 Tickets, Visiting Cards, Wedding Cards, Wedding  
 Invitations, executed with neatness and despatch.

## THE WORLD OVER.

VICTORIA, B. C., June 27.—The steam-  
 er Kangara Maru, of the Japanese line  
 brings news of the massacre of 300 French  
 converts at Quelport, Corea. According  
 to the governor's report, when a meeting  
 of natives was being held, two French  
 missionaries appeared with 500 converts  
 armed with rifles and they opened fire  
 upon the natives, wounding one and carrying  
 off six. They then invaded Saishifu  
 and carried off flags and ammunition. The  
 natives returned with a larger force and  
 the converts, being outnumbered, fled,  
 two priests taking refuge in the govern-  
 or's house. Fifty converts were killed.  
 A day or two afterwards 250 converts  
 found hiding in villages were massacred.  
 One survivor managed to reach a tele-  
 graph station and notified the French  
 minister at Zeola. French and Japanese  
 warships, together with Korean troops,  
 were sent and put down the rising.

VINIA, I. T., June 27.—George Wil-  
 liams, lying on his death bed to-day con-  
 fessed to having been an accomplice in  
 the murder last September at Pryor  
 Creek, I. T., of T. E. Smith and Green  
 Smith, of Sweden, Mo. In his statement  
 Williams also implicated William Nichols,  
 of Vinitia. William G. Smith and Lon  
 Smith, of Pryor Creek, and John Smith,  
 the latter now serving a term in the Kan-  
 sas state penitentiary for cattle stealing.  
 Robbery was the motive.

CHICAGO, June 27.—Caught in streams  
 of molten metal at the American Car &  
 Foundry Company to-day seven workmen  
 were frightfully burned, three fatally.  
 The explosion of a dynamite shell, which  
 had been placed in the cupola with scrap  
 iron, caused the accident.

The victims: Thomas Casack, foreman  
 of cupola room, died on way to hospital;  
 Frank Balcer, skull fractured; entire body  
 burned. Michael Smentam, entire body  
 burned; both legs broken. Charles Brown,  
 scalp wound; burned about body. Frank  
 Diedo, arm broke; burned about face and  
 hands. William Burks, body burned.  
 Sefek, body burned and leg broken.

BAKERSFIELD, Calif., June 27.—The  
 Central Hotel in Kern, about a mile east  
 of here, caught fire early to-day and be-  
 fore the flames were subdued one life is  
 known to have been lost and several miss-  
 ing.

The fire is supposed to have started by  
 the explosion of a lamp in one of the  
 rooms. In a moment all means of escape  
 were cut off by the flames.

George Clark a blacksmith in the  
 Southern Pacific shops was burned to  
 death. John P. Thornton was badly  
 burned about the body. I. C. Burger,  
 who has just returned from the Philip-  
 pines and stopped at the hotel, has not  
 been located, and it is feared that he per-  
 ished in the flames. The loss is estimated  
 at \$10,000.

DECATUR, IND., June 27.—A fire which  
 was started at Prohle Tuesday night by

lightening striking a tank of the Standard  
 Oil Company, containing 50,000 barrels of  
 oil, is still burning. Three hundred men  
 from this city, Huntington, Montpelier and  
 Lima, Ohio, are fighting the flames and  
 making efforts to save five oil tanks  
 that contain over 300,000 barrels of oil.

Joe Kintze and V. D. Newton, of Lima,  
 Ohio, were loading a cannon to shoot the  
 burning tank, when it exploded, and they  
 were fatally burned. The loss to the  
 Standard Oil Company alone will reach  
 \$60,000. Many persons have been badly  
 burned.

WINNIPEG, June.—Mr. Rogers, build-  
 ing inspector, had, up to noon yesterday,  
 given out permits for buildings to the  
 value of \$975,000, and he expected other  
 applications which would bring the total  
 value up to over a million dollars. Last  
 year the total value of buildings erected  
 was \$1,500,000 but as things are going now  
 it is likely that there will be an increase  
 of at least half a million dollars this year.  
 The rate-payers yesterday passed a loan  
 by-law to build two permanent bridges,  
 pave Main street with wooden blocks, and  
 build a new high school, the aggregate ex-  
 penditure of which is \$286,000. Trestle  
 railway will spend another \$200,-  
 000 on bridges and improvement to their  
 system.

