—Freddy, the son of a well known minister, had misbehaved, and to punish him he was not allowed to eat at the family table. A small table was set for him in the corner of the dining room. A. E. O'LEARY, Kent Hotel.

—The proverbial lamb is wild in comparison with the entrance of March into the year of our Lord 1902. Balm spring weather was characteristic of all day Friday and 12 o'clock when February made its departure, the night was soft and slightly misty, the roads lined with little rivulets of dissolving snow, and the mercury stood at several degrees above the freezing point. In like a lamb, all right, and if it goes out aggressively lionlike in comparison, the wisecracks who have prophesied an early spring will have to hide their diminished heads and go out of the business until next year.

—To the New Brunswick collection at the Boston Sportsmen's show will be added a number of the Intercolonial pictures of famed hunting and fishing grounds and beauty spots along its line, while thousands of pamphlets describing them will be distributed.

**Coughs**

"My wife had a deep-seated cough for three years. I purchased two bottles of Ayer's Cherry Pectoral, large size, and it cured her completely."  
 J. H. Burge, Macon, Col.

Probably you know of cough medicines that relieve little coughs, all coughs, except deep ones! The medicine that has been curing the worst of deep coughs for sixty years is Ayer's Cherry Pectoral.

Three sizes: 25c, enough for an ordinary cold; 50c, just right for bronchitis, hoarseness, hard colds, etc.; \$1, most economical for chronic cases and to keep on hand.  
 J. C. AYER CO., Lowell, Mass.

—A committee is investigating matters connected with the management of the St. John General Hospital. Former patients and friends of former patients are coming forward, affirming that the hospital is full of vermin and mice and that the bread was sour and the butter rotten and general treatment of some patients disgracefully neglectful and cruel. One woman was so annoyed with bed-bugs tickling the soles of her feet that she could not rest, some persons are very sensitive in that region anyway, another patient who had his leg bandaged, on removing the bandage reached the conclusion that he had been wearing a bed-bug poultice all the time. The only commendable word so far is that the soup was good, the public are anxious to learn the ingredients thereof.
