"And let us not be weary in well-doing for in due season we shall reap if we faint not."—Galatians 6: 9.

THE INIQUITY OF THE LICENSE SYSTEM.

For so much gold we license thee,
So say our laws, a draught to sell,
That bows the strong, enslaves the free,
And opens wide the gate of hell.

"No system known in history was ever such a wicked compromise with iniquity as this license system. When first introduced in England the English government in vain sought to bind in leash and restrain it. That compromise demoralized public sentiment, it weakened the right, and from that day to this illustrates the folly as well as the wickedness of binding giant evils with cobwebs of legislation. That system has proved a terrible failure, as every almshouse, prison, gallows and burial-ground in Christendom sadly testifies, yet, damned by century after century of failure, accursed of God in heaven, and wept over by the stricken millions of earth, it still continues on its desolating way under the sanction of a Christian people.

The day will come when this feature in the history of our age and people will challenge belief. The existence of a system which is an open insult to God, a violation of every principle of justice, humanity and common law, is a crime which can have no palliation. The thirty pieces of silver for which Christ is everywhere betrayed in the persons of the innocent and defenceless, the price of blood, but braud the system as a baser wrong. If Iscariot was gibbeted in eternal infamy because he sold his Master for a price, what shall we say of professing Christians who at this late day sell humanity for less money often to be crucified for a lifetime? Can anything be more deliberately cruel, devilish, than this bartering away the character, property, happiness and manhood of a people for a price? The very winds of earth are fearfully eloquent with the cry of blood which goeth up from the unnumbered graves where the victims of several centuries of regulation are hidden away."

The Rev. J. Dennis Herd, M. A., Secretary of the C. of E. Temperance Society for the London Diocese, says—"After looking at the great career which is open before mankind, and then finding men who have every chance, dying in a London slum, we are compelled to ask, why do men continue drinking when it takes them to ruin?"

The truest answer to this very great question is found in the fact that alcohol, or strong drink has the most remarkable power to enslave man. There is a point at which a man can leave it off, but soon there comes another point where man cannot break it off. This drink absolutely destroys the power of will, so that man is a slave. Ruskin says of drunkenness: "This fiend grasps its victims by the throat first, and then by the heart." It has a singular power of creating a craving which is madness. It can be nothing else, for drunkards would not ruin their homes, their children, their lives, if they had any power of reason, or power of will. When they think of their folly, how often they are sorry, and determine to lead a new life; but within three days, or a week, they have fallen again. They declare, with tears, that the desire comes upon them, and they think of nothing, care for nothing, except how to get some drink.

They see drink ruin other people, perhaps their own families, but they do not take warning. It is a marvellous decept-

tion that blinds and destroys them. You often hear people say, "I am quite safe, I have a will of my own, I know where to stop." These are the very people who in a year or two's time, weep like children, and say, "Do help me, do deliver me from this foe, it is killing me." * * * Do you suppose that more than two thousand a week would be killed by this one evil, if it did not first destroy a man's power of escape from it? * * * Like the appetite for such poisons as chloral and morphia, the longing for alcohol grows greater the longer it is indulged. Parliament has forbidden the free sale of chloral and morphia. "Why," said Archbishop Farrar, "should it not also prevent the free sale of that other poison, alcohol?"

Out of The Shadow.

The discouragement, the despair of ill-health, out into the noon-tide glory of health, vigor and strength. Are you seeking this way? Are you wishing to replace weakness by strength, despondency by hope and expectation, pale cheeks and lusterless eyes, by the roses bloom and sparkling eyes, if you but use Ferrozone, you will make rich, red blood, your nerves will grow strong. Old time vigor will return and with it endurance that will enable you to live an active, energetic and successful life. Remember the name, Ferrozone. Sold at R. O'Leary's General Store, Richibucto.

ST. JOHN'S COLLEGE.
S. KERR & SON,
Odd Fellows' Hall

COCAGNE, N. B.

Aug. 26.—A very interesting and pleasant affair took place here on Tuesday, the 20th inst., when Miss Rachel Goguen was united in marriage to Mr. Albert Hebert. The ceremony was performed by Rev. J. A. L'Archeveque. Miss Lizzie Hebert, sister of the groom, acted as bridesmaid, while Mr. Ernest Goguen did the honors for the groom. After the ceremony the bridal party repaired to the home of the bride's father, Mr. Germain Goguen, where dinner was served. Later they drove to their future home where a large number of friends gathered to shower good wishes upon the happy young couple and to assist at an evening of feasting. Mr. and Mrs. Hebert are very popular among a host of friends, the bride having been a successful school teacher, while the groom is one of the most industrious and prosperous young farmers in the county.

The harvesting season is now pretty well advanced. The cereals are somewhat lighter than they would have been had the rain supply been normal, but still prospects are good for a fair yield. A large number of binders have been sold among the farmers, with the result that the wheat crop is being saved surely and rapidly. The introduction of these machines promise larger and better prepared wheat areas for next season.

