

RAILROADS.

INTERCOLONIAL RAILWAY

On and after Monday, Nov. 26th, 1900 trains will run daily (Sunday excepted) as follows:—

LEAVE KENT JUNCTION.

Accommodation for Moncton and St. John 13.07
Accommodation for Newcastle and Campbellton 13.07

Vestibule Sleeping and Dining Cars on Through Express trains between Montreal and the Maritime Provinces.

All trains are run by Eastern Standard Time. Twenty-four Hour Notation.

D. POTTINGER,
General Manager.

Railway Office, Moncton, N. B. 26th November, 1900.

KENT NORTHERN RAILWAY.

TIME TABLE.

10.20	Dept. Richibucto, Arr.	15.00
10.35	Kingston,	14.45
10.55	Mill Creek,	14.25
11.10	Grumble Road,	14.10
11.20	Molus River,	14.00
11.40	McMinn's Mills,	13.40
12.00	Arr. Kent Junction, Dept.	13.20

Trains are run by Eastern Standard Time.

Trains run daily, Sunday excepted. Connect with I. C. R. accommodation trains north and south.

WILMOT BROWN.

General Manager and Lessee.
Richibucto, Nov. 26th, 1900.

MONCTON AND BUCTOUCHE RAILWAY.

1900 SUMMER TIME TABLE. 1900

On and after Monday, November 26th, 1900, trains on this railway will run as follows:

10.10	Arr. Moncton, Dep.	15.35
8.00	Dep. Buctouche, Arr.	17.35

(Eastern Standard Time)

Train from Buctouche connects at Humphrey's with I. C. R. train for Halifax, and at Moncton with the C. P. R. train for St. John, Montreal and United States points, leaving at 13.10 and I. C. R. train for Campbellton leaving at 10.35.

Train from Buctouche connects at Humphrey's with I. C. R. day express from Halifax, and at Moncton with all I. C. R. trains from east and north arriving not later than 15.25.

MEN OF MARK.

Mr. Gully, speaker of the house of commons, is a. expert at golf.

Thomas B. Reed, former speaker of the house, has been elected a trustee of the New York Life Insurance company, filling the vacancy caused by the death of William H. Appleton.

Lord Wolseley, during one of his campaigns, grew so anxious at the depletion of his force by sickness that by constantly studying the roll call he came to know all the soldiers' names long before the campaign was over.

The Duke of Devonshire was once noted for his silence. To a friend who asked him how many words he spoke a day he replied, "Count your own, deduct all needless ones, reduce one-half, and you'll be near the number."

When Lord Salisbury was asked the other day by a London reporter if he was very busy, he replied: "I always am. But, by the way, do you know whom I think the busiest and hardest working man in the world? It is the present bishop of London."

Mr. W. E. Metford, the inventor whose system of rifling was applied to the Lee-Enfield rifle, died recently at Bristol, England. He received \$30,000 from the British government for his invention, but always complained of having been inadequately rewarded.

Sir Henry Irving, in common with a goodly number of other celebrities, writes a bad hand. He once penned an order for a box at the Lyceum and sent it to a friend. The order got mixed up with a prescription for influenza and was sent to the druggist to be made up.

Four years ago Governor Morrill of Kansas found himself getting too fat, and he worked off a lot of fat by taking long daily walks. Recently he was left in an emaciated condition by an attack of rheumatism, and now he is adding flesh fast by taking the same kind of walks.

The 15-year-old son of Commandant Cronje of the Transvaal army fights at his father's side. The only son of Mylneer Wolmarans and two sons of State Secretary Reitz, Judge Kock, ex-Judge Esselen and several sons of members of the Cape parliament are fighting on the Boer side.

Baron Nordenskjold, the Swedish naturalist and explorer, who was financially ruined last spring by becoming involved in the failure of his publishers, intends to emulate Sir Walter Scott and Mark Twain in the paying off of his debts. To this labor alone, he says, he will devote the remainder of his life.

Prince Sergius Wolkonsky, who has just been made superintendent of the Russian imperial theaters, is fairly well known in America. He visited this country in 1893, the representative of the ministry of education in his own country. He lectured at Harvard and at Cornell, and three years later he delivered a series of lectures in Boston.

