## THE WORLD OVER.

ATLANTIC CITY, N. J., Aug. 8.—Some remarkable freaks of Jersey lightning have been reported this summer, but the one that caps them all, according to hitherto truthful citizen, took place Monday afternoon at Bargaintown, a few miles from here, where the barn of Jacob Fultz was struck. Mr. Fultz, who was standing on the porch watching the storm, says that the lightning struck a load of hay and set fire to the barn. A hen which was nesting in the barn at the time was instantly killed.

Several cattle were grazing from the haystack and they became so frightened that they ran to the other end of the yard. A minute later another bolt came, passed along a rail fence and chased the cattle back to the haystack, shot up, knocked off that part of the barn, putting the blaze out, while the heat from the second bolt hatched the chickens from the eggs on which the dead hen was setting.

PORT TOWNSEND, Wash. Aug. 8.—A story of death from starvation in the Agaipuk mining district was brought from Nome by passengers on the steamer Centennial.

As a result of forty three days of unparalleled hardship, George Dean, a miner, is dead, and his two companions, Jack Houston and Joseph T. Thiery, are at death's door.

Added to the story of starvation, is a horrible tale that, in their desperation, Houston and Thiery had severed the thigh of their dead companion from his body and were cooking it when help arrived and saved them from cannibalism. The men had been in Good Hope country prospecting.

On June 7 they started for Nome by way of Agiapuk River. Before they reached Teller City provisions gave out and they were compelled to eat grass, birds eggs and anything they could find.

NEW YORK, Aug. 8.—Because a young woman wished to make herself pretty, the handsome \$25,000 residence of L. C. Van Riper, Eldorado place, Clifton Park, Westchester, was nearly destroyed by fire yesterday. Going to her room in the afternoon to dress, a servant lit a gas jet beside the window to heat her curling tongs. The window was open and the curtain was blown against the gas, becoming ignited.

Seeing the blaze, the young woman became excited, and screaming for help, caught the burning curtain and, tearing it from its fastening, threw it from her. It landed on a bed in the room, setting it afire, and soon the entire house was ablaze. Firemen succeeded, after hard work, in preventing the flames from spreading.

PHILADELPHIA, Aug. 8.—Maximilian Manasse, nephew of a former wealthy banker of Berlin, Germany, committed suicide at his boarding house to-day by shooting himself because his uncle had

cut him off in his will with \$40. Manasse, who was a clerk, had frequently spoken of his uncle and said he expected to receive \$40,000. When he received a letter last night telling him he was to receive but \$40, he went to his room and killed himself. His body was found to-day.

LONDON, Aug. 8.—Somers Clark, the architect in charge of St. Paul's cathedral writes to the times as follows: "The immense weight resting upon the eight piers upholding the dome had caused the foundations under the dome to settle more than elsewhere. The settlement thus caused has broken eight arches that the windows of the clerestory over them in the nave of the choir end in the north and south transepts, where they abut on the dome piers. In the same way the very great weight of the western towers has caused them to sink and in sinking they have cracked the west front vertically through the great door, the window above and the valuted ceiling of the portico. They have also cracked the wall of the chapel to the east." Mr. Clark expresses the opinion that the two underground railways and the large sewers have affected the foundations.

NEW YORK, Aug. 9.—Annie B. Partia, a young Italian woman who landed in this country from Italy recently, was deported yesterday on an order from Washington, notwithstanding the earnest protest of the ship's doctor, who insisted that the woman was too weak to stand the voyage. The case is peculiar and pathetic. When the girl reached New York she was lighted hearted and happy. She had friends here and went to live with them, filled with ideas of good fortune and wealth in store in the new world. But homesickness attacked her and soon, a victim of extreme melancholy, deserted by her friends, she became an inmate of Bellevue hospital. The order for deportation followed.

When the unfortunate woman was taken to the dock yesterday she was a mental wreck and only a shadow of her former self. The official insisted on putting her on the ship. The doctor said she would undoubtedly die on the voyage.

