### THE LETTER HE DID NOT MAIL.

As he left the house in the morning, Said his wife, "Here's a letter to mail; And see that you don't forget it!" So he told her, of course, he'd not fail.

As he placed it into his pocket The address on the letter he saw, And the name was somewhat familiar— It was that of his mother-in-law.

And then a grim fact he remembered, That his wife had threatened to send And invite her to make a long visit— What else could this letter pretend?

A look of profound resolution Did over his features prevail; For a week it reposed in his pocket— The letter he did not mail.

Then one evening, when home returning, He met his dear wife at the door, Who asked if he'd mailed that letter She gave him the week before.

He told her, of course, he had mailed it; "Then it's very peculiar," said she; "For I'd written before to mother To ask her to visit me."

"And that letter was to inform her I'd rather she'd wait till next fall; But here she arrived this morning— She never received it at all!"

Until he was alone he waited, Then kicked himself into a flail, And tore into uttermost atoms The letter he did not mail.

—Boston Globe.

## MARITIME PROVINCE NOTES.

**Moncton Times:** Parties in Moncton are organizing a company for the manufacture of a non-rustic metal which has been used to some extent locally for a number of years and has proved to be of such merit as to warrant its manufacture on an extensive scale. This metal is suitable for journals or bearing of any kind and it is believed will have a large sale. The composition is a secret of the maker but it is said the metal can be produced at a low price.

Flagship Crescent, accompanied by the cruiser Tribune and torpedo boat destroyer Quail, will leave Halifax at the end of the month for a ten days' cruise. The programme is not definitely arranged, but it is likely that the ships will touch at St. John and Charlottetown and may go as far as Bar Harbor.

Prohibition became law at Charlottetown last Tuesday morning. Some of the liquor men are selling ginger ale. Others will not take money and others are selling. Premier Farquarson says the government is going to enforce the law. "We have machinery for the purpose ready for the work," said he, "and it would only be childish if we passed a law and made no effort to have it enforced. The law will be enforced. It may take a good deal of money before we are through but if we can prove, and we think we can in time, that our law is good our money will be well spent."

The Dorchester correspondent of the Moncton Times says: Mrs. Kirk, whose critical illness was noted Wednesday, passed away Thursday morning at five o'clock, being unconscious some time previous to her death. The deceased lady was 42 years of age and was the daughter of the late Wm. Henry, of Antigonish. Mr. J. A. Kirk, husband, Warden of the Penitentiary, and two children, a boy and a girl, Geraldine, aged 8 years, and Ernest, aged 13, survive her. Mrs. Brown of Wolfville, and Mrs. McPhee, of Antigonish, are sisters of deceased. Mrs. Kirk was a devoted member of the church of England and was held in very high esteem. The remains were taken to Antigonish for interment.

There was a sale of crown land at Fredericton last Tuesday. All the lots offered

# LOGGIE'S STORE

is becoming more popular each week. The reason is plain—nearly everything a person needs can be got here. The quality of the goods can always be depended on to be as good as can be got anywhere. The prices always the very lowest, and it is our constant aim to give our customers entire satisfaction.

## FLOUR!

We keep the celebrated **FISHERMEN'S PRIDE FLOUR** which is put up expressly for us, and we guarantee every barrel to give satisfaction or your money returned. Besides Fishermen's Pride we keep numerous other brands at prices to suit every purse. The following goods are always kept in stock at prices that defy competition:

**Oatmeal, Cornmeal, Beans, Barley, Pork, Corned Beef, Paint Oil, Machine Oil, Axle Grease, Nails, Glass, Rope, White Lead, Paints, and all kinds of Staple and Fancy Groceries.**

Just compare our **FISHERMEN'S PRIDE TEA** with any other Tea on the market at the same price and be thoroughly convinced that **FISHERMEN'S PRIDE** is all right.

## A. & R. LOGGIE.

went at the upset price of \$1 per acre, except one lot of 100 acres in Kent Co., for which Gurney R. Jones, of Moncton, paid \$1.75 per acre.

