

For Pain

Johnson's Anodyne Liniment is a foe to inflammation in every form, and can be relied on to reduce it more rapidly than any other medicine, whether used internally or externally. Whether you rub it into the skin or drop it on sugar in a teaspoon and swallow it, you will find it equally efficacious, and it quickly cures every one of the numerous pains and aches caused by inflammation.

JOHNSON'S Anodyne Liniment

Was originated in 1810 by Dr. A. Johnson. Cures colic, cramp, diarrhoea, cholera morbus, bites, bruises, burns, stings, chafing, coughs, colds, croup, catarrh, bronchitis, in gripe, lameness, muscle soreness, and pain and inflammation in any part of the body. In two size bottles, 25 cts. and 50 cts. If your dealer hasn't it, write to L. R. JOHNSON & CO., 22 Custom House St., Boston, Mass.

UNCLE TO KING EDWARD.

Hello, there, give me Edward;
You heard me right—the King;
Just tell him who is waiting,
And when we're through I'll ring.

Hello, there, this you, Eddie?
I'm Sammy; Uncle Sam
A minute, can you spare me?
Or are you rushed? I am.

I called your number merely
To see if you had heard
About that fellow Funston;
Say, Eddie, he's a bird.

You've heard it? S'pose they told you
By what a Yankee trick
He captured Aguinaldo;
By ginger, it was slick.

But, Eddie, why I called you
Was only just to say
If you could, maybe, use him,
I'd lend him for a day.

It makes me sorry, honest,
The way that man, De Wet,
Keeps fooling all your army,
And no one near him yet.

Now don't get angry, Eddie,
But really seems to me,
The reason why you miss him
Ain't difficult to see.

I mention no parties, lers,
But if you'd like me to,
I'll lend you my man Funston;
He'll see the business through.

And when he quits the country,
He won't quit beat, you bet;
Shall I send him to you, Eddie?
Do you really want De Wet?

—Arthur H. Folwell in Brooklyn Eagle.

OTTAWA LETTER.

OTTAWA, 5th April.—A six o'clock on Wednesday night last Parliament adjourned until next Tuesday, in accordance with the custom at Easter. The three days during which the House sat this week were not particularly eventful, although a good deal of work was done in the consideration of the estimates. For the most part the appropriations for Public Works have been under review, and while exception has not been taken directly to any of the votes a good deal of hostile criticism has been indulged in by the Opposition. When a Tory Government was in power appropriations for Public Works were all right; but under a Liberal regime they are held to be corrupt. More than half of all the criticism made by the Opposition since 1896 has been based on this doctrine.

When the Senate reassembles on Wednesday next the Committee appointed to inquire into the Cook charges will be expected to make a report. In this connection, it may not be amiss to mention a little incident that occurred in the ante-room at the last sitting of the Committee. Mr. Biggs, lawyer from Toronto, was passing out after having given evidence. He was Mr. Cook's counsel in this matter at one time, but in this case Mr. Cook seems to have been much displeased by the nature of his testimony, and threatened to smash his face. Mr. Cook is a man of giant proportions, while Mr. Biggs is rather a small man. There was no actual violence, but the occurrence well illustrates Mr. Cook's character. He is a man having a most domineering disposition, and when he does not get his way he grows very intemperate and offensive. His charges arose out of the fact that when he could not get a Senatorship he wanted to smash the Government.

A lively scene occurred in the Railway Committee on Tuesday last. The Canadian Pacific were applying for a charter to build a branch line from Teulon to Sifton's Landing in Manitoba, a distance of about 100 miles. The application was opposed by the representative of Messrs Mackenzie & Mann, who contemplate building a line along the western shore of

Lake Manitoba under a charter now held by the Canadian Northern. It was claimed there was not enough business for one line, let alone two. What occasioned the row, however, was a suggestion by the Minister of Railways. It seems that for twenty years past a large settlement of Scandinavians, numbering some seven or eight thousand, have been promised railway connection. Twenty miles of line would meet their needs, while the branch for which a charter is now asked will penetrate a section of the Province having very little settlement. Having regard to the interests of the Scandinavians Mr. Blair suggested that the charter for the new line should not become operative until the Canadian Pacific had carried out their promise to give the Scandinavians a railway.

This apparently innocent and reasonable proposition provoked an outburst of boisterous excitement. Judge Clark, the Solicitor of the Canadian Pacific, declared that such a thing had never before been heard of. He was wildly indignant, and his remarks were little short of being offensive. Half a dozen members, who are always active when C. P. R. interests are concerned, passionately denounced Mr. Blair's suggestion. But the Manitoba members, and nearly all the rural members irrespective of politics, sided with the Minister, taking the ground that the pressing need of actual settlers was entitled to prior recognition. The storm raged for nearly an hour, and then the C. P. R. men saw that they were in the minority, and after a short conference it was decided to accept the Minister's amendment.

