### March Is A Favorite Month for Home Dyeing.

It is well regulated homes in city or country, the work of home dyeing is largely done in March. The dresses, skirts, capes, jackets, blouses and other articles of wearing apparel used and worn a year ago, but now dingy and faded, will be brought out, carefully looked over and re-dyed with some new and stylish color for this season's wear.

With such aids as the popular Diamond Dyes, it is folly to spend money for new materials and garments. The Diamond Dyes always make old and faded things look as good as new. The best as well as the humblest families use the Diamond Dyes successfully and profitably every spring.

Have you decided to make up a pretty and stylish mat or rug from your rags and waste materials? There is a pleasure in being able to point to your own homemade mats and rugs. Send your address to The Wells & Richardson Co., Limited, 200 Mountain St., Montreal, P. Q., and you will receive sheets of designs for your inspection.

For Cuts, Wounds, Chilblains, Chapped Hands, Rheumatism, Stiff Joints, Burns, Scalds, Bites of Insects, Croup, Coughs, Colds, Haggard's Yellow Oil will be found an excellent remedy. Price 25 cents. All dealers.

Mr. Emerson presented to parliament last week a petition from the Baptists Union of the maritime provinces, praying that the Canada temperance act be amended in certain particulars, principally in regard to more clearly defining what are intoxicating liquors and to enable the government to appoint inspectors to have the act enforced.

### A TALE OF TWO CITIES.

**The Perils of Living Near the Mexican Boundary Line.**

"Some peculiar conditions prevail at the twin cities of Nogales, Mexico, and Nogales, Ariz.," said the Detrotter, who recently returned from a visit to Mexico. "The international boundary line is formed by a street that divides the two towns, and the boundary stakes are set out with a very nice regard for technicalities. There is a saloon there which has more than a local reputation, and the proprietor is certainly an enterprising individual. His saloon is located on the street dividing the two counties and at a point where the dividing line is not clearly defined. The patron of this saloon buys his drink in America, and, stepping across the hall, he buys his cigar in Mexico. In this way the proprietor avoids the duty on imported cigars and can provide his customers with the best make at lower prices than most of his competitors."

"They tell an amusing story about an American who imbibed too much fighting whisky at this saloon. When he arrived at a certain stage, he allowed his prejudices to get the better of him, and, standing near the boundary line of his own country, he heaped anathemas and hurled defiance at the people across the border. A couple of Mexican officers stood across the street almost within reach of the pugnacious American, hoping that he would stroll across into Mexico. He did get over there after awhile, although the trip was wholly unimpeded. During a harangue against Mexican institutions in general and the police in particular he happened to lurch too far over to starboard and fell into Mexico. The alert cops promptly grabbed him, and, though he didn't get a chance to take in the sights, he paid quite an extended visit to the country he had so eloquently maligned."

### LONG RANGE BAPTISM.

**Christening in Scotland Was Conducted Under Difficulties.**

In wide and sparsely populated highland districts of Scotland it not infrequently happens that a parent is obliged to walk a distance of five or six miles with an infant for baptism.

It is related of a minister of the north that he agreed to accommodate a parishioner thus situated by meeting him at a stream midway between the parents' house and the manse and there baptizing the child at the running water.

It so happened that by the time the parties came to opposite sides of the bourn heavy rains had swollen it into a rapid torrent, so that neither party could approach the other.

Unwilling to turn back with the "bairn" unbaptized, the farmer proposed that the minister should splash water across. Accordingly the minister stepped down to the stream and endeavored to throw handfuls of water on the farmer's baby.

"Ha'e ye got ony o' that?" he cried at each successive splash.

"De'il a spairge," was the reply.

At last a few of the splashes were communicated to the infant's face, and the ceremony was then concluded in the usual form.

Before retiring to their respective homes the farmer produced a bottle of whisky, crying across, "As I canna offer ye a glass ower theheid o' this, here's the bottle--kepp!" And he threw it across the stream.

The bottle was caught, it is related, with a precision that betokened on the part of his reverence, if not considerable practice, at least considerable dexterity.

**Caught a Tartar.**

Like so many of his learned brethren in the Church of England, the late Canon Carter was the terror of composers. His was perhaps, after Dean Stanley's, the very worst handwriting of the last century.

About 1880 the then bishop of Lichfield, Dr. Maclagan, surprised one of his secretaries by saying: "I have hardly ever received an anonymous letter, but I got one this morning. It is very badly written, and I can hardly make it out, but from the signature it is sure to be abusive. The man has signed himself 'A Tartar.' See if you can make it out."

