THE WORLD OVER.

CLEVELAND, Ohio, Aug. 14.—Thirty men suffocated in the new water works tunnel in Lake Erie, five miles from shore and a number of workmen drowned at the first reports of the death list of an awful calamity which occurred at an early hour this morning. The new water works tunnel, crib No. 2, caught fire and was almost demolished by the flames. Three gangs of tunnel workmen, who live at the crib, were caught like rats in a trap, and either had to jump into the lake and possibly drown, or else go back into the tunnel to a probable death by suffocation. It is known that at least three men were drowned and a number were rescued. They belonged to the shift that was resting at the time and were forced to jump into the lake to escape a death by fire. Captain Thorn and his crew rescued eighteen of the men and brought them to Cleveland. The known dead are: Arthur Hastings, John Martin and Mike Linner. Men brought in by the tug unite in saying that there was little hope for the poor unfortunates left in the shaft. "The elevator is burned," they said, "and they are cornered down there like rats. As soon as the air becomes dead they will smother." Nine were subsequently taken from the tunnel shaft alive.

St. Louis, Aug. 15.—As the result of the arrest of William Clinton and Charles J. Leonard, ticket brokers, charged with swindling a customer, a gigantic railroad ticket counterfeiting scheme was uncovered. After the arrest of the brokers, their office was ransacked and an immense number of tickets and passes were found.

It is almost impossible to place an estimate on the value of the tickets recovered, but it is stated by railroad authorities that \$50,000 would be a conservative figure. It is asserted that many of the tickets and passes are forgeries.

The Baltimore and Ohio, Missouri Pacific and St. Louis and San Francisco lines are said to be the ones which have the most interest in the discoveries made, though tickets were found in the stock for many roads.

J. E. Hennegan secretary of the western lines mileage ticket bureau and the St. Louis passenger bureau, conducted the investigation and exposed a number of unique methods for beating the roads. Clinton and Leonard are to be prosecuted under a forgery statute.

ATLANTIC CITY, N. J., Aug. 15.—One of the most remarkable sea voyages on record was finished recently by Gillean Adams, of Camden, N. J.; and Joseph Pierce, thirteen years old. In a bicycle boat they travelled from Philadelphia to Atlantic City. They were two weeks on the voyage, which was filled with thrilling adventures.

Shortly after leaving Cooper's Point they were driven ashore near Penn's Grove and had to dig the machine out of

the sand with a hatchet. Leaving Delaware Breakwater they were driven out to sea by a squall and finally anchored near Cape May. Getting under way again they lost their bearings and brought up near Cohasset Light.

They arrived in Atlantic City in a disabled condition, and the bicycle boat was picked up by Upton Jeffries, of Camden, in the launch Gypsy, and towed into the inlet. The craft is the invention of Adams. It is 22 feet long, and is propelled by cranks worked on the tandem bicycle principle. It sits in the water very deep and the feet of the occupants are always in water when at sea. Adams and Pierce slept in two small hammocks. Food and water were carried in two water-tight cans strapped fore and aft.

NEW YORK, Aug. 16.—Alfred Bianco, an employe of the West Shore railroad, wagered a week's pay with his brother Pierre, that he could stop a switch engine in the yard at Granton, N. J., claiming that the engineer would respond to his signal. The engineer did not recognize the man's authority and signalled him, in turn, to get out of the way. Bianco still anxious to stop the engine and win the wager, waited till too late and was killed.

PITTSBURG, Aug. 15.—Efforts are again being made to settle the steel strike but their success is problematical. Neither side admits that there has been a single step towards bringing about a rapprochement or that there is any prospect of any exchange of peace proposals.

LONDON, Aug. 16.—Crown Prince Frederick William, of Germany, arrived here this morning. He was met at the Victoria station by the members of the German embassy and a large crowd and was given a cordial greeting.

St. Petersburg, Aug. 16.—Grand Duchess Xenia, wife of Grand Duke Alexander Mikhailovitch, gave birth to a son yesterday. The child was christened Dimitri.