The report of the Geological Survey, which has just been issued, gives a fairly accurate idea of the mineral development which has taken place throughout the Dominion during the past fifteen years. The gold output from the Yukon last year amounted to \$22,257,000. The following table, applicable to all minerals throughout Canada, shows the progress that has been made:—

1886.....	\$10,221,255
1890.....	16,763,353
1896.....	22,584,512
1897.....	28,661,430
1898.....	38,697,021
1899.....	49,584,027
1900.....	63,775,090

For 1900 the output exceeded \$11 per head of the population, and at the present rate, of growth it will not be long until the figure of \$15 per head which has been reached by the United States is attained in Canada. The developments in iron at Sydney and Sault Ste Marie ought to produce that result during the present year.

The trade of the country also continues to grow rapidly. The aggregate of exports and imports for 8 months of the current fiscal year reached the large figure of \$256,275,780, an increase of \$11,888,125 as compared with the same period of the previous year. The exports amounted to \$140,678,519, being an increase as against the year preceding of \$18,256,608. In the imports there was a falling off in dutiable goods and a considerable increase in free goods. The increase for the eight months is almost wholly accounted for in the larger mineral output, while there was a betterment of \$1,686,549 in the shipment of manufactures abroad. This latter item would seem to show very clearly the present fiscal policy of the Government is not having a depressing effect on the industries of the country.

The Bank statement for February supports the view that general prosperity continues to prevail. Compared with the corresponding month of 1900 the note circulation was larger by \$4,300,000, while the money on deposit had increased during the same period by \$32,072,168. Business discounts also showed an improvement of \$7,000,000, indicating that commercial enterprise is active and public confidence strong. The whole statement is full of encouragement and affords no ground whatever for the pessimism displayed by some of the Opposition members during the recent debate on the budget. Mr. Fielding's observation that we may have reached the crest of the wave in respect of trade growth may have been a timely warning, but nothing has thus far transpired to support that view.

Coughs, Colds, Bronchitis, Hoarseness, Sore Throat, Asthma, Whooping Cough yield to the curative power of Norway Pine Syrup, as it contains the lung-healing virtue of the pine tree.

MONTREAL, April 6.—Lieut. Col. Dent, imperial remount officer, sent out to Canada some time ago to purchase for the British Army, announced to-day that owing to the bad state of the weather no had yet been purchased. Lieut. Col. Dent will leave for the Northwest in May. The reports of his veterinary surgeon on facilities at Boston and Portland for shipping horses has been made and will be forwarded to the English government.

RUSSEL THEATRE DESTROYED BY FIRE.

OTTAWA, April 8.—2:20 a. m.—The Russell Theatre, generally admitted to be the most beautiful building of the kind in Canada, has been burning for half an hour and is certain to be a total loss. The Russell House immediately adjoining the theatre, is in imminent peril. The guests are being hastily removed to other hotels in the city.

The city hall, directly opposite the theatre, is being covered with sparks and cinders and it may catch at any time. The firemen have wound down their ladders from between the theatre and city hall, as there is danger of the theatre wall falling.

Fortunately, everything is thoroughly soaked with the rain that has prevailed here for the past week, and the danger of the fire spreading is not so great as it otherwise might be.

The fire was first discovered over the stage, overlooking the canal. The Belle of New York Company played to a crowded house this afternoon and evening and have probably lost everything.

At 2:45 a. m. the fire is practically under control. The city hall is out of danger.

The kitchen of the Russell House has just caught fire, but there is every likelihood of the hotel being saved. The brigade have hose trained through the building and their hands are free in other places.

The theatre is a total loss, and some of the walls have fallen. The loss on the theatre will be over \$50,000.

3 a. m. The Russell House is completely out of danger, although the guests have not been allowed to return to their rooms. The loss of the theatre is covered by insurance. Mr. A. Small, Toronto had leased the theatre, his term of occupancy to commence in September. The Belle of New York Company loses nothing, as they leave for Prescott at 4:20 a. m., and their baggage and scenery had been removed from the theatre.

TO CURE A COLD IN ONE DAY.

Take Laxative Bromo Quinine Tablets. All Druggists refund the money if it fails to cure. 25c. E. W. Grove's signature is on each box.

THE BRITISH SURRENDER.

LONDON, April 9. Kitchener, reporting to the war office under date of Pretoria, April 8, says: "Plummer occupied Pietersburg with slight opposition. He captured two locomotives and forty trucks." The capture of Pietersburg is regarded here as important. The place is at the terminus of the railway, and has been the capital of the Boer Government since the evacuation of Pretoria. The whole northern railway is now in the hands of the British. According to Kitchener one officer and one man were killed. The Boer army evacuated the town during the night after Plummer's arrival and after blowing up two trucks laden with ammunition. Kitchener further reports the capture of sixteen prisoners, fifty horse and a depot war store at Boshman's Kop.

As an offset the commander in chief reports a detachment of one hundred men of the fifth lancers and imperial yeomanry were attacked by four hundred Boers to the northward of Aberdeen in Cape Colony, and after several hours' fighting the British surrendered and were captured with the exception of twenty-five, who succeeded in making their escape.

Amateur—What does it mean in theatrical circles when they say the "ghost walks?"

Veteran actor—It means that the rest of us don't have to.—Judge.

