cough. A trial size of the Balsam can be secured of any druggist for 10 cents. The regular size is 25c. In asking for the Balsam, be sure you get the genuine, which has "F. W. Kinsman & Co." blown in the bottle.

"There may be no 'royal road to wealth,'" moralized Uncle Allen Sparks, "but after a man has got there he is generally an Oil King, or a Railroad King, or a Steel King, or something just as royal."—Chicago Tribune.

HE DIDN'T HOLD SPITE.

A stranger was in the Union Station the other day, and was telling of an occurrence on his farm. One of his employees was a German. He was a hard-working, honest and conscientious man and was married. His wife was taken sick and finally died, the husband, of course, leaving his work for several days in consequence. Two weeks later he appeared at the house of his employer and asked to be relieved from work for a couple of days, when the following conversation took place:

"I would like to get off for about two days."

"I can't spare you unless it is absolutely necessary. You know you lost several days two weeks ago, and we are behind in the work. What is the necessity for your getting off?" inquired the farmer.

"Well, I was to be married."

"Why, Fritz, your wife died only two weeks ago, and now you are about to get married again? I don't understand that."

"Well," replied the German, "I don't hold spite long."

The farmer dismissed the case without prejudice.—Columbus (O.) Dispatch.

A Big Quarter's Worth.

is always found in a bottle of Polson's Nerviline, the best household Liniment known. It cures rheumatism, neuralgia, toothache, headache, sick-stomach, in fact is good for everything a liniment ought to be good for. Mothers find it the safest thing to rub on their children for sore throat, cold on the chest, sprains and bruises. Never be without Polson's Nerviline. It will cure the pains and aches of the entire family and relieve a vast amount of suffering every year.

There is a story often told in Western newspaper offices of an editor who penned the following valedictory to his readers: "This issue of the Dakota Daily Dodger is the last. The paper started ten years ago owing to the editor's need of money. Strange to say, its discontinuance is due to the same cause."

A CATARRH SPECIALIST

Mr. James Spence, Clachan, Ont., says: "I have been a sufferer from catarrh for 15 years, which became chronic. I have spent a lot of money and consulted several doctors, among other a specialist in London. I have tried everything I could hear of or see advertised without doing me any good. But, thanks to Dr. Chase's Catarrh Cure, I am completely cured after using three boxes of it. I recommend it to anyone suffering from catarrh."

He—I always say what I think.
She—I notice you are extremely reticent.—King.

The Torture of ECZEMA Prevented Sleep.

Mr. Paul Lariviere, Meadowville Station, Pictou Co., N.S., writes as follows: "I shall always praise Burdock Blood Bitters as the best remedy for skin diseases. I had been suffering from Salt Rheum or Eczema for the past five years and could not get any rest from the terrible burning and itching, which was worse at night and prevented me sleeping."

"Hearing of B.B.B. I thought I would try it, and after using one bottle I was so much relieved that I continued using it, taking six bottles in all, and am now completely cured."

It is a blessing that there is such a reliable remedy as B.B.B. for those tortured day and night with terrible skin diseases and who can get no relief from their misery. Apply it externally and it takes out the fire and itch and aids in the healing process.

Take it internally and it purifies the blood of all those poisons which are the source of skin eruptions.

B.B.B. Cures Eczema and all Burning, Itching Skin Diseases.

MAN'S BODY

FOUND UNDER A CAR IN I. C. R. YARD, MONCTON.

MONCTON, April 4.—A stranger, who, from papers found on him, appears to be Harry Weatherbee, aged about 30, dark-complected, was found dead in the I. C. R. yard here about 9.30 o'clock last night. A colored man giving the name of Robert Dixon, hailing from St. John, first notified the station officials of the man lying under a car which stood about 20 yards from the depot.

The dead man was found beneath the sleeping car Halifax, which came in from St. John on No. 4 train at 8 o'clock and shunted on a side track.

Papers found on the body showed that Weatherbee had been working for G. H. Mitchell, shoe manufacturer, Haverhill, Mass. He had recommendations as a good workman from the foreman, Geo. A. Kilham.

Ten cents was all the money found in his pockets and no one was able to say where the unfortunate man came from.

D. Terrio recognized the dead man as having worked for Rhodes, Curry & Co., Amherst, six years ago. Terrio identified the man from his having lost part of his right hand while in the Rhodes, Curry employ.

Dixon, who first apprised the watchman of the affair, was interrogated but was not very clear in his statement. He said he came to Moncton from St. John yesterday morning on a freight and remained in the outskirts of the town all day. He had been around the depot two hours with no particular object in view.

