CALF FEEDING.

By F. W. HODSON, LIVE STOCK COMMISSIONER.

"For a number of years I have had most of my cows drop their calves in the late fall, or early winter," says Duncan C. Anderson, of Rugby, Ont. "And I have come to the conclusion that there is a decided gain in so doing. The milking season is lengthened; cows coming in fresh before Christmas, liberal feeding in winter, milk nearly as well in the early summer when the pastures are at their best, as cows that come in fresh in March. We milk ten months, giving the cows two months rest. They are rested in the early fall, when the pastures are at their poorest. At that time the grass is generally dry parched and burned up. As we raise on the skim milk one calf to each cow, it is very important that the cows should have two months rest out of the twelve. When the cows are milked to within a couple of weeks of calving they get no chance to recuperate. The calf generally comes with a weakened vitality, and does not make as rapid or satisfactory a growth in the first six months, as when the cow has had a fair period for rest and recuperation. After a long term of experience I have come to the conclusion, considering the increased price of winter butter, the long milking season, resting when the grass is poor, that in winter dairying, cows give at least 25 per cent. more milk in the season than if they came in fresh in the spring months. Again an early winter or fall calf is quite as heavy at two and one half years as a spring calf is at three years old. There is a gain of six months in the age of the calf, the reason for this being that it is weaned off the milk in June, goes on to grass, is fed a little grain or meal all summer, and in the fall it is a good strong lusty yearling, and winters much better than a spring calf, which is just weaned in the fall and goes into winter.

When a calf is dropped it is not good practice to allow the cow to fondle and lick her offspring. When the separation does take place there is always a disturbance in the cow stable; the mother gets excited, and some nervous cows remain so for the best part of a week. Better results are obtained by removing the new born calf without allowing the mother to lick it. Bait it dry with a wisp of straw, put it into a roomy, dry, warm pen, free from frosts and drafts, and give it no milk for the first twelve hours. When a calf is hungry it is not nearly so much trouble to teach it to drink. The first two weeks it should have a quart of whole milk three times a day, care being taken that the noon milk is warmed to new milk heat. For the next three weeks half a quart of skim milk should be added to the whole milk at each meal. When the calf gets to five weeks old, discontinue the noon milk, also the whole milk, giving about three quarts of skim milk twice a day. By this time the stomach will be strong enough to assimilate and digest other food. The noon meal should then be pulped roots chopped oats and well saved clover hay. If a separator is not used and the milk is set in shallow pans or deep setting cans, it should always be warmed up to new milk heat before being fed. If it is fed cold or too hot it is to produce bloating and scours. When through careless feeding, scouring is allowed to become chronic there is no remedy. When a calf is not doing well break an egg into its milk; this acts as a tonic and adds strength to its ration. To supplement the loss of butter fat in milk, take for 12 calves over two months

Special Prices in Boots & Shoes during June!

During this month we are offering our complete stock of Mens' Womens' and Childrens' BOOTS & SHOES at prices that will please everybody. A careful comparison of our goods with those of any other leading merchants, will reveal the fact that they are the cheapest priced goods in the market, and the most critical examination will convince you that for real value they are equalled by none at the prices. We are continually striving to give our customers the best goods at the lowest possible prices, so have decided that for this month we will give everybody a chance to get a good pair of Boots or Shoes for very little money.

Remember this offer ends on the last day of June. Come early before all the best goods are sold.

