THE WORLD OVER.

LONDON, Nov. 14.—The loss of a life boat and eleven lives near Yarmouth Head, is in the list of to-day's wreck by consequence of the gales. The lifeboat was on its way to the rescue of a distressed vessel when struck by a great wave and capsized. The crew were imprisoned and only three succeeded in making their escape. A number of minor casualties continue to be reported on all the coasts of the Un-Kingdom, marking the storm as the most disastrous that has occurred in many years. Snow is falling in many parts of the country too.

PITTSBURG, Pa., Nov. 15.—The farm house of George Burford, near Foster's mills, Pennsylvania, was destroyed by fire last evening and Mrs Burford burned to death. Her husband, who dragged her burning body from the building, was so badly injured that his recovery is doubtful. Mrs. Burford was mentally unsound and during the temporary absence of her husband, it is thought, she set fire to the house.

Thinner Than a Rail.

Spending every day, as much energy as you make, and if the balance goes a little farther, well, you get thinner. Not wise to go that way longer. Better use Ferrozone, you will digest more—a little gain the first week, the gain keeps growing. Not quite so thin! Keep right on, only don't use Ferrozone too long or you will get too fat. Then your blood will be rich, your heart strong, you won't puff so much, you won't get tired quickly. Fat, blood strength, you have them all with Ferrozone. Sold by R. O'Leary, General Merchant, Richibucto.

UTTERLY LANGUID.

"Did you know," said the man who is always worrying, "that the coal supply will be exhausted in a few million years?" "Well," answered the friend with the world weary face, "can you blame it? You would be exhausted too if you were worked for a million years, wouldn't you? Why express surprise at so simple a phenomenon?"

GROWTH OF THE EARS. It is asserted that it never stops until death. The systematic examination of more than 40,000 pairs of human ears in England and France has resulted in some interesting conclusions. For one thing, it is ascertained that the ear continues to grow in the later decades of life. In fact, it appears never to stop growing until death. If one will take the trouble to look around in any assemblage of people, as at a church, he will discover that the old folks have ears considerably larger than those of the middle aged. A woman who has small, shell-like ears at 20 years of age will be very apt to possess medium sized ears at 40 years and large ears at 60.

Why ears should go on growing all one's life any more than noses is a mystery. There are a good many other points about them that are instructive, their shapes being markedly persistent through heredity. An ear will be handed down, so to speak, from father to son for generation after generation with comparatively little modification. Some authorities on crinology assert that criminals are very apt to possess a peculiar kind of ear, which is recognizable by an expert in such matters. There is probably nobody in the world who has a pair of ears perfectly matched. In most people the two differ perceptibly not only in shape, but also in size. Frequently they are not placed precisely alike on the head. The age of a person may be judged with great accuracy by the ears, which after youth is past assume an increasing hardness of contour. A pretty woman whose first youth has departed may not show the fact in other ways, but these little features will surely tell the story of the flight of time. Then there is the little wrinkle that comes just in front of each ear during the thirties, a fatal and ineradicable sign. Near the top of each ear just within the down turned edge and slightly toward the back will be found, if one feels for it, a small lump of cartilage. This is a remnant of what was originally the tip of the ear when, ever so long ago, that organ in our remote ancestors had a point on it. Most of the apes today have pointed ears, but in human beings the outer edge of the organ has in the course of ages been folded over so as to cover the real tip.

THE TOILET ROOM. A few drops of ammonia in the water soften it nicely and help to remove stains from the hands. Soft wash leather with which to rub the face after washing helps to keep the complexion smooth and white. Just a dash of eau de cologne or toilet vinegar thrown into the water before washing will make it much more refreshing when one is hot and tired. A lotion recommended for ordinary tan is made from a pint of rosewater, half an ounce of pulverized borax and an ounce of strained lemon juice. Bathe freely with it. Keep a basin of oatmeal on the washstand and after washing the hands dry them in the meal. The skin will be kept white and smooth and less liable to chaps by this process. Almond meal, oatmeal and orris root in small bags placed in the bath water a few moments before you place yourself there will render the water milky and will have a softening and whitening effect on the skin. Bran or starch in the water is also good.

Two Passengers' Dislikes. A lady of truly masculine spirit, accompanied by a small poodle, is said to have failed sadly the other day in an attempted reformatory movement. She entered the smoking car of a suburban train and sternly refused when approached by the conductor to go into another car, observing that her presence would keep the other occupants from smoking. One thick skinned wretch, however, insensitive to the claims of refinement and reform, began to enjoy his accustomed cigar, which was suddenly snatched from his lips, with the remark in a high treble: "If there is anything I do hate, it is tobacco smoking." For a time the offender was motionless; then, gravely rising, amid the curiosity of the assembled smokers, he took that little poodle out of the lady's lap and gently threw him through the window, sighing, "If there is anything I do hate, it is a poodle."—Chicago Tribune.

