BOERS SEEK TO MINIMIZE THE RECENT GAINS.

SAY THAT AGED AND SICK CONSTITUTE THOSE WHO SURRENDERED.

LONDON, July 11.—A despatch to the Daily Express from Lorenzo Marquez says severe fighting has taken place between Machadorp and Lydenburg, the Boers being defeated, with at least 50 killed.

AMSTERDAM, July 10.—Mail advices from Boer headquarters in the Transvaal state that the Boers have been embarrassed by the number of aged and sick unarmed men that accompanied them. These were sent accordingly, unarmed and unmounted, to the nearest British posts, and they, it is said, constitute the surrender which Lord Kitchener has represented as the fruits of British victories. In fact, their capitulation was merely a measure for the better organization of the Boer forces.

DURBAN, July 10.—It is stated here that an official of the Transvaal government, who has just returned from Europe, has expressed himself as sick of continental methods. He alleges that Foreign Secretary Grouber, who is now at The Hague, is drawing \$250 a month, and that a staff of clerks and others are also drawing their salaries as usual, while the burghers in Africa are enduring all sorts of privations. Mr. Kruger is besieged with letters and deputations, all of which amount to nothing.

CAPE TOWN, July 10.—The British column under Wyndham and Lund are pursuing the Boers under Commandants Melan and Lategan. The recruiting of irregular forces has been stopped in Cape Colony, but the government is still taking men for the various corps of mounted infantry.

CAPE TOWN, July 10.—Four Boer prisoners who were brought into Bloemfontein report that Generals Botha, De la Rey and De Wet recently held a conference at a point on the Vaal River.

TO MAKE MONEY it is necessary to have a clear, bright brain, a cool head free from pain, and strong, vigorous nerves. Milburn's Heart and Nerve Pills invigorate and brighten the brain, strengthen the nerves, and remove all heart, nerve and brain troubles.

HALIFAX, July 12.—H. M. S. Juno and St. George, consorts of the royal party's yacht Ophir, will come direct to Halifax from St. Vincent to coal. They will remain here until their royal highnesses arrive and will then accompany the Ophir to St. John's, Nfld., and England. The Ophir will proceed from St. Vincent to Quebec and will be met at some point in the gulf—to be arranged by Vice-Admiral Sir Frederic Bedford—by the flagship, Crescent and the British North American fleet. The flagship and fleet will remain at Quebec until their royal highnesses leave for the west and then the ships will return to Halifax and await the arrival here of the royal party. On leaving Halifax for St. John's, the Ophir will be accompanied by Sir Frederick and the fleet under his command.

TOO GREAT A RISK.

It is dangerous to neglect a simple case of itching piles as the trouble is likely to become chronic and develop into fatal incurable fistula or cancer of the rectum. A single application of Dr. Chase's Ointment will quickly relieve the itching and burning sensation, and a few boxes will cure any case of piles. This standard ointment has probably relieved more suffering than any preparation you can mention.

LOST OPPORTUNITY.

The presidential train was rushing through the far south. An old colored "mammy" dropped her batter spoon and stared at the fleeing "palace on wheels." After it had passed she rushed to the garden fence and shouted:

"Solomon, Solomon! De whole govahment des went pas!"

The old man scratched his head and mused:

"Lan's! Wish I had known dat. Abtied de cow on de track an sued de whole United States govahment."—Chicago News.

Rheumatism..

is Uric Acid in the blood. Unhealthy kidneys are the cause of the acid being there. If the kidneys acted as they should they would strain the Uric Acid out of the system and rheumatism wouldn't occur. Rheumatism is a Kidney Disease. Dodd's Kidney Pills have made a great part of their reputation curing Rheumatism. So get at the cause of those fearful shooting pains and stiff, aching joints. There is but one sure way—

Dodd's Kidney Pills

THE WHIRL OF FASHION.