John Stephens of New Albany, Ind., is 88 years old and still in official harness, being deputy sheriff of Floyd county, and his present assignment is as bailiff in charge of the grand jury. He is the oldest active politician in the state and perhaps in the United States and still asserts his ability to dance a hoedown with the lightness and agility of fourscore.

THE WRITERS.

Andrew Lang says: "I love the game of golf. In fact, I was named after it."

Lionel Dele, the author of "Trooper 3809," which has made a stir, revealing as it does conditions in the French army, has been principally known hitherto as an African explorer.

Richard V. Riskey, the author of "Men's Tragedies," is a young man of 24, who has had a cosmopolitan education and in 1893 joined the American legation at Copenhagen, where his father was American minister.

Lafayette Hearn is reported to have become so "Japanned" that nothing American is left him save his mastery of the English language. He dresses in Japanese costume, lives in Japanese manner and is even beginning to look like a native.

Mr. Maurice Hewlett, who has scored such a literary success with his "Little Novels of Italy," has rather a foreign look, wears an imposing imperial and is a very "bright" conversationalist. He has a charming wife and delightful children, to whom he is passionately devoted.

THE CYNIC.

In a man's eyes, his sin is never as great as that of his wife in finding him out.

If a man will only tell his women folk he is sorry, it is not necessary for him to be.

Some people treat you so cordially, to put you at your ease, that they make you uncomfortable.

Plenty of people will not accept the truth of a story if they can get hold of a lot of scandal concerning it.

There are some men so scared and apprehensive that they hear the wolf at the door every time the cat steals the milk.

When a man imposes upon his wife and doesn't care who knows it, he stalks ahead of her when walking on the streets and seats himself in the pew first at church.—Atchison Globe.

THE COOKBOOK.

Boiled fish is improved by adding a cup of good cider vinegar to the water in which it is boiled.

Before skimming milk move the cream aside and dip the spoon in the milk. The cream will not then stick to the spoon.

Old bread baked to a golden brown and crushed to fine crumbs with a rolling pin is much better for frying than cracker dust.

Broiled dried beef will pleasantly relieve the monotony of breakfast bacon. It may be served with or without poached eggs.

An old fowl can be made as tender as a chicken if it is boiled gently for two hours, allowed to get cold and then stuffed and roasted in the usual way.

ROBERTS.

Representative Elect Roberts has taken refuge in Brooklyn. If the New York politicians only dared to come out into the open, he would not want for company and defenders.—Washington Post.

Hon. Brigham H. Roberts is in a dreadful fix. He can't drown his wives, as the sultan does, without hanging for it, and if he tries to get into congress without wounding himself in some such way he will be thrown out.

A Terrible Cough.

If people would only treat coughs and colds in time with Dr. Wood's Norway Pine Syrup, there would be fewer homes desolate.

The severest coughs and colds, bronchitis and croup, and the first stages of consumption yield readily to this powerful, lung-healing remedy.

Read what Mrs. Thos. Carter, Northport, Ont., says: "I caught a severe cold, which settled on my throat and lungs, so that I could scarcely speak above a whisper. I also had a terrible cough which my friends thought would send me to my grave. I tried different remedies but all failed to do me any good until I took Dr. Wood's Norway Pine Syrup, and the contents of one bottle completely cured me."

DOMINION NEWS.

OTTAWA, Feb. 7.—Owing to the total mourning the ceremonies connected with the formal opening of Parliament by Lord Minto to-day, were of a quiet and unpretentious character. There was the usual escort and guard of honor, but the crepe, drappings and emblems of mourning were everywhere apparent, and threw a damper on the whole proceedings. The galleries of the senate were filled, but there were very few on the floor of the chamber when his excellency delivered the speech from the throne. Mr. Borden received a batch of telegrams congratulating him on being elected leader.

OTTAWA, Feb. 7.—R. L. Borden, of Halifax, was selected at the Conservative caucus last night as their parliamentary leader. One of the questions discussed last night was whether a party or parliamentary leader was to be chosen. A resolution was first passed last night to have a parliamentary leader and then Mr. Borden was chosen for the position. It was decided to give Mr. Borden a banquet.

