

A PILL A DAY

One of Person's Pills every day for a week will do more to cure Biliousness, Sick Headache, Constipation, and all Liver and Bowel Complaints than a whole box of irritating, drastic pills or remedies.

Put up in glass phials, boxed, etc.

I. S. JOHNSON & CO.
Boston, Mass.

OTTAWA LETTER.

OTTAWA, 23rd May.—Parliament was closed to-day with the usual ceremonies. The weather was delightful and there was a large turnout to see the soldiers and the fine equipage of His Excellency, the Governor General. A good many of the members had gone home, but there was still a respectable contingent on hand.

The leader of the Opposition moved the customary resolution yesterday, denouncing the Government for its extravagance and broken pledge of economy. The sincerity of the action of the Conservatives in this regard is open to question, inasmuch as they did not devote four hours of time to the discussion of a matter which, if they believed the words of their resolution, ought to receive the gravest consideration. It should not have been left to the closing hours of the session. There is also the further fact over against their indignant protestations that while the estimates were under consideration they took exception to but one item of \$16,000. On the other hand they complain because the Government had not done several things which would have added at least a couple of millions to the expenditure.

The resolution was particularly directed against the expenditure on the Intercolonial, and a rather mean trap was set for the Minister of Railways. Mr. Haggart had given notice that he intended to give special attention to this matter, and announced that he would require at least two hours of time for the purpose. He had collected a large amount of data and all through the session has been the critic of Intercolonial management. When the question came up, however, Mr. Barker led in the attack, the object being to have Mr. Blair reply and thus enable Mr. Haggart to follow with the real assault. Under the rules of debate Mr. Blair's mouth would be closed after he had once spoken. The Minister declined to be sandwiched in this fashion, and the consequence was that Mr. Haggart shoved his bundle of papers into his desk in a rather petulant mood and the discussion came to an end. These tactics were rather discreditable, because they prevented Mr. Blair from making his annual statement with respect to the Intercolonial.

By the almost unanimous vote of the House the seasonal indemnity of members and senators was increased on Tuesday last from \$1,000 to \$1,500. The annual allowance has been the subject of agitation for eight or ten years past, and it was thought prudent to finally dispose of it. Short sessions are a thing of the past, and the work of Parliament has more than doubled since the indemnity was fixed in 1867.

The Government proposes hereafter to pay a bounty on silver-lead smelted within the Dominion. The total sum to be paid in this way in any one year is not to exceed \$100,000, and the system comes to an end after a given term of years. It is expected that this measure will greatly stimulate smelting operations in Western Canada.

The trade of the country continues to increase. The statement for ten months of the current fiscal year has just been made public, and it shows an increase of over \$20,000,000 as compared with the corresponding period of last year. The growth has been wholly in exports, the products of the mines and manufactures leading in the list. Farm products have about held their own, notwithstanding a small depreciation in values. This ought to be considered very satisfactory in view of the very remarkable expansion of the past five years. In the very nature of things this rate of progress will not steadily continue.

CHRONIC BRONCHITIS

Rev. J. N. Van Natter, of Streator, Ill., writes:—"About one year ago I obtained from you six bottles of Dr. Chase's Syrup of Linseed and Turpentine. I gave away two and took the other four. I had been seriously afflicted with Chronic Bronchitis for ten years and could get no relief. A leading physician told me that it was only a question of time until it would wear me out, but thanks to this wonderful remedy of Dr. Chase I am now a strong man." 25 cents a bottle, all dealers.

EMPIRE DAY AT HARCOURT.

A notice of school examinations and exercises is almost perforce commendatory. And it is right that it should be so. Nothing is gained by captious criticism of children—old or young. A kindly word will incite to excellence where cold apathy will produce disgust and rebellion. Yet no such sympathetic feelings are needed to evoke the warmest words of commendation for the display of enthusiastic loyalty, good taste, and a literary acumen by no means inconsiderable that marked the observance of Empire Day at Harcourt, 1901. The enthusiasm and warmth that was a most noticeable feature, was admirably embossed by the good order that was observed, and the kindly feelings that evidently prevailed between the teachers and their pupils. Even the irrepressible boy seemed for the day to have put on his model manners. The parents of the children also contributed in no small degree to the success of the school by turning out in considerable numbers and showing a hearty sympathy with the proceedings. This is as it should be. If we are a prosperous and happy people it can only come by having our young folk grow up with love of home, a regard for the grand and noble traditions of their country and a feeling that will make them prize their noble heritage of British birth, above the proudest title a foreign country can bestow, and that will make their cheeks flush with conscious pride when they proudly say, I am a Canadian. If the Boer war had no other result than to rouse the national feeling of Canada as it has done it is well worth the blood and treasure poured into it. Nothing in all history has done so much to draw the Great British Empire together, and to make us all feel as British people all.