Some of the new hats are again absurdly large, with piles of trimming heaped upon both crown and brim. There is simply no limit to the variety of pretty and picturesque dress sleeves for the two seasons before us.

The tulle draperies which again veil some of the flowers on spring and summer hats look like an afterthought and are a dainty and becoming addition.

Guipure laces, nets, bands, edgings, appliques, etc., will be the rage next season for decorating light and dainty gowns of India mull, organdie, mercerized swiss goods, barege, linen lawn, batiste and similar hot weather fabrics.

The prettiest and most effective trimmings for a dress of black point d'esprit net are ruffles and flounces of the net scalloped at the edges and if desired finished with an additional decoration of rows of very narrow ribbon set above the scallops.

With the elbow sleeves of the summer will come a revival of the old fashioned mitts of other days and also the reappearance of delicately wrought bracelets of gold, silver and black enamel, with a line of gold at each side and a small gold clasp.

Dresses of sheer linen lawn and of silk ecru batiste will form part of very smart summer outfits. They will be made up without lining to wear over a silk or sateen slip, or else they will have a silk lining throughout of deep rose, golden yellow or mauve.

THE HORSE SHOW.

Starlight, 2:27, and Dolly S, 2:19, are driven to pole by Caruthers Ewing, Memphis.

There is a fast green youngster on the San Jose (Cal.) track that "moves like The Abbot."

The Baron Dillon (2:12) colt out of Good Morning, 2:15½, born on March 4, has been named Inauguration.

Rather late, but at last one fast 3-year-old filly has been named Carrie Nation. She (the filly) is owned in Maine.

Bob Shockency drove a mile a few days ago in 2:13 over the Selma track. He was behind a pacer who has yet to hear the bell ring.

The 4-year-old filly Cassie B, by Thorndyke, out of Baby, by Pay Rock, owned by Dr. A. G. Van Ness, Denver, is said to be wonderfully fast.

Jean de Reszke, the famous tenor, has agents in New York and Pennsylvania purchasing trotting horses which he will take to Poland for breeding purposes.

Maiden Fair, a 14-year-old brood mare by Happy Medium, out of Mambrino Maid, by Mambrino Patchen, was sold at auction in Kentucky for \$5 a few days ago.

Herbert Gray has added to the Lawson stable the 4-year-old filly Baroness, 2:30, at Canton, N. Y., Sept. 13. She is by Baronet, 2:11½, and is said to possess phenomenal speed. The reported price is \$1,500.—Horseman.

THE JEWEL CASKET.

Coral is more than ever worn. It is now prominent in sleeve links and studs.

Gold beads, coral beads, opal beads and imitation pearls in necklets and chains all figure extensively in the everyday costume.

Elegant sautoirs are composed of enameled and pierced gold links set with diamonds, emeralds, sapphires, rubies and pearls.

The finest platinum links, making hardly more than an invisible thread, are used for the neck chain that supports pendants or costly ornaments of large diamonds, rubies, emeralds, singular baroque pearls, etc.

Pear shapes are popular in jewels. A pendant of turquoise matrix in this shape has no added ornament other than a little "cup" of brilliants into which it is set. This pendant interests also by its unusual markings, which are of a brown that is almost golden.

THE EASTERN TANGLE.

There seems to be no doubt that Great Britain can get a game if she wants one.—Detroit News.

Japan will probably have to fight the Anglo-Saxon for her life sooner or later, and the Russian sooner.—Boston Transcript.

If the powers cannot agree among themselves, the Chinese will allow them all the time they require to quarrel in.—Philadelphia Times.

What the powers could or would do if Russia, without the consent of China or of any other power, should remain in occupation and control of Manchuria is a question easier to ask than to answer.—Philadelphia Record.

War, like peace, has its humorous side too. The spectacle of General von Waldersee, the direct representative of the great war lord, appearing in the role of a golden haired angel of peace is funny enough to make even Tom Cooper smile.—Philadelphia Inquirer.

