

**The Only Liniment**

Equally good for internal and external use. JOHNSON'S Anodyne Liniment. It is the oldest, safest and most reliable liniment on earth. It is made of pure vegetable ingredients. It is the first thing needed in all the accidents of life. After a bicycle ride or exercise of any kind, briskly rubbing the muscles with JOHNSON'S Anodyne Liniment will double the value of the exercise. It should be kept on hand for prompt treatment of colic, cramps, diarrhoea, cholera, morbus, bites, bruises, burns, stings, chafing, chilblains, colds, croup, catarrh, bronchitis, is grippe, lameness, muscle soreness, and pain and inflammation in any part of the body. In two size bottles, 25 cents and 50 cents. I. S. JOHNSON & CO., 20 Custom House St., Boston, Mass.

**KOUCHIBOUGUAC NOTES.**

Miss Nettie Wood returned on Thursday from Boston where she has spent the winter.

Mrs. James Tweedie visited Richibucto on Thursday.

Mr. and Mrs. Richard O'Leary, of Richibucto, passed through Kouchibouguac one day last week on their way to Chatham.

Miss Louise Murray and Mr. John Irving, of Buectouche, went to Red Bank on Saturday.

Miss Susie Tweedie returned last week from Richibucto.

Mr. Willie Weldon, of Chatham, visited Kouchibouguac last week.

Jardine's tug boat came up the river on Thursday for rafts. This is the first trip this spring.

Mr. Johnston, the catechist for Kouchibouguac this summer, preached last Sunday.

Mrs. Jean Robertson, of Bay du Vin, is visiting friends here.

Mr. Thomas McMaster drove through from Bay du Vin last week.

**REXTON NOTES.**

The merchants of the place have at last followed the example of Richibucto merchants in closing their stores at 6 p. m., on Tuesday and Friday of each week.

J. D. Palmer, representing G. L. Barbour & Co., of St. John, paid his regular monthly business visit here on Tuesday of last week.

H. A. McDonald of McDonald & Son, tailors of Blackville, was in town on Monday last and got a goodly number of orders for summer suits. Mr. McDonald has a large number of customers here whom he generally succeeds in pleasing, and who can testify to the good work he sends out from his establishment.

A game of baseball has been arranged for the 24th between the Chatham ball team and the local team. A good game is looked for.

The family of Mr. Bird, watchmaker, arrived here on Saturday last, and are occupying the house, commonly known as the Nathaniel Hutchinson house.

**NOTRE DAME.**

May 11. The grip has appeared in this place and has claimed many victims, some escaping with a few poultices and a little panacea, but many requiring the attention of a skilled physician.

Arthur Johnston and James Robinson are recovering from a severe attack of pneumonia.

For a few days Mr. Johnston's condition was critical, but thanks to the skill and experience of Dr. Bourque, and the careful nursing of his mother and sister, Lillie, he is steadily improving and is now considered out of danger.

Charles E. Lockhart had the good fortune to hook a large string of shining trout a few days ago, the first caught in the river this season.

If the fish were not gifted with a large amount of instinct, which leads them to beware of the tempting morsel on the barbed hook, they would soon become extinct as they are much sought after. Even on the Sabbath it might be possible to see a pole suspended over the sparkling water, glistening in the sun and looking like an innocent plaything, but on the end of the line the deadly hook, beneath the tempting bait, a veritable wolf in sheep's clothing and woe to the fish whose appetite gets the better of its instinct; it will help to fill a fisherman's basket.

Miss Miranda Briggs, of Little River, paid a flying visit to this place Friday, arriving by train in the morning and departing in the evening.

James Teed and his family arrived here a few days ago from Salem, Mass., and have taken up their residence here.

Robert Johnston, his wife and family, and Hartley Johnston are visiting their parents, Mr. and Mrs. James Johnston.

Mrs. Marston, who has been spending a few weeks with her mother, Mrs. Grady, left this morning for her home in Boston.

Notre Dame has a case of so-called kidnapping. It appears that the mother of the child in question who lives in Moncton, gave it to a family in Notre Dame. The mother recently got married and on Tuesday afternoon the stepfather of child drove to Notre Dame and took the child from in front of a neighbor's house and brought it to Moncton. Talk of a law suit to compel the return of the child to its foster parent is in the air.

