## MARITIME PROVINCE NOTES.

News has been received of the accidental death of Archibald J. Livingston, formerly of Prince Edward Island, which occurred in a mining camp at Silverton, Colorado, on April 23rd. Deceased was quietly sleeping in his bed when a boulder from a precipice near by crashed into his tent and struck him, causing instant death. His brother Donald, who was sleeping in the berth above, escaped with a few slight wounds. Deceased was 45 years of age and unmarried. He was the son of Allan Livingston, New Dominion, P. E. I., and left for Colorado 20 years ago where he had carried on mining successfully. This fall he had intended to wind up his business there and return to the Island. On the very morning of the accident he had received a letter announcing the death of his brother at New Dominion, March 27th. Six brothers and one sister are left to mourn.

St. John Telegraph: The 14 month-old child of Mr. Charles Short, of Roundhill, near Oak Point, fell into a tub of cold water at its home last week, and was drowned. The accident is peculiarly distressing and the parents have the community's sympathy in their bereavement.

Moncton Times: It is understood that the census will show Moncton's population to be about 9,200, or only 500 more than in 1891. This increase is rather disappointing and smaller than might have been expected from the number of new buildings erected. It indicates, however, that the people as a whole are more comfortably housed than they were ten years ago.

The Chatham World says: Mr. Wm. Lee, of the Sulphite Fibre Co.'s staff, and Miss Mamie Goggin, second youngest daughter of the late J. R. Goggin, drove to Newcastle last Monday evening and were married by Rev. Mr. Snow. It was a complete surprise to their friends, no one having suspected that they were matrimonially inclined.

Miss Louise Nowlan, daughter of the late J. W. Nowlan, ex-M. P. for Kings county, a former student of Mt. Allison Ladies' College, is opening a private sanitarium in Halifax. Miss Nowlan, who is an experienced nurse, has spent the last sixteen years in the United States practicing her profession. Seeing the need of a private hospital or sanitarium in Halifax and receiving much encouragement from the medical profession of that city, Miss Nowlan purchased a fine private residence, beautifully situated in Willow Park. The building is comparatively new, having been erected less than two years. It is thoroughly equipped with hot and cold water, electric lights, etc., and has perfect drainage and other sanitary arrangements. The building cost Miss Nowlan in the vicinity of \$7,000, and she has had it very substantially furnished. When she opens, she expects to do in a few days, she will have a well trained staff under her, and will be admirably equipped to administer to the physical ailments of the people of Halifax and the province of Nova Scotia generally.

A sad fatality occurred at Chatham Wednesday night at Snowball's mills. The accident happened after the mill stopped for the day and was only discovered this morning. Larry Guthro, a native of Tracadie about 28 years of age, unmarried, had been employed to wheel sawdust into the furnace near the boilers. It is supposed he slipped into the opening. Two other men were working at the same job but did not discover anything but the fact that the third man was not in his usual place until this morning. The as-

from 50 cents to \$2.75, but we especially call attention to some lines we have at \$1.50, \$1.65, \$1.85 and \$2.25, none better for the money anywhere.

Remember, it isn't the price, it is what you get for the price that counts.

## FISHERMEN'S PRIDE FLOUR

is the best. None better for the price.

## A. & R. LOGGIE

sumption is that in opening the furnace he had fallen through the hole down which the saw-dust and other refuse is poured, and which is only about 18 inches wide; and that he had been burned to death. No one saw the accident. Search revealed a few bones as the only trace of the missing man.

Patrick Hogan, a brakeman on the Intercolonial, a native of Tatamouche, was instantly killed while the train was being shunted at George's River near Sydney Thursday night. Hogan struck his head against a post and was knocked off the train dead.

A number of men are employed erecting the Gagetown cheese factory. It is being built on the county land, between Mr. Scott's mill and Mr. J. Law's shop. Mr. Havelock Moore, of Jerusalem, has been awarded the contract for building the cheese factory at Polleyhurst. The building is to be ready for the machinery on June 15th.—Gagetown Gazette.

A quiet wedding took place at an early hour Thursday morning in St. Luke's church, Woodstock, Archdeacon Neals officiating, when Miss Nellie Beardsley, second daughter of Mrs. Charles Beardsley, was married to Mr. Herbert Clarke, son of Elisha J. Clarke. The relatives of the two families concerned were the only ones present at the ceremony. The young couple took the early train for Boston, where the groom is engaged in business.

Word has been received of the death at Butte City, Montana, last week of Mr. Sydney Bull, a native of Woodstock, and brother of Mrs. T. B. Winslow, of Fredericton. He was 50 years of age and unmarried. He was engaged in mining.