The secretary, who knew the handwriting, rather startled his lordship by rejoicing: "It's nothing alarming. It's ---" note from Canon Carter of Clewer!"—London Tit-Bits.

**Lies of the White Kind.**

The whole fabric of social intercourse is interwoven with what would be lies according to a strict code. Some are pleasant fictions that deceive nobody. Most of them have their genesis in a kindly, cheerful desire to avoid giving pain. These polite untruths are the lubricant of society. They wear away the rough edges, take away the sting out of uncomfortable facts. They are the flower of courtesy, "the pineapple perfume of politeness."

**The Best Lifter.**

Hiram—That boy of yours what went to college could do some powerful lifting with the clubs and dumbbells.

Silas—Yes, but I always thought more of the other one's lifting powers.

Hiram—Did he lift dumbbells and the like?

Silas—No; he lifted the mortgage.

With every exertion the best of men can do but a moderate amount of good, but it seems in the power of the most contemptible individual to do incalculable mischief.

The man who gets up to make the fire does not always get his share of the heat.

### Rheumatic-warped Limbs, Pain and Suffering.

Not a Trace of Rheumatism Left After Using Dr. Chase's Kidney-Liver Pills.

If you are a sufferer from rheumatism it is possible that you have tried many remedies without reaping much benefit. Judging from the number of cures that have been reported, Dr. Chase's Kidney-Liver Pills must be about the best medicine obtainable for rheumatism. It cures thoroughly, by ridding the blood of uric acid poisons, the cause of rheumatism and severe body pains.

Mr. S. Mann, Sittsville, Carleton Co., Ont., writes: "I was afflicted with rheumatism, had severe pains in the knees, hip joints and across the back. Rheumatism remedies did not help me and I began using Dr. Chase's Kidney-Liver Pills, which have since completely cured me. There is not the least trace of rheumatism left, and I am no longer subject to biliousness, headache and stomach sickness, which formerly attacked me frequently."

Dr. Chase's Kidney-Liver Pills have a larger sale by far than any similar remedy. They cure when others disappoint. One pill a dose, 25 cents a box, at all dealers, or Edmanon, Bates & Co., Toronto.

**An Ancient Bar.**

The oldest public house in England is Ye Olde Seven Stars, standing in the heart of Manchester, which has been licensed for 550 years.

**The Wheat Fly.**

The wheat fly feeds upon the flower of the wheat, while the hessian fly lays its eggs in the stem. The former thus renders the flower abortive, while the injury done by the latter affects the whole plant.

**Silent, but Jolly.**

One of the jolliest clubs in Paris, it is stated, is one formed exclusively of deaf and dumb persons.

**A Hornet's Sting.**

The pain produced by a hornet's sting is caused by a poison injected into the wound, and so instantaneous is its effect as to cause the attack of this insect to resemble a violent blow in the face.

**Cancer.**

Facts collected by insurance companies show that the danger from inheritance in the case of cancer is not so great as is commonly supposed.

**Chinese Women's Hair.**

Dressing the hair is the most important part of a Chinese woman's toilet. The district she comes from may be known from the manner in which she does her hair. It also indicates her station in life. Young girls, whether married or single, wear cues, coiling up their hair as their western sisters do on attaining a certain age.

**Britain's Granite.**

Leicestershire is the greatest granite producing county in the United Kingdom.

**Opaque Glass.**

A bathroom window or one having an objectionable outlook may be made opaque at little cost. To a pint of stale ale add a handful of epsom salts. Mix well and apply with a brush. This makes a hard finish that will remain indefinitely or if desired may be removed by scrubbing at any time.

**Sugar.**

The amount of sugar consumed in the civilized world last year was over 6,000,000 tons.

**Keeping Meat.**

Meat, it is said, can be kept fresh for a week or two by putting it into sour milk or buttermilk and placing it in a cool cellar. It must of course be rinsed well before it is used.

**Munich Breweries.**

A single brewery in Munich uses 118 railway freight cars of its own besides 28 belonging to the state. Other breweries have 143, 90, 80, 100, 86, etc.

### OH MY HEAD! HOW IT ACHES!

Nervous Sick Periodical Spasmodic HEADACHES.

Headache is not of itself a disease but is generally caused by some disorder of the stomach, liver or bowels.

Before you can be cured you must remove the cause.

### BURDOCK BLOOD BITTERS

will do it for you.

It regulates the stomach, liver and bowels, purifies the blood and tones up the whole system to full health and vigor.