A. & R. LOGGIE

old, four cups of flax seed, put it into a common stove pot and fill up with water. Do this after dinner and allow it to simmer all afternoon and evening. Next morning boil smartly for one half hour, stir in some wheat flour, until the mixture is about the consistency of thin porridge. A calf three months old will take a cup full of this flax seed tea porridge in its skim milk. The flour is used to counteract the loosening effects of the flax seed. Care must be used at first not to be overfed but to work up gradually to what I have mentioned, with skim milk, flax seed tea, roots, chopped oats, and clover hay, and with comfortable warm pens kept clean and well bedded. Calves can in this way be raised much more profitably in winter than in summer. When a separator is used it is best to skim the froth off the skimmed milk and not feed it to the young calves, especially those under three months. It has a tendency to disturb the normal action of the stomach, and set up scours. Whenever a calf is scouring reduce the quantity of skim milk. Be careful to have the pail from which the calves are fed as clean as possible. With skim milk at the right temperature fed out of pails as clean as your milking pails, in not too large quantities, and fed regularly, there will be but little trouble from calves scouring.

In warm weather calves should be kept in during the day time, and turned out in the evening. Thus they will avoid the hot sun and the flies. Whole or chopped oats should be fed. A mixture of whole and chopped oats, about a cupful twice a day for an ordinary sized calf on good pasture, will be sufficient. For fall feeding until the roots are harvested, there is nothing equal to green corn run through the ruttling box and mixed with some chopped oats.

The main point in calf feeding is to never allow them to stop growing, and in the case of beef animals keep them in good flesh. In feeding calves as in every system of feeding the extremes of over and under feeding are to be avoided. Continuous, regular, liberal feeding always brings the most profit, and the best practical results."

Lost Hearing Quickly Restored.

No matter whether of long standing or not deafness can be permanently cured by CATARRHOZONE, which never fails even in the worst cases. The pleasant-scented vapour of Catarrhzone allays inflammation, prevents and cures the catarrhal condition that causes deafness and relieves right away. Thousands have proved the efficiency of Catarrhzone, and with such a valuable remedy within easy reach there is no longer any reason for people to remain deaf. Catarrhzone is recommended also for Coughs, Colds, Catarrh, and Bronchitis. Complete outfit, \$1.00; trial size, 25c. Druggists, or N. O. Polson & Co., Hartford, Conn., or Kingston, Ont. Sold by R. O'Leary.

HAMILTON'S PILLS CURE CONSTIPATION.

Maurice Cannon of San Francisco, whose weight was 620 pounds, died there Saturday of fatty degeneration of the heart.

To Increase Your Appetite.

Nothing will stimulate a keen, healthy relish for food, insure good digestion and perfect assimilation like FERROZONE, which is the most successful tonic and health renewer known to medical science. Ferrozone is a positive cure for Anaemia, Impure Blood, Boils, Pimples, Indigestion, Dyspepsia and all Stomach and Bowel troubles. Ferrozone cleanses, strengthens and purifies the blood, it invigorates the heart and nerves, banishes sickness and pain, and makes ailing people well. Try a box or two of Ferrozone the result will be a surprise. Price 50c. at Druggists, or N. C. Polson & Co., Kingston, Ont. Sold by R. O'Leary.

HAMILTON'S PILLS CURE CONSTIPATION.

TREASURE FROM KLONDIKE FIELDS.

THE FIRST LOT OF GOLD BROUGHT DOWN BY THE DOLPHIN GOES TO 'FRISCO.

VANCOUVER, B. C., June 20.—The steamer Dolphin arrived a midnight with the first big treasure from Dawson, there being \$500,000 in dust in the captain's cabin. The boxes were so heavy that they were left unguarded. The gold was taken to 'Frisco, as owing to the rebate allowance being charged at the Canadian Government assay office here Americans who are being made millionaires by the Canadian gold refuse to dispose of it in Vancouver.

There are labor troubles in Atlin. The miners demand an increase in wages, and the owners refuse. It is likely many claims may be temporarily shut down, according to some of the Dolphin's passengers.

For the masses not the classes, BENTLEY'S Liniment is the family medicine chest. Price 10 and 25c.

SALE OF INVENTIONS.

In consideration of \$10,000, A. M. and J. G. Battelle assigned to the Cincinnati Corrugating Co. the entire right in Patent No. 365,042 embodying joints for sheet metal. The assignment was recorded April 8, 1902.

