GUN IN HAND HE MET DAUGHTER'S SUITOR.

MR. LOWNES SHOT PERCY LAIR, WHO PERSISTED IN COURTSHIP AFTER BEING WARNED.

PHILADELPHIA, Pa., June 6.—Percy Lair, nineteen years old, of Folsom, persisted in meeting Rebecca Lowmes of the same age, daughter of William H. Lowmes, a prominent republican politician of Delaware county, despite the protest of the girl's parents. Mr. Lowmes appeared without warning at the accustomed meeting place of the young sweethearts, not far from the girl's home, between Media and Morton, armed with a shotgun, the contents of which he fired at young Lair.

The lad's back was riddled with shot and his spine so badly injured that physicians fear he cannot recover. Young Lair is employed in the office of a Morton newspaper. His father is connected with the Presbyterian Board of Education.

Percy Lair had been paying attention to Miss Lowmes for several months. He was forbidden by Mr. Lowmes a few weeks ago to go to his house and thereafter the young persons met clandestinely.

It is said that Mr. Lowmes intercepted a letter written by Percy to his daughter making an appointment to meet the girl at the accustomed place. Instead of Miss Lowmes, he found her father there with a gun.

Percy started to run, and Mr. Lowmes fired at him. A farm hand found the wounded man lying on the ground. A physician was called and had young Lair carried to his home, where the doctor extracted half a hundred shot, leaving twice that number in the flesh. The physician said that if the wounded lad had received the shot in his breast and abdomen death would have been instantaneous.

Percy Lair was too weak to give an intelligent version of the shooting. In a rambling way he said he was walking with Miss Lowmes along the road, when her father came up behind him with a gun and ordered him to leave the girl. As he was obeying the father fired at him. He says Mr. Lowmes then placed him on a trolley car and told him to say nothing about the affair. Little credence is given to the lad's statement.

Mr. Lowmes was arrested and held in \$2,500 bail to await the result of young Lair's wounds. He declined to talk about the shooting, but his friends say the note written by Percy to his daughter furnished ample provocation for his act. The authorities of Delaware county have his note in their possession and decline to make public its contents.

THE JUDGE'S REVENGE.

HE GOT EVEN WITH SARAH IN HER SUIT FOR DAMAGES.

That eastern judge who recently decided that the life of a man is worth several times as much as that of a woman is only one of a type, according to a Detroit lawyer who spent most of the winter in a southern mountain district.

"They told me at the house where I was stopping that the local justice of the peace was going to hear a very interesting case. I attended out of curiosity and found that a woman had sued a man for \$5,000 for hugging and kissing her without first obtaining her consent. The lawyer for the defense set up a want of jurisdiction in the court because the amount at issue was more than \$300.

"That has nuthin ter do with the case," said the squire. "They won't be no judgment anywhere near \$300, so I guess the court kin cover all he tackles. Perceed with the trial." Here the lawyer for the plaintiff set up a howl, for he did not want a decision in advance if it was only going to give his client a paltry sum.

"Perceed," said the court sternly, "else they'll be some fines fur contempt flyin' round here. I'm read up on this here class of littegrashin. Women allus asks fur a daignation big pile and allus gets durned little. Perceed."

"After a witness or two had been examined the court inquired for the plaintiff.

"We would have her here to give her evidence," replied her lawyer, "but Miss Payson is not well and her physician warns her against undue excitement."

"Miss Payson? Is it Sarey or Jennie?"

"Sarah, your honor."

"What!" with a roar. "Does that tall, gangly, redheaded, natchet faced ole maid have the nerve fur to ask me to tax a man \$5,000 for a-huggin' and a-kissin' her? I don't believe he ever did. She'll git 6 cents, and she wouldn't git that if I could kerlect costs from her."

"I afterward learned that 'Sarey' had refused the squire some years before."—Detroit Free Press.

GET WHAT YOU ASK FOR

When you ask for any of Dr. Chase's Remedies look for his portrait and signature on the box, otherwise you may get an imitation. Beware of the druggist who tries to induce you to take something said to be "just as good." If he substitutes medicines he will substitute drugs in prescription. Insist on getting what you ask for and remember that there are no family remedies to be compared to those of Dr. A. W. Chase, author of the famous Recipe Book.

THE WORLD OVER.

PARRY SOUND, June 6.—Fire in the lumber yards of the Conger Lumber Company here from 12 o'clock last night until 7 this morning destroyed a large quantity of lumber, the greater part owned by Skillings, Whitney and Barnes of Ordesburg, N. Y. The loss is estimated at \$90,000.

MILWAUKEE, Wis., June 6.—The Pabst Brewing Company suffered a loss by fire to-night to the extent of between \$150,000 and \$200,000; fully insured. John Smith, coppermith, died from injuries sustained by falling four stories.