To the mind of the thinking agriculturalist there is scarcely a more desirable farming section than that available on either side of the Cocagne River. It is to be noted too, that where the farmers are not burdened by families weak in earning powers, or too strong, numerically, they have prospered, comfortable homes, and well-tilled, productive farms. A considerable number could be named who besides possessing such farms have a very snug bank account to their credit. We naturally feel some hesitancy in mentioning only one from so many available instances of this kind, but if we do so it is because honest industry should be encouraged and because we fear to impose on THE REVIEW. Last week we had occasion to call at the farm of Mr. Jaddus Robichaud, and were surprised at what we saw. Mr. Robichaud's farm comprises 150 acres, rising over a long hill and dipping with its green slopes beneath the sunlit waves that lap the north shore of the Cocagne River. Every foot of the farm is rich and fertile. The fields of wheat and other grain remind one of the rolling grain areas of the West, and clearly demonstrate that intelligent farming here can be accompanied by results as encouraging as in Western Canada. The extensive barns, already well filled with sweet smelling hay, promise to be taxed to the full extent of their great capacity in storing these crops. The farm is supplied with all modern farm machinery, including seeders, a binder, thrasher, etc. The success of Mr. Robichaud is due to intelligence and industry, to his paying close attention to every detail of farming, and his keeping himself closely informed as to all the latest ideas and methods of work.

Lockhart's saw-mill at Natre Dame has had a successful season. Mr. Lockhart began operations in early May and has already cut in the vicinity of 2,000,000 feet of lumber, and has on hand logs sufficient for another month's sawing. This is the milling property once owned by Schofield and later by Smith. After being several times destroyed by fire, it fell into the hands of Mr. Chas. Lockhart its present owner, and has had a very successful career since. Besides the saw-mill, Mr. Lockhart conducts a large mercantile business, and though a young man of only a few years' residence in Notre Dame, is fast assuming a first position as an enterprising and respected citizen.

Miss Claudine Connors, of Shediac, who spent a week here visiting friends, has returned home.

Miss Alice Dillon, of St. John, and Miss M. Hannigan, of Buctouche, passed through here Friday en route for St. John.

Mrs. LeBean of New Bedford, Mass., has been spending her vacation with her father Mr. Jude Bourgeois, of Grandigue.

Dr. A. H. Chandler went to Nova Scotia last week in connection with some extensive mining properties in which he is heavily interested. He was accompanied by Mr. Elliott of Winnipeg, and will be absent about ten days.

Mr. Louis L. Leger is suffering from a severe sprain of his ankle.

To MAKE MONEY it is necessary to have a clear, bright brain, a cool head free from pain and strong, vigorous nerves. Milburn's Heart and Nerve Pills invigorate and brighten the brain, strengthen the nerves, and remove all heart, nerve and brain troubles.

A Run Down System

SHOWS THAT THE BLOOD AND NERVES NEED TONING UP.

This Condition Causes More Genuine Suffering Than One Can Imagine—How a Well Known Exeter Lady Obtained a Cure After She Had Begun to Regard Her Condition as Hopeless.

From the Advocate, Exeter, Ont.

"A run down system!" What a world of misery those few words imply, and yet there are thousands throughout this country who are suffering from this condition. Their blood is poor and watery; they suffer almost continuously from headaches; are unable to obtain restful sleep and the least exertion greatly fatigues them. What is needed to put the system right is a tonic, and experience has proved Dr. Williams' Pink Pills to be the only never-failing tonic and health restorer.

Mrs. Henry Parsons, a respected resident of Exeter, Ont., is one of the many who have tested and proved the value of Dr. Williams' Pink Pills. For many months she was a great sufferer from what is commonly termed "a run down system." To a reporter of the Advocate she gave the following story in the hope that other sufferers might benefit from her experience:—"For many months my health was in a bad state, my constitution being greatly run down. I was troubled with continual headaches, my appetite was poor and the least exertion greatly fatigued me. I consulted a physician but his treatment did not appear to benefit me and I gradually became worse, so that I could hardly attend to my household duties. I then tried several advertised remedies but without result, and I began to regard my condition as hopeless. A neighbor called to see me one day and urged me to try Dr. Williams' Pink Pills. Having tried so many medicines without receiving benefit, I was not easily persuaded, but finally I consented to give the pills a trial. To my surprise and great joy I noticed an improvement in my condition before I had finished the first box and by the time I had taken four boxes of the pills I was fully restored to health. I no longer suffer from those severe headaches, my appetite is good, I can go about my household duties without the least trouble; in fact I feel like a new woman. All this I owe to that best of all medicines, Dr. Williams' Pink Pills, and I would strongly urge other sufferers to give them a trial."

Dr. Williams' Pink Pills are recognized the world over as the best blood and nerve tonic, and it is this power of acting directly on the blood and nerves which enable these pills to cure such diseases as locomotor ataxia, paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la grippe, palpitation of the heart, that tired feeling resulting from nervous prostration; all diseases resulting from vitiated humors in the blood, such as scrofula, chronic erysipelas, etc. Dr. Williams' Pink Pills are sold by all dealers in medicine or can be had by mail, post paid, at 50 cents a box, or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

FREDERICTON, Aug. 24.—Many friends of Professor Newton, organist of the Cathedral, will regret to learn that the illness from which he has suffered for some time past has so affected his mind that his physician yesterday advised his removal to the Provincial Asylum at Fairville. He was therefore removed to that institution this morning.

TO CURE A COLD IN ONE DAY.
Take Laxative Bromo Quinine Tablets. All Druggists refund the money if it fails to cure. 25c. E. W. Grove's signature is on each box.

"How do people enjoy trolley rides in such crowded cars?"
"Oh, everybody is buoyed up by the expectation that everybody else will get off at the next corner."—Chicago Record-Herald.

The Whole Story in a letter:
