CANADIAN LETTER.

WASHINGTON, D. C., U. S. A., Sept. 27.—Several distinguished Senators, who have talked with President Roosevelt, declare that he intends to move with the greatest conservatism in regard to reciprocity, and sundry others declare that he is entirely satisfied with the new Hay-Pauncefote treaty which has been in negotiation for the last few months. In every case, however, it happens that the Senator interviewed was one whose opinions might well make the wish farther to the thought, and thus his expressions of less value than might be supposed. They assert, for instance, that the President intends to try to secure the ratification of only two reciprocity treaties—that with France and that proposed with Cuba—at the coming session; this despite his emphatic declaration only a week or two ago on the subject. As the coming session is the "long" session, which may extend until late next summer, while the next is the "short" one, which must expire by March 4th, 1903, and in which there is no time for anything, the passing over all other treaties this winter would mean passing them over for two whole years—a thing which is incredible under the circumstances. Those who declare this seem to be practically the same who asserted that President McKinley had decided to abandon reciprocity, only a week or two before he declared for it more strongly than ever in his Buffalo speech just before his assassination.

In regard to the canal, too, there is reason to doubt the words of those who, if unprejudiced, would be accepted as accurate. Only a few weeks ago, Mr. Roosevelt was a strong opponent of the old Hay-Pauncefote treaty. As no one knows just what the new one provides, it is not possible to forecast his attitude towards it, but it is almost certain either that it differs radically from the old convention or that he does not favor it. The assertion that he will recommend a neutral canal open to our enemies in time of war, is so alien to the character of the man as heretofore set forth, that it may be described as incredible.

Consul Hill at Amsterdam has furnished the State Department with some interesting information about the Pekin syndicate the largest British commercial project in China. The company was organized in March, 1897, to exploit the mineral resources of China, build railways, etc., and has been given the exclusive right for a period of sixty years to work coal and iron mines and petroleum deposits in certain districts of Shansi and that part of Honan lying north of the Yellow River, consisting altogether of about 30,000 square miles. Certain railroad privileges are also enjoyed by the company. Its authorized capital is \$6,521,110. It is now engaged in opening up anthracite mines in the Chingwa coal fields in north Honan and bringing them into communication with railway navigation. Consul Hill says that the operations of this company are being watched with great interest.

Times have changed since the days when this city was considered a place of banishment by the European diplomats, and it is now one of the choice assignments of most of the foreign corps. This fact was recently illustrated by Lady Pauncefote, who, in a conversation, after warmly praising the city, declared that she would rather live in it than in any other place in the world except London.

Although the Census Bureau last year found the agricultural resources of Alaska to be almost nil, such does not seem to be the case this summer. Of course, that country does not yet produce any large amount of crops compared with older communities, but the high price of vegetables has made truck gardening so profitable that it has greatly encouraged their cultivation. Prof. C. C. George, in charge of Alaskan experiment stations, has reported to the Department of Agriculture that he has found good gardens all along the Yukon valley, in the cold interior region. Although the season was unusually late this year, he found now potatoes, cabbage, cauliflower, beets, and other vegetables ready for the table before the middle of August, while lettuce,

radishes and turnips grown in the open had been in use for some weeks. Flower gardens containing a large variety of annuals grown from seed furnished last year were in full bloom. Similarly encouraging reports are given for spring seed barley and for oats and wheat. Abundant moisture and long days during summer months, it is stated, explain the surprising luxuriance of vegetation in the far north.

A peep into the changing system of Australian jurisprudence has been afforded to residents of this city in an interview with Judge P. Roal, of the Supreme Court of Queensland, who recently passed through here on his way west, after a trip through Europe. He said: "The common law of our colony is the same as the common law of the United States, the only difference in the administration of justice as far as the law is concerned, being in the statutes. Since leaving Australia I understand plans have been formulated for a Federal court there which will correspond in a way to the Supreme court of the United States. Hitherto the tribunal of last appeal in the colonies has been the privy council. Now, if the plan is enacted into law, most questions will be carried to the Federal court, though in certain instances they will go to the privy council, sometimes by permission of the Federal Court. Sir Samuel Griffith, Chief Justice of the Supreme Court of Queensland, has been drawing a plan for the Federal Court. He is a very able man, and I understand will probably be made the chief justice of the new Federal court."

The following pensions have been issued to residents of Canada: Original—Gilbert E. Seigar, Montreal, Quebec, \$6; Restoration—Theron Mathewson, Ridgeway, Ontario, \$17; George Ellsworth, Ontario, Ontario, \$6.

A GIFT OF 500 ACRES

Would be no temptation to Mr. Beemer in exchange for Dr. Agnew's Ointment. Itching Piles of seven years standing took to themselves wings after a few applications.