PORTLAND, Me., Aug. 9.—Traffic on the western division of the Boston & Maine railroad was delayed for several hours to-day by a freight wreck near Rigby Park. The accident was caused by the bursting of an air hose, which caused

### After Work or Exercise

Don't take the weak, watery witch hazel preparations represented to be "the same as" Pond's Extract, which easily sour and generally contain "wood alcohol," a deadly poison.

## SO-CALLED STRAWBERRY COMPOUNDS

ARE NOTHING MORE OR LESS THAN

RANK IMITATIONS.

THE GENUINE IS

(Put up in yellow wrapper.)

CURES

Diarrhoea, Dysentery, Colic, Cramps, Pains in the Stomach, Cholera, Cholera Morbus, Cholera Infantum and all Summer Complaints. Safe, Reliable, Harmless, Effectual.

HAS NO EQUAL.

the breaks to set instantly and eight cars were hurled from the track. Five of the cars were damaged beyond repair and the wreckage was strewn across both tracks, completely blocking traffic until late this afternoon. In the meantime the regular trains were run by way of the M. C. Y. and out by Turner's Island, making a 5 minutes' longer run. The damage to the railroad by destruction of cars is about \$2,000 and produce ruined will increase the loss several hundred dollars.

MEDICINE LODGE, Kas., Aug. 9.—David Nation, through his attorney to-day brought suit for a divorce from his wife, Mrs. Carrie Nation, the temperance crusader. The petitioner, who is now visiting in Iberia, Ohio, alleges that his wife held him up to public ridicule, neglected her family duties and abandoned his home.

ST. PETERSBURG, Aug. 9.—Prince Peter, of Oldenburg, was to-day married to Grand Duchess Olga Alexandrovna, youngest sister of Emperor Nicholas, in the presence of his majesty, the empress, the dowager empress, the queen of Greece and Prince and Princess Waldemar, of Denmark. Some of the festivities were abandoned in consequence of the death of the Dowager Empress Frederick.

KANSAS CITY, Aug. 10.—A woman who committed suicide with morphine in a hotel here has just been identified. She was Mrs. Anna McKinney, nee Park. When a girl of fifteen the Rev. Mr. Hite, a widower, pastor of the First Baptist Church of Shelbyville, Ill., who was twenty-eight years her senior, took a violent liking to her. She repelled him and he married her mother. Her stepfather continued to annoy her, and she ran away to St. Louis with a young man named McKinney, whom she married.

Anna's departure nearly caused the Rev. Mr. Hite to lose his mind. He confessed all to his wife, Anna's mother, and an estrangement followed. Mrs. Hite went into decline and died. Since then both Hite and McKinney have died.

Rome, N. Y. Aug. 10.—While lying in bed suffering from injuries received by falling from a horse, Alvin Season of Glenmore, was murdered last night by his mother who cut his throat from ear to ear with a razor. The woman was temporarily insane and alone in the house with her son while the father drove to Rome for his daughter. Mrs. Season has been arrested and placed in Rome jail. She confessed the deed.

PORT SILL, O. T., Aug. 10.—Three additional suits have been started against James E. Woods, the first winner of the Lawton district land lottery who in choosing his claim, shut Miss Mattie Beals out from filing on a tract next to Lawton. A local town site company staked off Woods' entry last night and stretched ropes to indicate alleys and lots, gave notice of contest. These Woods displaced with the aid of an axe, but during the night two hundred squatters took possession and say they will contest to the end. Woods' attorneys have warned squatters to move within ten days. A fourth contest was inaugurated when a placer miners' claim, based on the alleged discovery of oil in the Woods homestead, was filed with the registrar of deeds.

NEW YORK, Aug. 10.—Charles Q. Rosque, of Brooklyn Manor, shot off a part of his ear yesterday morning with the cork from a ginger ale bottle. He snapped back the wire covering the top of the bottle, but the cork would not yield. Then he shook the bottle and the cork came out with a loud report.

Half an inch of flesh was cut off as if with a knife. A doctor had to be called to treat the wound.

## CARRIE NATION NOW LIES IN JAIL.

HER FORMER FRIENDS HAVE ALL DESERTED HER.