In consideration of \$14,500, the Gomer Manufacturing Co. assigned to James E. Gomer, of New York, N. Y., all the right, title and interest in Patent No. 634,823, embodying improvements in Bicycle frames. Assignment recorded April 5, 1902.

Chas. A. Doud assigned the entire right his invention of Banana Crate to the Western Banana Crate Manufacturing Co. of La Crosse, Wis., on April 10, 1902, in consideration of \$28,000, Patent No. 694,845.

Almon O. Jones, assigned on April 12, 1902, all his right, title and interest in his invention of Hot Air Register. Serial No. 60,893 to the United States Register Co., Limited, in consideration of \$49,000.

Communication of Messrs. Marion & Marion, Patent Attorneys, Montreal, Can. and Washington, D. C.

A BURDEN TO SELF AND OTHERS.

"Take care of your health; you have no right to neglect it and thus become a burden to yourself and perhaps to others." When the liver gets sluggish, the kidneys inactive, and the bowels constipated, Dr. Chase's Kidney-Liver Pills will promptly set your filtering and excretory system in perfect order, and insure good digestion and good health. There is no medicine so generally used, and none so successful. One pill a dose, 25 cents a box.

BRITAIN'S FINANCIAL POLICY

AND COLONIAL TRADE. GRAIN CLAUSE STANDS.

LONDON, June 20.—When the House of Commons took up the consideration of the amended finance bill this afternoon, John Morley precipitated a long debate by moving to omit the clause imposing a duty on grain. Sir Charles Dilke and others of the opposition demanded a specific statement from the chancellor of the exchequer in regard to the government's attitude at the coming conference of colonial premiers. It was obvious, it was asserted, that the conference might change the whole fiscal policy of the country and before committing itself the government ought to give the house an opportunity for full discussion.

The chancellor emphatically repudiated the suggestion that the government was contemplating a revolution in its financial policy and said in behalf of himself and his colleagues that he wholly disavowed such an idea. It was not the policy of the government to endeavor to encourage trade with the colonies by initiating a tariff war with other countries.

The motion to omit the clause imposing a duty on grain was defeated 251 to 173.

The government has decided it will be necessary to have an autumn session of parliament to dispose of the education bill and other business.

There is excitement in political circles here as a result of the announcement that the Duke of Westminster intends to take active part in politics as a supporter of Sir Campbell-Bannerman, Liberal leader in the House of Commons. This decision is somewhat surprising as the duke served a year in South Africa as private secretary to Lord Milner. The duke's accession to the Liberal ranks is likely to be important from the view point of party finance.

A Red Hot Season.

During the hot season the blood gets over heated, the drain on the system is severe and the appetite is often lost. Burdock Blood Bitters purifies and invigorates the blood, tones up the system and restores the lost appetite.

OCEAN STEAMSHIP SUBSIDIES AND THE CUNARDERS.

LONDON, June 24.—Testifying before the house of commons committee on steamship subsidies, Lord Brassey said he favored the policy of subsidizing ocean liners for use as armed cruisers. Undoubtedly, it would be to the public advantage to have a number of auxiliary war vessels, but it could not be accomplished without subsidies. The owners of the Cunard line now remained as the only British champions in the Atlantic traffic, and it would be a national disaster if the line was transferred to a foreign flag. If the Cunard line could not hold its own unassisted, the government ought from patriotic motives, to render the assistance necessary to retain the company under the British flag.

THE FRENCH MAKE PURCHASE FROM JAPAN.

THEY HAVE BOUGHT THE PROMONTORY OF KATAL FOR ALLEGED NAVAL HOSPITAL.

CHICAGO, June 21.—Telegrams received at Yokohama just before the Victoria sailed, announce that the French have purchased the promontory of Katal near Macao, a Portuguese settlement in the vicinity of Hong Kong, says a special to the Chronicle from Tacoma, Wash.