THE COOKBOOK.

Onions in any appetizing form are well adapted to the spring bill of fare. To serve a hot ham take it from the water when cooked, draw off the skin, rub the surface with brown sugar and set before the fire to brown.

Rice flour for browning soups is better than sugar and should be kept in the store closet ready for use. To prepare it spread it in a baking pan and place in a moderate oven. As soon as it is tinged with yellow stir it and continue until the required color is obtained. Let it cool and put away in large mouthed bottles.

BRITISH

TROOP OIL LINIMENT

FOR

Sprains, Strains, Cuts, Wounds, Ulcers, Open Sores, Bruises, Stiff Joints, Bites and Stings of Insects, Coughs, Colds, Contracted Cords, Rheumatism, Neuralgia, Bronchitis, Croup, Sore Throat, Quinsy, Whooping Cough and all Painful Swellings.

A LARGE BOTTLE, 25c.

THE MIDSUMMER DELINEATOR.

As this is essentially the vacation time of the year, The Delineator for August is the vacation number. The spirit of mid-summer breathes over its pages from the fashions down to the household notes. The daintiest dresses and dress accessories are gathered into this number, just suitable in their materials and their make-up for the temporary use to which midsummer clothing is put.

The dressmaking article by Mrs. Gorman deals with lace stock-collars and open-work of various kinds, boleros, etc., which appear to be more popular than ever this season.

The kitchen article for the month describes various cold tomato dishes, summer drinks and fruit salads.

Three short stories also appear in the August number; one by Francis Lynde entitled "A Vacation Conscience," another by Arabella Kenely, daughter of the famous Dr. Kenely, entitled "Dr. Fordham's Daughter," and third, a college story written by a college girl entitled "The Impressionist Picture."

DEPRESSED AND DISCOURAGED.

It is remarkable how thoroughly the whole system gets thrown out of order when the nerves become weak and exhausted. All energy and ambition seems to disappear, the mind wanders, memory fails and despondency reigns supreme. Dr. Chase's Nerve Food puts new vim and energy into the brain, nerves and body, builds up the system and prevents paralysis, prostration and insanity.

HALIFAX, July 12.—It is reported to day that, as the result of correspondence between Halifax parties and Andrew Carnegie, whose library gifts, amounting to millions of dollars, have made his name a household word in the United States, Carnegie has announced his willingness to give the School of Art and design and the Citizen's Library an amount equal to ten times the cost of their maintenance for one year. It is estimated the running expenses of the two for a year will amount to \$7,500, and this would mean a gift from the philanthropist of \$75,000.

A serious accident occurred at the Milltown end of the union bridge, St. Stephen, Saturday evening. Stephen Gatchell, of Gatchell settlement was driving home from Calais. The electric street railway runs close to the end of the Union bridge, and is hidden from view by houses. Mr. Gatchell failed hearing an approaching car, which struck his team just as he left the bridge. He was thrown out and badly injured about the shoulder and hip. At the time of writing he is under ether to enable the doctors to make an examination. It is said that the car was moving very rapidly.

PICTON, July 13.—While working at the Swedish barque Iris on the marlin-clip Thursday, Nathan Grotto received injuries which have since proved fatal. Grotto fell backwards from a block about six feet high, striking on the back of his head. When picked up blood was flowing from both ears, indicating serious injury. He never recovered consciousness and passed away about 4 o'clock this morning. Grotto, who was a steady, industrious man, leaves a widow and four children, for whom much sympathy is felt. The repairs to the barque are completed and she will at once reload and proceed on her voyage.

ATHLETES, BICYCLISTS and others should always keep HAYWARD'S YELLOW OIL on hand. Nothing like it for stiffness and soreness of the muscles, sprains, bruises, cuts, etc. A clean preparation, will not stain clothing. Price 25c.

