SALE OF INVENTIONS.

A one-half interest was assigned May 27, 1901, to Peter Franey, of Sterling, Ill., by Thos J. Corning, for the sum of \$10,000, in patent No. 651,830 for Bailing Press.

\$5,000 secured to C. E. Nadaud, care of J. L. Rich, Boon Blk., Covington Ky., one-half interest in and to the patent of D. J. Charbonneau, No. 614,443 for lathing Machines and improvements, by an assignment recorded June 3rd, 1901.

For \$3,500 T. W. Alexander has sold his entire right in patent No. 657,304, for Oil Can to J. L. Baker, of New York, N. A., in Massachusetts. Assignment dated May 16th, 1901.

Wm. R. White recorded an assignment May 17th, 1901, which transferred his entire right in and to the patents Nos. 503,887 and 553,662, for Swinging Gates, to S. J. Hanson, of Urbana, Ill., for \$9,000 (Communication of Messrs. Marion & Marion, Patent Attorneys, Montreal and Washington, D. C.)

Write Messrs. Marion & Marion, Patent Attorneys, Montreal, for a copy of the "Inventor's Help."

Pain in the Joints

may be muscular or rheumatic. The joints are hard to get at and it requires a powerful, penetrating remedy to reach the affected parts. Poison's Nerviline exactly meets the requirements, for it is both powerful and penetrating. The pain is expelled as if by magic, for one drop of Nerviline equals in strength five drops of other remedies. We won't often call the doctor if Nerviline is in the house. Price 25 cents.

OUT OF AN ENGAGEMENT.

Tramp—Please, mum, would ye mind helpin a reduced professional gentleman wot can't git engagements this time of year?

Farmer's Wife—Hub! Professional scarecrow, mum.—New York Weekly.

ON MAGNETIC HEALING.

Much is spoken and written during these times about this mysterious method of treating disease. The most truly remarkable case of magnetic healing which have come under the notice of the writer have been those in which Dr. Chase's Ointment was used. This preparation seems to have magical powers in stopping the dreadful itching, burning sensations of Salt Rheum and Eczema, and when used regularly makes the cure thorough and permanent.

GLAD POSSIBILITY.

"Great Scott!" exclaimed Starboard as they turned the corner; "the boarding house is afire."

"Let's hurry," suggested Port; "maybe we'll get something warm."—Philadelphia Record.

Children Cry for **CASTORIA.**

CLEVELAND, O., Oct. 10.—At the conclusion of a meeting of the trustees of the McKinley national memorial association, held at Senator Hanna's office here today, the following statement was issued to the public:

The McKinley National Memorial Association having been incorporated according to law, met in Cleveland today for the purpose of effecting an organization, by the election of officers and adoption of regulations for its government.

The purposes of the association are the erection and maintenance at Canton of a suitable memorial to the late president and raising the necessary funds; and, after fully providing therefore, the surplus of such fund, if any, to be devoted to such memorial as may be provided for the late president at the national capitol. The memorial will be erected at Canton.

It is proposed to have the offerings of the people voluntary with a full opportunity to all to contribute. The association will prepare and distribute to all donors to the fund a souvenir certificate which will be worthy of preservation as evidence of the holder's participation. The co-operation of the governors and officers of the states and municipalities of the United States and all religious, educational, civic, patriotic, fraternal, benevolent and other organizations is cordially invited. The president of the United States and the governors of all states and territories were unanimously elected honorary members of the association by the trustees.

Miss Henriques—He manages his automobile so skillfully I believe he could write his name with it!

Outing—Oh, yes! I guess he could easily make his auto-graph.—Brooklyn Eagle.

When it Hurts To Cough

The cough that hurts, the cough that gets tight in the chest is daily getting deeper and deeper into the bronchial tubes and is making directly for the lungs, to become pneumonia, inflammation of the lungs or consumption.

Such coughs are sometimes referred to as "graveyard coughs," because they usually bring their victim to that last resting place.