OTTAWA, Feb. 7.—As reported some time ago, it is understood that E. G. Russell will be appointed manager of the Intercolonial railway. He will be under Mr. Pottinger, who will be general manager of the entire government system of railways. Mr. Russell's duties will be confined to the Intercolonial and will have no connection with the Prince Edward Island road or the Windsor branch. Mr. Russell, who will have charge of the whole operating department, is a native of Charlotte county, N. B. When a young man he was on the Intercolonial as a telegrapher and left to improve his position in the United States. Since that time he has been advancing from one position to another, and to day he is one of the best railroad men in the country. The last railway he was connected with was the Delaware and Lackawanna. He was previously superintendent of the road at Watertown. He goes to the Intercolonial highly recommended by various companies. Mr. Russell is about 42 years of age, and will assume his new duties about the 21st inst.

MONTREAL, Feb. 8.—Gordon Melville, for forty years steward with the Allan Line, and for the past few years proprietor of one of the best known restaurants in Montreal, died to-day after three years illness of paralysis of the brain. He has been in four ship wrecks and was a native of Scotland.

LIFE ON THE RAIL.

Mr. Geo. Cummings, Barrie, Ont., one of the best known engineers on the G. T. R., writes:—"For years I suffered from kidney disease brought on by railroad life. The doctors called it 'railroad kidney,' but could give me no permanent relief. A friend recommended Dr. Chase's Kidney-Liver Pills saying they had cured him. A few boxes of this grand medicine completely cured me, putting an end to the dreadful pains in the back and greatly strengthening the kidneys. I am a well man to-day, thanks to Dr. Chase." One pill adose 25 cents a box.

It was the first time little Stewart had seen any small chickens, and he did not understand that the smooth patches on their sides were wings. When one of the chicks tried to spread his wings, Stewart cried: "See, he's opening his pockets, and there isn't anything in them!"

Red Rose Tea pleases most people who try it. Red Rose Tea is not made of Roses, but is a name given to a certain kind of Ceylon and Indian Tea. Have you ever tried Red Rose Tea?

TAKING THE REINS.

The 2-year-old Helen Bertram, by Margrave, has paced a half in 1:09, last quarter in 33 seconds, over the Terre Haute track.

A promising young Futurity candidate at the Louisville track is the 2-year-old filly by Alta Vista, out of Oriana, 2:18.4 by Indian Hill.

Dick Mahon says Tommy Britton, 2:08 steps a quarter in 29½ seconds with as more apparent effort than if he took a minute to cover the distance.

John Kelly has worked the pacer Sidney Pointer, 2:14½, a mile in 2:14½, with the last quarter in 29½ seconds. Sidney Pointer is a son of Star Pointer, 1:50½.

The stallion Anteros, now 18 years old, was driven over a Missouri track recently a quarter in 36 seconds, and on a heavy track, to sulkyette, he showed three halves in 1:25, 1:20 and 1:18.

Who is It, 2:10½, will be raced again this season and is said to be going better than ever. When Peter the Great beat him at the Empire City (New York) track last year, he was separately timed in 2:08 and 2:08½.

Jim Ramey, the Missouri trainer, has one trotter and four pacers in his string by John R. Gentry. Three of them are big fellows, standing 16.2 hands. The heaviest weighs 1,250 pounds and the smallest 1,175 pounds.

L. Reiff won a selling plate at Newmarket the other day on Goon and the Stud Produce Stake on Volodyoski. Tod Sloane won the Soham Plates on Wild Irishman, and Rigby won the high-weight handicap on Pheon.

The race for the Prix Fort Poirier, of 2,000 francs, at 1,000 meters, was run at Compiègne, France, the other day and was won by a short neck by Baron Leonino's Neptune II. Cash Sloane, the American jockey, had the winning mount.

FROM CURRENT FICTION.

The most thankless task in the world is explaining a joke to a person who has not seen it.—"Woman and Artist."

"Speaking sharp seldom does much good," sapiently remarked Mrs. Bateman, "except to them as speaks."—"The Farringtons."

In the dissolution of sentimental partnerships it is seldom that both partners can withdraw their funds at precisely the same time.—"The Touchstone."

The world of commerce and speculation is as aloof from the scholar and the recluse as the rings of Saturn or the sun of Aldebaran.—"The Waters of Edara."

What woman can withstand the fascination of a lover's faith that she is an angel? If a man is fool enough to believe it, why undecieve him?—"Unleavened Bread."