The coroner's jury that investigated the death of Harris McLaughlin at Baillie, N. B., returned a verdict of murder at the hands of a party or parties unknown. Residents in the community hope that the authorities will make a prompt and thorough investigation before the parties suspected have an opportunity of escape.

About noon last Tuesday as Roy, son of Blair Wheaton, of Mount View, was riding a bicycle down Black's hill, Middle Sackville, he was run into by a team driven by Arthur Marks. Wheaton was knocked insensible, his collar bone was broken in two places, and he received bad cuts and bruises about the head and face.

A Sorrier, charged with stealing \$475 from the Intercolonial hotel, Sackville, on Sunday, May 19th, last was found not guilty. The case, as presented by the crown, while it raised a strong suspicion against the prisoner, was insufficient to support conviction.

A correspondent from St. Stephen writing to the St. John Sun says: At an early hour Thursday morning a young lady from Canterbury, York county, died at the boarding house of Mrs. W. W. Brown, in this town. She was the daughter of a poor but indulgent father. Becoming infatuated with a married man of bad reputation, she left her home with him. After visiting several Maine towns, they came here, where he left her, after agreeing to pay her board. Letters were sent to her father, but no answer was received. On Tuesday it was realized that the young lady was dying and members of the Baptist church, who had interested themselves in her case, sent a telegram to her father. He arrived here Wednesday evening, and then it was revealed that all the letters had been intercepted and that he had no knowledge of his daughter's condition. She spent the closing hours of life with her beloved parent.

Tom Moxham, son of Manager A. J. Moxham, of the Dominion Iron & Steel Company, Sydney, was killed at 4.30 o'clock Wednesday afternoon, at the works. He attempted to board a dumping train, and, slipping, fell underneath the wheels which passed over his neck and shoulders, almost severing the body in two. Death was instantaneous. The deceased was 25 years of age and was married but four or five months ago. He held an important position in the steel works having charge of the blooming mills and of the proposed rail mills. A. J. Moxham, his father, is now in New York.

**AMHERST, June 6.**—Charles H. Bent, agent of the Dominion Saving Bank, met with a serious accident this afternoon which will likely confine him to his house for some time. He was harrowing his garden, when the horse got tangled in the harness while turning Mr. Bent undertook to release him, and was thrown down and the harrow drawn over him. Both legs were badly lacerated. One wound on the fleshy part of the thigh required seven stitches. He was also badly bruised.

John Hamilton, aged 27, son of John Hamilton, Truro, was instantly killed at the steel company's works at Sydney on Sunday afternoon by falling underneath a loaded car which he had just coupled to a train. His body was terribly mangled. An inquest was held over the remains Sunday evening, when the verdict was returned. That deceased, John Hamilton, came to his death whilst coupling cars on the Dominion Iron and Steel Company's property in performing his duties as brakeman. His remains were sent to Truro for interment.

Councillor William A. West, of Hopeville Hill, Albert Co., was terribly injured Friday by the falling of a staging while at work on the Riverside public hall. Mr. West's injuries, which are about the back, are severe, and fears are entertained for his recovery. Joseph Milton of this place, also fell with the staging, and is badly injured. The two men fell from the eaves of the building, a distance of over 20 feet. Milton falling on his chest, and Mr. West striking on his back across a bundle of shingles. Mr. West was taken to the home of Mr. Watson Reid, at Riverside, where Mr. Milton was brought to his home. Drs. Caruath and Chapman are attending the injured men.

Mr. West, who had the contract for repairing the hall, was up on the staging near the eaves of the building, with a number of workmen, when the corner bracket broke, dislodging part of the stage and throwing Mr. West and Joseph Milton to the ground, a distance of over 20 feet. The other men clung to the remaining portion of the stage.