TOPEKA, Kan., Aug. 8.—Mrs. Carrie Nation, who a few months ago was the heroine of the temperance and church people of Kansas, now languishes in jail and is without a friend. The 1,000 church members who promised to follow her and help her smash every saloon in Topeka now permit her to serve out a fine of \$148 in the Topeka jail. Mrs. Nation was deeply touched when reminded of her desertion.

"Am I deserted?" Mrs. Nation asked. "I have not seen a person who is interested in the cause of temperance for a week. I have not seen Dr. McFarland or the Rev. Mr. Emerson since I got in jail. No a minister has visited me. What are they all doing? I don't know what is going on. It seems as if I am forsaken. When I was smashing there were hundreds who said 'Good, keep it up,' and assured me that they would stand by me, but now in the hour of need, I have not heard from one of them, and they have not contributed a 10-cent piece towards securing my release. I don't know whether I can get out or not.

"If I had accepted the offers I had to go on the stage at \$500 a week or \$100 a night, I would be well able to pay this fine and the costs, but my mission has not been to make money. That is not my work and I could not keep on with the work for the cause of temperance by accepting such offers, so I refused them. There is no joy in this world for me except to gain the end."

David Nation, the husband, also turns a deaf ear to his wife's appeal. He says she need not look to him for sympathy or help.

## THE AGONY OF SLEEPLESSNESS.

Did you ever pass a single night in wakeful misery, tossing and rolling in bed, trying in vain to sleep and longing for morning to come? Can you imagine the torture of spending night after night in this way, each succeeding night growing worse and worse? This is the most dreadful symptom of Exhaustion and Debility. You can be gradually and thoroughly cured of sleeplessness by the rebuilding influences of Dr. Chase's Nerve Food. It cures in nature's way, by creating new nerve cells and restoring lost vitality.

## MANITOBA'S GREAT WHEAT CROP.

MONTREAL, Aug. 9.—Harvesting has begun in the Canadian West, and the indications are that the crop will be up to the enthusiastic predictions made for it in most respects at least. The alarmist reports sent out of damage by rust and heat were denied by those in a position to know—and the denials would seem to be substantiated by the threshing results so far. In short it is now conceded that 50,000,000 bushels is not an extravagant estimate for the Manitoba wheat crop, exclusive of that of the Territories. Even making all allowances, this should leave 30,000,000 bushels of wheat for export.

The Canadian Pacific Railway is making great preparations for the moving forward of the crop, and the Canadian Northern management also claim that they will be in a position to enter into competition for the grain trade, as its new line to Port Arthur will be ready for October 1. Thomas Tait, transportation manager of the Canadian Pacific, said in an interview that the company was making arrangements whereby at Fort William during the months of September, October, November and part of December, they should move a train every hour, provided they could get the vessels to take the grain away from the elevators. The company has a storage capacity in its elevators here of 5,500,000 bushels, and it will be necessary to keep the grain moving forward by water so as not to clog up the elevators and prevent bringing grain down from Winnipeg in the winter for storage. Mr. Tait said that so soon as they knew the harvest was assured, they contracted outside their own shops for all the cars and engines that could be delivered within the time for the movement of the crop. At the same time their own shops were working full capacity.—Boston Transcript.

ATHLETES, BICYCLISTS and others should always keep HAGYARD'S YELLOW OIL on hand. Nothing like it for stiffness and soreness of the muscles, sprains, bruises, cuts, etc. A clean preparation, will not stain clothing. Price 25c.

Mrs. Woodby—I don't like our neighborhood. I wish I could think of something that will make it appear more fashionable.

Mrs. Peppery (significantly)—Why don't you move!

Red Rose Tea suits the taste of more people in the Maritime Provinces than any other Tea on the Market.

When you are tired refresh yourself with a cup of Red Rose Tea.

Fenceman—Your garden is dug up to perfection. How did you ever get that boy to do it!

Gardner—I gave him a fishing rod and told him the garden was full of angle-worms.

COOK'S SOLE COUGH CURE

## NO JOY IN LIFE.

SO SAY THE SUFFERERS FROM CHRONIC DYSPEPSIA.