Slight but chronic dyspepsia, the deprivations of neuralgia, are apt to impart to our countenances a more touching melancholy than do the woes of love.—"The Garden of Eden."

A profound knowledge of human nature enunciated the decree, "Thou shalt not covet thy neighbor's house," and relegated the neighbor's wife to a back seat among the servants and live stock.—"Diana Tempest."

BEE BUZZES.

Young queens always excel older ones in laying eggs.

Never allow a swarm of bees to remain long after settling.

Keep the brood as near the center of the hive as possible.

Bees require close attention during swarming time to avoid loss.

Roofs of hives of whatever kind should have a coat of paint every fall, as leaky roofs are very damaging.

The quantity of surplus honey—either comb or extracted—depends very largely upon the management given now and during the next month.

One of the most frequent causes of robbing comes from the carelessness of the beekeeper in allowing honey to lie around where the bees can get at it.

Keep all colonies confined in the brood chamber until they get strong. If this period comes at the time of the honey harvest, the bees will be in condition to receive the section boxes.

Keep down an oversupply of drones. The best way to do this is to remove the drone comb. If the combs are all built on foundations, there will hardly be an oversupply of drones.—St. Louis Republic.

CHINA.

China's "open door" is very like a dragon's mouth.—New York World.

The Chinese are to blame for all these wars anyway. They invented gunpowder.—Baltimore American.

The Chinese do not care anything about telegraph censors. They just cut the wires.

Very likely one powers in the east will continue to act in concert until the time comes for dividing up the spoils.—Boston Globe.

With China it does not seem to be of so much importance whether she is in a state of war or in a state of anarchy or whether she will be a state at all or not.—Syracuse Post-Standard.

China has let slip the dogs of war against western civilization and staked the existence of the empire on the result. We are witnessing the opening of the great Chinese tragedy.—Newark Advertiser.

It may be significant that the foreign troops in China have encountered their severest opposition in the district where is stationed the Tien-tsin army corps, the best paid and best organized corps in China.

THE CYNIC.

The best tree in a yard is always in the poorest location.

If a man is willing to work, idle people say he is a crank.

Every man's backbone is stiff enough as regards the other fellow's duty.

You have made a fair success of your domestic affairs if you are on speaking terms with all your kin.

If a man is sensible enough to refuse to take sides in a dispute, he is too sensible to make a satisfactory friend.

A woman can whip her own children without consulting the neighbors, but she should ask their permission when a stepchild needs a licking.

A girl child will believe longer than a boy child that eating the crusts will make the hair curl, and this credulity is characteristic as she grows older.—Atchison Globe.

MARITIME PROVINCE NOTES.

A. E. Golding, editor of the Advocate, left last week for Halifax. He has been commissioned by the Halifax Chronicle to write a series of articles on the industries, etc., of the province. Mr. Golding will retain the editorial direction of the Advocate.—Newcastle, N. B., Advocate, 6th.

A meeting of the county board of health was held in the office of the secretary, Dr. Myers, here, Wednesday, and was attended by the chairman, Dr. McDonald, and Drs. Belliveau, Carter and Calkins. It was decided to raise the quarantine on the Cape Bauld district at once. All the infected districts are now out of quarantine. No new cases outside of two lumber camps near Port Elgin and some houses, which are still quarantined, have been reported during the last two weeks.—Moncton Times.

The New York Mineral Products Co. has been operating the manganese mines in Kings county between Mount Hebron and Smith's Creek since last spring, and has made an estimated output of two thousand tons of crude ore. A wash house has been built on a small stream near the deposits for the purpose of separating the mineral from its friable surroundings. Sixteen hands are employed at present, including day and night shifts. The mine is about 150 feet deep.

The Moncton Times says: A young man named John Bishop, driver of the Cape Breton Coal Company's team, while amusing himself with a piece of steel watch chain about six inches long the other day, swallowed the article. It seems that Bishop was tossing up the chain and catching it in his mouth. The amusement was kept up too long and eventually the chain did not stop in the young man's mouth, but took advantage of a good sized throat to go further. At latest reports the young man was not suffering any serious ill effects, except to feel slight pains in the region where the chain lodged.

