- Tickets, Visiting Cards, Wedding Cards, Wedding
- Invitations, executed with neatness and despatch.

IT STRIKES THE HEART.

Not only is the victim of Rheumatism a constant sufferer, but he lives in continual dread that the disease will reach the heart, which means sudden and unexpected death. Rheumatism can only be cured when the uric acid is removed from the blood by the healthy action of the kidneys. Dr. Chase's Kidney-Liver Pills make the kidneys healthy and vigorous, and so gradually and thoroughly cure Rheumatism by removing the cause. One pill a dose, 25 cents a box.

On the occasion of the Ottawa-Hull fire two years ago, the town of Leamington, England, subscribed over \$160 for relief of the sufferers. The money was never remitted to Ottawa, and the Leamington authorities have just become aware of the fact. Mayor Cook, Ottawa, has been asked to accept a cheque, but as the fire relief fund was closed months ago, he has suggested that, with the consent of the original subscribers, the money be turned into the lord mayor's fund for the relief of the Martinique and St. Vincent sufferers. The total amount of subscriptions to the Canadian South African Memorial Association is now \$1,648.

Cuba is now a nation, 20th May is her natal day. It is believed that the Boer conference is split on the question of peace with independence.

One Nova Scotia schooner has secured 21,000 Mackerel by purse seine outside Halifax harbor in one morning last week, a fish retailed in Halifax at 25 cents.

Waldeck-Rousseau, has announced his resignation of the premiership of France, to take effect on June 1st. He has just carried his party successfully through a general election.

The Whole Story in a letter:

Pain-Killer

(FERRY DAVIS')

From Capt. F. Loye, Police Station No. 5, Montreal: "We frequently use FERRY DAVIS' PAIN-KILLER for pains in the stomach, rheumatism, stiffness, frost bites, chilblains, cramps, and all affections which befall men in our position. I have no hesitation in saying that PAIN-KILLER is the best remedy I have near at hand."

Used Internally and Externally. Two Sizes, 25c. and 60c. bottles.

How Cows Lie.

A cattlemaster says that all cows lie down on their left side and never on their right unless the left is injured.

Caviare.

More than 70,000 pounds of so-called caviare which was sold last year in Chicago and New York was really taken from the Mississippi river catfish instead of from sturgeon.

Fireproof Paper.

Fireproof paper can be made by saturating any paper in a strong solution of alum and then drying it.

Suicide in England.

During the last fifty years the suicidal tendency in England has grown into a formidable disease. The growth, too, has been continuous. Suicide has steadily increased 200 per cent. Unhappily, too, the growth has been most rapid in recent years.

Constables and Coal.

Married constables of the London police force receive forty pounds of coal a week all the year round.

A Good Tooth Powder.

Two ounces of prepared chalk, half an ounce of powdered orris root, quarter of an ounce of carbonate of soda. Dry, mix thoroughly and pass twice through a fine wire sieve.

Perfumed Wine.

Greek and Roman wines were perfumed by steeping the leaves of roses or violets in the liquor until it had acquired the odor of the flowers.

Swiss Avalanches.

Avalanches are so common in Switzerland that devices are made to control them. The Swiss form earthworks or intrenchments which are pointed in such a fashion that avalanches coming in contact with them are split and so driven aside.

Farmer Soldiers.

Of the soldiers in the civil war 48 per cent were farmers.

Storm Signals.

Large owners of marine property estimate that one severe storm, sweeping the Atlantic coast in the absence of danger signals, would leave not less than \$3,000,000 worth of wreckage in its wake.

Unlucky Thirteen.

A New York man saved 1,300 pennies during many years and then had the bulky treasure stolen.

Selenium.

Selenium, one of the cheapest of the rare metals, is worth \$22 a pound. It has the property of losing its resistance to the electric current under the influence of light and so is used in certain instruments, such as the telescope, which utilizes light rays as a means of conveying signals.

American Pine.

American pine when green weighs 44 pounds 12 ounces to the cubic foot. When seasoned, its weight is reduced to 30 pounds 11 ounces.

German Miles.

The mile in Germany is a somewhat puzzling measure. The explanation is that there are three kinds of miles—the German short mile, 6,859 yards; the German geographical mile, 8,237 yards; and the German long mile, 10,126 yards.

Sago Palm.

One acre of sago palm yields as much nourishment as 163 acres of wheat.