A Trouble That Makes the Life of its Victims Almost Unbearable—Causes Headaches, Heart Palpitation, Dizziness, a Feeling of Weariness, and a Dislike for Food.

From "L'Avenir du Nord," St. Jerome, Que.

Sufferers from dyspepsia or bad digestion are numerous in this country. Almost daily one hears some one complaining of the tortures caused them by this malady, and it is no uncommon thing to hear a sufferer say "I wish I was dead." And no wonder, the suffering caused by bad digestion cannot be imagined by anyone who has not suffered from it. The victim is a constant sufferer from headaches, heartburn, heart palpitation, and nausea. He has a bad taste in his mouth, is unable to obtain restful sleep and has always a feeling of weariness and depression. But there is a sure cure for this trouble and it is found in the greatest of all known medicines—Dr. Williams' Pink Pills for Pale People."

Among those who have been cured of this distressing malady by Dr. Williams' Pink Pills is Mr. Alfred Chasbot, a well known farmer living near St. Jerome, Que. To a reporter of "L'Avenir du Nord," Mr. Chasbot told the following story of his illness and subsequent cure:—"For three years I was an almost continual sufferer from the tortures of bad digestion. After eating I felt as if some heavy weight was pressing against my chest. I was racked with violent headaches; my temper became irritable; my appetite uncertain; my nerves were a wreck and I was always troubled with a feeling of weariness. I was able to do very little work and sometimes none at all. Although I tried many remedies I was unsuccessful in my search for a cure until a friend advised me to try Dr. Williams' Pink Pills. Any doubts I may have had as to the merits of these pills were soon dispelled, for I had not been taking them long before I noticed an improvement in my condition. I continued the use of the pills some weeks when I considered myself fully cured. To-day I am as well as I ever was in my life, and would strongly advise all similar sufferers to try Dr. Williams' Pink Pills and I am sure that they will find them as beneficial as I have.

Dr. Williams' Pink Pills cure by going to the root of the disease. They make new, rich, red blood, strengthen the nerves and thus tone up the whole system. Sold by all dealers in medicine or sent by mail, postpaid, at 50 cents a box or six boxes for \$2.50 by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

## TREE THAT TURNS TO STONE.

Mr. W. E. Porter has now discovered a tree in Mexico, called by the natives the "chijol," which is of a most remarkable nature.

If all that is alleged of this phenomenal tree is correct it will some day revolutionize the stone trade. The "chijol" or the "stone tree," as Mr. Porter designates it, is of enormous proportions, both in circumference and height. It has quite a number of branches spreading out widely and carrying leaves of a yellowish green color, something like the myrtle.

The wood is extremely fine and in a green state is easily worked, and is not given to either warping or splitting.

The wonderful part about it is that after being out the wood gets gradually harder, and in the course of a few years it is absolutely petrified, whether left in the open air or buried in the ground.

From this wood houses can be built that would in a few years become completely fireproof and would last as though built of stone. As the wood does not, even in its completely petrified state, change either its color or its finely grained surface, it offers indeed great possibilities for new and artistic embellishments in the style of our buildings, both interiorly and exteriorly, besides the advantage of its being fireproof.—New York Herald.

## SOMETHING ABOUT FAITH CURES.

What a great variety of faith cures there must be. Some have faith in so-called divine healers, others in certain doctors and still others in the medicines they use. Every person who has tested Dr. Chase's Kidney-Liver Pills has faith in them, but faith or no faith they cure just the same, for they act directly and specifically on the kidneys, liver and bowels, and make these organs healthy, active and vigorous. Judging from the enormous demand for these Pills there must be hosts of people that have faith in them.

A passenger special left Truro Friday evening at 9:30 o'clock with about 350 farm laborers bound for the Northwest to assist in harvesting the golden grain of the western farmer. The special left St. John at an early hour Saturday morning. The C. P. R. agents in the Annapolis valley, Pictou and Prince Edward Island have notified the passenger department in this city that large numbers will go from these districts next week.—St. John Telegraph.