WINNIPEG, Aug. 17.—There is no truth in the report that men are unable to obtain work in the wheat fields of Manitoba. Every man who wants employment can be placed and thousands of them are already at work at good wages. Although there may have been a little congestion in some places owing to the great rush of harvesters, before the harvest actually begins, the men find no difficulty in getting

HALF A CENTURY OLD.

A Standard Remedy Used in Thousands of Homes in Canada.

CURES
Diarrhoea, Dysentery, Cholera, Cholera Morbus, Cholera Infantum, Cramps, Colic, Sea Sickness and all Summer Complaints.

Its prompt use will prevent a great deal of unnecessary suffering and often save life.

PRICE, 35c.

employment elsewhere, and in such instances they are carried free by the railways to other points where help is wanted. At most only a day or two is lost and this is only in exceptional cases. It is naturally inevitable that with so many thousand men coming in a bunch every one could not be located instantaneously. Besides, all who came west were evidently not too anxious to go to work. The local government officials declare that no cases have come before them where men who were willing to work have been unable to find it.

CHICAGO, Ill., August 17.—An attempt to kill Sheriff Ackerman by an infernal machine was prevented by the watchfulness of the Sheriff's wife, says the Carmi Illinois, correspondent of the Chronicle. A candy bucket was sent to Sheriff Ackerman prepaid from Evansville, Ind., when the lid of the bucket was removed another lid with a handle was found inside.

Mrs. Ackerman, for some unknown reason to herself, thought best to remove the screws from the handle. This act undoubtedly saved the lives of those in the room. Besides the Sheriff and his family several visitors were in the room.

Upon the lid some small wires were found then the second lid was cautiously removed, exposing four sticks of dynamite with matches, cartridges and wires as to explode if it had been opened as intended.

The authorities were notified and a special meeting of the county board of supervisors has been called to take action in the matter.

RICH AND POOR ALIKE use Pain-Killer.
Taken internally for cramps, colics and diarrhoea. Applied externally cures sprains, swollen muscles, etc. Avoid substitutes, there is but one Pain-Killer, Perry Davis'. 25c. and 50c.

A TIDAL WAVE.

THE CITY OF MOBILE, ALA., COMPLETELY ISOLATED.

ATLANTA, Aug. 15.—The tropical storm which has been raging along the coast for two days last night completely isolated Mobile, Ala., from the outside world. It is known that considerable damage has been done along the water front in Mobile but whether there has been loss of life is not known. At half past 4 o'clock this afternoon the Western Union Office in Mobile was abandoned, the water at that time being three feet deep in the operating room.

NEW ORLEANS, Aug. 15.—The storm which has been sweeping the Gulf coast from Pensacola and moving westward during the past two days, has prostrated telegraph and telephone wires, and general fears have been entertained for the safety of the people living at Port Eads, which is at the mouth of Mississippi river, and for ships that started for sea just before the storm began. The Peayano reached a man who left Port Eads at 2 o'clock on Wednesday. This man describes the storm which swept that section as a regular tidal wave. The house of a man named Cobden, half a mile above the quarantine station, was swept away and 15 members of the family drowned. The only person who escaped, General Reese is believed to have been lost.

A DOCTOR'S EXAMPLE.

A famous English doctor when fatigued always refreshed himself with a cup of cold Tea. Most people prefer it hot, but hot or cold, a cup of pure tea is a tonic. Try a cup of Red Rose.

HALF A MILLION INCREASE IN CANADA'S POPULATION.

OTTAWA, Aug. 15.—The population of the Dominion of Canada, according to the census returns, which will be given out to-morrow, is 5,338,864.

This is an increase of 505,625 over the census of 1891. These returns are not authorized by the census commissioner, who has promised his first bulletin at 9 a. m. to-morrow, but they are understood to be those which the department will give to the public.