SUMMERSIDE, July 13.—A man supposed to be John Weatherbie of New Bedford, Mass., was killed at the station here last evening. He had only arrived on the steamer Northumberland.

Red Rose Tea is pure and of delicious flavour.

In buying tea it is wise economy to buy Red Rose. You get the best value.

Red Rose is a pure Indo-Ceylon Tea its flavour is delicious.

Short and Sour.

There had been a small bank failure, and the bank had gone into the hands of a receiver. The receiver had proved to be dishonest and had absconded with what remained of the funds of the institution. Expert detectives, however, were on his track, and he was run to earth in a mountain town and taken back to the scene of his financial exploits.

It was after midnight when the detectives arrived with their prisoner, and Mr. Means, the principal depositor in the bank and therefore the principal loser, was awakened at his home and informed by telephone of the capture.

He expressed his gratification and went back to bed.

Shortly afterward he was aroused to receive another telephone message to the same effect from a different source.

"Thanks," he said, "but I had heard of it already. Good night!"

And again he sought his couch.

About 2 o'clock he was awakened a third time. The telephone bell was ringing.

In no gentle frame of mind he answered it.

"Hello!" he said.

"Hello!" responded a voice through the telephone. "Is this Mr. Means?"

"Yes. What do you want?"

"Mr. Means, this is Deputy Sheriff Jones. We've caught that runaway receiver. Is there anything you'd like to have me do personally in the matter?"

"Yes!" roared Mr. Means. "Hang up the receiver!"

And he was not disturbed again.

Mark Twain and the Serpent's Tooth.

Mark Twain's daughter, Miss Clara L. Clemens, in entering upon her career as a concert singer, had a long conference with a manager. Many matters were discussed, plans made and details settled, Miss Clemens dictating her own ideas. The young singer, who had experienced considerable difficulty in obtaining parental consent to a public career, showed her earnestness by the businesslike manner in which she looked into affairs.

When matters had been fully considered and the manager was about to leave, Miss Clemens said, with the large determination that small bodies not infrequently possess:

"I wish it distinctly understood that my father's name is not to be mentioned at all in connection with my singing in public."

Mark Twain, who had been sitting in the room during the interview, in which, however, he had taken no part, looked up quizzically and said, with a twinkle in his eyes:

"You see what it is to have a thankless child."

Did They?

There is nothing much more distressing than an unfinished story. A number of people in a London drawing room were conversing about capital punishment when a lady remarked:

"How strange it must seem to be sentenced to death!"

"Not so very, very strange, I assure you. I was myself once condemned to death in Africa," said a returned African explorer.

"Indeed!" exclaimed the lady. "And were you—did they?"

"Did they what, madame?"

"Why, did they execute you, you know?"—Exchange.

When Corks Float Upright.

A cork which is longer than it is broad, which is the case with all ordinary corks, floats upon its side, so to speak. How can we make it float upon its head?

Place one on end upon a table and around it place six others. Seize them all together and plunge them under water so as to wet them completely. Then remove your hand gently and let them take their own position in the water, when you will find that they will stand upright, as if supporting one another. This is because the water that penetrates the cork will make them cling together.

Railroading in Ireland.

A somewhat nervous English tourist vouches for the genuineness of the following incident of Irish traveling: The train arrived some 20 minutes late at a small station, and the engine driver inquired of the station master, "Did the express go by yet, Tim?" "It did not," was the answer. There was indecision on the part of the engine driver for a moment when he cheerfully exclaimed, "Ah, well; we must chance it!" as he blew the whistle and started off on the single line.

Boiled Water in Ancient Times.

Now that the use of boiled drinking water has become common, it is interesting to be reminded that a similar method of guarding against disease was practiced in ancient times. Herodotus tells how Cyrus had his drinking water boiled and carried in silver vessels, and Pliny the elder relates that Nero had water boiled and afterward cooled for drinking by placing it in glass flasks surrounded with snow.

Laureate Nonsense.