Equal to the Occasion. "Colonel," she said when they were alone on the stairway. "father tells me you are a man who never fails. He says when you undertake to carry a point you carry it; that if you are sent to raise a siege you raise it, and he says he believes if you were sent out to find the north pole you would hoist the flag on it." "Yes," said the bluff old soldier replied, "that's me, and when I want to get out of a corner I escape. Excuse me; over there's a friend of mine that I want to see on particular business."

Thousands to Win a \$50 Cup. Yachting is the most expensive sport in the world. It costs more to win a mug offered for a yacht race than to carry off a prize offered for competition in any other sport. Yachtsmen will spend thousands of dollars and take endless trouble to win a \$50 cup. No heavy stakes are raced for in yachting, and in this country the most successful yacht of the year will fall a long way short of winning enough to pay her expenses.

The Pilgrims. Nothing verbal could be much more delicious than Joseph H. Choate's definition of the dinners of the New England Society of New York as "those gatherings of an unhappy company of pilgrims who meet annually at Delmonico's to drown the sorrows and sufferings of their ancestors in the flowing bowl and to contemplate their own virtues in the mirror of history."

No Guarantee Given. "What is the matter with those weather bulletins of yours?" asked the man who complains about what can't be helped. "Dear sir," answered the weather forecaster, "those are merely predictions, not promises."

Unappreciative. "You find spring water a very great advantage in drinking, I presume?" "Oh, I don't know," said the milkman; "the average person buying milk doesn't know the difference between spring water and any other kind."—Detroit Journal.

POND'S EXTRACT. Suffered from indigestion, nervousness, and general debility. After taking Pond's Extract, I feel like a new man. It is the best medicine I have ever used.

ARE YOU DEAF? ANY HEAD NOISES? DEAFNESS OR HARD HEARING ARE NOW CURABLE

DEAFNESS OR HARD HEARING ARE NOW CURABLE by our new invention. Only those born deaf are incurable. HEAD NOISES CEASE IMMEDIATELY. F. A. WERMAN, OF BALTIMORE, SAYS: Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.

DAISY LEE. (Written for THE REVIEW.) She was motherless at the age of three, God had taken her mother home; And the sisters and brothers of Daisy Lee Far from her were forced to roam.

Why Catarrhozone Cures Catarrh. It goes to every affected part and kills the germs that keep up the diseased condition. Catarrhozone never irritates, but stimulates the mucous lining of the nose, throat and lungs to normal action, and keeps the nasal passages free from offensive discharges. Catarrhozone contains no dangerous drugs or opiates, and is delightfully pleasant and simple to use. Catarrhozone is an absolute certain cure for any form of Catarrh and sells for a dollar at R. O'Leary's General Store, Richibucto, small size 25c. By mail from Poison & Co., Kingston, Ont.

DORCHESTER, N. B. Nov. 16.—The residence, barns and outbuildings of Hon. A. D. Richard and the residence of James McNaughton, of the firm of F. C. Palmer & Co., were burned to the ground last evening. The fire originated in the stable of the Richard place where the hired man had been shortly before, with a lantern, doing his chores. It spread with great rapidity and fierceness, but was stopped at the carriage shops of Thos. Anderson, by the exertions of the volunteer firemen whose work would have done credit to any organized company. The water supply was abundant and to that fact and to the exertions of the citizens who took hold and worked, it is due that the whole corner was not swept. The wind was blowing from the southeast, directly on the main portion of the town. The Richard property was insured in the Sun for, it is said, \$2,800. Mr. McNaughton carried \$1,000 on his house in the Western and \$500 in the Manchester on his furniture. Mr. Anderson suffered considerable loss to his property in fighting the fire and one small building owned by him was burned. He had no insurance.

DEPRESSED AND DISCOURAGED. It is remarkable how thoroughly the whole system is thrown out of order when the nerves become weak and exhausted. All energy and ambition seems to disappear, the mind wanders, memory fails and despondency reigns supreme. Dr. Chase's Nerve Food puts new vim and energy into the brain, nerves and body, builds up the system and prevents paralysis, prostration and insanity.

"JUST AS GOOD" Has no glimmer of truth in it when it means a substitute for Dr. Agnew's Ointment. There are cases on record where men and women too have suffered unspeakable torture from piles; where all kinds of remedies have been applied; where the surgeon's knife has been resorted to as the only hope; where electricity has tried its good offices, but without any permanent cure; and Dr. Agnew's Ointment, as the last resort, has proved its magic—one application has given relief. There is no other "just as good." Don't take chances.

THEIR STRONGEST POINT. "There's one good thing about the arguments of people who went to explain to you how the universe started, where it's going and what is guiding it." "What's that?" "When they get through, you generally now as much as you did before, any way."—Chicago Record Herald.