### A Proper Treatment for Catarrh.

reaches every effected part. Such a remedy is Catarrhzone, which is inhaled into all portions of the throat, lungs and nasal passages, where it kills the germs, and cures the disease. Catarrhzone is pleasant, safe, and absolutely sure to cure. It relieves the distressed feeling in the head, clears the throat and nostrils in one breath. Positive proof of cure is found in the words of Mr. Kirk, of Kingston, Ont., who says: "I suffered for fifteen years from Catarrh of the nose and throat, used hundreds of remedies, consulted specialists, but was not permanently benefited. Having personally witnessed a cure of thirty years standing, effected by Catarrhzone, I bought an outfit and used it for a month. It cured me, and I am now no more liable to Catarrh than if I never had it." This is most convincing testimony from one of Kingston's best known and most highly respected business men. It proves beyond question that Catarrhzone absolutely cures Catarrh. It never fails; never harms; guaranteed to cure. Price \$1.00; small size 25 cents. Druggists or Polson & Co., Hartford, Conn., U. S.

Clairvoyant—Yes, you will be very wealthy. With my inward eye I can see heaps of money all around you.

Mr. Wise—Well, suppose you take your fee out of it with your inward fingers.—Baltimore American.

## BRITISH VICTORY OVER THE BOERS.

**BOER CAMP SURPRISED NEAR WARMPATHS AND TAKEN.**

**PRETORIA, June 6.**—Col. Wilson with 240 Kitchener's scouts, surprised and routed four hundred Boers belonging to a command, thirty-four miles west of Warmpaths. The Boers resisted sturdily but were finally broken and fled, leaving 27 dead, 100 prisoners and all waggons and supplies, including cattle, in the hands of the British.

The loss of the British is three men killed and fifteen wounded. The Boers main command arrived on the scene soon after the engagement, but failed in an attempt to recapture the supplies. The Boers are thus left practically without transportation and supplies.

### A QUEER STORY ABOUT THE STRATHCONAS.

**TORONTO, June 6.**—The Telegram's special cable from London says The Cape Town correspondent of the London Express relates a rather startling story about Strathcona's Horse. As the story goes, a patrol of the Strathcona's, being fired upon from a farm house where the Union Jack and white flag were flying, searched and found two Boers hidden in a disused well. The Strathconas decided to hang them and the pair were hung up to a near by beam. A staff officer happened to ride upon the scene and ordered the men cut down, but the Strathconas refused. The officer, furious with rage, attempted to cut the rope, but a voice said, "Look here, there's room for three to swing on that beam." The officer turned, but he was brought face to face with 20 stern, rough faces, and left the house.

Colonial Secretary Chamberlain has cable stating that further troops from Canada will be required for South Africa. This is in reply to an offer to send a regiment of cavalry, if required. This is now declined with thanks to the Canadian government.

### THE BOERS SUFFERING GREATLY FROM FEVER.

**PRETORIA, June 6.**—Some Boers who were captured by intelligence office men near Pietersburg, Transvaal, were found to have a thousand rounds of ammunition each. They state that the Boers in the northern part of the Transvaal are suffering considerably from fever. They have no doctors and many are dying.

Boer marauders continue to make trouble for the British. They generally avoid a battle, but wait for favorable opportunities to attack small parties by ambush, and inasmuch they are badly off for clothing and boots they use all their skill to kill in order to strip the dead.

**LONDON, June 16.**—It is understood that Lord Kitchener has not asked for reinforcements.

**CAPETOWN, June 8.**—The British surprised two Boer laagers at different points in Cape Colony on Thursday night and captured forty-two prisoners, fifteen thousand rounds of ammunition and a quantity of supplies. A railroad wreck occurred near Pretoria yesterday, in which nine soldiers were killed and many injured.

### MRS. BOTHA ARRIVES AT SOUTHAMPTON.

**LONDON, June 8.**—Mrs. Louis Botha, wife of the Boer Commandant General, arrived at Southampton this morning on board the British steamer Beneven Castle, from South Africa. She refuses to grant any interview, but her son and secretary of state Fischer, who accompanied her, said she was going straight to London, and will later proceed to Holland and Belgium, but her departure for the continent is not fixed.

### UNTOLD AGONY FROM SALT RHEUM

Mr. Chas. F. McLean, Palmerston, Ont., says:—I suffered untold agony and misery for years with salt rheum in my feet. I tried almost every remedy I could hear of. I was told by the best physicians I could not get more than temporary relief. I was induced to try Dr. Chase's Ointment. After one or two applications I received great relief, and when I had used only two boxes I was completely cured." At all dealers, 60 cents a box.