WORCHESTER, MASS., June 27.—Pat-  
 rick McCann, 59, a dyer in the employ of  
 the Worchester Bleaching Co., fired three  
 shots at his wife in a restaurant where she  
 is employed as cook, at 10 Sutton lane, at  
 5 o'clock this afternoon and later shot  
 himself in the right temple. McCann  
 died two and a half hours later and Mrs.  
 McCann has a bad, though not dangerous  
 wound, on the top of her head. Mrs.  
 McCann had been living apart from her  
 husband seven weeks and had refused to  
 go back to him on account of his drink  
 habits. Today McCann apparently sought  
 her out for the purpose of shooting her  
 which he had threatened to do and open  
 fire upon her immediately she came to  
 sight, but one of three shots taking effect.

PORTLAND, ME., June 27.—A man who  
 gave his name as James Allan called at  
 the house of Mr. Nasen, on Bristol street,  
 Wednesday morning and asked for break-  
 fast. He was accommodated and after  
 went to work in a hayfield. He worked  
 all day Wednesday and to-day until his  
 afternoon, when he complained of  
 feeling sick. He was given a seat in a  
 shabby place and an hour later was found  
 there, dead. The cause of death was sun-  
 stroke. The man said he had a wife and  
 two children in St. John, N. B. It has  
 been learned that he has been soliciting  
 subscriptions for a New York daily, to  
 deliver himself. He had delivered none  
 since Monday.

ALLENTOWN, June 29.—A week ago  
 Rose Shoemaker jilted Charles F. Clewell  
 because, a few minutes before the time  
 set for the wedding, the prospective bride-  
 groom had invited Rose's father out to  
 have a glass of beer. To-day the couple  
 were married.

## FOR CHILDREN AND ADULTS

CURES

Diarrhoea, Dysentery, Cholera,  
 Cramps, Colic, Cholera Infantum,  
 Cholera Morbus, Summer Com-  
 plaint and all Fluxes of the  
 Bowels.

HAS BEEN IN USE FOR  
 HALF A CENTURY.

Harmless, Reliable, Effectual, and  
 should be in every home.

### SURE REMEDY.

Mr. F. Churchill, Cornell, Ont.,  
 writes: "We have used Dr.  
 Fowler's Extract of Wild Straw-  
 berry in the home and always find  
 it a sure remedy for dysentery."

### USED 9 YEARS.

Mrs. Jones, Northwood, Ont.,  
 writes: "My baby, eight months  
 old, was very bad with dysentery.  
 We gave her Dr. Fowler's Extract  
 of Wild Strawberry and it saved  
 her life. We have used it in our

family for the last nine years and  
 would not be without it."

### ACTION WONDERFUL.

Mrs. W. Varner, New Germany,  
 N.S., writes: "I have great con-  
 fidence in Dr. Fowler's Extract of  
 Wild Strawberry for various dis-  
 eases in old and young. My little  
 boy had a severe attack of summer  
 complaint and I could get nothing  
 to help him until I gave him Straw-  
 berry. The action of this remedy  
 was wonderful and soon had him  
 perfectly well."

As a matter of fact Clewell bought two  
 beers and Rose asserted she would never  
 marry a man who bought her papa beer.  
 Clewell was penitent and so was papa  
 Shoemaker, but Rose was obdurate.  
 For a whole week Clewell's argument  
 was unavailing, Rose declaring that she  
 would never marry. Finally Papa Shoemaker  
 and Clewell had a conference.  
 The two decided to put forward a joint  
 argument and this idea was successful.

After listening to their pleas, Rose  
 turned to Clewell and said: "I will  
 marry you on one condition.

"Name it," cried Clewell eagerly, "and  
 I will grant it."

"The condition is," replied Rose, "that  
 you never buy papa beer again."

The couple were married an hour after  
 wards.

