Lines on the death of Mrs. Julia A. Horton, who departed this life April 9, 1901.

(By her niece Mrs. B. Thurrott)

We gathered in silence around her, Our mother was passing away; As around us earth's shadows were deepened, She was borne into endless day.

She had suffered long, uncomplaining, Ever looking for strength from above; And her smile was so patient and cheerful, Reflecting a spirit of love.

The Father's dear arms were around her, She seemed not to dread the lone way; But calmly trusting in Jesus, She ascended into glorious day,

We laid her at rest by the hillside, In the old churchyard by the sea; Our hearts are still aching dear mother, We mourn day by day for thee.

We ne'er shall forget thee, dear mother, And we'll walk in the path so straight; And we hope at some day to meet thee, When we enter the pearly gate.

## MARITIME PROVINCE NOTES.

A telegram received at Halifax last week announced the death of George E. Lavers, at Rochester, New York. Deceased was a native of Yarmouth and did business there in gentlemen's furnishings, later going into the insurance business. He came to Halifax in the employ of the North American Life Company and remained there a number of years. Since leaving Halifax he has been employed in the interests of the North American in New York State. He leaves a widow, who was Miss Starratt, of Paradise, N. S. Deceased was 61 years of age.

Thomas Kerr, one of Campbellton's most respected citizens, died Thursday morning after an illness of some weeks, at the age of 78 years.

St. John Globe: Messrs. Charles A. Clark and Charles McPherson, who left here on February 1 to take to Circle City, Alaska, a quantity of machinery required in the operation of the mines of the Gold Nugget Mining Company, have been meeting with difficulties. Their plan was to take horses from Seattle to Dawson, and with these haul the machinery by sleds to Circle City. It was calculated that the best part of the three months' journey could be done over the ice, but this calculation was wrong. The pair reached Dawson all right and started out from there, but the ice broke up unusually early and long before they had got through to their journey's end. Mr. F. A. Jones, one of the St. John members of the syndicate, told the Globe that some difficulties that had arisen because of the ice breaking up would delay the expedition, but that Messrs. Clark and McPherson were getting along satisfactorily and would reach their destination in good time.

The gaol at Upper Woodstock was totally destroyed by fire Thursday morning. Within a year past between \$1,500 and \$2,000 was spent on this building putting it in repair and fitting it up with modern conveniences. The fire appears to have caught from a flue, where the main building and ell joined. The cook, one Cooper was working in the kitchen, assisted by one of the prisoners. He noticed smoke issuing from one of the rooms and on investigating found the fire well started. He got a pail full of water, but this was not of much use and when he got the hose the fire was beyond his control. It then spread at a furious rate, so much so that although the neighbors were soon on hand the gaoler and his father were not able to save anything of the furniture. In a very few moments the building was a mass of flames. The wind was blowing furiously, fortunately not in the court house direction. A house owned by William Dunbar caught fire, but the flames were soon subdued. There is \$2,000 insurance on the jail in the Sun Insurance Company. Herbert Jones, the gaoler, was at Wright's shop, a short way distant, when the fire occurred. When he got to the gaol he could save nothing. Samuel Jones, his father, who had been gaoler for many years, had all his furniture in the building. Both lose everything. They were four prisoners in the gaol, all for comparatively small offences.

The remains of Miss Agnes Fenton, who died in Wakefield, Mass., were brought home to Chatham for interment.

The sealing steamer Terra Nova returned from the ice floes to St. John's Nfld., with 42,000 seals.

A second contingent of fifty Italians left Sydney for Boston Wednesday.

The creamery operated at Andover last season is to be run by a joint stock company to be styled the Andover Creamery Company, Ltd., with a capital of \$10,000. Skimming stations will be established at Summerville, Car. Co., and on the Tobique River.

The barbers of New Glasgow had a card posted in their shops last week, to this effect: hair-cutting, 20 cents; shaving, 10 cents; shampooing 25 cents; sea foam, 15 cents; singing 10 cents; beard trimming 10 cents; dying beards, 15 cents; dying hair, 25 cents.

McKenzie and Mann have commenced work on the section of the Inverness and

son were getting along satisfactorily and would reach their destination in good time.

