THE TIME TO CUT HAY.

By F. W. HODSON, DOMINION COMMISSIONER.

The aim of our farmers in growing forage crops is to produce from a given area as large a quantity as possible of the digestible nutrients in a palatable form. The time at which a forage crop is harvested may effect a crop in three ways, viz.—in the quantity of material harvested—in the composition of the crop, and in the palatability of the fodder. As a general rule it has been found that the greatest amount of dry matter is secured where forage crops are allowed to fully mature and ripen. The only exception is in the case of clovers and other legumes, where the leaves rattle off and are lost, either before or during the process of curing.

It does not follow that when a plant increases in its yield of dry matter that its nutritive value has proportionately increased. It is quite possible that changes in texture and composition of the dry substance may offset the greater yield. The dry matter of mature grass contains a larger proportion of crude fibre than the immature. The plant hardens in texture and loses, in both palatability and digestibility. It is, therefore, usually advisable to begin cutting hay early, and where there is a large crop to be gathered work should begin early in order that it be completed before the grass seeds are ripe enough to shell from the heads of the late cut grass. Chemical analysis has shown that plants are richer in protein in the earlier stages of growth than when fully grown or nearly mature. The chief with which our feeders have to contend, is the lack of protein in the rations made up of our common feeding stuffs, and they should recognize the fact that by cutting early, they can get two crops of highly nitrogenous fodder, where they only get one by late cutting. Cutting the first crop even before the heads are fully grown will tend to cause a vigorous new growth and in this way a good crop of rowan is secured.

The two crops are more valuable, especially for feeding dairy cows, than one mature crop on account of the increased proportion of protein. The early cut hay seems more palatable to stock, and weight for weight, more satisfactory. On the other hand by late cutting we secure a considerably larger quantity of carbohydrates, which are valuable for feeding, and of crude fibre which is of low feeding value.

For the Dairy cows and sheep, grass should be cut early, since these animals do not relish hay that is woody and lacking in aroma, as is the case with late cut hay. For horses and fattening cattle late cutting is allowable, as these animals subsist mostly on concentrated feed, and hay serves more for "filling," as horsemen say. In tests made by Professors Sanborn and Henry in fattening steers with early and late cut hay, it was found that late cut hay gave the best results. If cutting is delayed too long the stems of the grass become tough and stringy and the seeds scatter from the heads. Such hay has little aroma and lacks palatability if not nutrients. Though an indefinite quantity, the aroma of grass has real value in rendering hay more palatable. When the sun dissipates the dew from the drying grass in the meadow, we detect the escaping aroma, because the dew is rising, carries some of it into the air. This is one reason why hay should not remain scattered over the field at night. Green colored, sweet smelling hay is really the best and prudent farmers will not over-

BIG DISCOUNTS, SPECIAL PRICES.

There is no time like the present to buy Dry Goods at LOGGIE'S.

The prices of our Dry Goods are always very low, but for one month we are going to make them a good deal lower. During the present month of July our customers will get the benefit of a good liberal discount, something that will pay them to come and see us if they need Dry Goods.

Come and see our big stock of Cloth for men's Suits and Trousers.

Come and see our ready-made Clothing, Shirts, Underwear, Hats, Caps, Collars, Neckties, Suspenders and Hose.

See our Dress Goods, Lawns, Piques, Satens and Prints, and compare our prices with others, and note the saving by buying here. We have a large stock and our prices are positively the lowest.

During the summer months our store will close every Tuesday and Friday at six o'clock.

A. & R. LOGGIE

look such seemingly small points as preserving the aroma and preventing bleaching.

The Story of Morning Tiredness.

Is told by impure blood, poor digestion, sluggish liver and tired nerves. It is a warning of very serious trouble ahead, and should prompt sensible people to take a bracing tonic like Ferrozone, an energetic invigorant and re-builder. Ferrozone will give you a sharp appetite, promote good digestion and sound sleep; it will feed and energize the enfeebled organs, strengthen the nerve and vital forces and regulate the heart. Ferrozone changes the tired feeling into vigor, strength and ambition, and does it quickly. Remember the name, and insist on having only FERROZONE; it's the best tonic made. Price 50c. per box, or six boxes for \$2.50, at Druggists, or N. C. Polson & Co., Kingston, Ont. Sold by R. O'Leary.

HAMILTON'S PILLS CURE CONSTIPATION.

RHODES REMEMBERED CANADA.

DOMINION STUDENTS NOT BARRED OUT IN RE THE SCHOLARSHIPS.

Dr. H. S. Bridges, principal of the High School and local superintendent of schools, St. John has received a letter from his friend, Dr. George R. Parkin, principal of Upper Canada College, Toronto, in answer to a query regarding the scholarships bequeathed by Mr. Cecil Rhodes.