Cold Settles on the Kidneys

Exposure to cold and damp atmosphere and sudden changes in the weather close the pores of the skin and this throws the waste matter which should escape through the skin back on the kidneys. The effect upon these overburdened organs is what is known as "cold on the kidneys," which usually develops into regular kidney disease or Bright's disease.

The earliest symptoms of ailing kidneys are backache, painful and scalding sensations when passing water and deposits in the urine. Immediately on the appearance of any of these indications resort should be made to Dr. Chase's Kidney-Liver Pills, which will in a surprisingly short time set the kidneys and bowels in order and insure the return of health.

Dr. Chase's Kidney-Liver Pills can be absolutely relied upon as a cure for every form of kidney and liver derangement. One pill a dose; 25 cents a box.

Dr. Chase's Kidney-Liver Pills.

The Spring Feeling.

NOT EXACTLY SICK—BUT NEITHER ARE YOU WELL.

Close Confinement During the Winter Months Has Left You Weak, Easily Tired, and Out of Sorts.

The words "weak and depressed" express the condition of thousands of people in the spring time. It is one of nature's signs that humanity cannot undergo months of indoor life in badly ventilated buildings with impunity. Sometimes you have a headache; slight exercise fatigues you; your appetite is variable; you are easily irritated or depressed; perhaps there are pimples or slight eruptions that indicate the blood needs attention. Whatever the symptom may be it should be attended to at once, else you will fall an easy prey to graver disease. Do not use a purgative in the hope that it will put you right. Any doctor will tell you that purgatives weaken, that they impair the action of the liver and create chronic constipation. A tonic is what is needed to help nature fight your battle for health, and there is only one always reliable, never-failing tonic, and that is Dr. Williams' Pink Pills. These pills have no purgative action. They make rich, red blood, strengthen the tired and jaded nerves, and make weak, depressed, easily tired people, whether old or young, bright, active and strong. Among those who have proved the health-bringing qualities of Dr. Williams' Pink Pills is Miss Emma Chapput, of Lake Talon, Ont., who says: "I cannot thank you enough for the good I have derived through the use of Dr. Williams' Pink Pills. I honestly believe that but for them I would now be in my grave. My health was completely broken down. My face as white as chalk, and if I made the least effort to do any housework I would almost faint from the exertion, and my heart would beat violently so that I feared I would drop where I stood. I was a great sufferer from headaches and dizziness as well, and my appetite was so poor that I scarcely ate at all. I tried several medicines, but they did not help me and then I decided to send for some of Dr. Williams' Pink Pills. I got six boxes and before I used them all I was as well as I had ever been, with a good healthy color, a good appetite and an entire freedom from the ailments that had made me so miserable. You may be sure that I will always have a warm regard for your invaluable medicine."

Do not experiment with other so-called tonics—you are apt to find it a waste of money and your health worse than before. You will not be experimenting when you use Dr. Williams' Pink Pills. They have proved their value the world over, and you can rely upon it that what they have done for others they will do for you. If you cannot get the genuine pills from your dealer send direct to the Dr. Williams' Medicine Co., Brockville, Ont., and they will be mailed post paid at 50 cents a box or six boxes for \$2.50.

OTTAWA, April 6.—The statement of Dominion revenue and expenditures for the month of March last was issued by the finance department to-day. The revenue for the nine months ending March 31st was \$37,918,017, or \$1,067,949 of an increase over the same period for the last fiscal year. The expenditure for the past nine months was \$28,627,612, an increase of \$2,576,000 over the nine months in 1900. The difference between revenue and expenditure on ordinary account shows a normal surplus of \$9,290,000, but there was expended in the nine months \$7,301,259 on capital account, or an increase of about \$800,000 over the same time last year, and if this is added to the ordinary expenditure then there would be nearly \$2,000,000 left to the good. However, there are no doubt outstanding accounts which will increase the expenditure. When the financial year closes it will be necessary, while having a large surplus on the consolidated account, to add a million or so to the public debt.

The revenue for the month of March shows a decrease of about \$280,000 over March, 1900, which would indicate that Mr. Fielding was pretty accurate in his prediction in the budget speech that Canada was on "the crest of the wave" financially. The expenditure for March last was \$900,000 more than for March, 1900. This is largely due to the expenditure for the session, parliament having met earlier this year.

If you have a cold do not fail to get a bottle of Hawker's Tolu and Wild Cherry Balsam. It is the only sure cough cure on the market.

We can safely recommend Hawker's Tolu and Wild Cherry Balsam to cure any cold. Price 25c. per bottle.

BARGAINS! BARGAINS!

The subscriber has purchased the stock of and removed his business to the store lately occupied by Malcolm McKinnon—Roxbury building. Every available spot in the said store is now filled with goods as follows:

Ready-Made Clothing for Boys and Men.

Ladies' Dress Goods, all kinds,
General Dry Goods,
Cottons by the pound, good values,
Cloths and Groceries,
Smallwares, Haberdashery, etc.

I have Cloth from 18 cts. up; Dress Goods from 15 cts. up, and Double-Breasted Suits from \$3.50 up.