### Refuse of the Universe.

"It was a Beothuk Indian legend that when God made the world he swept the universe of the refuse and cast it into the sea, and when the white men came from the rising place of the sun they called the heap Newfoundland and chose it for a dwelling place," says Norman Duncan in Ainslee's. "It may be so. In its remoter parts Newfoundland might easily be taken for the leavings and rejected materials of the work of creation, there cast away. It is as fertile as an ash heap, which, moreover, it resembles in that it contains scraps of everything which entered into the making of the world--iron, copper, coal, gold and all other treasures under the ground. The interior is a soggy, rock strewn barren, an interminably vast waste, where not so much as a shrub is to be seen and no man chooses to live. Stunted forests fringe coast, a skinny growth of pine and spruce and birch, through which you may walk miles in vain search for a schooner's spar. The shore line is rock, in some places swept by flood and fire bare of all soil--grim, naked rock. To many a Newfoundlander a sandy beach would be as great a wonder as a horse."

**Meerschaum Cost in Making.**

A fire in a pipemaker's shop the other day spoiled the proprietor's stock of meerschaum and incidentally disposed of the idea, common in most smokers' minds, that this commodity is very expensive. Meerschaum itself is not expensive. That used by the manufacturers in this country is imported as raw material from Austria, but most of it is obtained in Asia Minor. Usually there are three or four different grades, running from the rough and mixed to the pure and finely grained article. There is no duty upon it. The chunks, not unlike candle coal in shape, are packed in oblong boxes, about two feet and a half long, a foot wide and a foot high. The raw material is quite brittle and has to be soaked in water before it is used for modeling.

Meerschaum pipes are expensive because much of the material from which the bowls are made has to be thrown away before a piece is found that has no flaws in it. The shavings, however, are never wasted. They are used to make a cheaper grade of pipes which are known as chip meerschaums.

**Control Your Temper.**

There are three reasons why one ought to control his temper, and the first is self respect. When one loses command of himself and throws the reins upon the neck of passion, he may have for the moment a certain enjoyment in the license, but there must surely come a reaction of regret. When he is calm again and the fit has passed away, every sensible person must be ashamed of what he said and what he did, of the manner in which he gave himself away and the exhibition he made of himself. He will recall the amazement on the faces of his friends and the silence which they adopted as a protective measure and the soothing language which they used, as if they were speaking with a baby, and the glances which passed between them. He will not soon hold again with them as strong as he did before this outburst, nor will he have the same claim upon their confidence as a sound and clear headed man. He has acted like a fretful, peevish child and has for the time forfeited his title to manhood and the place of a man.

**Woodworms Can't Stand Benzine.**

Woodworms can be destroyed in books and woodwork by benzine. Books are locked up in a cupboard with a saucer of benzine. The insects, as well as their larvae and eggs, soon die off. Furniture and carvings are similarly placed in a room with a dish of benzine and kept closed up for several weeks, the time required for the complete destruction of the insects varying according to the thickness of the wood. New woodwork can be protected against their entry by a coating of glue, as, living on vegetable substances, they do not touch animal products.

**Amusing Superstitions.**

If you count warts, you will increase their number, or to handle a toad will cause warts. If two persons wash in the same water or dry their hands on the same towel, they will shortly quarrel. To bore a hole in the door frame and put in it the hair of a colored person is supposed to cure whooping cough. The rattle of a rattlesnake, if carried in the pocket, will prevent rheumatism or, if placed in the bureau drawer, will keep away moths.

**The Shrew.**

The shrew was originally the shrew mouse, which, when her young were helpless, would fight desperately in their defense, and so well known was the courage of this little animal, which would even go out of its way to seek an enemy at times when the nest needed protection, that the word became applied to a woman who was ever ready to seek a quarrel.

**He Objected.**

"No, suh, Mistah Doctahman," objected the gentleman of color--"no, suh; doan' yoh go ahead en vacumate dat ole 'oman er mine. Doan' yoh do hit. Des plunk dat air stuff in my bofe arms, but doan' fix huh so she gwine hab er so' er arm en cain' ten' ter de white folks' washin'. kase ef yoh do I'ze 'pintedly got ter go ter wuk!"

Since we make our own happiness we should think twice before we say this is a sorry world.

The earliest mention of shoes is in an Egyptian papyrus about 2,200 years before Christ.

### Commission Merchant.

All kinds of country produce sold on Commission. Quick sales and prompt returns. Highest market prices realized.