It was asked how Canada stood in the matter: if the Dominion was to get a share of the South African millionaire's generosity.

Dr. Parkin's letter states he (Dr. Parkin) called upon Lord Grey, one of the Rhodes scholarships trustees, and his lordship said Canada stood in relatively the same position as the United States as regards the scholarships.

As each state in the American union is to receive two scholarships, it is inferred from Lord Grey's assurance that each province in Canada will be dealt with as generously.

This settles a long standing doubt in the minds of many hundreds interested. It was thought hardly possible the "Empire maker" would have passed over the great North American colony and donated so much free education in the United States.

The Rhodes scholarships amount to £300 yearly for three years, the students to study at Oxford University in England.

The scholarships will no doubt be awarded on the results of competitive examinations. There are several New Brunswickers engaged in educational work to-day who were educated in England through the Gilchrist scholarship of years ago.

To MAKE MONEY it is necessary to have a clear, bright brain, a cool head free from pain, and strong, vigorous nerves. Milburn's Heart and Nerve Pills invigorate and brighten the brain, strengthen the nerves, and remove all heart, nerve and brain troubles.

WIFE MURDER ALLEGED.

POISON USED TO CAUSE DEATH.

COLBORNE, Ont., July 12.—Isaac Lambert is under arrest here, charged with the murder of his wife. Lambert lived with his wife and three children at Hilton, North Cumberland county. Some time ago his wife died under circumstances which aroused the suspicions of the neighbors. The provincial authorities, being notified, sent Detective Greer to investigate. The body was exhumed and an autopsy held. Analysis of the stomach showed that death resulted from Paris green poisoning. The eldest child states that the day previous to his mother's death his father had quarrelled with his wife and threatened to kill her. A relative was present at the time, and, according to the child's story, this man pried the mother's mouth open with a knife while the father poured Paris green down her throat. The prisoner maintains a stolid indifference and refuses to make a statement.

HARD, RACKING COUGHS.

Barring accidents, the person who gets along with the least amount of cough will live the longest. Of course, the right time to attack a cough is at the commencement, when it is a simple thing for the right treatment to drive the cough quickly away. As a general thing, however, people spend so much time experimenting with various remedies that the cough is well under way before they know it. Then comes the long siege. You feel the hard, racking all through your system, and get relief from nothing. You fill your stomach with nauseating mixtures to no purpose. Then you use compounds containing narcotic, which deceived temporarily, and leave you slightly worse. Some coughs of this kind hang on for weeks or even months, and, of course, they frequently develop into serious lung troubles. A true specific for all coughs is Adamson's Botanic Cough Balsam, and it should be kept in the house against any emergency. With a cough that has become chronic the first effect of this remedy is a lessening of the dull sensation of pain which usually is felt with such a cough. Then you are conscious that the soreness is leaving you, and presently the desire to cough grows less frequent. All this process is brought about by the healing properties of the Balsam. It is a compound of barks and gums. You can test it. 25 cents at any druggist's. Get the genuine with "F. W. Kinsman & Co." blown in the bottle.

ARRIVE AT QUEBEC.

CORONATION CONTINGENT AGAIN IN CANADA.

QUEBEC, July 12.—S. S. Tunisian, with the returning Coronation contingent on board, entered port at 7 a. m., mooring at the wharf shortly before 8.

About 150 returning South African invalids from England were also on board.

Miss Jones' Voice Greatly Improved.

A startling improvement is noticed in Miss Jones' singing. Her voice is stronger, and sounds clearer and sweeter than before using Catarrhazone, which is a wonderful aid to singers, speakers and ministers. CATARRHAZONE INHALER insures absolute freedom from Colds, Coughs and Catarrh, clears the nose and throat, and prevents hoarseness and huskiness. Catarrhazone makes the voice brilliant and enduring, and is uncommonly well recommended by Prima Donnas, members of Parliament, Lawyers, Doctors and thousands that use it daily. Better try Catarrhazone. Price \$1.00; trial size 25c. Druggists, or N. C. Polson & Co., Kingston, Ont. Sold by R. O'Leary.

HAMILTON'S PILLS CURE CONSTIPATION.

MOORE-SMITH.

A quiet wedding took place at the home of Mr. R. Barry Smith at 12 o'clock yesterday when his youngest daughter, Miss Dorothea B., was married to Mr. R. Wilson Moore, of Port Elgin. The ceremony was performed by the Rev. D. Hutchinson in the presence of the immediate friends of the contracting parties. The bride's dress was blue silk poplin with chiffon trimmings and she carried a showery bouquet of white sweet peas and maiden hair ferns. The young couple left on the C. P. R. for their future home in Port Elgin.

FEAR OF THE FUTURE.