At first Dixon said he worked as a laborer in St. John, but when asked to name some one for whom he worked, was unable to give names and finally admitted that he worked very little.

Another suspicious circumstance in the case is that from the point Dixon says he first saw the dead man under the car, it seemed almost impossible to discern an object. Deceased was dressed in dark clothes, which would make it all the more difficult to see the body lying in the shade under the car at the distance designated by Dixon. Dixon gives his age as 19 and he is a strapping youth for his age. He has the appearance of a youth who has knocked about considerably.

He first stated that he had come to Moncton from St. John on the C. P. R. which got here about 8 o'clock, but later said he came upon the morning freight. His statement in this connection is thought may be to conceal his having stolen a ride to Moncton.

The injuries to the body of the dead man consisted of a badly disfigured face and bodily marks. From appearances the train had not passed over his body, although it was found lying across the rail.

HAGYARD'S YELLOW OIL.

The great pain cure. Used externally cures rheumatism, swelling, pains, bruises, stiffness, pain and soreness of every description. Internally used it cures croup, colds, sore throat, hoarseness, asthma, bronchitis, quinsy, etc. Price 25 cents, all druggists.

Van Pelt—Were you ever at Niagara?
Van Twiller—Once.
Van Pelt—Like it?
Van Twiller—I don't know—it was my wedding trip.—Ohio State Journal.

Children Cry for CASTORIA.

THE WORLD OVER.

Boston, April 3.—Dr. Fraser, a special commissioner of the British government, was in this city to-day making enquiries as to the facilities for shipping from this port a consignment of 900 Canadian horses for the British army in South Africa. Dr. Fraser conferred with the officials of the bureau of animal industry and inspected some of the terminals here. He stated that he was desirous of shipping the horses from the most convenient port. He left here for Portland to look over the facilities there.

LONDON, April 4.—The Bloemfontein correspondent of the Morning Post asserts that the Boers have tried for treason and executed Mr. De Kock, the peace envoy who took the message from General Smith-Dorrien to Commandant General Louis Botha, February 12.

NEW YORK, April 4.—The latest reports about King Edward's health are reassuring, says the London correspondent of the Tribune. His throat has been examined by Sir Felix Sermon and the recent disturbing rumors have been pronounced to be groundless. Sir Felix is the German Throat specialist who has been appointed physician extraordinary to the king and has been naturalized as a British subject. The king's general health is good. He has not suffered from the pressure of public business. Rumors about a mysterious ailment in his throat have caused uneasiness in high circles on account of the fatal malady of the king's brother, the Duke of Saxe-Coburg and Gotha.

LONDON, April 4.—A Vienna despatch says an officer of the Guards entered the Czar's study yesterday and fired at him, but missed. He then succeeded and suicided. The story is doubted.

NEW YORK, April 4.—According to the Tribune's London correspondent word comes from Brussels that Kruger thinks the occupation of Zoutspansberg will finally break down the Boer defence. Zoutspansberg is the Boer seat of government and contains supplies of stores and ammunition and is understood to be in imminent danger as the result of Lord Kitchener's northern campaign. But prisoners who have recently arrived at Pretoria are said to have expressed opinions that the war will last three years longer.

LONDON, April 4.—The Morning Leader publishes the following despatch from Vienna: "At Smyrna, on the strength of rumors that the Jews had murdered a Greek lad for ritual purposes, ten thousand infuriated Greeks stormed the Ghetto. The Turkish troops charged the mob with bayonets, one person being killed and 14 others wounded."

CHICAGO, April 4.—A special to the Record-Herald from Newkirk, Oklahoma, says:

Mrs. Ella Zeiglin and Mrs. Daughton, living near this city, fought a duel with revolvers at 20 paces yesterday and Mrs. Zeiglin was shot twice in the breast and is now in a hospital dangerously, but not necessarily fatally, wounded.

The duel grew out of a long standing feud between the women, jealousy being the original cause. Mrs. Daughton lives on a farm just south of the city and Mrs. Zeiglin has frequently endeavored to arouse the temper of her neighbor by various means, the most effectual being the claim that she (Mrs. Zeiglin) could take Mrs. Daughton's husband away from his wife any time she wished.

Mrs. Daughton finally appealed to the courts and yesterday forenoon Mrs. Zeiglin was fined \$300 for trespassing upon the Daughton property and inciting trouble. As soon as she paid the fine Mrs. Zeiglin drove out to the Daughton home, smarting under the loss of money and the criticism of the trial judge. Riding up to the door of the Daughton house she invited her rival to come out and fight a duel.