The point was secured for \$120,000 for the ostensible purpose of establishing a naval hospital for the use of the French fleet in Oriental waters. This promontory commands the approach to Linton Bay and part of Hong Kong harbor.

The English at Hong Kong are much disturbed and have protested to the Pekin government that the sale should not have been made.

It is feared that France will fortify Katal as the French have had no opportunity during the past three years of strengthening their position in Southern China.

FIRE IN THE HOLD.

EXPERIENCE OF THE CREW OF THE MONKBARN.

SAN FRANCISCO, June 21.—That the British ship Monkbarns, which has arrived here, 149 days from Liverpool, ever reached her destination is due to the gallant fight against fire made for four days and nights by Captain McNealy and his crew. The Monkbarns left Liverpool on January 23. All went well until February 21, when at 4.30 a. m. smoke was discovered coming out of the ventilators leading to the forehold. An investigation revealed the fact that the cargo was on fire. Four holes were cut in the deck, and water was pumped on the blazing merchandise until the flames were subdued sufficiently to allow sailors to descend into the hold, fix tackle to the smouldering bales and hoist them to the deck, whence they were promptly thrown overboard. Nearly all the cargo in the forward hold was jettisoned before the fire was extinguished. Little harm was done to the hull of the ship. The cargo jettisoned consisted of oakum, felt and chemicals.

EGYPTIAN RELICS.

INTERESTING ARTICLES ON EXHIBITION IN CHICAGO.

CHICAGO, June 21.—Relics of kings who ruled 3,000 years before the Christian era, together with complaints of a chief of police written on papyrus 2,000 years ago are on display for the first time in the Haskel Museum of the Chicago University. The exhibition is given by the Chicago Society of Egyptian research and the relics were gathered last summer. One of the relics is a flat gold bar, thought to be the oldest piece of inscribed jewelry in the world. It bears the symbol of King Menes, who is thought to have reigned about 3,200 B. C. Another exhibit is a piece of papyrus on which is written a complaint by Nechemetes to a chief of police with reference to a robbery on his premises. This relic bears the date of 190 B. C. A piece of papyrus of the third century bears a letter of Demetrius to his father Heracleides, blaming him for not sending baskets of fodder.

MARCONI WILL ARRIVE AT SYDNEY JUNE 28.

SYDNEY, June 21.—R. J. MacDonald, of Antigonish, will try to lower the Canadian three mile record on the Cape Breton Trotting Association park here on coronation day. MacDonald will be paced by three men, one for each mile.

The Socials defeated the Sydney A. A. A. in the opening match of the Cape Breton county baseball league to-day by a score of 25 to 10.

It is stated at Glace Bay that Mr. Marconi will arrive there June 28th. The station at Table Head is now practically completed. The engines and dynamo are installed and in working order.

BACKACHE, swelling of feet and ankles, puffing under eyes, frequent thirst, scanty, cloudy, highly colored urine and all urinary troubles lead to Bright's disease, dropsy, diabetes etc. Doan's Kidney Pills are a sure cure.

SMALLPOX STAMPED OUT UP NORTH.

CAMPBELLTON WILL RAISE QUARANTINE ON LAST PLACE MONDAY.

CAMPBELLTON, June 19.—After speedy suppression of the smallpox, business has resumed its normal condition. The seven patients are being cared for in the emergency hospital outside of the town and are rapidly recovering. The quarantine has been raised on all the buildings in town except Mr. Alexander's cook house, which will be released Monday and the inmates given a clear health bill and operations will resume. This fact will be learned with pleasure by Mayor Alexander's friends generally as well as by all who have been inconvenienced by the closing of one of the largest lumbering operations on the North Shore. The new proprietors of the Waverly, Lavers & Burgess, have thoroughly renovated the building and will tear down the sample rooms used temporarily for housing one of the original smallpox patients and will erect commodious sample rooms.