Dr. Chase's Syrup of Linseed and Turpentine has long been known as mother's favorite remedy for croup, bronchitis, coughs and colds. It gains in popularity every day and now has by far the largest sale of any similar preparation.

It loosens the tightness in the chest, allays the inflammation, cures the cold and prevents pneumonia, consumption and other lung troubles. It is sold by all dealers, or Edmondson, Bates & Co., Toronto.

Dr. Chase's Syrup of Linseed and Turpentine.

Painters' Kidneys.

The worst thing a painter has to contend with is the turpentine. The lead, of course, is bad too. But the turpentine cuts the kidneys, inflames and weakens them, makes the painter's life a dangerous and troublesome one. When a painter's back aches, it is time for him to begin treating the kidneys.

DOAN'S KIDNEY PILLS will fix them up—take out the inflammation and congestion, give ease to the aching back. Mr. J. Evanson, the well-known painter and decorator, 50 Oxford St., Toronto, Ont., said: "About eight weeks ago I was taken with an excruciating pain in my back over the kidneys. It was so bad that my wife had to apply hot cloths till the doctor came and gave me morphine. He said the trouble was due to a stone passing from the kidney to the bladder. My water was loaded with a brick dust deposit and scalded on passing. While in this condition I heard of Doan's Kidney Pills and started taking them. It was not long before I got relief from pain and have been improving in health ever since. My urine is now clear and does not smart me, and I feel better than in years."

LAXA-LIVER PILLS. These little black fellows act easily and naturally on the system, clearing away all bile and effete material. Constipation, biliousness, dyspepsia, sick headache, heartburn, waterbrash—all disappear when they are used. Price 25c.

THE MUNICIPAL CANDIDATE.

Who greets you with a pleasant smile, So sweet, so bland, so free from guile; And sits him down to rest awhile— The Municipal Candidate.

Who takes you warmly by the hand, And praises both your stock and land, And tells you all you have is grand— The Municipal Candidate.

Who tells your wife she's younger now Than when she met her years ago— The Municipal Candidate.

Who says the baby is a pet, And nurses it, tho' somewhat wet, And gently hopes you won't forget. The Municipal Candidate.

Oct. 9, 1901.

DOMINION NEWS.

OWEN SOUND, Ont., Oct. 9.—Two men entered Molson's Bank here early this morning, with the object of robbery. A noise they made woke Mr. Vandusen, junior clerk, who was sleeping in the bank. As he sat up in bed, one burglar fired a shot at him, the bullet passing close to him. Vandusen returned the fire, the burglar fired again, when another shot from Vandusen caused the men to make off. Apparently no one was hurt. The police are working on the case.

OTTAWA, Oct. 9.—The director general of public health is of the opinion that vaccination should be general throughout Canada to protect the dominion from the inroads of smallpox from the United States.

Smallpox exists at numerous points in Canada already but its prevalence here is almost insignificant compared with the number of cases reported in the United States and that is probably considerable below the actual number, because the disease is of such a mild type that in a good many instances the health authorities are never notified.

The present outbreak of smallpox is directly traceable to the United States.

Four or five years ago the mild type of the disease now so prevalent made its appearance in the southern states. Nothing definite as to its origin can be ascertained. It has since then been gradually working northward. Its mild character has been the means of its spreading despite the efforts of the well organized health departments of even such old states as Pennsylvania. In regard to virulent smallpox people are careful. Those suffering from it are so sick that they must have a doctor, and the well people take good care that all quarantine regulations are carried out, but things are altogether different with regard to the present type.

While the present type has not proved dangerous, it interferes with trade and is otherwise annoying and for that reason Dr. Montizambert thinks general vaccination throughout Canada would be the proper thing. He has absolute faith in the efficacy of vaccination.

MONTREAL, Oct. 10.—In a fire which occurred in a small house on St. Germain street to-night, three boys, aged 6 and 4 years and ten months, named Chapleau, was burned to death. The children were alone in the house, the parents being out and a lamp exploded, setting fire to the house. The children burned before they could be rescued.