At the request of the teachers several gentlemen addressed the children and the advice given the young folk by Mr. Thos. Delaney and Mr. Bliss Bailey was well worth being carefully considered by young and old. It is only by at home practicing the virtues of loyalty to our parents and our friends that we can ever become truly loyal to our country and our race. And what Mr. Bailey said in regard to the craven cowardice and meanness of some of our low bred Canadians who seem ashamed to be known as Britons and Canadians was borne out by the experience of the writer. Nothing makes a man more truly contemptible in the eyes of an American than hesitancy in the manner of naming his birth place and claiming for it all he can. To their love and reverence to their motherland is due in great part the powerful influence of the Irish race in America and to the want of it in Canadians is attributed the fact that we never hear the Canadian vote mentioned as a factor of importance in the States. However all this is being changed and the coming Canadian will be as far ahead of his father in patriotic enthusiasm as he will be in enterprise and energy.

That the influence of the teacher makes the school is to a great extent true, but that the influence of the parent makes the teacher is also true to quite as great an extent, and while the teachers of Harcourt deserve all the commendation they receive yet the hearty manner in which their efforts are seconded by the trustees and parents of the children is an item of mighty import in the success of their school.

The following was the programme of the exercises which was well carried out. The only feature to which exception could be taken was the recitation of an American poem severely reflecting on the honor and gallantry of British soldiers by one of the less advanced young ladies of

LAXA LIVER PILLS

Those who have used Laxa-Liver Pills say they have no equal for relieving and curing **Constipation, Sick Headache, Biliousness, Dyspepsia, Coated Tongue, Foul Breath, Heart Burn, Water Brash** or any disease or disorder of the stomach, liver or bowels.

Mrs. George Williams, Fairfield Plains, Ont., writes as follows: "As there are so many other medicines offered for sale in substitution for Laxa-Liver Pills I am particular to get the genuine, as they far surpass anything else for regulating the bowels and correcting stomach disorders."

Laxa-Liver Pills are purely vegetable; neither gripe, weaken nor sicken, are easy to take and prompt to act.

loyal Canada. Many of both teachers and pupils in N. B. do not seem to know that a recitation that would be quite appropriate to an American audience is utterly out of place and absolutely insulting to a Canadian assembly. However, as our national spirit riots it will banish all these incongruities and it will be, we hope, never again known in any part of Canada an assembly of young people can be met who like the children of six schools visited by the writer in Kent two years ago could not show one who could sing God Save the Queen.

- Chorus by school, "Our Homes."
 - Essay—"Queen Victoria," by Ella Livingston.
 - Recitation—"By Favor of the Queen," Mabel Wathen.
 - Chorus—"The Land where the Sugar Maple Grows."
 - Recitation—"The ride of Jennie McNeil," by Jennie Humphrey.
 - Recitation—"How Paul Kruger lost his Sweetheart," by Grace Wathen.
 - Essay on the Victorian-Era, by Alethea Wathen.
 - "How the Fairies choose their Queen," a dialogue by 15 children.
 - Recitation—"The British Flag," by Sheridan Petley.
 - Recitation—"Young Canada was there," by Melvin Dunn.
 - "Canada our Homeland," a dialogue by twelve boys and girls.
 - Song—"The Land of the Maple." Speeches.
 - Chorus—"The Maple Leaf Forever." Flag drill by twenty children.
 - Recitation—"Canadians All," by Harry Morton.
 - Recitation—"Our Canada," by Jessie Petley.
 - "God Save the King."
- C. C. C.

NOW I FEEL REAL WELL

Mr. W. H. La Blance, Bonfield, Ont., writes:—"I was once a sufferer from catarrh, and while using Dr. Chase's Catarrh Cure I was recommended to use also Dr. Chase's Nerve Food to build up the system. My nerves were exhausted and I was too weak to do a day's work when I began using it, and now am strong and healthy, and feel real well. I am perfectly sure that anyone who uses Dr. Chase's Nerve Food will believe as I do, that it is the best strengthener and restorative obtainable."

THE WORLD OVER.

ROCKLAND, Me., May 28.—By the breaking of a large wire rope to a coal delivery staging at Spruce Head yesterday, four men were precipitated forty feet to the deck of the schooner Ned P. Walker, and James D. Caven was instantly killed. While the others were badly bruised and painfully injured, they will all recover. Willis Adams had two ribs and a finger broken; Fred Cook's right leg was broken in two places, while Alonzo Allen escaped with a severe shaking up. Cavan was 35 years old and leaves a widow at Clarks Island.

MANILA, May 28.—The Philippine commission has begun the discussion of the bill to re-organize the courts. Concerning the criticisms of the non-appointment of native judges, Mr. Ide said the commission was following its instructions to the effect that other things being equal Filipinos should receive the appointments but the Filipinos have proved incompetent from the outset. Native speakers welcomed the Anglo-Saxon judicial procedure. All the important American judges were adverse to the provisions making the Spanish language the language to be used in the courts for a period of five years, but the commission desires to avoid inconvenience to the native lawyers.

LONDON, May 28.—The International Miners' conference now in session in London, and which is attended by many continental delegates, passed a resolution today in favor of a universal eight hour day. The chairman, Mr. William Abraham, M. P., expressed the belief that parliament would pass an eight hour law in 1902. M. Cotte, delegate of French miners, said that if the eight-hour bill now before the Chamber of Deputies did not progress rapidly enough, the French miners were prepared to declare a general strike.

