DETROIT, Mich., Nov. 27.—From 100 to 150 persons were killed or injured to-night in the wreck. Two heavily loaded passenger trains on the Wabash Railroad collided head-on at full speed one mile east of Seneca, the second station west of Aldrian. The westbound train of two cars loaded with immigrants and five other coaches, were smashed and burned, with the result of a awful loss of life and fearful injuries to a majority of its passengers. The eastbound train, the continental limited, suffered in scarcely less degree. The track in the vicinity of the wreck is strewn with dead and dying. Many physicians from Detroit have gone to the scene.

The Continental Limited, is believed, disobeyed orders in not waiting at Seneca for the immigrant train, thereby causing the wreck.

The track at the point where the collision occurred was straight and at first the officials could not understand how the accident could have happened.

The essential lung healing principle of the pine tree has finally been successfully separated and refined into a perfect cough medicine—Dr. Wood's Norway Pine Syrup. Sold by all dealers on a guarantee of satisfaction. Price 25 cents.

St. John's, Nfld., Nov. 27.—As a result of yesterday's gale the schooner *Marinus* is ashore and will be a total wreck. Her crew were saved. The schooner was driven aground. She lost part of her keel, but was refloated. The schooner *Active* foundered, her crew reached shore after great difficulty. The *Lilydale* is missing and as she carried 19 passengers besides her crew of six, great anxiety is felt concerning her.

The number of ladies who buy Magnetic Dyes all over Canada surprises even ourselves,—of course they give splendid results.

CLINTON, Mass., Nov. 23.—The four-year-old son of Mr. and Mrs. Chas. E. Fraser, died late this afternoon as the result of eating tablets which had been prescribed for his mother by a physician. Mrs. Fraser had put the tablets away in an upper chamber, but the child came across them and ate several dozen of them. The tablets contained strychnine and belladonna.

OTTAWA, Nov. 27.—The Canadian banking return for October is pleasant reading for Canadian financial and business men. It shows an immense gain in business over the same month last year. The combined circulation of the Canadian chartered banks has grown in the 12 months by \$4,756,000. The current loans and discounts in Canada are larger by \$13,000,000. The loans and discounts outside Canada grow by \$9,000,000. Fifteen millions more have been let out on stock in the states and \$6,000,000 in Canada. The deposits amounted to \$322,322,000, as against \$290,151,000 for the same month last year.

XMAS-BOX PUZZLE.

My first is in Doctor, but not in Nurse;
My second in Writing, but not in Verse;
My third is in Good, but not in Bad;
My fourth is in Sister, but not in Lad;
My fifth is in River, and also in Brook,
My whole is in Beast if you sharply look.

It is also the "trade" name of a celebrated article of the breakfast and supper table.

Correct answers to the above, accompanied by (1) The two direction cards found in each package of the article. (2) The name of this paper, and (3) by the name and full address of sender, will be rewarded by a handsome and useful Xmas Box mailed to sender's address. Answers must be mailed not later than Dec. 15, to

DEAD LOVE.

Two loves had I. Now both are dead,
And both are marked by tombstones white.
The one stands in the churchyard near,
The other hid from mortal sight.
The name on one all men may read
And learn who lies beneath the stone;
The other name is written where
No eyes can read it but my own.
On one I plant a living flower
And cherish it with loving hands;
I shun the single withered leaf
That tells me where the other stands.
To that white tombstone on the hill
In summer days I often go;
From this white stone that nearer lies
I turn me with unuttered woe.
O God, I pray, if love must die
And make no more of life a part,
Let witness be where all can see
And not within a living heart!

—Mary Matthews Adams

WAYS OF THE NIGHT HAWK.

The Habits of This Bird Are Strangely Belied by Its Name.

The night hawk is a bird often seen and yet a bird of which little is commonly known. Its name would lead one to think that it is a night bird, but this is wrong, as it does not roam about during the night at all. Like the familiar song birds of the woods, it rests at night. It received its name on account of its habit of appearing only during the later afternoon or on cloudy days. A proper name for this bird would be a "twilight bird," as it cannot be said to belong either to night or day.

