### SUCCESS.

At the foot of the Hill of Endeavor,  
O, Young One, look upward and see  
The shine of the prize  
That dazzles your eyes  
With the gleam of the glory to be.  
Far up in the clouds like a beacon,  
Its lustre illumines the world.  
And you start on your way  
At the dawn of the day  
With the flag of your purpose unfurled.  
Youth, Hope and Ambition attend you  
And the line of your march is bestrewn  
With the roses that bring  
You the fragrance of Spring.  
While the fullness of earth seems your own.

Up the steps of the Hill of Endeavor  
You battle and toil and keep on  
For the glittering prize  
That dazzles your eyes  
At eve as it did at the dawn.

Its brilliance is always before you  
To lighten the arduous way  
That leads to success,  
Through struggle and stress,  
And crown you with laurel and bay.

At the top of the Hill of Endeavor,  
Oh, Old One, look downward and call  
To the brave and the true  
Who are following you,  
God-speed and good cheer to them all.  
—Madge Merton.

## MARITIME PROVINCE NOTES.

CHATHAM, N. B., July 11.—The owners of the schooner Wynona, which was run down and sunk off Newfoundland by the steamer Riplingham, have libelled the steamer for \$13,000. The agents of the steamer have offered to furnish bonds to the amount of \$27,000. Mr. R. A. Lawlor has been retained by the owners of the Riplingham and is endeavoring to have the evidence of the officers taken in Chatham, in order not to delay her sailing.

HALIFAX, July 11.—Wm. Smith, a member of company 20, western division Royal Artillery, committed suicide at the citadel yesterday afternoon. The unfortunate man had been confined to barracks for several days and came up in the morning before a court martial for a breach of the military regulations. He was sentenced to four days at Melville Island, and while being taken to his quarters told the guard that he never intended to serve his term. He evidently felt the disgrace keenly, and continued to refer to it. Those who had heard his protestation did not dream that he would cheat the decision of the court by suiciding. About two o'clock a rifle shot was heard in Smith's room, and when a comrade rushed in the suicide was found lying on the floor with a bullet wound in his head. A rifle at his side told only too plainly the sad story.

Chatham Commercial: Hay was selling at \$15 per ton last week; this is \$5 more than it was sold for a few weeks ago. On account of the great drought in this vicinity and the consequent failure of the hay crop, it is likely that the price will be still higher.

It is said that there are now—or were on Sunday last—no less than five moose on Beaubair's Island. Three of them, a cow and two calves, have been there since spring, the calves having been dropped there. On Saturday last two others were seen in the river and one of them was en-

will agree with us in making the statement that we have the best values in BLUE and BLACK SERGE SUITS that have been offered this year. If you are a judge, one glance at the goods and the make-up will convince you that what we say is right; and then if you examine them more closely you will see that the Lining, Trimmings and finish is first-class.

If you are in need of a Suit come and see ours, and if we have nothing ready-made that will just suit you, perhaps we can sell you a piece of cloth to make a suit. We have an excellent range of English and Canadian Tweeds, Serges, Worsteds, Mixed Vicunas, etc., which make up very nicely. You are sure to see something that will suit you.

## A. & R. LOGGIE

tangled in Mr. Thos. Power's salmon net a short distance above the bridge. Getting clear, both animals went down to Wilson's Point, swam the Tickle and took refuge on the Island where it is to be hoped they, together with the others will remain in safety. One of the moose took to the water a few days ago and swam across almost to the public wharf on the Nelson shore, but returned without landing.—Chatham advance.

SACKVILLE, July 11.—Some time in October of last year an American sportsman of New York city named Shipman came here to spend a few days shooting. He brought with him a new hammerless gun which cost \$125. He spent several days shooting and one day laid the gun down in a field for a few minutes and when he returned it had disappeared. All attempts to trace the gun failed until recently. Yesterday Constable Charles A. Siddell, acting upon information, went to Frank Hicks at Midgie, in whose house the gun was found. Hicks stated that he had purchased the gun from a man named Phinney.

ST. ANDREWS, July 11.—While Thomas Armstrong was assisting Harold Stiekney in locating a leak in his acetylene gas plant this morning some of the chemicals exploded and Mr. Armstrong was quite badly burned about the arms and face. Fortunately his eyes escaped injury.

BATHURST, N. B., July 11.—The ship Vandura, which arrived here to-day from Genoa, picked up in lat. 45 17 N., lon. 57.34, Yves Hervy and Alphonse Casitaine of the French schooner Anita and took them to Bathurst, whence they will be sent to France under orders of Consular Agent Snowball, of Chatham. The sailors had strayed from the schooner while attending to their fishing trawls and were four days without food or drink, and were greatly exhausted when discovered and had to be hoisted on board of the Vandura.

HAMPTON, N. B., July 11.—Constable Dobbin of Rothesay brought to jail here this afternoon James Carvell, a young man about twenty years of age, of Quispamsis on the charge of poisoning his father. Lewis Carvell, with strychnine on Monday last. The poison it is said was put in sugar. The father is alive but very low.