### Where He Shone.

A Thespian who spent several years  
 trying to get beyond "the carriage  
 awaits milord" station in first class  
 Broadway productions was induced by  
 his brother to join him in the dairy  
 business in the City of Mexico. While  
 on a business trip to this city recently  
 buying new machinery and appliances for  
 his prosperous Mexican creameries he  
 met one of his former companions  
 who was still struggling for an oppor-  
 tunity to "say lines." An exchange of  
 confidences revealed the fact that the  
 former actor was now making a snug  
 fortune in the milk business, and his  
 friend, the persevering player, remark-  
 ed: "You're all right, Billy. You could  
 never have shone in a theatrical way,  
 but you are a star in a milky way."—  
 New York Sun.

### The Word Gazette.

The word "gazette" is from the name  
 of an old Venetian coin worth about  
 one-half cent of our money. The name  
 is applied to newspapers because it  
 was the sum charged for reading the  
 first written journals that made their  
 appearance in 1550. After the paper  
 was read it was handed back to the  
 owner, who charged the next comer a  
 gazette for taking a peep at it.

### English Robes of State.

Every robesmaker in London always  
 keeps some of the most expensive  
 robes of state—those of a registrar, for  
 instance—ready and lends them out  
 when officials have to use them at any  
 great ceremony. Many a peer, when  
 his portrait is to be added to the family  
 picture gallery, has obtained the crim-  
 son and ermine from his tailor for a  
 small consideration.

### Why She Discarded Him.

"Don't despair, Edward, even if  
 father does say you'll be young enough  
 to marry five years from now."  
 "Oh, I don't care for myself, but how  
 about you?"

### Puzzling.

"But ze foot of ze bed," the bewil-  
 dered Frenchman said, "it ees not on  
 ze end of ze laig!"—New York Commer-  
 cial Advertiser.

It is stated the D. A. R. will at once  
 commence daily trips, Sunday included,  
 keeping the Steamer Boston in commis-  
 sion all the summer.

Don't experiment—buy Magnetic Dyes  
 which have been successfully used in Can-  
 ada for twenty-five years. Price 10 cents  
 for any color.

It is reported that Frank Sabans, the  
 Nova Scotia outlaw, is in Sydney.

## A LA MODE.

For autumn and winter wear hand-  
 some twilled silks are revived.

A new shade of wine color and a lovely  
 one in turquoise blue are blended this  
 season in fashionable costumes.

Large hats are still set forth by all  
 fashionable milliners. Those of black  
 beaver, black satin and black velvet are  
 all in high vogue.

Royal ermine linings and collars ap-  
 pear among some of the capes and peler-  
 ines of expensive French broadcloth in  
 rich crimson, Dewey and Russian  
 green shades.

Costumes of heavy black satin, made  
 with fitted basque bodice and circular  
 skirt, have very short black satin capes  
 en suite, the cape and extreme edge of  
 the skirt trimmed with black moire fur.

There is a great demand at present for  
 broadcloth fabrics, handsome matelasse  
 silks and satins, for princess gowns, red  
 ingotes, underskirts, dress trimmings,  
 combinations, linings for capes, cloaks,  
 etc., and for evening wraps entire.

With gray cloth or velvet of certain  
 shades, chiacilla is very pretty, and  
 new French tailor models show this ex-  
 pensive fur on cloth and velvet costumes,  
 of royal blue, green and Russian red,  
 with large directive muffs and pelerines  
 en suit.

There are now many variations in the  
 Eton jacket, and some of the shapes for  
 stout women have stole fronted ends, cut  
 long and straight, like a scarf, or have  
 the lengthened pieces rounded or sharply  
 pointed with a heavy silk fringe applied  
 to the edge of the point or scallop.

What the English call "cloth guipure"  
 —it is also known as cut work—is one of  
 the most popular of the handsome au-  
 tumn trimmings for cloth costumes. This  
 guipure in various devices is laid over  
 cloth of a darker or sometimes lighter  
 shade, or it may be silk of a contrasting  
 color.—New York Post.

## THE CENSOR.

What is the matter with an automo-  
 bile mowing machine or an autoplow?  
 Minneapolis Journal.