The wedding occurred at the residence of Charles F. Fisher, in Marysville Wednesday, of his daughter, Miss Grace E. Fisher, to Rev. Horace B. Sloat, formerly of that town and now occupying the Baptist pastorate of Milton, N. S.

Moncton Transcript: Sherman F. Beals, of Collins, and Miss Beatrice Gambel, of Moncton, were married Wednesday by Rev. D. Hutchinson. Mr. and Mrs. Beals went to St. John on the Quebec express. After the wedding trip the young couple will make their home in Kings Co., N. B.

Mr. Samuel Adams, of New York, has recently contributed \$1,000 towards the completion of the new Roman Catholic church at Douglastown. The interior of the church is now ready for the painters; it will probably be finished and formally opened for service early in September.—Chatham Commercial.

The St. John Sun says: "The Globe laundry was gaily decorated with flags Wednesday in honor of the wedding of one of its proprietors, Arthur B. Vail, to Miss Julia Case, of Springfield. The marriage was held at the residence of the bride's father, W. E. Case, at 10 o'clock Wednesday morning, Chas. Spragg, of Sydney officiating as best man, and Miss Maggie Vail, sister of the groom, acting as bridesmaid. The presents received were numerous and beautiful. The happy couple arrived in the city Wednesday evening and held an informal reception at their future home, 95 Sydney street."

Judge Graham at Halifax rendered judgment in two divorce cases Thursday. In the Fraser vs. Fraser case from Springhill, the wife was granted decree and given the custody of her children. In Baker vs. Baker, a Dartmouth case, the wife was granted decree and given the custody of children.

It has been ascertained that the accident on the Elgin and Havelock railway was caused by a broken wheel on the flat car, which was loaded with lumber and which was the first to leave the track. Two of the cars have been gotten on the rails and the passenger car will be running in a few days. Mr. P. S. Archibald went over the road on Friday on a tour of inspection. It is rumored a new company has been negotiating for the road. If the transfer takes place, the Mineral Springs Co., will be the principal owners.

The mangled remains of Randolph McBeath, one of the I. C. R. watchmen at the Morrosey Rock tunnel, lie at the railway station at Campbellton. The young man was a son of William G. McBeath, of Tidehead, one of the best known and highly respected citizens of Restigouche county. Coroner Doherty and a jury viewed the remains Saturday morning and an inquest was held on Monday. The story of the death as told around town Saturday is as follows: The deceased was in town Friday night and went to Metapedia on the Quebec express and from there started to walk to Morrisey Rock. Between Metapedia and Flatlands he was struck by the west bound fast freight and killed. The train was stopped and his remains laid to one side and the matter reported at Metapedia station. A special at Metapedia coming down picked up the remains and brought them to Campbellton. The accident has cast a gloom over the community, in which the young man was highly esteemed. Town Marshal Duncan states that there is a strong suspicion prevailing that McBeath met with foul play.

Friday night's tide in the Bay of Fundy was very high, and considerable damage has been done along the river.

About 800 feet of the I. C. R. roadbed, about a mile and a half east of Sackville, was carried away by the flood, and train service on the road was suspended. The washout occurred at a point on the road where the high tides last month did so much damage. The last high tides, however, only carried away between 200 and 300 feet of track, while last night's tide caused a washout of about 800 feet.

As a result of the washout all trains east were tied up for several hours. A large force of men was despatched to the scene of the washout, and temporary repairs will be effected as speedily as possible.

Other high tides likely to follow are also to be reckoned with, and the interruption to traffic on the Intercolonial may be more serious than anticipated at present. The last train passed the point where the washout occurred about twelve o'clock Friday night.

Children Cry for CASTORIA.

## DOMINION PARLIAMENT.

OTTAWA, May 17.—In the house of commons to-day good progress was made with the government bills. The act respecting inspection of gas was put through its final stages. The light inspection act was also read a third time. The bill granting \$30,000 annually to Prince Edward Island was also read a third time.

The house went into committee on the resolutions voting \$75,000 for maintenance of a branch of the royal mint in Canada. Hon. Mr. Fielding said that, on account of the small demand for gold coin in Canada it was decided that it would be better to establish a branch of the royal mint than a purely Canadian mint. By this arrangement Canada would be able to mint not only all Canadian coinage but would also have the privilege of making British gold coins. The minister said that gold reserves in Canada amounted to \$25,000,000 or \$26,000,000 largely in English and American coin. Canadian gold coinage might displace this. The mint would be under direction of experts from the royal mint. A note of \$75,000 would be credited to the imperial authorities. The building would cost \$200,000. With vaults, walls and machinery, this would be increased to \$300,000. Against this expenditure would be placed the profit on coinage. There would be no profit on gold coinage but there would be no silver and copper coinage.