ST. GEORGE, N. B., July 11.—Two boys, about eight and ten years of age, sons of Wm. Daphney, of Boany River, were drowned there this afternoon. Their mother left them to keep house while she went to the railway station. It is supposed they went for a swim and got beyond their depth and were drowned. Both bodies were recovered shortly

after the accident. The funeral took place on Saturday afternoon.

Among the memorials from Grand Divisions before the meeting of the National Division, Sons of Temperance, at Charlottetown was one from Rhode Island asking the repeal of the decision against dancing. The National Division refused the prayer of the memorial.

E. S. Stephenson, the machinist, had his face terribly burned Thursday by an explosion of gas in the Wilson saw works on Union street, St. John. The accident occurred while the machinist was at work repairing a gas engine in the saw works. Mr. Stephenson was in the act of taking off the cylinder head when he had occasion to light a strip of paper to aid him in his work. He did this under the impression that the engine was free of gas, but it was not and the burning strip of paper caused the trouble. When the explosion came Mr. Stephenson had his face close to the part where it originated and he suffered in consequence. His forehead, cheeks, mouth, nose and other portions of his face were badly injured, while his mustache and eyebrows were completely burned off. The injured man received medical assistance and was removed to his home, Orange street. Fortunately his eyesight escaped injury, but he suffered intense pain.

The Halifax Herald says: A heavy fire occurred at 2 o'clock Saturday morning in the Tower Hamlets, at the south end of Tower road. Two alarms were sent in and the firemen were not able to obtain control of flames till three houses had been completely destroyed. The burned buildings, adjoining another, were occupied by Mr. Purcell, George Stanhope, J. T. Stanhope and William James.

CHATHAM, N. B., July 12.—The citizens' committee and town council met to-night to arrange details for the governor general's visit to the Miramichi on the 19th. It is proposed that a fleet of 25 steamers will meet the Minto at Terri's Point at 9 a. m., and escort his excellency to Newcastle, where an address will be presented at 11. From 11 to 12 30, citizens will be presented. The party will then go up river to Chatham, arriving at the town wharf about 2.30. An address will be presented, after which the visitors will be shown the town and vicinity and return to the town hall at 5 o'clock, where a reception will be held. Four bands will be in attendance. The steamers will escort the vice regal party down river at 8 p. m.

Yellow will dye a splendid green by using Magnetic dyes—10 cents buys a package and the results are sure.

## DOMINION NEWS.

TORONTO, July 10.—Walter Smith, aged 8, and Ernest Macrae, aged 15, were drowned while bathing at Island Park this afternoon. Smith got beyond his depth and when Macrae went to his assistance Smith grasped him around the neck, choking him and both went down to death. The bodies were recovered.

TORONTO, July 11.—Private advices from residents of New Liskeard, Temiskaming district, Northern Ontario, indicate that recent forest fires swept over eight townships. Sixty settlers' families were burned out, losing everything except the clothing they wore. The destruction of farm buildings and crops were complete. The burned out settlers are homeless and destitute and an appeal will be made on their behalf by the Ontario government for aid. The village of New Liskeard was surrounded by fire, and narrowly escaped destruction, a providential rain fell saving it and effectually staying the progress of the forest fires.

OTTAWA, July 11.—Edw. Harris, Collector of Customs at Canning, N. S., has been superannuated, and John Bigelow appointed to succeed him.

The medals for the Canadians who served in South Africa are on board the Ophir in charge of lieutenant, the Duke of Roxborough, who, upon arrival of the ship at Quebec, will hand them over to the general officer commanding. This means they will probably not be engraved with the name of the recipient.

The department of militia has received a requisition for twelve thoroughly trained chargers for use of His Highness and party at military reviews while in Canada. Four of these, which are to be jet black, are for the staff of the duke.

The Montreal City Council has decided to call for new tenders for the lighting contract to be opened in September. A decision was only reached after an exciting debate, during which Ald. Clearihue said he had been offered \$3,000 to vote for giving the contract to the Royal Electric.

SYDNEY, July 11.—The Manager Pan-American Circus wired county clerk Curry this morning from Grand Narrows, asking him to refund the license fee for showing at that place as scarcely a hundred people were on hand to see the show so the management decided not to pitch their tents. The county has gone to the expense of sending three policemen to Grand Narrows, so it is not likely the circus people will get their money back.

OTTAWA, July 11.—The lieutenant general commanding the British contingent of the China field force, has sent the following to the governor general:

"I have the honor to inform you that the principal ordnance officer of the China field force, has, under instructions from me, dispatched the two guns shown in the attached statement, for presentation to the Canadian government. The guns were shipped at Taku on the 9th May, and have been consigned through to Ottawa via Shanghai and Vancouver, to the address of Col. Pinault, in charge of the militia defences.

The despatch is signed by Alfred Tasche, lieutenant general.

The description of the guns shows that they are brass, weighs four hundredweight, five feet long, are smooth bore and of 3.25 calibre. They were made in China and are not now serviceable. These guns have Chinese inscriptions and have rings cast on them.