**ST. ANNE.**

Mr. E. Cormier, our popular merchant, will act as agent for R. C. Tait, Shediac, this summer. He will sell all kinds of machinery including harness, buggies and farming implements, he and will always have on hand a large stock at his store here.

Several parties here intent patronizing the play "Because I love you," in Buectouche the 23rd.

It is expected that work will commence shortly on Chockpish breakwater. Although the amount of money granted is not as large as was expected still a half a loaf is better than no bread and \$2,000 will no doubt give it a good start.

Mr. James Irving has purchased a pair of working cattle from Mrs. William Babineau.

Mr. Simon Richard has purchased a new buggy from Mr. Edward Hannah.

Mr. Alexander Maillet has also purchased a buggy.

Mr. and Mrs. Levis Sawyer were the guests of Mr. and Mrs. Daniel Blanchard last Sunday.

Miss Maggie Cadagan is expected home.

Miss Maggie Grattan was visiting her parents on Sunday.

Miss Elizabeth Babineau is away keeping house for the Rev. Father Archiveque of Cocagne.

**WHY CROUP IS FATAL**

When croup attacks your child you must be ready for it. It comes as an accompaniment to an ordinary cough, or it may attack without warning. All hills of children develop quickly, and when any kind of cough appears there should be something at hand to stop it with promptness. Many a child has choked to death with croup because the right remedy was not convenient. Everyone should know that the right safeguard for a child's cough or any cough is Adamson's Botanic Cough Balsam. With this soothing compound in the house, croup is always easily checked and relieved.

To give a child a "cough mixture" containing a narcotic is a very serious matter, yet most preparations contain something of this kind. Adamson's Botanic Balsam is prepared from the purest extracts of barks and roots and gums of trees, and is health-giving in every component part of it. Wherever it touches an inflamed surface, it heals and soothes it. Nothing ever compounded for cough is so harmless, and nothing so efficacious. Adamson's Balsam is an old remedy and it has never lost a friend through failure to help. Keep it in the house. Try it on your own cough and do your child a good turn by being ready for any emergency. Price 25c. at any druggist's.

The first Bible printed in America was sold the other day in New York at auction for \$2,025.

Eureka, sweet content at last, several French physicians have perfected a plan of steeping tobacco leaves so that all injurious effects of its use are destroyed while still retaining flavor and taste.

More up-to-date methods are to be employed in the St. John Public Hospital. This is the outcome of the investigation of early spring.

**A Blind Man's Perception.** One of the priests of St. Francis Xavier's church devotes himself to work among the blind and the deaf and dumb. He says that, contrary to the general impression, the blind are peculiarly happy and fond of jokes. Illustrative of this, not long since a blind acquaintance of his whose remaining senses, like that of all blind, are exceptionally keen, was in a room where were some lady visitors. Finally one of the ladies left. "What remarkably white and perfect teeth that lady has!" laughingly remarked the blind man. "Why, how do you know?" asked Father Stadelman. "Because for the last half hour she has done nothing but laugh!"

**Leaves Used For Paper.** Leaves of trees were used for writing purposes very early by the Egyptians and probably by the Greeks. The Hindus continued the use of this material until within a few centuries. Even at the present time books of leaves are not uncommon in the south of India and the island of Ceylon. The leaves of some Asiatic trees, from their size and smoothness, are admirably adapted for books. If we may judge from the name "leaf" being still applied to the paper of books, we should imagine these leaves to have been formerly the principal material in use.

**Umbrella Inconsistencies.** "There's something remarkable about this umbrella," said Jawleigh, exhibiting the antique handle. "I suppose," remarked his friend, "you refer to the fact that while your name is John Anderson Jawleigh the monogram is F. L. T.?" Nothing peculiar about that at all, sir."

**Declining.** The Friend—is the editor enjoying good health? The Poet (sadly)—No; from what I've seen of him he has been declining for the last five years.

**FOR BAD BLOOD.** Blotched, sallow, unwholesome and muddy skin with its consequent mortification, often leading to morbid seclusion, shows that your blood is bad. The only way to clear the complexion and restore it to its normal healthy condition is to clean out the entire system by removing the cause of impure blood. "Herbine Bitters does it", working gently and painlessly and at the same time acting as a tonic to the whole system, building it up, not weakening and irritating it as other medicines do.