The Poisonous Lilies.

The lily of the valley contains a poison of the most deadly kind. Not only the flower itself, but also the stem as well, contains an appreciable quantity of prussic acid.

Dreams.

A physician mentions the case of a man who could be made to dream of any subject by whispering about it into his ear while he slept, and it is a familiar fact that persons who talk in their sleep will frequently answer questions if spoken to softly.

A Chinese Belief.

The Chinese believe that water obtained from melting hailstones is poisonous and that rainwater which falls on certain feast days will cure malarial fever.

Oil For Heavy Machinery.

For lubricating the journals of heavy machinery either rape oil or sperm oil is the best to use in mixture with mineral oil, as they have the least effect on brass and iron, which two metals generally constitute the bearing surfaces of an engine.

Nobility and Ermine.

A baron's robe has two rows of ermine, that of a viscount two and one-half rows, an earl's has three rows, a marquis' three and one-half and a duke's robe four complete rows.

For Old Age.

French seamen and miners are obliged by law to make provision for their old age.

Gum Arabic.

The collecting of gum arabic is greatly facilitated by ants. They perforate the bark of the acacia to get at the wood to lay their eggs, and thus the juice exudes, each perforation being marked by a globule of gum.

The Zirconium.

The heaviest precious stone is the zirconium, which is four and one-half times heavier than water. The lightest is the opal, only twice as heavy as water.

The Fly Agaric.

The fly agaric, a sort of fungus, is so called because steeped in milk it is used to kill flies.

Bright Pupils.

A young woman teacher in one of the grammar schools in Brooklyn was speaking of her work the other day. She said that unless a person had some experience in teaching he could scarcely understand how marvelously stupid some children were and what peculiar mistakes ordinarily bright children sometimes make. To illustrate her point she told three stories from her own personal experiences. One day, on a language examination, the following was one of the topics: "Name three kinds of sentences and give examples." This is the way one of the children met the problem. He wrote: "Declarative, interrogative, imperative. 2+2=4. 9x2=18. 13-6=7."

On another day one of the questions in a grammar examination read: "I cannot see it." Complete this sentence by using the words plain or plainly. Give your reason." One bright youth wrote this answer: "I cannot see it plain." Reason: Because it is too far away." Another scholar answered the question as to why the Dutch settled on the Hudson river by saying, "So they could have a place to wash."

Evils of Excessive Smoking.

While a good cigar, used temperately two or three times a day, may be smoked by the average adult man to good advantage, excessive indulgence in smoking is very harmful. It is only necessary to recall one's first cigar and the profound effect it produced to realize that the smoking of tobacco in large quantities is trifling with a dangerous agent, says the Baltimore Sun.

The chief effects of smoking are from the nicotine and empyreumatic oil, the first being an active poison—an infinitesimal quantity will destroy life—and the latter, which is the rank accumulation in the stem of the pipe, is also a potent poison, one drop on the tongue of a cat having been fatal. The nicotine and the oil both act on the nervous system, though differently, the nicotine paralyzing the heart by its action on the brain, while the oil confines itself chiefly to the spinal cord and the motor nerves.

It will thus be seen that no part of the victim's equipment escapes the deadly effect of tobacco in excess.

Railroading Terms.

Railroading terms in England and America differ very widely. The English would speak of shunting a train. We call it switching. Freight trains they call goods trains, coaches are carriages, conductors are guards, engineers are drivers, trucks are boggies and freight cars are wagons. The British always say station instead of depot, and in that they have the better of us. Rails they call metals and tracks permanent ways. They do not get their tickets at a ticket office, but at a booking office, and the smokestack of the locomotive is to them the chimney. A railroad man going from one country to the other finds that he has to learn an entirely new set of phrases about his business.

A Chameleon's Bite.

The bite even of the largest chameleon does not fetch blood, though the teeth leave indentations. I often, says a naturalist, provoke them to bite me in order to observe their habits, and only once, when one caught me between the fingers where the skin is tender, was I really hurt. On this occasion the thing held on so persistently and firmly that I could not for some time free my finger. At last I was obliged to call some one to get it off by forcibly opening its mouth. Even then it did not pierce the skin. Its teeth are too fine and regular, but the dotted triangular impression of the little teeth was very red and distinct for some minutes.

Do Your Work Well.