RUN DOWN.

"I was run down and nervous, so got a box of Millburn's Heart and Nerve Pills, and they proved of great benefit to me. My mother also wishes to say that they were of great value to her."—P. HILLIER, London.

Physician—Your wife is troubled with a peculiar throat ailment. She must talk as little as possible.

Husband—Say, doctor, is there any possible hope of its becoming chronic?—Chicago News.

BACK TO HEALTH.

THROUGH THE KINDNESS AND PERSISTENCE OF A FRIEND

An Every-Day Story That Will Bring Health and Happiness to Young Girls Who Act Upon the Advice Given.

From the Sun, Orangeville, Ont.

In every part of Canada are to be found grateful people who cheerfully acknowledge that the good health they enjoy is due to the use of Dr. Williams' Pink Pills. In the town of Orangeville there are many such people, among them being Miss Lizzie Collins, an estimable young lady who resides with her mother in the east ward. Miss Collins' cure through the use of this medicine was recently brought to the attention of the Sun, and a reporter was sent to get the facts from the young lady. Miss Collins cheerfully accorded the interview, and her statement is given practically in her own words: "Two years ago," said she, "I became so weak that I was forced to take to my bed. The illness came on gradually; I found myself much run down, suffered from headaches, and was as pale as possible for a living person to be. I used several medicines, but they did not help me. Then I consulted a doctor, and he said that I had scarcely any blood, and that my condition was one of danger. Medicine did not seem to do me any good and I found myself growing weaker. I reached the stage when my heart kept palpitating violently all the time. The headaches became continuous, and my condition one which words can scarcely describe. I really despaired of getting better, and loathed the sight of medicine. I had been confined to bed for about two months when one day a friend called and urged me to try Dr. Williams' Pink Pills. I told her I had lost faith in all medicines, but she was apparently determined I should try the pills, for she brought me about half a box she had been using herself. I could not then do less than try the pills, and when they were used, while I cannot say I felt much better, I had more confidence in the pills and got half a dozen boxes. Before these were gone there was no doubt that they were rapidly restoring me to my old-time health, as I was soon able to sit up and then be around and out. I used in all eight or nine boxes, and before these were gone I felt as though I had never had an ache or pain in my life. That is what Dr. Williams' Pink Pills did for me and I think I would be very ungrateful if I did not add my testimony for the benefit it may be to some other young girl."

Miss Collins' story should bring hope to many thousands of other young girls who suffer as she did! Those who are pale, lack appetite, suffer from headaches, and palpitation of the heart, dizziness, or a feeling of constant weariness, will find renewed health and strength in the use of a few boxes of Dr. Williams' Pink Pills. Sold by all dealers or sent by mail, post paid, at 50 cents a box or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

VANCOUVER, May 28.—The citizens of Vancouver are making an attempt to divert some of the gold from the Klondike and Atlin districts to British Columbia, instead of permitting it all to go to Seattle and San Francisco, as it has hitherto done. Five thousand dollars has been contributed by citizens towards the expense of running a fully equipped assay office, and W. Pellew Harvey, provincial government assayer, has placed orders for doubling the capacity of his plant.

When it Hurts To Cough

The cough that hurts, the cough that gets tight in the chest is daily getting deeper and deeper into the bronchial tubes and is making directly for the lungs, to become pneumonia, inflammation of the lungs or consumption.

Such coughs are sometimes referred to as "graveyard coughs," because they usually bring their victim to that last resting place.

Dr. Chase's Syrup of Linseed and Turpentine has long been known as mother's favorite remedy for croup, bronchitis, coughs and colds. It gains in popularity every day and now has by far the largest sale of any similar preparation.

It loosens the tightness in the chest, allays the inflammation, cures the cold and prevents pneumonia, consumption and other lung troubles. 25 cents, all dealers, or Edmanson, Bates & Co., Toronto.

Dr. Chase's Syrup of Linseed and Turpentine.

ATTENTION!

The subscriber returns thanks to the people of Richibucto and surrounding country for the very liberal patronage given him since opening his store. He assures them that in dealing with him they are serving their own purposes, to the very best advantage, as the more he can sell the more he can buy; therefore the cheaper he can purchase. And it is needless to remind you that he is selling at the lowest living profit, believing in the nimble shilling. He desires to call attention to some goods on which a special bargain may be had.

Suits for men, Pants or Vests, Mens Shirts of all Kinds, Towels, Napkins, Linen Table Clothes, General Dry Goods, and some Groceries.

CALL AND SEE FOR YOURSELVES

Watches & Jewelry of all kinds a specialty.

In addition to the above, each Monday will be considered a day for SPECIAL LIBERAL TREATMENT, such as adding some present to each sale, which we could not afford to do every day. A special present with the first sale on Monday mornings. The subscriber assures the public that he has the opinion of many smokers that the "ROCK CITY" TOBACCO is the more pleasant and the least injurious of all Tobaccos.