The only things Spain appears to have  
 to give to her naval heroes are handsome  
 engraved verdicts of a court martial.  
 —Los Angeles Times.

Manufacturers of jeweled swords are  
 wishing for a war like the last one every  
 year. The swordless hero nowadays is a  
 freak.—Pittsburg News.

Lord Kelvin has discovered that the  
 earth has been the abode of organic life  
 for more than 30,000,000 years. No won-  
 der we sometimes suffer from ennui!  
 —Baltimore News.

Once more the live wire has proved  
 that it knows its business and has killed  
 an expert lineman. The inventor who  
 will discover a non-damaging electricity  
 will make a fortune.—Philadelphia In-  
 quirer.

It has taken the Cubans just nine  
 months to acquire the great American  
 habit of striking. No one seems to know  
 how long it will take them to acquire the  
 still greater habit of hustling.—Boston  
 Journal.

Circumstances over which he has no  
 control will make it impossible for the  
 Dayton (O.) man who tried to knock  
 an apple from a tree with the butt end  
 of a loaded gun to ever try it again.  
 —Chicago Times-Herald.

A Russian nobleman has just erected  
 a paper house containing 16 rooms on  
 his country estate and likes it so well  
 that he has ordered paper furniture. The  
 Slav gets ahead of the American some-  
 times, but not often.—Boston Globe.

The Klondike is no longer out of the  
 world. The Canadian government has  
 just completed stringing wires to Daw-  
 son, and now any one can communicate  
 with the arctic metropolis by telegraph—  
 if he has the price.—San Francisco Call.

## ECHOES OF THE RACE.

Britannia rules the waves all right  
 enough, but not in yachting.—Indianapo-  
 lis News.

In rig and model the Shamrock was the  
 most distinctly American yacht which  
 ever came across for the cup. But it  
 looks as if a real American yacht were  
 rather better than the cleverest imitation.  
 —Boston Journal.

Sir Thomas Lipton says it was not the  
 cup he was racing for so much as it was  
 a desire to promote good feeling between  
 the two great countries of the world.  
 Anybody can see that he was not racing  
 for the cup.—St. Louis Globe-Democrat.

It is reported that a wealthy soap  
 maker of London is to build the next chal-  
 lenger for the America's cup. That will  
 make a scrub race out of the great inter-  
 national contest. However, let the Sa-  
 ponifier come on. He will find that we  
 know how to build boats that will never  
 have to take his "wash."—St. Louis Star.

## OUR GIRLS.

No woman can look intelligent and talk  
 to a baby simultaneously.—Chicago News.

That Chicago woman who spanked her  
 husband every 24 hours didn't waste any  
 time on the "consent of the governed"  
 idea.

A physician declares that one of the  
 chief causes of blindness is intelligence.  
 Is this another mean jab at the sex which  
 does not become bald?—Louisville Courier-  
 Journal.

The girls of Muscotah have entered in-  
 to a sensible agreement to the effect that  
 no young man shall be allowed to take a  
 girl home from church unless he also ac-  
 companies her there.—Muscotah (Kan.)  
 Record.

## THE FRENCH GENERALS.

Twenty French generals are to be retir-  
 ed on account of age and infirmity. We  
 know nothing about their ages, but all  
 the world is witness to the infirmity of  
 some of them.—Brooklyn Citizen.

If France is contemplating a jump on  
 England during the South African trou-  
 bles, she would better put some more for-  
 midable generals in commission than the  
 job lot shown up in the Dreyfus trial.—  
 St. Louis Republic.

## ALGERIAN PROVERBS.

Every beetle in his mother's eyes is a  
 gazelle.

Consult thy wife and do the reverse of  
 what she advises.

Joy lasts for seven days, but sadness  
 endures for a lifetime.

He who has gold is beloved, though he  
 be a dog and the son of a dog.

He who desires to attain to great  
 things must pass through many nights.

## CARDS.

### Commission Merchant.

All kinds of country produce sold on  
 Commission. Quick sales and prompt re-  
 turns. Highest market prices realized.

O. S. MACGOWAN,  
 P. O. BOX 117, MONCTON, N. B.