Possibly you think your employer does not notice you or know about your work. The writer of this was talking the other evening to an extensive employer of labor, and he talked most of the evening about his workmen. He knew all about every one of them, from the head man to the laborers, and noted their good and bad points. Don't forget that your employer knows all about you. When he needs a new foreman or superintendent, he knows the one to select.

To Little Profit.

"Don't you think I preached a very poor sermon this morning?" asked the new preacher of the deacon, from whom he expected a compliment. "Yaas, I do," drawled the honest deacon, "but it runs in my mind that I've heard worse, of I cud only recollect wher' it wuz."

The Trouble.

Wicks—There should be a law to restrain the theaters from printing those mossy jokes in their programmes. Hicks—You don't have to read them. Wicks—No, but you usually have to listen to some idiot behind you reading and explaining them.

Determination.

"I am afraid that your boy lacks determination," said the neighbor. "That's where you wrong him," answered Farmer Cornstossel. "I never saw anybody as determined not to work as Josh is."

The Same Air.

Mrs. Homer—Jane, open that window and let a little fresh air into the house. Jane—It isn't fresh air at all, mem; it's the same air that's been about here all the morning.

The Wear and Tear of It.

"You must find it wearing to be the wife of a genius." "Yes; so many fools want to know how I am able to get along with him." —Chicago Record-Herald.

DR. CHASE'S REMEDIES

Dr. Chase's Kidney-Liver Pills, 25c per box. Dr. Chase's Nerve Food, 50c per box. Dr. Chase's Ointment, 40c per box. Dr. Chase's Catarrh Cure, 50c per box. Dr. Chase's Liver Cure, 60c per bottle. Dr. Chase's Syrup of Linseed and Turpentine, 25c per bottle. Portrait and signature of Dr. A. W. Chase on every box of the genuine. At all dealers or Edmanson Bates & Company, Toronto.

MARITIME PROVINCE NOTES.

The house, outbuildings and barn, with contents, belonging to John Oliver Steeves, at Salem, Albert County, were burned on Saturday from forest fires.

Forest fires have been raging in the back districts of Carleton County and a large amount of damage has been done. On Sunday the fire broke out in the South Johnsonville Settlement. Alexander McDonald's buildings were burned to the ground. A pair of horses were burnt in the barn.

At Moncton, Tuesday, a committee from the I. C. R. waited upon Mr. J. T. Hawke and in a very tangible way expressed their appreciation of his interest in behalf of the workmen's schedule. The address was accompanied by a costly 30 day clock, a gold headed cane suitably engraved, and a valuable set of silver spoons for Mrs. Hawke.

At the annual meeting of the Moncton Board of Trade Joshua Peters was elected president; F. W. Sumner, vice-president; D. I. Welch, secretary-treasurer. Members of council: J. H. Harris, E. C. Cole, W. F. Humphrey, H. H. Ayer, Dr. C. A. Murray, R. Clark, C. W. Robinson, C. J. Osman and O. M. Meanson.

The Agonizing Pains of Rheumatism

Swollen, aching joints, muscles are stiff and sore, every movement accompanied by pain. The most potent remedy is Polson's Nerviline, which has five times the pain-subduing power of any other preparation. Apply the Nerviline copiously, rub it on well and bind in a hot flannel bandage. This will cure the worst cases in a short time. Try Nerviline for Rheumatism, Neuralgia, Sciatica or Lumbago—it's all right and only costs a quarter. Sold by R. O'Leary.

DR. HAMILTON'S PILLS CURE CONSTIPATION.

President Roosevelt delivered an address in the interests of the Presbyterian home missions at New York, Tuesday. The annual report of the secretary said 23 out of the 29 synods throughout the United States made advances during the past year. More literature had been distributed than ever before. One of the chief branches of the work to improve greatly during the year, both in membership and interest, was that of the Freedmen's Aid Society.

OH MY HEAD! HOW IT ACHES!

Nervous, Bilious, Sick, Periodical, Spasmodic HEADACHES.

Headache is not of itself a disease but is generally caused by some disorder of the stomach, liver or bowels. Before you can be cured you must remove the cause.

BURDOCK BLOOD BITTERS

will do it for you. It regulates the stomach, liver and bowels, purifies the blood and tones up the whole system to full health and vigor.

CARDS.

Commission Merchant.

All kinds of country produce sold on Commission. Quick sales and prompt returns. Highest market prices realized.
