SUPREME COURT—At Fredericton last week judgment was delivered in the following case: King v. Wilson ex parte Irving.—Judgment was delivered by the chief justice. The facts are that one Boudreau was convicted by a magistrate of the county of Kent of selling liquor contrary to law. The defendant, who lived very near to the boundary line between Kent and Northumberland, claimed that he lived in the latter county, and that a Kent county magistrate had no jurisdiction. Application was made to the county court, Judge Wilson (1) for discharge of the prisoner under habeas corpus, who made the order discharging Boudreau from custody on the ground that the defendant lived in Northumberland County. The opinion of the court was that the magistrate had a right to rule that Boudreau lived in Kent and to convict, and that Judge Wilson had no jurisdiction. Judgment was for rule absolute to quash, Gregory no part, rest of bench agreeing in judgment.

KISSING IN PUBLIC LEADS TO PRISON.

Two young men and two young women were recently arrested in Odessa, the charge against them being that they had kissed each other in public. This offence, said the prosecutor, was committed in a restaurant in the presence of several persons. The prisoners, he explained, had been dining there and after dinner had expressed their affection more than once by kissing each other very heartily.

After the Judge had heard the story, he decided that the prisoners had been guilty of "shameless conduct in a public place" and he straightway condemned them to imprisonment for several days. Their lawyer appealed at once to a higher court, arguing that kissing could not be construed as "shameless conduct," since it was generally regarded as one of "the most legitimate and natural methods of expressing affection."

DISEASES OF CHILDREN.

Measles, Scarlet Fever and many exhausting disease of childhood, frequently leave the little sufferers in a weakened and debilitated condition of health from which it is difficult to rescue them except by the regular use of Dr. Chase's Nerve Food. This preparation is admirably suited to the requirements of children, and has such an invigorating and restorative influence on the system as to make weak, puny children healthy, plump and active.

COOK'S SURE COUGH CURE

"Do you think the new clergyman can pull your church together again?"
"Oh, yes; that is, if we get him started before the golf playing section gets hold of him."

No Trifling With the Nerves.

When you can't sleep at nights and toss in misery longing for daybreak to come, do not yield to the temptation to use morphine, cocaine or other opiates. They only hasten decay.

Let reason rule. Get right down to the foundation of the trouble and build up the system by using Dr. Chase's Nerve Food.

This great restorative is in pill form and contains the very elements of nature, which go to form new red corpuscles in the blood and create new nerve cells.
It is worth while to remember that Dr. Chase's Nerve Food is not a patent medicine, but the greatest prescription of Dr. A. W. Chase, author of the famous receipt book.
Dr. Chase's Nerve Food is an up-to-date, scientific preparation which has proven itself to be specific for all nervous diseases. It cannot fail, if used persistently, because it actually rebuilds and revitalizes the wasted nerves. It is especially recommended for its peculiar to women, because they almost invariably arise from exhausted nerves. Dr. Chase's Nerve Food, 50 cents a box at all dealers, or by mail.

ROBBERY AGAIN.

DARING WORK OF BURGLAR AT MONCTON POST OFFICE.

MONCTON, April 22.—A daring robbery of the mails in the post office occurred this evening and the police and post office officials are completely baffled as to the guilty party. When Janitor Hicks went into the building at 9 o'clock to lock up the lobby he discovered the robbery and at once reported the matter.

Upon investigation it was found that the robbers had gone through the mail which arrived at 8 o'clock from St. John and Halifax, taking the registered letters and anything of value. The post office is quite easy of access but the boldness of the robbers is astonishing.

The delivery window closes at 7.30, but the lobby is left open till 9 o'clock for convenience of boxholders. It is quite an easy matter for a man to climb over the partition dividing the public and private part of the office and this is how the robber got at the mails.

The work was evidently done by some one well acquainted with the office and movements of the officials. The clerks leave at 7.30 and when things were quiet the robber, or robbers, are supposed to have scaled the partition, secured the mail bag keys and then the work, apart from the risk of being discovered, was easy.

Janitor Hicks locks the outside doors at 9 o'clock and it was in performance of this duty that he found the private doors open and discovered the robbery. The police have the matter in hand.

A. B. Wilson was to-day committed for trial on the charge of stealing a watch and chain and overcoat from Alexander Thompson on the 18th inst.

Geo. McLeod, committed for trial Saturday on the charge of stealing \$15 from Sim Fownes, was to-day committed for trial on another charge of stealing a dress parcel from a sleigh of George McSweeney on February 9 last.

WHICH DOAN'S KIDNEY PILLS ABSOLUTELY CURE.

TESTIMONY—PILOT MOUND, Man., Oct. 4th, 1900. Doan Kidney Pills Co., Toronto.

Dear Sirs,—I suffered for some time from kidney troubles. My back was so bad that to stoop over or straighten up after stooping caused terrible pain. I had to get up several times during the night to urinate. My urine was highly colored, contained a thick sediment, and caused a burning sensation. I tried numerous remedies, but none did me any good until I got Doan's Pills. I took four boxes, the pain in my back has entirely disappeared, my urine is as clear as water, does not burn, is without sediment, and I can recommend Doan's Pills to all sufferers.