**PONTIAC, Mich., June 8.**—Frank Taylor, a young man of Oxford, who became despondent because his sweetheart married another man, attempted to drown himself in a tank of blood at Green's slaughter house to-day. He was assisting in killing cattle and when the tank in which the blood was retained became full he stripped himself and jumped in. He was rescued by his companions.

## DOMINION NEWS.

**MONTREAL, June 5.**—Prof. Steen has decided to bring a civil action against the Archbishop for depriving him of his civil status and his means of livelihood by inhibiting him from the performance of clerical functions in the diocese of Montreal.

**TORONTO, June 5.**—The trial of the burglars Jones, Rice and Rutledge, who last night made such a desperate attempt to escape from custody, resulting in the killing of Constable Boyd and the probably fatal wounding of Constable Jones, was to-day resumed. Extraordinary precautions were taken to prevent a recurrence of last night's escapade. The court room was guarded outside and in. Jones was not able to appear, owing to his injuries. It was stated by his counsel that his wounds are likely to prove fatal. His right arm was amputated this afternoon. The trial continued all day, and this evening after two hours' deliberation the jury found the prisoners guilty of robbing the Aurora post office and Ross' private bank in the same place. Sentence was deferred and in the meantime the trio will be arraigned on the charge of shooting Boyd. The mysterious woman who followed the prisoners from Chicago was arrested today on a charge of vagrancy. The real reason, however, was that she is suspected of being concerned in the prisoners' attempt to escape. The crown attorney says it was Rice who fired the shot which killed Boyd. Rice is an all round criminal and is believed to have killed a man during a robbery in Chicago and committed numerous forgeries and swindles.

**BRAMPTON, Ont., June 6.**—This morning at five o'clock Benjamin Parsons, wholesale butcher, suddenly became insane. He seized a razor and in an instant his wife was dead, her throat being cut from ear to ear. Parsons then ran up stairs to the room where his three children were sleeping. The pleadings of the eldest daughter, who had been awakened, seemed to calm the insane father, who left the little ones unmolested. A few minutes later his dead body was found lying beside that of his wife, both in a pool of blood. He had returned to the side of his murdered wife and slashed his own throat with the same deadly weapon. Parsons was 36 years of age and came to this country 25 years ago with his parents from England. He was well to do and lived in a beautiful home. He was much esteemed and always appeared very fond of his family. Mrs. Parsons was an English lady named Chatham, well connected. Coroner Beggie empanelled a jury and after viewing the bodies adjourned until this evening.

**QUEBEC, June 6.**—Colonel James McNaught of New York, and H. H. Melville of Boston, are among the American capitalists interested in the new northern grain route from the great Northwest to Europe via the St. Lawrence, lately inaugurated from the port of Quebec. These capitalists, representing the great Northern railway of Canada finding that their new short line of railway from Parry Sound on Georgian Bay, Lake Huron coupled with the fact that Quebec is so much nearer to Europe than any of the other Atlantic ports, was giving them an advantage of 800 miles in distance between Duluth and Liverpool, as compared with the route via Buffalo and New York, entered in to an arrangement with the Leyland line of steamers, of which the J. Pierpont Morgan syndicate has lately acquired a controlling interest by which the vessels of that line were to take on cargoes of grain at Quebec. So successful has proved the new undertaking that instead of the small steamers that were expected to accommodate this traffic, there sailed out of the harbour of Quebec, on Friday last, the Indian of the Leyland line, with the largest cargo ever shipped by the St. Lawrence route, 200 tons more than could be carried by the once famous leviathan the Great Eastern. The departure of this enormous cargo carrier was marked by great rejoicing in Quebec and photographs of the event are to be distributed all over the continent. It appears that the two facts upon which Quebecers are counting to secure a large share of the trans-atlantic grain carrying trade, either to be done by New York Boston and other northern American ports, outside of the shorter route already described and the cooler northern passage for grain are the great depth of water in the port of Quebec and the excellence of the railway communication with the west, which recently enabled provisions shipped from Chicago on a Friday to be placed the following Monday on board a steamer in the port of Quebec, that sailed from Europe the following day.