The gaol at Upper Woodstock was totally destroyed by fire Thursday morning. Within a year past between \$1,500 and \$2,000 was spent on this building putting it in repair and fitting it up with modern conveniences. The fire appears to have caught from a flue, where the main building and ell joined. The cook, one Cooper was working in the kitchen, assisted by one of the prisoners. He noticed smoke issuing from one of the rooms and on investigating found the fire well started. He got a pail full of water, but this was not of much use and when he got the hose the fire was beyond his control. It then spread at a furious rate, so much so that although the neighbors were soon on hand the gaoler and his father were not able to save anything of the furniture. In a very few moments the building was a mass of flames. The wind was blowing furiously, fortunately not in the court house direction. A house owned by William Dunbar caught fire, but the flames were soon subdued. There is \$2,000 insurance on the jail in the Sun Insurance Company. Herbert Jones, the gaoler, was at Wright's shop, a short way distant, when the fire occurred. When he got to the gaol he could save nothing. Samuel Jones, his father, who had been gaoler for many years, had all his furniture in the building. Both lose everything. They were four prisoners in the gaol, all for comparatively small offences.

The census takers for New Glasgow have finished their work, and from what we believe to be reliable source, the town will show a population of over 5,000, an increase of about 33 1/2 per cent. during the past ten years. This is a very creditable showing considering the fact that New Glasgow has not had a boom during the last decade. The increase being a steady natural growth of the town.

A special despatch from Charlottetown to the Moncton Transcript says: M. Archibald McLeod, of Rose Valley, was arrested Friday morning charged with the murder of his mother, an old lady, by choking her to secure her property. He was brought here and jailed.

A Sussex despatch to the St. John Telegraph says: The Head of Millstream was visited by a very disastrous fire Thursday. It is supposed to have started from sparks carried by the high wind from a portable saw mill which is being operated quite handy to the buildings destroyed.

About noon the fire was discovered on the roof of a building occupied by Fred Hayes and used as a store and dwelling and, in a very short time, all the buildings in the immediate vicinity were a prey to the devouring elements.

Geo. Stewart lost a house and barn, Warren Mason a house and barn, Fred Hayes, stock in his general store, also house and barn, John Arnot, house and barn.

About \$6,000 dollars worth of property was destroyed, all of which is partially insured with the exception of Arnot's, who carried no insurance.

When the fire started the wind was blowing at cyclone speed and the occupants of the several buildings had barely time to get out themselves without trying to save anything of their effect.

The loss will be a serious blow to the unfortunates directly interested, and the residents of the Head of Millstream.

Richmond railway between Hawkesbury and Port Hastings and will make connection with the Intercolonial as soon as possible, the town of Hawkesbury having granted the customary free right of way.

Luke Drysdale, of Halifax, whilst walking along Jacob street on Sunday, stepped on a banana peel, slipped and fell, receiving serious if not fatal injuries. The back of his head struck on the pavement with tremendous force, and when picked up blood was flowing freely from a large wound. It was learned at the hospital that his skull was fractured.

The census takers for New Glasgow have finished their work, and from what we believe to be reliable source, the town will show a population of over 5,000, an increase of about 33 1/2 per cent. during the past ten years. This is a very creditable showing considering the fact that New Glasgow has not had a boom during the last decade. The increase being a steady natural growth of the town.

The loss will be a serious blow to the unfortunates directly interested, and the residents of the Head of Millstream.

Moncton Transcript: Mr. R. A. Steeves' residence at Upper Dover was burned to the ground on Thursday at the noon hour. The family were about to partake of dinner; Mr. Steeves' son and hired man were on their way to the house and noticed smoke issuing from the roof of main house. They lost no time in giving the alarm and procuring ladders, but the fire had gained such headway and with such a heavy wind blowing, it was found useless to try to save the building. In fact the chamber by this time was almost enveloped in flames, so that what furniture could be reached was thrown out, and of course badly damaged. The family lost most all their clothing also a box of valuable jewelry belonging to Mrs. Steeves. The fire must have originated from a defect in the flue in the main house. Mr. Steeves estimates his loss at not less than \$2,000; insurance, \$600.

St. John Telegraph: Mr. W. H. Harrison, formerly a prominent merchant and ship owner in this city, died Thursday at his home in Sackville, aged 88. Mr. Harrison was born in Sussex and when a young man started business here as a West India merchant. He became a large importer and was interested in many business enterprises. He left St. John some 30 years ago, and for a quarter of a century, has resided at Sackville.

His wife, a daughter of the late Rev. Dr. Knight, a well-known Methodist minister, survives. He leaves five sons and one daughter. One son resides in Colorado, one in New York. Lovell is a resident of St. John, W. H. is manager at Sackville of the Halifax Banking Company, and Frank A. is the junior member of the new firm of Powell, Bennett & Harrison, Sackville. The daughter is Miss Minnie L. Harrison, resident at home.

The late Mr. Harrison was one of the few survivors of those who were on board the ill-fated Royal Tar when she was burned.