Taken by provinces the increases will be as follows:
Quebec.....132,434
Ontario.....53,657
Manitoba.....93,910
Northwest Territories.....79,390
Yukon and unorganized districts..43,113
British Columbia.....92,000
Maritime provinces.....11,000
Total.....505,625

In a number of instances such as in the Yukon and the unorganized districts, the department has made an estimate as the returns have not yet been received.

The result is disappointing, and the only explanation is that the returns for 1891 were padded.

This has been already explained in this correspondence. According to the returns Ontario will lose five members and the maritime provinces three or four.

Manitoba ought to increase its representation by three members and the Northwest, including the Yukon and British Columbia, ought to bring the representation up to about what it is now if not more, namely, 213 members in all.

The population of the city of Halifax is 40,757 and of St. John 40,711. Charlottetown has 12,080.

There is a decrease in every constituency in Prince Edward Island, and in every constituency of Nova Scotia outside of Cape Breton. The maritime provinces will lose four members, one in Prince Edward Island, one in New Brunswick and two in Nova Scotia. Ontario will likely lose five.

Pimples and Blotches.

how unsightly, sometimes disgusting, mortifying to the sufferer and unpleasant to all. An evidence of poor blood and lowered vitality of the eliminating organs. They need toning up—the whole system does. You can quickly bring about the improved condition by using Ferrozone. Poisons are driven out of the blood, organs grow stronger, the blood richer, the nerves stronger. Pimples and blotches disappear, color becomes good. Glad! Just try and see how much joy can be gotten out of a box of Ferrozone. Sold at R. O'Leary's, General Merchant, Richibucto.

CROPS HEAVY AND CLEAN, SAYS A WESTERN EXPERT.

WINNIPEG, Aug. 15.—Between Portage La Prairie and Winnipeg cutting is general. Harvesting will be general throughout the whole of the West except the Edmonton district by Monday. Reports as to the Portage district show that all the way from 25 to 30 bushels per acre is expected in that superb part of the wheat belt.

Nicholas Dawlf, president of the Northern Elevator Company, has just returned from a trip through South-western Manitoba. "I estimate that this year's yield will not be less than 25 bushels per acre on the average, and in some part of the country it will go considerably over. The wheat fields look magnificent. I travelled on the Pipestone branch, through to Arcola; I also was through the Ox bow, Alameda, Carluif, Carlevalle, Pierson, Souris, Napinka districts, and there is no question but that the crop in these districts will yield over 25 bushels to the acre."

"Another feature I was glad to note was the fact that the wheat was clear of smut and weeds. The oat and barley crop, too, is in magnificent condition, and the best we have had for many years. We will have oats for export this year instead of having to bring them in, as we have had to do for many seasons. There is no question about the crop this year being heavy and clean."

The Ogilvie Milling Company has received its first sample of ripe wheat. It was an excellent one. The company's agents report the yield good at every point and no damage to speak of from any cause up to date. There are some rumors of frost having touched the potatoes at one or two points, but there is no whisper of the wheat having been touched.

LOSS OF FLESH.

If you find yourself falling below normal weight there is danger. The use of fish oils can temporarily add fat, but will never build up healthy tissues. Dr. Chase's Nerve Food acts through the blood and nervous system and carries new life and energy to every nook and corner of the body. It regulates the various organs of the body, makes the appetite good, adds healthy flesh, and replaces the tissues wasted by disease. Naturally and gradually this food cure restores color to the cheeks, increases the weight of the body and thoroughly overcomes disease.

FOR AN IDLE MOMENT.

Daughter—Papa, what do you think of my coming out gown?
Papa—Well, my dear, I don't see how you could very well come out of it, any farther.—Ohio State Journal.

Athletic Appetites.

"The actual amount of good roast beef that a table of athletes will consume," writes Walter Camp in The Century, "is something appalling to the uninitiated. Three members of a Yale football team once went to Cambridge to watch a match between Harvard and some other team. These three men stopped at a hotel for their luncheon. Among other things the spokesman of the party ordered three portions of cold roast beef. 'But, sir,' said the waiter, 'two portions will be a great plenty for all three of you.' The giant of the party looked up blandly at the servant and said, 'You bring the three portions and then watch us eat it!'"

