A MINISTER OF RICHMOND HILL.

Rev. F. Elliott Frankly and Strongly Endorses Dodd's Kidney Pills.

The Great Kidney Remedy Inspires Gratitude Wherever it Goes—No Medicine Highly Endorsed—what a Minister of the Gospel has to say about Dodd's Kidney Pills.

RICHMOND HILL, May 20, (Special).—A sensation was caused in this township when it was reported that the Rev. F. Elliott had published a strong letter in the papers endorsing a patent medicine. This happened some little time ago, but the matter has not been forgotten. The medicine in question was the famous Dodd's Kidney Pills and the Rev. Mr. Elliott is still in the receipt of frequent enquiries about his experience with them.

To a recent questioner who asked him about Dodd's Kidney Pills Mr. Elliott was quite outspoken.

"I believe Dodd's Kidney Pills to be an excellent remedy," said he. "I see no reason whatever why I should not recommend them; they have helped me and I believe they will help others. If they were not a strictly honest, meritorious, reliable cure for everything they are claimed to be, nothing would be more objectionable or further from my thoughts than for me to endorse them to anyone, much less lend my name to a printed statement. But as the facts stand I hold by my former course and shall always be happy to recommend Dodd's Kidney Pills by any means in my power."

The letter referred to in which Mr. Elliott endorses Dodd's Kidney Pills, was published in this paper some time ago. It reads as follows:

"I feel it my duty to inform you of the great benefit I have derived from using Dodd's Kidney Pills. Last spring in particular when suffering from Lane Back, the pain and weakness was so great I could hardly turn or get out of bed. Knowing it all came from disordered kidneys, I began to use Dodd's Kidney Pills and my pain and lameness soon disappeared. I consider Dodd's Kidney Pills a good reliable medicine for the diseases for which they are recommended.

"When I hear people complain of Lane Back or Rheumatism, I always say, 'Why don't you take Dodd's Kidney Pills?' I wish to add that this testimonial is entirely unsolicited and only 'good will to men' would induce me to allow my name to be published in this connection.—REV. F. ELLIOTT."

NEW INVENTIONS.

For the benefit of our readers we publish a list of Canadian patents recently procured through the agency of Messrs. Marion & Marion, Patent Attorneys, Montreal and Washington, D. C.

CANADA.

71,144—P. J. M. Waslying, Savanne, Ont., Jacks for railway tracks.

71,203—Samuel McIntyre, Canterbury Station, N. B., Device for hitching and unhitching horses.

71,224—Albert Brouillet, Montreal, P. Q., Filter.

71,251—Paul H. Gendron, Sherbrooke, P. Q., Washing machine.

71,265—Ernest R. Krockner, Teplitz, Bohemia, Air ship or vessel.

UNITED STATES.

671,701—William Jennings, Montreal, P. Q., Tire fastener.

675,356—David A. Brittain, Westfield, N. B., Skidding Tongue.

673,468—George Henry Cove, Amherst, N. S., Propellor.

The Inventor's Help, a 148 page book, containing all informations necessary to inventors, the cost of patents in the principal countries of the world, will be sent to any address upon receipt of 10 cents.

SAME THING.

Inexperienced Rider—What! you wish me to pay in advance? Are you afraid I shan't come back with the horse?

Proprietor of Livery Stable—Ahem! It is just possible the horse may come back without you.

Woman's Weakness

A woman's reproductive organs are in the most intense and continuous sympathy with her kidneys. The slightest disorder in the kidneys brings about a corresponding disease in the reproductive organs. Dodd's Kidney Pills, by restoring the kidneys to their perfect condition, prevent and cure those fearful disorders peculiar to women. Pale young girls, worn-out mothers, suffering wives and women entering upon the Change of Life, your best friend is

Dodd's
Kidney
Pills

The Universal Cry—Wanted, a Man.