ST. JEROME, N.B., Oct. 10.—The Russian warlike Pehr Brabe, Captain Westerland arrived last night, 31 days out from Caranvon for Miramichi, N. B., short of food and water. Captain Westerland reports that he encountered rough weather and was driven north until forced among the ice floes and in great danger of found-

The ship was badly battered and it is likely that she will again attempt to reach Miramichi, owing to the lateness of the season. Probably she will proceed for some southern part of the United States.

OTTAWA, Oct. 10.—The following census statistics for New Brunswick are compared with 1891 census:

	1891.	1901.
Restigouche county.....	8,308	10,588
Daibouise, parish.....	2,532	2,183
Gloucester county.....	24,977	27,936
Bathurst, parish.....	4,815	4,913
Northumberland county.....	25,713	28,713
Newcastle, parish.....	4,096	4,130
Rogersville, parish.....	1,379	1,797
Keut County.....	23,845	23,958
Harcourt.....	1,309	1,104
Westmorland county.....	41,477	42,059
Moncton, city.....	9,762	9,026

PORTLAND, Oct. 10.—George H. Brainerd, the convicted murderer of Isaiah H. Farham, of Wellesley, Mass., was taken to the state prison at Thomaston today to serve a sentence of life imprisonment. It was intended to take Brainerd to Thomaston yesterday, but the authorities were unable to send an officer here until today. Before leaving the jail Brainerd said good-bye to Sheriff Pearson and the officers. He seemed in a peaceful frame of mind and appeared to be little troubled by the curious gaze of those encountered while leaving the jail and boarding the train at the depot.

Two Montreal lawyers named Desrosiers and Lafortune had a lively scrap in the police court there Thursday.

Hon. Mr. Tarte issued an order Thursday to the heads of all branches in the department of public works, instructing them to notify the officers and employees to become vaccinated without delay.

Four more smallpox cases have developed in Ottawa and the medical health officer recommended that all schools be closed.

The Department of Militia, Ottawa, on Thursday, issued an order to troops for mobilization. This order leaves out several corps in whose district smallpox prevails. The regiments to be mobilized are: 1st Regiment of Artillery, 63rd, 66th, 78th and 94th Regiments, No. 1 Bearer Company and six companies of the 33rd Regiment, omitting Amherst and adjacent company. Detachment 8th Hussars will go to Halifax, Royal marines and tars from the warships. The total number on parade in Halifax will be about 3,000 in place of 5,000.

QUEBEC, Oct. 10.—Yesterday afternoon the engine of a gravel train and way freight, which left Quebec for Montreal yesterday morning, smashed into each other twelve miles east of Drummondville, on the Intercolonial Railway. Much damage was caused to rolling stock, but the train hands of both locomotives jumped and so escaped injury.

MONTREAL, Oct. 10.—H. M. Whitney and James Ross, of the Dominion Steel Co., left to-day for Sydney with Sir Christopher Furness, who, it is said, will look into the possibilities of steel shipbuilding at Sydney. Mr. Whitney said that if Sir Christopher did not take up the matter, it was only a matter of time when shipbuilding would be in progress there.

No Failures or Disappointments When Diamond Dyes are Used.

A Word About Diamond Dyes Mat and Rug Patterns.

Do you make up mats, rugs or carpets in your home? If so, you will readily admit that your success is largely due to the lovely and brilliant colors given to your materials by the use of Diamond Dyes. Users of Diamond Dyes know that they never suffer failures or disappointments in their work; they quickly and easily get the exact colors they require, and never waste time or money. If you are interested in the popular work of rug making, and cannot procure the "Diamond Dye Mat and Rug Patterns" from your local dealer, send your address at once to The Wells & Richardson Co., Limited, Montreal, and you will receive free of cost sheets of designs to select from.

LIKE THE MILLENIUM

After the tortures Mr. Norton passed through to have the absolute release from suffering that South American Rheumatic Cure afforded him—it relieves in six hours.