Mr. Fielding said the average profit during the past 10 years upon Canadian gold and silver coinage was \$94,000. Deducting the maintenance expenses of the mint, a profit of \$20,000 would be left. An assay office, where gold would be purchased, would have to be established. Just where it would be located he could not say. Some claimed it should be located in Dawson, so it would be easy of access to the miners. Others claimed it should be placed in British Columbia. The minister of the interior and other ministers were to visit the west this summer and this question would be made the subject of investigation. At the beginning of next season there would be an assay office in the west which would divert Canadian gold from American channels. The bill said that the mint would be located in Ottawa.

Mr. R. L. Borden pointed out that, as the cost to Canada of coinage under present circumstances was not deducted from Mr. Fielding's figures re profit on the gold and silver coinage, the profit under the new conditions would be greater than the minister stated. He expressed satisfaction that there were to be distinctly Canadian gold coins. However, he asked why it was proposed to make the maintenance vote of \$75,000 a statutory vote instead of allowing this matter to be dealt with from year to year as with ordinary estimates.

Mr. Fielding replied that, as the mint was to be a branch of the royal mint, the imperial authorities became responsible for it to the officials and the imperial authorities desired that there should be a fixed statutory vote on this account. He added that the bill to be used on the resolution would require an account of all expenditures by the imperial authorities on account of the mint from this vote.

Mr. Borden was satisfied with this explanation.

Mr. Emmerson (Westmorland) said the circulation of United States silver in Canada was a serious evil. He said it was kept in circulation because it passed at face value but was discounted by the banks. The evil might be ameliorated if the minister of finance should make an arrangement by which the banks would redeem American silver at par.

Will build you up; Will add solid pounds of flesh; Will bring you back to health. 50c. and \$1.00 bottles. DAVIS & LAWRENCE CO., Limited.

## DOMINION NEWS.

VANCOUVER, B. C., May 15.—According to advices received to-day by the steamer Empress of Japan, a shocking condition of affairs exists in northern Honan, which is said to be in a state of great disorder and extreme poverty. Bandits and rioters make the bad conditions worse and in the prefecture of Chengte, ten thousand are in active rebellion under arms. This is the fourth successive year in which no rain has fallen, so that no crops can be planted. The price of millet has risen to fabulous figures. It is stated that girls are being sold into slavery for a few pennies each by their starving parents, but boys may be taken away for nothing by those who promise to feed them. By a collision between two Canton steamers on the West river, sixty passengers were drowned. Those on board the steamer San Chow were locked in so that they had no chance to escape. It was very dark at the time of the collision and she sank almost immediately in deep water. A party of officers from the British transport Atlantian bathing in Colombian harbor were recently attacked by a shark, which killed H. Lowrye, assistant engineer.

WINNIPEG, May 16.—Mr. Haldane, the eminent English counsel, has been retained by the Manitoba government to argue the appeal in the liquor law case before the Privy Council. Attorney General Campbell is preparing to leave for London in connection with the case.

OTTAWA, May 15.—A militia order was issued to-day in regard to medals for the South Africa campaign. The medals in silver will be given to all officers, warrant officers, non-commissioned officers, and men of British, Indian and colonial forces, who served in South Africa between October 11th, and a date to be fixed hereafter. The clasps will be inscribed "Belmont," "Modder River," "Paardeberg," "Driefontein," "Wepener," "Johannesburg," "Diamond Hill," "Belfast," "Wittebergen," "Defence of Kimberley," "Relief of Kimberley," "Defence of Mafeking," "Relief of Mafeking," "Cape Colony," "Orange Free State," "Transvaal," "Rhodesia," "Tsalana," "Elauslaagte," "Defence of Ladysmith," "Tugela's Heights," "Relief of Ladysmith," "Laing's Nek," "Natal."

MONTREAL, May 16.—The canners and fruit packers of Ontario met to-day and formed a combine to stop price cutting. The syndicate puts up twenty-five thousand and on July 1st takes over the unsold stock. All Ontario canneries except one at St. Catharines, owned by Montreal men, are in the deal.

MONTREAL, May 16.—Joseph Laplaine tonight shot and instantly killed Clara Lefebvre, in whose house he has resided for the past year and a half. Laplaine was infatuated with the woman, but she had repeatedly refused to marry him. Tonight she asked him for a portion of sixty dollars' board bill he owed her. Laplaine proposed to settle the bill he owed her. Laplaine proposed to settle the bill by marrying the woman, and when she refused, telling him he would have to pay up or get out, he drew a revolver and shot her. He afterwards surrendered himself to the police.