BOSTON, June 6.—The first hot day this season in southern New England was made noticeable by the increase in the number of tragic deaths. George W. Putnam, of Cambridge, hanged himself to the headboard of his bed and was found dead by his daughter. He was a motorman of excellent record. The body of Katie Cahill, a seamstress, was taken from Boston harbor. It is thought she had worried over a rent bill. Seawomen also found a man's body on the flats during the day.

At Dedham, Howard Gates, 14 years old, was drowned while swimming in the Charles river; Charles M. Davenport, a freight conductor, was killed at Providence by his freight train on the N. Y. N. H. & H. railroad. He had seen 20 years service and was well known. In the same city Joseph McAuley, 15 years old, was drowned while at play near the water. Wilbur Garland, of Sanbornville, N. H., killed himself with poison. At Lawrence, Mass., the body of Timothy J. Ford was found in the canal. He had accidentally fallen into the river. Timothy Low, assistant roadmaster for 50 years on the western division of the Boston & Maine road, dropped dead at Ballardville station. He was 80 years old and an expert.

NORWICH, Conn., June 6.—George W. Bentley of New York city, well known in railroad circles, shot himself last night over the grave of his daughter in the city cemetery here. His body was found this morning. Despondency is supposed to have been the cause. In his clothes a considerable sum of money and photographs and other mementoes of his daughter were found. It is supposed that he came to this city last evening and went directly to the cemetery. He was a native of Norwich. For six years Mr. Bentley was superintendent of the New London and Northern railroad, a part of the Central Vermont system, with headquarters in New London, and afterwards was superintendent of the Tampa Bay and Key west railroad in Florida. Of late he has been engaged in the railroad supplies business in New York. He was 75 years of age, and was a 33rd degree Mason.

BERLIN, June 6.—A sensational case began today in the first district court of Berlin. The plaintiff, Anna Milewski, was formerly lady in waiting upon the deceased Princess Amalia of Schleswig-Holstein and the defendant is the brother of Empress Augusta Victoria, Duke Ernest Guenther.

The plaintiff claims that Princess Amalia received only 12,000 marks annually and, as she had a fortune of her own amounting to 80,000 marks, she made loans to the princess, who was in the last stage of consumption. In Malta, the plaintiff engaged a chamberlain, a man named Walker who induced her to incur large expenses. Finally, the plaintiff, who feared the loss of her entire fortune, made the princess, with whom she had meanwhile arrived at Cairo, restore 20,000 francs. She declares that, at the instigation of Duke Ernest Guenther, the adjutant of Prince Joachim of Prussia caused

ed the Egyptian police to arrest her in the street and forcibly and inhumanly transport her to Prussia, where she became very ill.

Meanwhile Mr. Walker forcibly took plaintiff's 20,000 francs from her trunk and settled the bills of the princess, then deceased, and transported the body home. Plaintiff asks that 20,000 francs be refunded with interest.

Defendant's counsel, Count Bredow, challenged the accuracy of a number of the plaintiff's statements.

NEW YORK, June 6.—An attempt was made early this morning to burn St. John's College and Seminary, Brooklyn, in which eighteen priests and forty seminarians are quartered. Kerosene was scattered among three widely separated bedrooms on the ground floor, and ignited. The smoke of the blazing oil was so dense that it awakened the priests and the purpose of the fire bug failed. A discharged employee is suspected, but there is no proof. The priests and students fought the flames until the firemen arrived when they were extinguished. The loss is small.

LONDON, June 6.—Dr. Thomas Bond, a well-known surgeon and analyst committed suicide this morning, by throwing himself from a third story window of his residence. He has been suffering from melancholy for some time. Mr. Bond, besides being the late Mr. Gladstone's surgeon, was noted in connection with investigations, and discoveries in the cases of several sensational crimes, notably the Lefroy, Lamson and Camp murders.

KANSAS CITY, Mo., June 6.—Mrs. Nation cut loose here again Tuesday afternoon. It was Editor's day at the manufacturers' exhibition of goods made in Kansas City, which has been in progress for a week at Convention hall. Mrs. Nation came as "editress of the Smashers' Mail."

Mrs. Nation had not been drawing very well. She debated the temperance question with Carl Brown, of Coxy Army fame, at a local hall and there was but \$30 in the house.

There is an art gallery in one division of the exposition and Mrs. Nation visited it. She had a hatchet in her hand, borne as a sort of "ad." for her paper. About the first work of art she espied was an Apollo statue. Apollo had no trousers on and with uplifted hatchet Mrs. Nation made a dash for him. Bystanders saved the marble god; but the next minute Mrs. Nation caught sight of a defenseless water color picture of Psyche in the altogether, and it took two policemen to get the smasher away from this. They arrested her, but recalling the unpleasant experiences of a few weeks ago did not take her to the station.