"For three weeks I lay in bed suffering most terribly and utterly helpless from Inflammatory Rheumatism," says Mr. E. H. Norton, of Grimsby, Ont. "When all that the doctors could do failed me, I was induced to try South American Rheumatic Cure. After taking one bottle I was not only able to leave my bed, but surprised my friends by walking down town. I think it a wonder."

CIRCUMSTANTIAL EVIDENCE.

Papa—Where's my umbrella? I'm sure I put it in the hall stand with the others last evening.

Willie—I guess Mabel's bean took it when he went home last night.

Mabel—Why, Willie! The ideal!

Willie—Well, when he was sayin' good night to you, I heard him say, "I'm going to steal just one."—Philadelphia Press.

Coal Bills

are now a serious item. Then why burn coals for the weekly wash? Some Soaps won't wash linen without boiling, but **SUNLIGHT SOAP** will. It's a wise economy to buy the best of all Soaps, when by doing so the quantity of coal used on washing day can be

Reduced 50 per cent.

Burning coal to help inferior and low-priced Soaps to wash is like spending a 5 cent tram fare to purchase a 10 cent article for 9 cents.

By using

SUNLIGHT SOAP you save its cost in the cost of the coals unused, not to mention the longer life of the articles washed. A tablet of

Sunlight Soap

will do more work **without coals**, and do it infinitely better, than two tablets of common, cheap soap will do with coals. The majority of the public soon find out the lines of true economy. That's why **SUNLIGHT SOAP** is asked for by three people to one asking for any other soap in the world.

W. C. T. U. COLUMN.

"And let us not be weary in well-doing for in due season we shall reap if we faint not."—Galatians 6: 9.

YOUNG PEOPLE'S SOCIETIES AND THE TEMPERANCE CAUSE.

BY MRS. CORA E SEBERRY.

It is because of the cry of humanity on every hand, affecting the deepest and tenderest sentiments of our nature, that we answer the question, Why are the Women's Christian Temperance Unions trying to induce the young people's societies of the land to acknowledge and accept the responsibility of temperance work, when they already have so much on hand to accomplish in the social, religious and political world?

We answer, Because the best interests of the three great spheres mentioned are implied in the destruction of the liquor traffic.

We consider the temperance question to be the vital issue of the hour, far transcending in importance any subject that relates merely to man's material gain. This comprehends not only his moral and physical well-being in life, but the eternal welfare of his soul; and we rate any conservatism on the subject, as criminal neglect of the best and highest interests of present and future generations. We would not disdain those topics which agitate the nation. It is because we are interested in all the great problems before the American people, that we are working for clear heads and clean hearts to aid in their solution. We are studying the question of protection in another light than that ordinarily thrown upon it. We are interested in a currency of thought and action which is based on intrinsic values of soul and body; and we believe with one of our writers, that "Prohibition of the liquor traffic" stands for the protection of the women, of the boys, and of the homes of this country. It stands for the free coinage of golden womanhood and silver manhood at a ratio of equality, into the highest standard of American citizenship.

The moral trend of humanity is of paramount importance. It is that upon which the perpetuity of a nation is founded, and while under the protection of state and nation, the liquor traffic erects its citadels for the destruction of morality upon the most conspicuous corners of the highways, consuming sixty thousand souls and twelve hundred millions of money every year in this country alone. While we have to wrestle with government officials to the end that the children of our land may be instructed regarding the destructive effects of alcohol on the human system, while our pulpits are comparatively silent—not all of them, thank God—on the question of licensing this deadly foe to humanity, while our church officials and voters vent their energy on this line in resolutions, the practical effectiveness of which is best illustrated by the scarecrow in the farmer's field, while our great political parties are dominated and controlled by the rum power and its money, is it any wonder that we exclaim, "Judgment is turned away backward, and justice standeth afar off, for truth is fallen in the streets and equity cannot enter?"

To whom, then, shall we "cry aloud and spare not?" To the young, surely, in words of warning, for we remember their youth and inexperience; in appeals for help, for we appreciate their innocence and enthusiasm; in accents of hope, for we look to them in their enlightened purity to redeem the mistakes and folly of the past as a nation; we look to them to