Tennyson is said to have been fond of foolish fun, that ever delightful sort of fun which is not wit, but nonsense.

One day, at Burlington House, he asked the guests a conundrum which he had just made:

"Who are the greatest women in the world?"

The answer was:

"Miss Ours, the Misses Ippi and Sara Gossa."

Very Grave.

Twiddle—I read last night of a man who was buried alive so that he might know what the sensation is like.

Twiddle—Don't you think that was a very grave thing to do?—Ohio State Journal.

HEARTY PRAISE FROM QUEBEC.

A Racine Man Expresses Himself Strongly for Dodd's Kidney Pills.

His Letter is Typical of hundreds lately Received from Lower Provinces—same Work being done all over the Dominion—Dodd's Kidney Pills stand alone in the Conquest of Kidney Disease.

RACINE, Que., July 15, (Special).—It is a very strange thing, but lately all through this province, the people have been talking in a straight, downright way about the medicine, Dodd's Kidney Pills. Never before has a remedy made so many warm, outspoken friends for itself. Whatever part of Quebec one chooses to be in, the mentioning of Dodd's Kidney Pills is always enough to bring forth the grateful story of an experience with this most remarkable remedy from one of the listeners.

These experiences include nearly all the fatal, non-contagious diseases. Bright's Disease, Diabetes, Dropsy, Rheumatism, Bladder and Urinary Disorders, Female Trouble, Heart Trouble, Blood Diseases, Nervous Complaints are all emphatically declared to have been entirely cured by Dodd's Kidney Pills. But more than any other complaint, Backache counts oftener. Emile Conatze, of this town, says they cured him of Backache and other Kidney troubles, and writes a letter for publication in this paper to that effect.

"I am going to say a word concerning Dodd's Kidney Pills," he writes. "I cannot do otherwise than praise this wonderful medicine heartily, for I am now, owing to Dodd's Kidney Pills, in perfect health. For some time I have not felt the slightest pain in the back. My kidneys are working properly. When I go to bed I find rest, whereas before using Dodd's Kidney Pills I got up more fatigued than the night before. I had pain in the back and headache which broke my sleep."

"I have taken only three boxes of Dodd's Kidney Pills and cannot help but credit them with my cure. I have been free from my trouble since taking Dodd's Kidney Pills."

THEY WERE NEVERTHELESS SO FRIENDLY.

After they had kissed each other and disposed of a chocolate each to show that there was no hard feeling between them, the blonde said:

"So Mabel is married?"

"So I've heard," replied the brunette.

"Nice girl," ventured the blonde.

"Oh, yes," returned the brunette.

"I wouldn't say a word against her for the world."

"Neither would I. How do you suppose she ever got him?"

"I'm sure I don't know. Do you?"

"No; I would give anything to know."

"So would I. It was certainly not her beauty."

"Oh, no."

"The idea is absurd."

"Or her cleverness."

"I can't understand it at all. They say she was married by the registrar first and afterwards at the church."

"I shouldn't wonder; she naturally wanted to make awfully sure of him."

"Of course; it is the only way she could keep him. But I am glad she has caught some one. Mabel is a dear girl and it would be cruel to say anything against her."

"Indeed it would. I wouldn't do it for the world."

The World Needs Nerve.

Needs it in business, in the study, in the household. Irritability, weakness, lack of strength,—the blue feeling—why they just tell you that you lack nerve. You'll use Ferrozone? My! What an appetite you'll get. How quickly the color will return to your cheeks, how buoyant you will feel! Work! of course you'll work, for you will enjoy it. That is, if you will use Ferrozone. It gives nerve strength, muscular endurance, and invigorates the brain splendidly. Sold by R. O'Leary, General Merchant, Richibucto.

BREAKING THE ICE.

After fully two minutes of embarrassed silence in the parlor the freckled fanatic mustered up courage to start the conversation.

"Miss—ah—Timmons, don't you think that