Mr. M. Beemer, of Knotsall, Mich., says in a letter of recent date:—"I have had Itching Piles for seven years. I have tried most everything that was ever recommended as a cure but never got the least bit of relief until I used Dr. Agnew's Ointment, and I haven't words to express the thankfulness I feel for the great cure. I would rather have the wonderful cure than 500 acres of land. 35 cents."

JUST THE SAME.

Bobby—Mamma, if God is as good as you say he is, why doesn't he always answer our prayers?
"He does, Bobby, when they deserve to be answered."
"Well, I prayed that I might not steal any more jam out of the butler's pantry, but it didn't make any difference."—New York Life.

A Red Hot Summer.

During the hot summer season the blood gets over heated, the drain on the system is severe and the appetite is often lost. Burdock Blood Bitters purifies and invigorates the blood, tones up the system and restores lost appetite.

Fixing a widow.—"I can never be more than a sister to you," said a buxom widow to an old bachelor who had proposed. "Ah, madam, indeed you can," he responded gallantly; "I am not a man to lose hope. But I cannot," she persisted. "But," he said, "you have daughters; you may yet be my mother-in-law."

Cresswell, March 28, 1901.
The T. Milburn Co., Limited,
Toronto, Ont.

Dear Sirs,—I write to say that I have used Burdock Blood Bitters with excellent results. Last spring my daughter got all run down and was very thin and weak.

Her face was covered with red spots and a large boil formed on her cheek. I procured 2 bottles of B.B.B., and by the time she had finished them the spots and boil disappeared and she has got strong and fleshy again.

I consider B.B.B. the best blood medicine known.
MRS. I. DAVIDSON.

MARITIME PROVINCE NOTES.

FREDERICTON, Sept. 27.—Edward Fraser, a well known citizen, made a desperate attempt to end his life this evening by swallowing a dose of strychnine, at his home on King street. Drs. Atherton and McNally were immediately summoned, and did everything possible to alleviate the sufferings of the unfortunate man, but they do not hold out much hope for his recovery. His condition is very critical and he may not live through the night. Fraser is employed at Jas. S. Neill's hardware establishment, and is known as a sober, hard working man. He has been a sufferer from asthma for several years and has been very much dependent of late. He has a wife and family.

ST. STEPHEN, N. B., Sept. 30.—Another shooting accident in the woods occurred on Saturday night near DeWolfe Corner, in this county. Daniel McNinch, with a companion named Bert White, was out in the evening looking for deer, and had come out of the woods and was resting beside the road, when two other hunters came in sight. White whistled to call their attention, but they mistook it for the whistling noise of a bear. One of them said he was going to shoot, but McNinch and White, apprehending no danger, made no answer. Both then raised their guns to fire, but fortunately only one gun went off. It was held by John Dinsmore, and his bullet went through McNinch's shoulder, inflicting a dangerous wound.

A surgeon was summoned and the wounded man made as comfortable as possible.

FREDERICTON, Sept. 30.—The University re-opened this morning, with the largest enrolment of students in its history—109. There are 25 in the freshman class. The following county scholarships have been awarded: York, Miss Anna Grosvenor Purdie, Fredericton; Kings, Clarence Steeves, Sussex; Charlotte, Marika Osborne, Milltown; Northumberland, John McNaughton, Black River; Carleton, Matilda Winslow. The last-mentioned is a colored young lady—the first who has ever attended the University. She led her class in Woodstock Grammar school for three years past. Award of remaining county scholarships will not be made until results of last week's examinations are made up, which will be in a day or two.

The local government on Saturday afternoon appointed Mr. Robert E. Ritchie sheriff of the city and county of St. John. The sheriff is paid by fees, and it is said the income of late has been about \$1,500 a year. Mr. Ritchie's position as clerk of the Equity Court, salary \$400 a year, was given to Mr. T. P. Regan, and Mr. Regan's—referee in equity—was given to Mr. Joseph J. Porter, of Buxton & Porter. The referee is paid by fees, and the income varies from sixty dollars in a year to several hundreds.

SOLID FOOD MEANT AGONY

Dr. Von Stan's Pineapple Tablets cured her indigestion—made her stomach strong and well. To-day she eats anything she wishes, enjoys it and suffers no pain.

Mrs. Ellen Butler, 37 Colahie Street, Toronto, suffered so from indigestion that for years to put a bit of solid food in her stomach meant agony for hours. She had tried many remedies without any permanent relief, but when she commenced using Dr. Von Stan's Pineapple Tablets she immediately improved. After taking three boxes she was able to eat anything without the slightest distress. Sixty tablets, 25 cents.

A QUIET WEDDING IN OHIO.

Yes, Jimson's wedding was a quiet affair, owing to the death of a second cousin of the bride's mother, who left the family a little money.