## HARCOURT NOTES.

HARCOURT, May 1.—Mr. William Nicholson, who is one of the most respected residents of Harcourt, returned home last week from Millerton, where he is employed part of the year by Miller's Tanning Extract Company. Previous to his leaving Millerton Mr. Nicholson was presented by the address of the above company with an address accompanied with a handsome meerschau pipe and five dollars.

Mr. Isaac B. Humphrey, station agent, has been ill for some days. His duties are being attended to by Mr. J. F. R. McMichael.

Mr. James W. Morton, station agent at Kent Junction, recently spent a few days in Harcourt looking after the mercantile business here in which he is interested.

The fine weather of the past few days has improved the roads and dried up the land so that farmers can make some progress with their agricultural operations. The agents for farm machinery are quite active in this section, and working for all they are worth. At least \$4,000 worth will be disposed of at this station alone, with other sections of the county to hear from.

Mrs. Cornelius O'Leary, sr., who was ill for a long time, died at the residence of her son-in-law, Mr. Patrick McGlone, Silverton Settlement, on Monday.

## A TONIC FOR MOTHERS

The happiness that comes to a home with baby's advent is to frequently shadowed by the ill-health of the weakness of the mother. To restore the mother's strength, to bring back vigor and energy, and to sustain her during her nursing period. Dr. Chase's Nerve Food is undoubtedly the most effective preparation obtainable. It makes the blood rich, revitalizes the nerves, and has a wonderful restorative influence on the whole system. 50 cents a box, all dealers.

"My, the house looks changed some way," said the lady who had moved out a month or two before and returned to make a call and see what kind of furniture the new tenants had.

"Yes," her hostess replied, "we've cleaned up."—Chicago Times-Herald.

## DOMINION PARLIAMENT.

OTTAWA, May 1.—At the opening of the house to day, the leader of the opposition asked when the government would bring down the papers promised some weeks ago, in connection with the claim of Mann & MacKenzie, in regard to the Yukon Railway. The premier said that the Mann and MacKenzie papers would be brought down at an early date. All government legislation could be brought down this week or early next week.

The bill to amend the franchise act was put through committee. Its aim is chiefly to improve the machinery with respect to the use of provincial voters' lists for dominion purposes.

## THE ROTHESAY LISTS.

Mr. Fowler, Kings county, called attention to the case of Rothesay, in his county, in which 400 bogus names had been added to the voters' list after the final revision of the lists. The provincial legislature has ordered the making of a new list, but the bogus list was there still in the hands of the federal authorities. He pointed out that the election had been protested, and he asked that the law should be amended so that the new list and not the bogus one would be used in the event of a by-election.

The solicitor general said he thought the law as it stands, covers the case, and that it was the duty of the custodian of the new list to forward a copy to the clerk of the crown in chancery. However, he asked Mr. Fowler to consider the question with the leader of the opposition, and promised that, if it appeared the law required amendment in order to remedy grievances complained of, he would be prepared to agree to the necessary amendment.

The house put the bill to amend the dominion election act through committee.

## THE SAFETY OF SHIPS BILL.

The amendments passed by the senate to the safety of ships' bill, were concurred in. They confine the provisions of deckloads in winter to ports in Great Britain and Northern Europe. This will allow vessels from Canada to carry deckloads in winter to the Mediterranean ports, Cape Town and Australia, thus placing them on an equal footing with vessels carrying from Boston, Portland or United States ports to the places named. The senate also removed the prohibition in respect to the West Indies trade. There is, therefore, now no limits and they can carry what they want. This amendment was also concurred in.

The house went into supply and took up the estimates of the railway department. The item of \$2,000,000 for rolling stock for the intercolonial, which was under consideration last night, was again discussed. Mr. Blair explained that in addition to \$380,000 for locomotives, there were 1,000 freight cars contracted for. What was required for the locomotives and the freight department brought the amount up to \$1,000,000. The balance of the \$2,000,000 was required for first-class cars, dining cars and sleepers, and a car for the use of the royal party. It was passed.

In reply to Mr. Borden, Hon. Mr. Blair said that an express freight train now ran from Mulberry to Montreal, with connections to Halifax and St. John.

On the P. E. Island estimates, Mr. Blair said that the rails that were used on the Drummond County road would be used for the Island railway.

The house adjourned at 6 o'clock.

OTTAWA, May 3.—The resolutions of the Minister of Militia, providing for pensions for members of the permanent force, were considered. Mr. Borden corrected a misapprehension that pensions were to be for the entire militia, explaining that they were solely for the permanent force and the permanent militia staff. The pension system to be adopted was the same as that enacted with regard to the Northwest Mounted Police. The police force was of about the same strength as the permanent force, and the cost to the country on account of the police pension was now only about \$1,800 per year. No deduction is

to be made from the pay of the non-commissioned men. In regard to officers, the minister said that the practice heretofore followed of giving an officer a retiring allowance of a lump sum was to be discontinued, and this money used in connection with the annual pension to be paid them. Five per cent. of officers' salaries was to be deducted for the purposes of the pension fund. With these two sums the pensions of officers would be provided for without a dollar addition to the expenses of the country.