**OTTAWA, June 6.**—Frank Gerson, of Halifax, now living out west, has been

appointed to a position in the department of finance. Jeremiah Murphy, son of Dr. Martin Murphy, has been appointed a draughtsman in the marine and fisheries department at Ottawa. Thomas Neville, of Halifax, has been appointed patent examiner of the department of agriculture.

**ST. JOHN'S, Nfld., June 6.**—The Leyland line steamer Assyria from Antwerp for Montreal, with two thousand tons cargo, went ashore off Cape Race at midnight. There are eleven feet of water in her forehold and she is likely to prove a total wreck. The crew had great difficulty in escaping and reaching the shore. No further details are obtainable at present. The steamer Algerine has gone to her assistance.

**OTTAWA, June 6.**—Charles Hall, a superannuated civil servant sent to the Bank of Montreal a cash superannuation allowance check for \$65. The teller passed the bills through the wicket but before the civil servant could connect with them a hand slipped under his arm and grasped the money. The civil servant and teller grasped for the money and the latter reached for his revolver. The man with the money said he was a sheriff's officer and had seized the cash for debt. A judgment for \$500 against Hall was recently obtained by a local money lender named Hatch, and the latter took this method of recovering. It is the first instance of seizure under such circumstances and the money is still in the sheriff's possession. Neither Hall or the bank has taken any action as yet.

**KINGSTON, June 6.**—Wreathes were placed on the grave of the late Sir John A. Macdonald in Catarqui cemetery today, the 10th anniversary of his death. They were contributed by Kingston Conservatives and the Kingston Macdonald clubs. Addresses were made by prominent city Conservatives, Rev. John McKie conducted religious service.

**TORONTO, June 6.**—The decoration of the Sir John A. Macdonald monument in Queen park this afternoon was made the occasion for a general demonstration of affection for the old chieftain's memory. The statue was covered with smilax and wreaths of roses from the Red Rose League and Albany Club and speeches were delivered by Hon. Geo. E. Forster and N. Clarke Wallace.

**TORONTO, June 6.**—Frank Jones, the bank burglar who with two fellow-prisoners attempted to escape and who was shot by County Constable Stewart, died of his injuries to-day.

**TORONTO, June 6.**—The international machinists' convention to-day to increase the power to support members while disputes are in progress raised the monthly dues from 30 to 75 cents, the result being the addition of \$20,000 a month to the revenue.

**QUEBEC, June 6.**—It is announced that H. M. S. Opbir, with the Duke and Duchess of York, will be escorted to Quebec by 10 English frigates, and foreign warships may also be in port at the time.

**QUEBEC, June 6.**—Quebec will have a week of sports next winter from Feb. 3 to 11.

**MONTREAL, June 6.**—A strong bid for the establishment of a lead refinery in Montreal has been made by the board of trade in response to query received from the provincial assay office at Belleville. The board claims that two-thirds of the pig lead consumed in the dominion is consumed in this centre.

**MONTREAL, June 6.**—A scandal in connection with the city's printing contract is hinted at. Examination shows large quantities of paper used below standard, while an overcharge of 20 per cent has been discovered.

**BRANDON, Man., June 6.**—Two inches of snow fell to-day and the weather is decidedly wintry. There is no frost and the crops will probably be all right.

**ST. JOAN'S, Nfld., June 7.**—Three wrecking steamers are lying by the stranded steamer Assyria of the Leyland line, ashore off Cape Race, and three divers are making a thorough examination of her bottom. Everything is ready for discharging her cargo or attempting to tow her off. If such a step is decided on at once the weather is most favorable, and it is likely to continue unchanged for some time.

### Valuable Advice to Rheumatics.

Eat meat sparingly and take very little sugar. Avoid damp feet, drink water abundantly, and always rely on Polson's Nerviline as an absolute reliever of rheumatic pains. Being five times stronger than other remedies, its power over pain is simply beyond belief. Buy a large 25 cent bottle to-day, test it, and see if this is not so. Polson's Nerviline always cures rheumatism.