The death occurred at six o'clock Saturday morning, at Halifax, of John T. Bulmer, a well known criminal lawyer, a prohibitionist and free lance politician, aged fifty-five years. He took ill on the street Tuesday with congestion of the brain and rallied until last night when he grew worse and after speaking a few words to his wife he suddenly expired. Deceased was born at Nappan, Cumberland Co., and leaves a wife, formerly Miss McElfeay, of Shubenacadie, and three children.

Dr. Geo. H. Dunlap of Moncton, expired very suddenly last Wednesday evening about twenty minutes to five o'clock in LeBlanc's hotel on Duke street. The doctor had been feeling unwell for some days past and was frequently heard to remark that he was afflicted with heart trouble and that his life was likely to terminate the way it did. Although not well he was able to be around. At the hour mentioned accompanied by Mr. Adolphe Allen of the Dorchester penitentiary staff, he entered Mr. LeBlanc's hotel and while talking in the hall suddenly collapsed without a word of warning. It was at first thought that he had taken a fit. Dr. Myers and McCully were soon on the scene but he was dead before they arrived. He never spoke after he fell, but expired immediately. The deceased was 42 years old and was the eldest son of the late James Dunlap. He was one of the best read men in the city and his library was replete with the most valuable books of the modern age. He leaves a widow and one son aged eight years. The cause of his death was heart failure.

The Sussex Record says: Local dealers state that oats are scarce with prospects of an increase in price. This time last year Sussex merchants had upwards of 5000 bushels of country grown oats. This year all the home grown grain has been sold and over a 1000 bushels brought in from outside to supply the demand. Hay is also scarce and is sure to be high before spring. The bad state of the lumber market has caused many operators to take their teams out of the woods, thus lessening the consumption. Had there been a big lumber cut this year the demand would have sent prices of hay up to such a point as to make it, coupled with the high price of oats, a most important item of expense.

There are others, but only one Kendrick's Liniment. The greatest Modern household Remedy. You cannot fatten a horse that is out of condition. First give Granger Condition Powders, a valuable tonic and blood purifier. For pains and lameness use Kendrick's Liniment.

Buy KENDRICK'S LINIMENT.

Jack's father had been very ill, and when he got a little better the boy was allowed to go in and kiss him good night. Father had not been shaved and his rough chin very much puzzled Jack, and, looking up at his mother, he asked: "Is that where dad strikes his matches, mummy?"

WHAT WOULD THEY GIVE?

It seems a waste of time to warn people against neglecting coughs and colds, but what would victims of consumption and pneumonia give if their diseases were only in its beginning, if it were only a cough or cold. Deadly lung disease begin with colds that could certainly be cured by Dr. Chase's Syrup of Linseed and Turpentine, the great prescription which not merely relieves but thoroughly cures cough and cold together.

That Settled It.—Jaggers—"So he married the widow! I thought he had his on the daughter." Waggle—"So he had, but the widow had her eyes on him.

Sensible! Reliable!

PAINE'S CELERY COMPOUND.

The True Health-Restorer.

Paine's Celery Compound has done more to heal the sick and relieve suffering than any other medicine in the world. Being pure, palatable and powerful, it is the medicine endorsed by our best physicians as a true cure for all nervous diseases. Sickly children, weary women and tired men have found in this wonderful Compound, health, strength and happiness. For all those diseases which are the result of weakened nerves, as dyspepsia, headache, rheumatism, neuralgia, kidney and liver troubles, Paine's Celery Compound is the only sensible and reliable remedy. It strikes at the root of the disease, and makes a permanent cure. Beware of substitutes; get "PAINE'S," the kind that "makes sick people well."

THE LATEST REPORTS FROM THE WAR IN SOUTH AFRICA.

LONDON, Feb. 8.—Lord Kitchener reports that a British column destroyed the supplies at Petrusburg and brought in three thousand five hundred horses and cattle. Dewet is still north of Smithfield, moving east. A detached force which crossed the line at Pomoi Siding is moving on Philippolis. Lord Methuen scattered the enemy at Lillfontein and captured 12 waggons and cattle. French is near Ermelo.

LONDON, Feb. 9.—Commenting from the despatch from Lord Roberts, The Times says that the most vivid impression produced is that on its fighting side the British army need not fear comparison with any troops in the world. The second and less agreeable impression is that the army is less strong