Directly she was released. Mrs. Nation mounted a platform and addressed a crowd of several thousand on morality and temperance.

CHICAGO, June 7.—The aim of the new national church just organized by those interested in the Peoples' church in Chicago, is to preach the gospel in the theatres of every great city in the United States. The idea is to gather into the theatres men and women who are devoted to Christianity, but independent of sectarian dogma and practice. Thus far the only obstacle to large cash contributions for the work has been the lack of a recognized organization.

BUFFALO, June 7.—Odfellows' days, June 26 and 27, promises to be among the most interesting and memorable of the Pan-American exposition. A fraternal invitation has been issued to the 12,000 I. O. F. lodges throughout the United States and Canada, requesting the members to participate in the ceremonies on these days. General E. C. Shafer, department commander of the state of New York, has issued orders for a grand cantonment of the uniformed bodies, the parade being on June 26th. This parade will be participated in by all the cantons or the state of New York as well as by visiting cantons from nearly every grand lodge jurisdiction throughout the world. The cantons will have competitive drills for valuable prizes. Accommodations have been arranged for 35,000 visitors.

NEW YORK, June 7.—A despatch to the Journal and Advertiser from London says: The Rev. G. Campbell Morgan, who is leaving for the United States to take up the evangelistic work of Dwight L. Moody, had a great sendoff tonight at the City Temple. The enormous building was packed by an enthusiastic audience. Dr. Parker, who presided, said:

"Because Mr. Morgan is being taken away, I don't entertain a very friendly feeling to those across the Atlantic. My friends in America were wise in their choice of such a man as Morgan. To take Americans in bulk, which by the way, we never could, is to handle a multitudinous expressive quantity. I have never known an unwise American. They always get the best of things, look out as we may, let us think we are getting the better of them, we soon find we are mistaken. There is much holy and unholy ambition in that most wonderful country."

ASHORE AT CAPE RACE.

ST. JOHN'S, Nfld., June 6.—The Leyland line steamer Assyrian, 1,841 tons, from Antwerp for Montreal with \$2,000 tons of cargo, went ashore off Cape Race at midnight. The steamer Algerine is being despatched to the scene of the wreck by Lloyd's agents.

When the Assyrian struck the rocks off Cape Race at midnight the crew, composed mainly of Scandinavians, Germans, and Hollanders, stampeded and scrambled for the lifeboats. The officers were helpless. Only the proximity of land on the port side forming a partial shelter prevented a greater catastrophe.

The crew had a most wretched experience in the boats during the night. They were not aware of their position and there was danger of the ship's collapsing and boats swamping.

The captain wired at noon that her two foreholds had 14 feet of water in each of them. The ship is afloat from foremast to stern and he hopes to get her off if the sea keeps smooth with the assistance of steamers from St. John's.

The Assyrian was running in full speed through the fog when she struck Cape Race. She lies an almost hopeless hulk on the coast. For three days Captain Dingley had been navigating by the log and he had calculated upon a course rounding Cape Race 30 miles south of land. This plan, however, was frustrated by northerly currents.

The Assyrian struck at 11.40 last night. Land had been sighted only a minute before. The fog was as dense as ink and there was no time to reduce speed. Another 500 yards southeast would have carried her clear. She struck the face of the cliff and was forced upon the outlying rocks. The impact tore out the bottom of the two forward holds.

It was seen that she was badly damaged but would outlast any except a severe storm.

The arrival of daylight enabled Captain Dingley to land the mate, who climbed the cliffs, proceeded to Cape Race station and telegraphed the news. Three steamers and three divers are now on the way to the wreck, ready to begin operations tomorrow morning. The Merritt & Chapman Derrick and Wrecking Company have wired that they are ready to undertake refloating her. The British owners are awaiting the report of the divers before acting.

The Allan liner Siberian, from Philadelphia, will pass Cape Race tomorrow morning and will be signalled to render assistance.

11.30 p. m.—The latest from the wreck is that the tug Favorite has arrived with a diver who will tomorrow begin to discharge the cargo in the foreholds.

ALMOST CONSUMPTION

Mr. J. J. Dodds, of Pleasant Ave, Deer Park, Ont., writes:—"I have suffered in my head and throat and all over my body since last summer from a very heavy cold, which I could not get rid of. I have tried several of what are considered good remedies, but none seemed to be of any avail. I began to think that my cold was developing into consumption, as very many have to my knowledge. I am thankful now to say that Dr. Chase's Syrup of Lunseed and Turpentine has worked a complete cure, as I am now entirely free of the cold."

IT COULDN'T BE.

"Oh, dear," moaned small Tommy, "I've got such a dreadful toothache."

"No wonder," replied his mother. "You are all the time eating candy."

"It can't be that, mamma," said Tommy, "I eat candy with all my teeth, and only one of them aches."—Boston Herald.