Most people who dread the future are victims of some terrible disease. Mrs. W. Francis, 204 Colborne St., Kingston, was in a bad state with kidney disease. She had severe pains in back and legs, was gradually losing flesh and felt a dread of the future. A friend recommended Dr. Chase's Kidney-Liver Pills and the result was a complete cure. There is no medicine more reliable, none so certain to produce a thorough cure. One pill a dose, 25 cents a box.

SALE OF INVENTIONS.

On March 18th, 1902, for a consideration of \$3,000, B. Beskow assigned to E. Lundgren, New York City, N. Y., the entire right, title and interest in and to his patent, serial No. 91,711, for improvements in Apparatus for Teaching Gun practice.

John C. Bowers and Edward Doré assigned to the X Ray Mfg. Co. of Illinois, under date of March 31, 1902, for a consideration of \$4,000, their entire right, title and interest in and to their patent No. 682,023 for improvements in Egg Testers.

On April 14, 1902, an assignment was recorded in which G. H. Gunn grants to H. O. Benedict, of Salt Lake City, Utah, the exclusive right to make use and vend his invention of Wagon Brake, No. 696,170 in the States of Wyoming, Idaho and Nevada, in consideration of \$8,500.

In consideration of \$15,500, the Gomer Manufacturing Co assigned to Jas. E. Gomer, of New York, N. Y., all the right, title and interest in Patent No. 634,823 embodying improvements in Bicycle Frames. Assignment recorded April 5, 1902.

BOER STATISTICS.

SEVENTY-FIVE THOUSAND MEN WERE IN FIELD—THE BASUTOS' ATTITUDE.

PRETORIA, July 10.—According to an estimate of the Red Cross identity depot, which fulfilled the functions of a casualty bureau for the Boer forces, their total losses during the war were 3,700 men killed or died of wounds, and 32,000 made prisoners of war, of whom 700 died. The Boer forces in the field numbered about 75,000.

There is some uneasiness here regarding the attitude of the Basutos. In consequence of supposed treachery during the war, Joel, one of their prominent chiefs, has been summoned to Maseru, capital of a military district of Basutoland, to stand trial on the charge of land, to stand trial on the charge of Lerehodi, is likely to support Joel in the event of the latter's refusal to obey the summons. Troops have been despatched to the frontier.

Yellow will dye a splendid green by using Magnetic Dyes. 10 cents buys a package and the results are sure.

A large percentage of the striking freight handlers have voted to refuse the terms presented by the railroads and to continue the strike despite the official refusal of the Chicago Federation of labor to help them.

DIFFICULT PROBLEM IS POLITICS IN SOUTH AFRICA.

THE ATTITUDE OF THE AFRICANER BUND.

LONDON, July 14.—The political situation created by Mr. Chamberlain's despatch stating that the constitution of Cape Colony was not to be suspended and the summons to the Cape Parliament to meet on August 20 is an extremely difficult one, and evidently not realized by the English press, says the Cape Town correspondent of the Times. The personnel of Parliament is in a state of confusion, and it is not known whether some seats are vacant or not. The Progressive party is embarrassed. It has lost confidence in Sir John Sprigg, the premier, and his colleagues, and it would feel humiliated if it helped to register decisions reached with the aid of the Afrikaner Bund. The Bund leaders will doubtless counsel their followers to support Sprigg quietly on questions of indemnity and unauthorized expenditure in order the better to be at him on measures which touch their own ascendancy and on immigration and other measures affecting British interests. There was never any proof that Sir John had the progressive majority at his back.

The correspondent notes that while surrendered Boers have used generous language, no utterance favoring loyal reconciliation has been forthcoming from the Bund or Reformed Dutch.

BIG DEAL

IN CONNECTION WITH PULP ENTERPRISE.

VICTORIA, B. C. July 11.—Details were obtained to-day of an enormous deal recently made by the Tacoma Steel Company by which it obtains 150 square miles of timber limits at Quatsino Sound and will at once commence the construction of a big pulp mill. In addition to the timber the company gets two thousand horse power for mill on Marble Creeks, where there is a 75 feet fall. The deal will mean the expenditure of a million dollars, of which \$35,000 will be in connection with harnessing the water power and starting mills. Under the terms of the agreement the company starts work before September 15th, and the whole work must be completed and in operation before 1904.

COURT STAMPEDED.

JUDGE RAYMOND, ATTORNEYS AND WITNESSES MADE FOR DOORS AND WINDOWS.

ALTOONA, Pa., July 12.—While Alderman J. B. Raymond was trying an assault case between two clients this afternoon his court was unceremoniously invaded by two steers from a passing drove.

The steers had been trying to horn each other, and one made a break through the door of the office.

The other followed, and alderman, attorneys and witnesses left the office by the nearest way, using windows and doors to get out.