That must have been pretty hard on Jimson. He likes excitement.

Oh, there was excitement enough. One of the bride's little brothers hit Jimson in the left ear with a bag of rice, and tore it loose; and another little brother nearly broke one of his floating ribs with an old slipper; and somebody flung a horseshoe after them for luck and it caught Jimson in the neck just as he stuck his head out of the carriage window. And one of the uncles came out with a megaphone and let all the neighborhood know that the happy pair were spliced; and somebody broke the carriage window with a rabbit's foot made in a paper weight; and the horse ran away, and the driver fell off the box, and Jimson had to drive the horse the rest of the way, and got to the station just in time to miss the train. Oh, there was plenty of excitement for just a quiet wedding.

COOK'S NEW BLOOD PILLS

RHEUMATIC PAINS.

CAUSED BY AN IMPURE CONDITION OF THE BLOOD.

If Neglected They Will Grow Worse and Serious Results Will Follow—Rheumatism Can Be Permanently Cured.

From the Telegraph, Quebec.

Rheumatism is one of the most common and at the same time one of the most painful affections from which humanity suffer. It affects the joints and muscles, and is characterized, even in its simplest form, by a dull constant pain. While it remains in the joints and muscles, it is sufficiently painful and distressing, but as it is liable to attack the vital organs, such as the heart, the disease becomes a source of danger, and in many instances it has proved fatal. Dr. Williams' Pink Pills possess qualities for the cure of this disease which are unequalled by any other medicine. Mr. Cyrus Lamond, a well known resident of Stadacona, Que., bears testimony to the wonderful curative powers of these pills. To a reporter of the Telegraph, he gave the following story: "Until some three years ago I always enjoyed the best of health, but about that time I was attacked with what proved from the outset to be a severe case of rheumatism, from which I suffered great torture. I tried a number of the supposed cures for this disease, but none of them benefited me. I seemed to be constantly growing worse, so I called in a physician, but as his treatment did not give me relief, I sought the assistance of two other doctors, but they also failed to help me. My appetite left me; my strength gradually ebbed away; one of my legs was drawn out of shape, and I was never free from pain. I was in despair of ever being well again, when one day a relative brought me a box of Dr. Williams' Pink Pills and urged me to take them. He seemed to have such great confidence in the pills that I determined to follow his advice. To-day I am happy that I did so, for with the use of less than a dozen boxes of these pills the pain from which I suffered so much is all gone, and I feel stronger and healthier than I did before. This I owe to Dr. Williams' Pink Pills, and I would strongly urge similar sufferers to give them a trial."

Experience has proved Dr. Williams' Pink Pills to be without an equal as a blood builder and nerve restorer. It is this power of acting directly on the blood and nerves that enables these pills to cure such diseases as rheumatism, sciatica, neuralgia, locomotor ataxia, paralysis, and all the ordinary diseases of the blood and nerves. These pills are sold by all dealers in medicine, or can be had by mail, postpaid, at 50c. a box, or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

STRAFORD, Ont. Sept. 27.—Howard Walker (colored), who, at the assizes Monday last, was found guilty of manslaughter in connection with the death of Albert Dando, was to-day sentenced to 14 years in Kingston penitentiary. During a row on a Pan-American circus train near Parkhill on May 29 last Walker shot Dando, both being circus employees. Dando died at Stratford hospital the next day.

MISSING INFORMATION.

"Oh, Harry, here's a warning summer travel article; it's called 'How to Go—When to Go—Where to Go.'"
Harriet—Doesn't it tell you will send the money!—Detroit Free Press.

Feeble, Wasted Nerves Aroused to New Life.

A Sufferer For Years From Weak Heart, Exhausted Nerves and Sleeplessness Cured by Five Boxes of Dr. Chase's Nerve Food.

Whether weakened and wasted by overwork, worry or disease, the result of exhausted nerves is felt in neuralgic pains, nervous headache and dyspepsia, serious functional derangements and ultimately in paralysis, epilepsy, locomotor ataxia, prostration or insanity, the remedy is found in Dr. Chase's Nerve Food, as is proven in the case referred to below.

Mrs. Chase, H. Jones, Pariston, Que., writes:—"For years I have been a great sufferer with my heart and nerves. I would take smoking opium and a dizzy swimming feeling would come over me. Night after night I would never close my eyes, and my head would ache as though it would burst. At last I had to keep to my bed, and though my doctor attended me from fall to spring, his medicines did not help me.

"I have now taken five boxes of Dr. Chase's Nerve Food, and it has done me more good than I ever believed a medicine could do. Words fail to express my gratitude for the wonderful cure brought about by this treatment."
Dr. Chase's Nerve Food, 50 cents a box, 3 boxes for \$2.50, at all dealers, or Williamson, Bates & Company, Toronto.