FAMILY QUARRELS.

"How many serious family quarrels, marriages out of spite and alterations of wills might have been prevented by a gentle dose of pills." With the liver and kidneys sluggish, and torpid digestion is impaired and temper ruined. But Dr. Chase's Kidney-Liver Pills by invigorating the action of these organs ensure good digestion and sound health. One pill a dose, 25 cents a box.

HAD TO BE LIFTED.

A Helpless Cripple is Restored to Health and Strength.

Lame Back Had this Man a Prisoner for a Long Time, but at Last He Found a Cure Though Given Up by the Doctors.

NAPANEE, Ont., June 23, (Special)—The doctors told Simon Warner that they could do nothing for him. He had tried many medicines and treatments with no good result.

He was a helpless cripple with lame back, and for a long time his wife had to lift him in and out of bed, the pain in his back was so very severe.

In this extremity a friend's advice saved him. This man had suffered with backache himself, but had been completely cured by Dodd's Kidney Pills, thus when he heard that Mr. Warner was so bad he went to his home and recommended this medicine to him.

Mr. Warner and his good wife were at first inclined to be somewhat doubtful, but here was the evidence that Dodd's Kidney Pills do cure Lame Back right before their very eyes in the person of the man who had been cured. Surely it must be true.

So after some deliberation they decided to try, and now they are very much pleased that they did so, for in a short time Mr. Warner's backache had vanished. He grew gradually stronger and better and at present enjoys the best all-round good health he has had for many years.

There is not a trace of lame back remaining, not a single symptom, and the helpless man who used to be a burden to himself and his wife is now strong and a comfort to his faithful helpmate. He says:

"We have used in all about twenty-five boxes of Dodd's Kidney Pills, and given some away to our neighbors. I find that when they use a box they themselves are about as strong in their recommendations as we are.

"I can certainly highly recommend Dodd's Kidney Pills as a sure cure for Lame Back, for they cured me, and I never heard of a worse case."

ST. GEORGE GRANITE WORKERS' STRIKE OVER.

AGREEMENT REACHED—MEN'S TERMS ACCEPTED WITH SOME MODIFICATION.

St. Andrew's, June 20.—The strike of granite workers at St. George ended to-day, the manufacturers agreeing to the men's terms, with some modifications. Work will be resumed to-morrow morning. General satisfaction is expressed over the close of the trouble.

Children Cry for CASTORIA.

SURRENDERS NOW COMPLETE.

16,505 MEN CAME IN WITH 16,093 RIFLES IN THE TRANSVAAL AND ORANGE RIVER COLONIES; BOTH TO TAKE HIS FAMILY BACK.

BERLIN, June 19.—Boer General Louis Botha is coming to Dresden to take his family back to South Africa.

LONDON, June 19.—Under date of Pretoria, June 17, Lord Kitchener announces that 700 Boers surrendered at Bloemfontein yesterday, and that all surrenders in the Transvaal and Orange River Colonies are now complete. In the Transvaal 11,225 men surrendered and 10,813 rifles were given up. In the Orange River colony 5,395 surrendered and 5,280 rifles were turned in.

KEEP YOUR EYES OPEN and be sure that when you ask for Perry Davis' Painkiller you get just that and nothing else. Use it promptly to cure cramps, diarrhoea and all other bowel complaints in summer.

CHARLOTTE COUNTY SENSATION

ALLEGED ATTEMPTED POISONING OF AN AGED LADY BY PUTTING PARIS GREEN IN HER FOOD.

St. Andrew's, N. B., June 20.—Mrs. Cynthia Munson, an aged lady, belonging to Piskabegan, is at Rollingdam under the care of Doctor Butler, suffering from the results of poison. Paris green, it is alleged, had been placed in her food when breakfast was served her the other morning. Her son-in-law, named O'Hearn, is reported to have disappeared. The old lady's chances of recovery are said to be slight.