OTTAWA, July 12.—A cable was received at Government House to-day from Colonial Secretary Chamberlain as follows:

"I have the honor to acquaint you, for the information of your ministers, that a telegram has been received from the general officer commanding, Cape Town, stating that two Canadian recruits for South African constabulary, L. Flink and J. Smallwood, have been discharged as medically unfit and sailed for England on the 12th of this month. Arrangements are being made by the recruiting officer for the South African constabulary to provide accommodation for these two men on their arrival, and passages to Canada will be provided for them by the next steamer after their arrival. The fact that only two men out of 1,200 were medically unfit is considered most satisfactory.

ST. JOHN'S, Nfld., July 12.—Commodore Giffard and Commodore Montferriani, commanders of the British and French fishery squadrons in these waters, have arranged in a conference here for a naval pageant on the occasion of the visit to St. John's, October 21, of the Duke and Duchess of Cornwall and York. Four British and three French warships, composing the fishery squadrons, will participate. Vice Admiral Bedford, commander-in-chief of the British North America and West Indies station, with a British squadron of seven warships will also attend the royal yacht Ophir and her consorts. The United States government will be invited to send a warship to take part in the pageant, and it is hoped to assemble altogether 18 warships.

At a meeting of the Toronto Socialist League, No. 2, a motion was passed regretting the expenditure of ten thousand dollars on the reception of the Duke and Duchess of York, when so many poor people are suffering.

The Governor General's secretary has issued the following: "During the forthcoming visit of their royal highnesses the Duke and Duchess of Cornwall and York to Canada, half-mourning should be worn by ladies, according to Queen Alexandra's orders; that is, mauve, lilac, grey, or black and white."

SYDNEY, July 12.—Neil Campbell, section foreman of the Intercolonial was instantly killed two miles east of McIntyre's Lake this morning. Campbell was travelling on a hand car when he heard a train approaching. He alighted from the car and endeavored to get it off the track and thus avoid a collision. He was tugging at the car when the engine of the west bound freight struck him and hurled him some distance. The train stopped but Campbell was dead when the train hands reached him. He leaves a wife and a large family.

MONTREAL, July 12.—Recorder Weir decided yesterday that Montrealers do not have to go to bed at 12 o'clock, and may sit out in the public square after midnight, despite the rooted objections of the average policeman thereto. During the hot spell Edward Black was arrested for loitering because on such occasion he was sitting in Dominion Square after midnight. On the second occasion he said the square was public property and he would sit there at what hour he pleased, and on refusing to go home was arrested. Recorder Weir said his case was important and he knew of no law which compelled citizens to remain indoors at night. The first arrest was in the middle of the recent hot spell, and during the same week in New York thousands of people slept out doors with impunity and as long as they behaved themselves they were not molested. The prisoner had done no wrong and was entitled to discharge.

CORNWALL, Ont., July 12.—The weavers in the Cornwall Manufacturing Co. went out on strike this morning because the management refused to make allowances on certain classes of work. The strike affects the spinning and carding departments, but the finishing department has a considerable quantity of work ahead. The mill will not close altogether for the present.

CORNWALL, July 12.—Twenty cows owned by a farmer in the neighborhood of Lunenburg died during the present week from a disease believed to be anthrax. The government has sent a veterinarian, who ordered the animals' bodies buried. It is believed the spread will be checked.

MONTREAL, July 12.—Frank W. Morse, superintendent of the motive power of the Grand Trunk, has been appointed third vice-president and assistant general manager of the system, to go into effect July 15. The transportation, motive power and car department report direct to him. Mr. Morse came here six years ago from Wabash, and is the designer of the Morse type of locomotive.

Backache, sideache, swelling of feet and ankles, puffing under eyes, frequent thirst, scanty, cloudy, thick, highly colored urine, frequent urination, burning sensation when urinating.

Any of the above symptoms lead to Bright's disease, dropsy, diabetes, etc. Doan's Kidney Pills are a sure cure for all kidney diseases.

## Bronchitic Sufferers.

Act foolishly. If they improve ever so little when the fine weather comes, they relax effort and drift back into the old condition which if possible, becomes more chronic. Hit Bronchitis hard in the summer and you'll get 'rid of it and drive it tight out of the system. In winter it is almost impossible to do this. Inhale Catarrhazone regularly, it's a dead sure thing on Bronchitis. It goes into the most minute air cells of the lungs, bathes all parts of the bronchial tubes with its healing, germ destroying vapour, and cures every time. Highly endorsed by all competent druggists and doctors. 25c. and \$1.00.

For sale at R. O'Leary's General Store, Richibucto.

## THE MARITIME HOMESTEAD.

W. W. Hubbard, who has edited the Co-operative Farmer (lately changed to Maritime Farmer), of Sussex, N. B., since its inception in 1890, will shortly sever his connection with that paper, and will establish a paper devoted to the farm and home field of the Maritime Provinces.

This new journalistic enterprise will be called "The Maritime Homestead," and will have offices in both Halifax and St. John. With the editorial department of this paper will be associated some of the leading agricultural workers of eastern Canada. As its name implies, "The Maritime Homestead" will make a specialty of dealing with those matters connected with our maritime agricultural development, including all departments of animal husbandry, agriculture, horticulture, nature study, domestic economy, entertaining reading and a special compilation of general and local markets and crop prospects.