OTTAWA, May 17.—The Dominion government has decided to prohibit the export of speckled or brook trout, and also sea trout, from Canada. This has been done because sportsmen from the United States have been in the habit every season of visiting Canada and taking across the line trout by the hundred weight. The new order in council will take effect at once.

MONTREAL, May 17.—A horrible murder was committed at Ste. Cenegeorde, a western suburb of Montreal, to-night. Mrs. Louis Lefebvre, a young married woman, was shot through the head and killed by Joseph Laplaine, a young man who boarded at Lefebvre's house. Mrs. Lefebvre kept a small fruit store and was going into the back room on an errand when she was followed by Laplaine who pulled a revolver and shot her through the head. He then went and gave himself up to the police. The only explanation he would give was that he was in love and that his love was not returned.

OTTAWA, May 17.—In the Supreme Court to-day the hearing proceeded in the appeal of the Canadian Pacific Railway Co. vs. Smith. The action was by Miss Smith of Truro, N. S., for injury received by falling out of an upper berth on the line of railway between Montreal and Toronto. She had never travelled in a sleeper before and being nervous, tried to turn in the berth, when she fell into the passage and severely hurt her back. The negligence charged against the company

was giving her an upper berth from Montreal westward instead of a lower berth, in which she had travelled thus far from Truro, and that the swaying of the train from the excessive speed jerked her out for want of the proper appliances to prevent such accidents. The trial court dismissed the action and the appeal is from an order for a new trial by the Supreme court of Nova Scotia on the grounds of improper rejection of evidence. Wallace Nesbitt, K. C., and Harris, K. C., for appellant, Drysdale, K. C., for respondent. Appeal allowed with costs.

## MAIN RIVER NEWS.

(Too late for last issue.)

May 13.—As Greenhorn was the last writer, "Mayflower" will endeavor his hand at it.

Farming is the order of the day.

A number of our young men have returned to their homes.

The yard bridge is again passable, owing to the management of Mr. Fletcher.

It is rumored that a basket social will be held on Friday. Hope our young folks may enjoy a pleasant time.

Mr. Laury Clare returned to his home last week.

A Salvation Army meeting will be held in Main River school house on May 17th by Lieut. McWilliams and others.

Mr. James McLeary has returned home.

A number of our young ladies met at Mr. W. W. Graham's last week and a very enjoyable evening was spent. From there they took their course to the practise meeting held at Mrs. R. Ferguson's.

Farmers are busily engaged in their farming. We wish them success and favorable weather.

Greenhorn was a little too smart, because the mistake wasn't out off for any young intention.

It is rumored that several weddings are to take place this summer. It is to be hoped so, anyway.

Messrs. William and John Targett have purchased new horses.

Miss Lizzie McDermott spent Saturday and Sunday at home.

Rev. A. Robichaud held service at St. McDermott's on Tuesday.

Miss Julia Wilt has returned home after a lengthy absence. We are pleased to have her again with us.

That young man from Bass River will, no doubt, be pleased to have the yard bridge passable. It seems necessary for him crossing every Sunday p. m.

Our school is progressing favorably.

One of our young men intends purchasing an electric wagon, and practice his profession between Main River and Brown's yard.

Mr. Taos. Beers spent Saturday and Sunday with his daughter, Mrs. W. Targett.

Mr. Sandy McLeary, clerk at the King hotel, Harcourt, is visiting friends here.

Mr. John McDermott has returned from U. S. A. We are pleased to have him with us.

We regret to hear of the illness of Mrs. Richard Shirley. Her recovery is anxiously looked for.

Bye bye, from MAYFLOWER.

## LEFT A LEGACY.

Last winter left a legacy of impure blood to many people, causing tired feelings, lack of energy, indigestion, constipation, biliousness, etc. Burdock Blood Bitters never fails to cure any of the foregoing diseases by unlocking the secretions and removing all impurities from the system.

## A PERTINENT CAUTION.

It is pertinent to admonish people of small means to risk no more in speculation that they can afford to lose, and more particularly to put their capital into business least likely to be affected by gambling in the shares markets.—Pittsburg Dispatch.

## CASTORIA

For Infants and Children.

The fac-simile signature of J. C. Fletcher is on every wrapper.

Acting under the advice of the savants attached to the Pasteur Institute, the French government has decided to ask the Chamber of Deputies for £6,000 to equip and maintain a scientific mission for the study of yellow fever.