No opposition was offered to the principles involved and the resolutions were carried.

A bill to amend the post office act was considered. It provides for opening dead letter offices in St. John and other cities, to empower the government to renew mail contracts for periods of eight years instead of four, and to appoint train porters to assist the mail clerks. The strongest opposition was offered to the clause relating to mail contracts, and Mr. Sutherland struck it out. The bill was then agreed to.

The bill making the 24th of May a permanent public holiday, under the name of "Victoria Day," was put through committee and read a third time.

In supply the committee took up the question of the earnings of the Yukon telegraph line, and Mr. Tarte announced that in eighteen months' operations the revenue had been \$107,000, the profit being \$50,000.

Mr. Fielning has given notice of a resolution to expend a sum not exceeding \$75,000 in any one year for defraying the cost of establishing a branch of the royal mint in Canada.

All the estimates were put through and the House adjourned at 12.35.

## The Deaf Made to Hear.

St. Thomas.—A modern miracle was made known to-day when Mr. Riddle, of this city announced that he had recovered his hearing. He had been almost entirely deaf, and it borders on the miraculous to find him able to hear everything with great distinctness. As his case is proving of such universal interest, we give Mr. Riddle's own statement. "My hearing was always poor, and not long ago I became almost deaf. It was the result of Catarrh inflammation, but nothing did me good until I used Catarrhazone. It cured my trouble, and I strongly recommend it to the deaf." Fully nine-tenths of the deafness is the result of Catarrh, and can be cured by Catarrhazone. The cures of deafness wrought by this remedy in cases of even twenty years standing are really astounding. Among many others, ministers of the gospel testify to the wonderful powers of Catarrhazone, and your druggist can tell you of some astonishing cases in his own experience. Better give it a trial, if your hearing is impaired. Price \$1.00; small size 25 cts., druggists or N. C. Polson & Co. Hartford, Conn., U. S.

Little Harry McGarry, who ran away to Sydney several weeks ago, has not forgotten his home. Friday Mrs. McGarry received a letter through the post office post marked Sydney, and on opening it found that it contained an express order from Harry for \$3, accompanied by a letter written by the lad which said that he had obtained a position as news agent on the Sydney & Lonsburg railway and was doing very well. The letter explained that he had the \$3 to spare, so he sent it to his mother. Harry is only about 13 years old.—Moncton Transcript.

## Gas on the Stomach.

result of imperfect digestion pressing up against the heart, it excites alarming symptoms. Instant relief is afforded by taking half an hour after the meal, ten drops of Polson's Nerviline in a little sweetened water. Nerviline aids digestion, expels the gas and imparts a sense of comfort. Nerviline is good for lots of other things and wise people keep a 25c. bottle in the house for rheumatism, cramps, neuralgia, toothache &c. Try it.

# HAWKER'S NERVE and STOMACH TONIC

## THE GREAT INVIGORATOR.

A sure cure for Nervousness. - - - All dealers sell it. - - - Read and be convinced.

Rev. Henry M. Spike, Rector of Musquash, N. B., writes: "During my residence, last summer, in Oklahoma Territory, I found great benefit from the use of Hawker's Nerve and Stomach Tonic, and Hawker's Liver Pills—malaria and slow fever prevailed there—and I feel I owe my good health while there to the use of these remedies. Other persons in above territory, who had obtained some of these medicines, spoke of them as excellent for complaints in that warm climate.

Silas Alward, Esq., Q. C., D. C. L., M. P. P., St. John, N. B., says:—"I take pleasure in stating that I have received much benefit from the use of Hawker's Nerve and Stomach Tonic and consider it a great nerve invigorator. I can conscientiously recommend it to my friends."

Rev. William Lawson, Methodist Minister, formerly of Carmarthen Street Church, St. John, writes:—"On several occasions I have suffered from severe nervous exhaustion and general debility. I was advised to use Hawker's justly celebrated Nerve and Stomach Tonic and have great pleasure in testifying to its restoring, toning, invigorating, and fever-building up properties."

E. L. Rising, Esq., of the well-known firm of Waterbury & Rising, Saint John, N. B., says: "I have used Hawker's Nerve and Stomach Tonic in my family for five years, and consider it has no equal as a blood-builder and appetizer. It was especially beneficial to my children after an attack of