If you have ever lived on a farm, you will recall hearing on some still, hot evening a whirring, long drawn out note high above your head, and on looking up you will remember how surprised you were to behold a small bird with big wings falling straight toward the earth, and then how much more surprised you were when the bird suddenly turned in a graceful upward curve and went straight back again into the darkness above. That was the night hawk on a hunt for its supper. After that first meeting you will remember how familiar it grew to you and yet how little you ever learned of its habits of living.

These birds winter just south of the United States. They arrive in Indiana with the heading of the oat and wheat fields and stay until September. Sometimes they summer as far north as the Hudson bay and winter as far south as Brazil. They travel from one place to another, as a rule in scattering flocks. To see these birds traveling is a sight not soon forgotten. They will follow a river or stream for miles and seem to use these natural highways as their guide from one home to another.

A hunt for the nest of this bird is a hopeless task in some localities of our state, as they do not always breed. They live in the field, and it is there you may expect to find the nest if one is to be found. It will be built on the ground, and there will not be a straw or stick or cord in the home. It will be just a hole in the ground, for this bird is, above all things, lazy, and if there is any material other than the bare earth near the home it will be because the wind blew it there or because it grew there. You will find two eggs of a dirty color in the nest, providing some snake or gopher has not made away with them. Exposed as these eggs are, it is a wonder the bird does not disappear from the face of the earth. Nearly every animal that lives eats eggs.

The night hawk lives almost entirely on bugs, bees and insects. They are so swift in their action that they have little difficulty in securing a square meal every hour they hunt. They are so marked that they can easily secure their prey. They are dark—just a twilight color—underneath, and the real distance they are from you is a matter of doubt. They have a wishbone shaped white mark on the throat by which they can always be known.

The noise made by this bird when descending is caused by its wings in contact with the air. Its throat cry is a squeak and unpleasant to the ear. The bird is very attractive when it flies about in the air, as its curvings are so smooth and graceful as if they had been planned and rehearsed for weeks. Such perfect control does it have over its power of flight that it can drop toward the ground with lightning rapidity and when scarcely two feet above the surface reverse its action and sail again in graceful circles toward the sky.

His Own Names.

If you think a foreigner's ways are queer, ask yourself whether their seeming queerness may not be due mostly to your want of familiarity with them.

"You have such strange names for your towns over here," said a titled English importation to one of his new American friends; "Weehawken, Hoboken, Poughkeepsie and ever so many others, don't you know?"

"I suppose they do sound queer to English ears," said the American thoughtfully. "Do you live in London all the time?"

"Oh, no," said the unsuspecting Briton. "I spend part of my time at Chipping Norton, and then I've a place at Pockstogg-on-the-Eike."

Both Willing.

"He said he'd rather go to jail than pay his divorced wife alimony."

"Did she let him go?"

"Yes; she said she'd rather see him save his money behind the bars than spend it over them."

Like and Unlike.

Brown—Whenever a woman becomes unreasonable, it's attributed to her nerves. Isn't that singular?

Towse—Yes, but the unreasonable of a man is attributed to his nerve, and that's still more singular.—Exchange.

The Favorite.

McCort—You know something about horse racing. What is meant by "the favorite?"

Sport—A favorite is a horse that would surely win if people only wouldn't bet on him.

His Favorite.

"What is your favorite play?" asked the child.

"Originally," answered Mr. Stormington Barnes, "it is 'Hamlet,' but when I used the money it is 'Uncle Tom's Cabin.'"

The oldest existing church in New Hampshire is the Congregational in Hampton, which was organized in August, 1638. Other societies were formed in Dover and Exeter, in the same state, that in the same year.

ARE YOU DEAF? ANY HEAD NOISES?

DEAFNESS OR HARD HEARING ARE NOW CURABLE

by our new invention. Only those born deaf are incurable.

HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, SAYS:

Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.

About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely.

I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain very truly yours,

F. A. WERMAN, 750 S. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation.

Examination and advice free. **YOU CAN CURE YOURSELF AT HOME** at a nominal cost.

DOMINION NEWS.

BRANTFORD, Ont., Nov. 28.—The Burgess Acetylene Gas Works here were partly destroyed by fire to-day. Some of the street mains were opened and let the gas escape. A serious explosion was thus averted. The loss is heavy; uninsured.