Mrs. Daughton promptly accepted the challenge and came armed with a revolver. The women then faced each other at 50 feet and began shooting, the signal being given by a daughter of Mrs. Zeiglin, who had accompanied her from town. Each fired three shots without effect. Then Mrs. Daughton got the range and fired two shots in quick succession, both striking Mrs. Zeiglin in the breast. She fell and Mrs. Daughton assisted in carrying her into the house where a physician dressed her wounds, after which she was conveyed to a hospital.

Now the husbands of the women are seeking each other, vowing to kill on sight.

WASHINGTON, April 4.—The navy department for some time has been giving barefoot attention to the subject of wireless telegraphy, with a view of ascertaining how far it could be practically applied to the naval service. The subject has now advanced to the point where Secretary Long has appointed a special board of officers to make a thorough enquiry on the subject. The board consists of Captain Chadwick, Lieut. Powellson and Lieut. Commander Hodgson. The meeting of these officers will take place at Newport, and it is expected that their conclusions will determine to what extent the wireless system can be utilized for the navy. It has been understood that Signor Marconi, the Italian inventor, whose name is identified with wireless

telegraphy, has been in this country of late, but it is not known whether the Newport board has received from him any communications relative to the adoption of his system. It is the purpose of Secretary Long to have the entire subject gone into, with a view to developing not only the practical utility of the Marconi system, but of all others which may be available for naval uses.

PARIS, April 5.—The Matin's correspondent at Utrecht says:

"Mr. Kruger, in the course of an interview, said nothing had been decided on the subject of a visit to the United States, but he would undertake it if his strength permitted and if he could hope for some advantage to the cause."

LONDON, April 5.—The Times has received the following from its correspondent in Wellington, N. Z.:

"France, after establishing a naval station in the Pacific and increasing her warships to five within a few weeks, is now engaged in strengthening her land defenses. This action is regarded as menacing British interests in the South Pacific."

NEW YORK, April 5.—Louis Voilant, who has just died in Mamorneck, was 103 years old and had lived in three centuries. He had seen Napoleon Bonaparte and always said that the pictures and busts of the present day convey only a faint idea of the man.

Voilant came to this country 50 years ago and secured a place as coachman for Mrs. Jamet in New York. For the last ten years the old man had lived with his daughter. He enjoyed exceptional health until only a few days before his death. He never wore spectacles, and yet at the age of one hundred was able to read the newspapers with ease. He always said that he owed his long life to the good care he took of his health. He was temperate, but not a total abstainer. He was very fond of smoking.

ROCHESTER, N. Y., April 5.—While despondent and suffering from an attack of acute dyspepsia James E. Dargin, aged 52, superintendent and secretary of the firm of Copeland & Dargin, furniture manufacturers, committed suicide late yesterday afternoon in his room in this city. He left the factory greatly depressed, and shortly after five o'clock was found in his room by his wife dead. He had saturated a piece of cotton batting with chloroform and placed it over his nostrils.

BOSTON, Mass., April 5.—In the will of David W. Hitchcock, filed in the probate office, appears the following clause, referring to a contingent bequest of \$100,000 to the Wellesley Female Seminary, to establish scholarships for worthy young women:

"I exclude Roman Catholics and colored persons because I feel introduction into said seminary of pupils who differ essentially in race and religion from the others may prevent the best interests thereof. Such girls to be selected as the beneficiaries of this fund by the officers of said seminary as would be unable to afford the expense of an education at said institution without such assistance, and I request said officers to limit the benefit of said assistance to such girls as appear to them to be bright and intelligent and likely to profit thereby."

If the trustees of the seminary refuse to accept the trust the testator directs that the fund be given to the Museum of Fine Arts.

UNTOLD AGONY FROM SALT RHEUM

Mr. Chas. F. McLean, Palmerston, Ont., says:—"I suffered untold agony and misery for years with salt rheum in my feet. I tried almost every remedy I could hear of. I was told by the best physicians I could not get more than temporary relief. I was induced to try Dr. Chase's Ointment. After one or two applications I received great relief, and when I had used only two boxes I was completely cured." At all dealers, 60 cents a box.

"Ah, fraulein, this is a beautiful place! The silver brook, with golden grapes hanging over it, dew glistening like diamonds on the leaves, and the emerald green of the fields—"

"How poetic you are! Do you write verses?"

Imitations

of Dodd's Kidney Pills are legion. The box is imitated, the outside coating and shape of the pills are imitated and the name—Dodd's Kidney Pills is imitated. Imitations are dangerous. The original is safe. Dodd's Kidney Pills have a reputation. Imitators have none or they wouldn't imitate. So they trade on the reputation of Dodd's Kidney Pills. Do not be deceived. There is only one DODD'S. Dodd's is the original. Dodd's is the name to be careful about—