"When the writer was captain of the team, long before the days of special method in management, the eleven were to play at Cambridge and leaving New Haven the afternoon of the day preceding the match, went to a Boston hotel for dinner and the night. Most of the men were readily collected at one or two large tables, but a certain rusher, being late, had seated himself at a table in a distant part of the dining room, and he was told by the manager to order his own dinner. That boy's dinner, and it is needless to say that it was without wine, came to the extraordinary total of \$13.85. He was quite able to play the next day, however."

The Joke on the Snake Charmer.

Rear Admiral Robley D. Evans when a young officer was on the Indian station in the man-of-war Delaware. With several others he set up a bangalow on shore. He tells in "A Sailor's Log," published by the Appletons, what happened to a snake charmer that came along: "The unfortunate thought came to one of our men that it would be a good idea to get the Mohammedan drunk to see what he would do. So he prepared a dose for him that was very effective. He poured a good stiff drink of brandy into a beer glass and then filled it with gin instead of water. The charmer took kindly to the drink and in a short time rolled out of his chair on to the floor very drunk and was soon fast asleep. "The bag of snakes had not been thought of up to this time, but it also fell, and the inhabitants quickly spread over the floor. In the meantime five American officers took to the table and drawing their feet up, carefully remained there until the snake charmer, who had been sleeping so peacefully, saw the snakes crawling over and around him, but it was a long time before he finally came to himself, secured his pets and took them away. We did not repeat that experiment."

Clocks with "Wheels."

"Clocks are certainly queer things," said the man who was tinkering at the hall clock in a suburban house the other day. "They get cranky spells just like people. Sometimes they really act as though they were bewitched. A friend of mine had a little clock that had behaved itself and kept good time for years. One day it took a notion to lay off for awhile, and they couldn't get it started again. My friend's wife was cleaning the room several days afterward, and she took the clock and hid it down flat on its back on a chair. It started to go at once and ticked away at a great rate, but as soon as she placed it on end it stopped again. Well, they set it, and for a time it acted all right as long as it remained on its back. But it soon got cranky again and refused to go. The other day, just for fun, they turned it upside down, and would you believe it, that crazy clock started off again. Now it only runs when it is standing on its head, and they are wondering what new foolishness it will develop next."

Sleeping Car Ethics.

It seems that there is an unwritten code of sleeping car ethics which has its fine distinctions. The International says: "The seasoned traveler enters the Pullman as if it were a room in a club with which he is familiar, but which he has not visited for some time. He stows away his belongings, according to his habit, puts on his traveling cap and a pair of light shoes or slippers and overgaiters, gets out his newspapers and book and, not forgetting his smoking outfit, is ready to be comfortable. Be it remembered that if slippers be donned they must always be accompanied by overgaiters, for without these latter the slippers' foot is not permissible under the unwritten law of sleeping car travel."

When California Was Unknown.

In an old geography printed in 1815 appears the following: "California is a wild and almost unknown land. Throughout the year it is covered with dense fogs, as damp as unhealthful. In the interior are volcanoes and vast plains of shifting snows, which sometimes shoot columns to great heights. This would seem nearly incredible were it not for the well authenticated accounts of travelers."

Not Satisfactory.

"Mose," said Mr. Subbubs, "I want you to clean out my cellar tonight."
"Deed, sah," Mose protested, "I kaint do no wuck laik dat at night, sah, dat would be satisfactory to yo', sah."
"Why, not? You've often cleaned out my chicken coop at night."
"Yes, sah; but I reckon dat wuzn' satisfactory to yo', sah."

Chronic Conditions.

Prospective Tenant—Of course the house needs repairs.
Owner—Hub! Did you ever see a house that didn't?

The First European Book that ever appeared in the Japanese language was a translation from the German of Heine's songs.

CAREERS.