Never did the world call more loudly for young men with force, energy and purpose, young men trained to do some one thing, than today. Though hundreds of thousands are out of employment, yet never before was it so hard to get a good employee for almost any position as today. Everywhere people are asking where to find a good servant, a polite and efficient clerk, an honest cashier, a good stenographer who can spell and punctuate and is generally well informed. Managers and superintendents of great institutions everywhere are hunting for good people to fill all sorts of positions. They tell us that it is almost impossible to find efficient help for any department.

There are hundreds of applicants for every vacant place, but they either show signs of dissipation, are rude or gruff in manner, are slovenly or slipshod in dress, are afraid of hard work, lack education or training or have some fatal defects which bar them out. Even if they are given positions very few are able to hold them, and so this great army of tramps about from store to store, from office to factory, wondering why others succeed when they fail, why others get the positions when they are denied.

The head of one large commercial establishment says that the blunders and mistakes of its employees cost \$25,000 a year to correct, notwithstanding his utmost vigilance.—Success.

Food of Prehistoric Man.

Upon examining some skulls dating back from the stone age Mr. Charters White, M. R. C. S., noted that several of the teeth, although quite free from caries, were thickly coated with tartar. It occurred to him that it would be possible by a rough analysis to identify any particles of food that might be imbedded in this natural concrete and so reveal the character of the aliment partaken of by prehistoric man. Dissolving the tartar in a weak acid, a residue was left which, under the microscope, was found to consist of corn-husk particles, hairs from the outside of the husks, spiral vessels from vegetables, particles of starch, the point of a fish tooth, a conglomeration of oval cells probably of fruit, the barbellets of down and portions of wool.

In addition to this varied list were some round red bodies the origin of which defied detection and many sandy particles, some relating to quartz and some to flint. These mineral fragments were very likely attributable to the rough stones used in grinding the corn and would account for the erosion of the masticating surfaces, which in many cases was strongly marked. This inquiry into the food of men who lived not less than 4,000 years ago is a matter of great archaeological interest.

Poor Opera Glasses.

"Cheap opera glasses are an abomination," said an eye specialist recently. "There is no doubt about this. I have made a special study of the matter. Lots of eyes are nearly ruined by them. I find this particularly true of young girls who go a great deal to the theater and who seem to think they must have opera glasses. To their way of thinking an opera glass is an opera glass, and that's all there is to it. So they buy cheap ones and then wonder why they have such headaches."

"Unless the very best lenses are used I should advise everybody to taboo opera glasses. The farther from the stage one is the better and more perfect the glasses should be. Exactly the reverse of this is actually the case, for the people who sit in the rear seats or in the balcony are usually the ones who have the poorest glasses. A performance viewed with the naked eye is much more satisfactory, to my way of thinking. An opera glass gives but a limited view, and only the one object on which it is focused is visible. I don't see why people use even the best of them."

The Minister Won.

A minister was one day walking along a road, and to his astonishment, he saw a crowd of boys sitting in front of a ring with a small dog in the center. When he came up to them, he put the following question: "What are you doing to the dog?"

One little boy said, "Whoever tells the biggest lie wins it."

"Oh," said the minister, "I am surprised at you little boys, for when I was like you I never told a lie."

There was silence for awhile until one of the boys shouted, "Hand him up the dog!"—London Leader.

Over in Sweden.

"Over in Sweden the suburban railway lines have to provide a freight car for intoxicated persons."

"I don't suppose they label it that way, do they?"

"I don't know. Probably they brand it either 'Spirits in packages' or else 'Hardware.'"

"Hardware?"

"Yes. Skates."

Dickens' Supremacy.

"So this, then, is your husband's new library. Mrs. Muchro? Ah, I see he has Dickens and Thackeray side by side. Which do you consider the greater of the two?"

"Oh, my, Dickens! Joshua paid \$2.40 more for them Dickens than he had to give for Thackeray's books right at the same shop."

The pain produced by a hornet's sting is caused by a poison injected into the wound, and so instantaneous is its effect as to cause the attack of this insect to resemble a violent blow in the face.

Diamonds in the rough are sometimes spoiled in the cutting, just as some pupils are spoiled in the educating.—Pittsburg Dispatch.