The steers went through the office to the lot in the rear, and Court was resumed after the excitement was over.

BURDOCK BLOOD BITTERS is a purely vegetable combination, that in a safe and natural manner acts directly upon the BOWELS, LIVER, KIDNEYS and BLOOD, cleansing the entire system of all impurities, foul humors and obstructions that poison the blood and create disease.

LATEST IDEAS IN MILLINERY.

The smartest hats are characterized by almost extreme simplicity in both shape and decoration. Cherries, berries and grapes are very effective when combined with chiffon or tulle in a harmonizing tint. White lace and chiffon hats are as popular as they have been for some time, but they are now broader and have the inevitable ends of lace or ribbon falling over at the back. Straw decorations are a feature this season, including bows, rosettes, flowers, foliage and cabochons. Outing hats, in the large round sailor shape, are perhaps the smartest. The distinctive color in millinery this season is emerald green. Hats of coarse linen canvas over stiff frames are among the fashionable, serviceable models.

MORE EARTHQUAKE SHOCKS.

ST. THOMAS, D. W. I., July 11.—Advices received from the Island of St. Vincent say that three earthquake shocks were experienced there on Tuesday within four hours.

Children Cry for CASTORIA.

A RAILWAY MAN.

Extraordinary Unpleasant Symptoms of Kidney Trouble in this Case.

Tortured by all kinds of Pains and Aches he Tried Everything, but failed to Find Relief Till a Friend Advised Him to Use Dodd's Kidney Pills—They Have Made a Well Man of Him and he is Grateful.

OTTAWA, Ont., July 14, (Special).—Frank Chartrand, a railway man, whose home is 130 Little Chaudiere Street, has acknowledged that Dodd's Kidney Pills have done more for him than anything else in the world has ever done. He says: "I suffered with backache and was always drowsy and had a very heavy feeling in my limbs.

"I had frequent severe headaches and more times very sharp pains in the top of my head, which gave me much annoyance in my work.

"My fingers would cramp and I would have an uneasiness in my legs and occasional pains in the loins.

"I was dizzy in spells and short of breath. If I ate a hearty meal I would have a pain in my left side. My appetite would sometimes be very good and sometimes I couldn't eat anything.

"I had a constant soreness and tenderness over the spine and tired feeling in the region of my kidneys.

"I suffered quite a little with a dragging heavy feeling across the loins.

"Dodd's Kidney Pills were recommended to me by a friend of mine who had been cured, and I began to use them.

"Almost from the start I began to feel the wonderful improvement, which continued as the treatment proceeded, till the unpleasant symptoms had one by one entirely disappeared.

"Dodd's Kidney Pills have worked a wonderful cure in my case and I cannot speak too highly of this great and good remedy."

What Dodd's Kidney Pills have done for Mr. Chartrand they have done for thousands of others, and they'll do the same for you if you give them a chance.

There are many railway men in Canada to-day who find Dodd's Kidney Pills indispensable. They are the railway man's surest and best friend.

The constant vibration on trains and engines is very hard on the kidneys, and Dodd's Kidney Pills make these organs well and able to resist disease.

A THREATENED LIBEL SUIT AGAINST A FREDERICTON PAPER.

FREDERICTON, July 10.—Acting on behalf of C. J. Milligan, of the St. John Telegraph, Mr. H. A. McKeown has written J. H. Crockett, of the Gleaner, demanding a full retraction and apology for publishing in the Gleaner a certain letter in relation to the Deaf and Dumb institution inquiry and signed "Sunlight on the Fog," claiming that the letter is libellous and requesting the name of the writer. Failing to comply with either request Mr. Crockett is threatened with a libel suit. Crockett has replied to McKeown refusing to comply with Mr. Milligan's demands.

A corporation composed of St. Louis and eastern capitalists has been organized to build a bridge over the Mississippi river, the erection of extensive terminals on the river front, an elevated road to the World's Fair site, and a new depot in the heart of the city. It is stated that the total investment in the terminals and elevated road aside from the cost of the bridge would reach \$10,000,000 at the outset with a possible expenditure of \$5,000,000 later on extensions.

There is no form of kidney trouble from a lackache down to Bright's disease, that DOAN'S KIDNEY PILLS will not relieve or cure.

If you are troubled with any kind of kidney complaint, use Doan's Kidney Pills.

ROWING AS AN EXERCISE FOR WOMEN.

Lovers of outdoor exercise will enjoy the fascinating article on rowing in the August Delineator, by Lucille Eaton Hill, director of physical training at Wellesley College. Miss Hill describes in detail the general principles of good oarsmanship as regards boats of various kinds and indicates the various rudiments to be mastered to acquire perfect form in rowing, and the faults to be avoided. The illustrations are unusually fine, being taken from Wellesley students in pair and eight-oar boats.