MONTREAL, Nov. 28.—News reached here to-day from Gilmour and Houston's lumber camp at Bark Lake, on the Gatineau, of the awful death of a lumberman named Edward Connor, 18 years of age. Connor came into camp as usual on Tuesday evening, leaving his axe standing by the stump of the last tree he had felled. During the course of the evening he came to the conclusion that the axe required grinding, and accompanied by another man set out to fetch it. A short distance from the spot where Connor had left the axe his companion concluded not to go any further, agreeing to wait until Connor returned. The latter had been gone but a short time when the companion heard the howling of wolves. In dismay he at once started on the run for the camp, forgetting all about Connor. When he reached the camp, some distance off, a number of men started out to look for Connor. They were too late. A lot of boxes scattered around, rags which had once formed his clothing and his boots were all that remained of the young man.

OTTAWA, Nov. 28.—A large sum of money, amounting to about \$300,000,000, is waiting the Baker family, who live near South Finch, in the county of Stormont, about 40 miles from Ottawa, providing they can prove themselves to be the lawful heirs. The money was left by the late Colonel Baker, of Philadelphia, who died about thirty years ago. The facts of the case were told to a reporter by Mrs. Hiram Rutley, nee Baker, who is looking after the case as one of the heirs. Mrs. Rutley, on being asked about the matter, said: "The late Colonel J. Baker, who served in the American army for a number of years, was my father's great uncle. He was never married, and accumulated a large amount of land. About 70 years ago he leased 12 square miles of his land to the state of Pennsylvania for 99 years. He also loaned the state the lease money for the same term of years. The state built the city of Philadelphia on the estate and also opened up some mines near Pittsburg. Colonel Baker died about 30 years ago. In Toronto I met Mrs. Thos. Baker, who told me she had just returned from Philadelphia, where she had been with a lawyer looking after the estate. She has called a meeting of all the heirs to be held in Toronto on Saturday.

Mrs. Rutley left for Toronto this morning.

OTTAWA, Nov. 29.—In the supreme court Wednesday the last case on the list of maritime provinces appeals was taken up—the King vs. Likely. Respondent recovered \$17,000 in the exchequer court for damages caused by the expropriation of part of his timber pond adjoining the harbor of St. John for public use. The government had offered \$11,410, but it is now claimed on this appeal that the amount awarded for damages, and even that offered, is excessive, and that one-tenth of the award would be sufficient indemnity to the owner. McAlpine, K. C., for respondent. Judgment was reserved.

OTTAWA, Nov. 29.—The city was inexpressibly shocked this morning to learn of the accidental death of one of its foremost citizens, John W. McRae. Mr. McRae was engaged in cleaning a Mauser rifle about 10 15 a. m. and was not aware that there was a charge in the barrel. He was just inserting the cleaner when the weapon discharged. The bullet struck Mr. McRae under the chin and came out at the base of the brain. Death was instantaneous. He was for many years president of the Ottawa Electric Co., and director of the Electric Railway Co. He served in the city council for many years.

OTTAWA, Nov. 29.—Premier Roblin, of Manitoba, accompanied by three members of his cabinet, arrived to-day to complete negotiations for the province taking over control of the Canadian Northern railway. The premier said there was absolutely no doubt that the contract and mortgage assured government control of rates and he believed the government would be in a position to present the people of Manitoba with a New Year's gift in the shape of reduced freight rates.

In regard to the privy council's judgment on the prohibitory law, he said the matter had not yet been considered by the government. There was no need of a special session to consider it. He praised the work of the dominion immigration agents during the past year. They had brought into Manitoba and the northwest a splendid class of settlers from the middle and southern states, who would be of great assistance in building up the country.

Nervous and Sleepless.

Two horrors crowded into one life, the product of poor digestion, and the poisons that are thereby formed within the body. There's just one method of care for this terrible condition—plenty of food, but mind, food properly digested. That's the difficulty—the digestive power of the stomach must be improved. Rich, red blood formed, strength given to the organs to drive out poisons, then comes strength, vigor and endurance. Ferrozone does all this and more; it makes sick people well; weak people strong. Suv Ferrozone and you reap health. Sold by R. O'Leary, General Merchant, Richibucto.

A DARING AUTHOR.

"Do you mean to say that the scene of your play is laid in the infernal regions?"

"Yes," said the persistent young man with the manuscript. "I asked the manager where he thought I ought to go for a plot, and I am following his advice."—Washington Star.