GAINED

9½ LBS.

BY USING MILBURN'S PILLS.

VICTORIA, B.C., March 8, 1901.
The T. Milburn Co., Limited,
Toronto, Ont.

Dear Sirs,—Some time ago my daughter,

aged 19 years, was troubled with bad headaches and loss of appetite.

She was tired and listless most of the time, and was losing flesh.

Her system got badly run down, so hearing your Heart and Nerve Pills highly spoken of I procured a box,

and by the time she had used them she had gained 9½ lbs. in weight and is now in perfect health.

Yours truly,
Mrs. P. H. CURTIS.

FIGHTING THE STRIKERS.

MILITIAMEN USE RIFLES AS CLUBS IN CLEARING THE STREETS OF ALBANY.

ALBANY, May 15.—Promptly at 8 o'clock the United Traction Company began preparations to move its cars. At that hour Gen. Barnes, in command of the 23rd regiment, brought out before the Quail street barn his entire regiment. At the same time the tenth battalion started down town, dropping out details on the way at the street corners along the traction line running to Broadway. One company of the 23rd started to clear out the mob massed at the survey on Central avenue. Persuasion was of no avail, and back went the company a dozen paces.

"Charge bayonets," shouted Lieutenant Colonel Brady. Down went the gleaming points and on a rush the men started for the crowd. Just as they reached them there was a quick reverse of the guns and the butts smashed against human flesh. With a howl the crowd started back, some with bloody faces and some with broken bones. The moving mass was not allowed to stop until it had been driven three blocks away. Then every side street for blocks around were cleared and details began the work of closing up the saloons and houses.

All the time inside the now open barn doors were five open cars ready manned with non-union men waiting the word to run out.

On each one were two motormen, two conductors and two Pinkerton detectives, the latter with rifles in their hands ready loaded to shoot.

"The men are ordered not to fire except it is absolutely necessary," said Superintendent Fassett, of the road.

At 8.30 o'clock the first car poked its nose out of the door and rounded the curve to the spot where the crowd was gathered. Gen. Barnes was on the car and when it reached the obstructions a coupling was made and the damaged cars soon removed to the barn.

The crowd was too far distant to even see the operations, and if a window went up a guardsman soon shut it with an order.

At 9.20 a second car left the stable and started over towards Madison avenue, a thoroughfare not guarded. On board of it were Lieutenant Colonel Brady and a company of the 23rd regiment guarding two motormen and two conductors. They proceeded over Quail street, stopping to remove obstructions from the track. The car was an open one and the militiamen just filled it.

It was ten o'clock before this car had reached the last of the obstructions, and then it bowled over Quail street to Madison Avenue and up to the end of the line. In the meantime the company ran out several other cars and got them ready for business.

On the first one, designed to come down Central Avenue and State street, was a full company of the 23rd Regiment. On the other six were similar details. The first car moved out and down the avenue with no trouble, and car No. 2, with a trailer, followed a few minutes after. There was hardly a ripple of excitement as the cars moved down the hill to take different routes. There were hoots and hisses at several points, but up to the time the various cars reached the foot of State street not a bit of trouble had occurred and there were no great crowds at any point. Evidently the great display of military force and the way the crowds were handled awed the rebellious people.

As the numerous cars kept coming down

Relieve those Inflamed Eyes!

Pond's Extract

Reduced one-half with pure soft water, applied frequently with dropper or eye cup, the congestion will be removed and the pain and inflammation instantly relieved.

CAUTION!—Avoid dangerous, irritating Witch Hazel preparations represented to be "the same as" Pond's Extract which easily sour and generally contain "wood alcohol," a deadly poison.

the hill the crowd near the post office increased in numbers and began to get excited. So as to avoid trouble, the military in that vicinity charged upon the crowd and drove them two blocks away from the junction of State street and Broadway. This was the only incident during the running of the first cars.

Following the procession of cars, the repair wagons, guarded by seventy mounted signal corps men, came down the street and turned up Broadway, where there was some repairing to be done.

