Her next move was to take a large porcelain water pitcher, which she placed on the floor, and poured into it the package of powder Then she sat down Superintendent upon the pitcher and, striking a match, a Presbyterian chapel. The Roman dropped it into the mouth of the pitcher. An explosion followed which shook the house. Mrs Van Cleve rushed to her daughter's room and found her writhing on the floor, severely burned.

> A love affair was the cause of her attempt apon her life.

KANSAS CITY, Mo., Dec. 5.—A special to the Star from Medicine Lodge, Kansas, says: "David Nation was Nov. 27 granted a divorce from his wife, Mrs. Carrie Nation, "the joint smasher." The court exonerated Mrs. Nation from the charge of cruelty to her husband and divided the property. Mrs Nation said that one reason she fought the proceedings was that she wished to continue to share pension money drawn by her husband.

Judge Gillett granted the divorce upon the grounds of gross neglect of duty. When Mrs. Nation first started out on her career of "joint" smashing, a year ago, Mr. Nation seemed to be in sympathy with her work. But when she spent all her time away from home, crusading or serving sentences in jail for destroying property, he went to the home of his daughter in Indiana and lived. He was Mrs. Nation's second husband, and was nearly seventy years of age. The couple had lived together for many years.

The Beauty Spot Patch. The custom of wearing black patches

to make the skin seem fairer came from the habit of applying in the sixteenth century pieces of black velvet or other dark stuff to the temples for the headache. A fashionable coquette discovered them into use in France, whence the custom spread into Europe. They were worn not only by women, but by exquisites and the clergy, though their use was not general among men. They were called mouches and were made round, square, oval and in the shape of stars, hearts, crescents and animals of all sorts, to Dr. Agnew's Cure for the Heart by reading of so that a lady's face sometimes had the appearance of a menagerie.

Railway Improvement.

There was a time, which some of us remember, when a man before taking a long ride on a train would make his will and say goodby to his family with the most unpleasant anticipations. In those early days trains did not run fast, but when they ran off the track there were apt to be most uninteresting corpses. Today when we read of a train going 60 miles an hour breaking in two, hurling part of itself down a steep embankment, Philadelphia Record. with the result that only a few are injured and these slightly, we feel that there has been progress. In fact, one is safer on a train than almost anywhere