A conference has been called at Mayor Blessinger's office looking towards an amicable settlement of the strike. Calls have been sent to the strikers' organizations and the United Traction Company, and a meeting is promised for this afternoon.

ALBANY, May 16.—The conference at the mayor's office is for the purpose of determining whether the common council shall be called to meet in special session to rescind an ordinance passed some years ago granted the Albany railway, now succeeded by the United Traction Company, the right to erect poles and string wires on the streets.

TROY, N. Y., May 16.—All is anticipation in Troy with reference to the United Traction strike. Rumors have been rife all morning that the Traction Company proposes to run its cars into this city from Albany during the day, and the resumption of traffic on the Troy division, coupled with the alignment of the company of Schenectady along the company's tracks in Watervliet, gave apparent corroboration to the reports. It is generally believed in official circles that the railroad company will to-day make an effort to extend its operations to this city. There is little likelihood that any attempt will be made to run cars on the Troy lines to-day, as the company has not as yet made any preparations with that end in view.

Sheldon's Opinion.

Leamington, Ont.—Mr. Sheldon states that for two years he unsuccessfully sought a remedy to cure his son of Catarrh, but permanent results were not attained until Catarrhzone was used. It cured his little boy like magic, and he has been quite free from Catarrh ever since. Catarrhzone cures all forms of Catarrh, Bronchitis, Throat Irritation, Coughs and Colds. No remedy like it. Quick to relieve, pleasant to use, guaranteed to cure. Clears throat and nose at one breath. Try Catarrhzone, 25 cents and \$1.00. Druggists or Polson & Co., Kingston, Ont.

CONVICT LABOR.

At Tarragona, Spain, the convicts in the penitentiary are engaged in making shoes, and practically the entire manufacture in that neighborhood is in their hands. The daily wage given them is from 12 to 15cts., but the overlookers receive certain bounties and gratuities besides. The wages of free journeymen range from \$2.15 to \$2.60 per week.

PAINE'S CELERY COMPOUND

The Popular Medicine
With the People and
The Medical Profession

Only a true and effective remedy could continue, as Paine's Celery Compound has done, to hold its high place in the estimation of the ablest physicians and of the tens of thousands of busy men and women whose only means of judging is from the actual results in their own homes or among their friends. No remedy was ever so highly recommended, because no other ever achieved so many wonderful victories over disease and death.

For feeding exhausted nerves, building up the strength of the body, giving a healthy and natural appetite, and as a promoter of refreshing sleep, Paine's Celery Compound stands to-day without an equal in the world.

Mrs. Garland, 675 Crawford Street, Toronto, gives her experience with Paine's Celery Compound as follows:

"Your Paine's Celery Compound has most wonderfully improved my health. Before using it my appetite was poor—almost gone; I was weak and debilitated, and suffered from pains in the head. Paine's Celery Compound does all that is claimed for it. I have recommended it to my friends, and they all speak highly of the results received from it. I wish Paine's Celery Compound the success it so richly deserves."

INSANE PATIENT JUMPED FROM WINDOW AND WAS CURED.

CHICAGO, May 16.—Della Walker, twenty-four years old, leaped from the dining-room of the County Hospital to-day to the ground sixty feet below. Both her wrists and her nose were broken, and she suffered other bruises, but the remarkable effect of her fall is that whereas she had been demented, she is now rational. The hallucinations that caused her to be brought to the hospital last Saturday have disappeared.

Eccentricities in her actions were noticed by Mrs. Wm. A. Rice, in whose family Miss Walker had lived for nine years. Diagnosis at the hospital showed that the patient was suffering from a brain tumor. An operation it was decided was her only hope. As her dementia was not of the violent type, she was permitted to go into the dining room for breakfast this morning.

It was noticed that she placed her hands to her head as if suffering pain. Then, without a word, she stepped to the open window and jumped out.

The attendants expected to find her dashed to death, but found her unhurt except as described. Their greatest surprise followed when she talked rationally. The attending doctors believe that now there seems to be no need of an operation.
