and cure Skin Eruptions and Rheu-  
matism. Enclosed in glass vials.  
Postpaid—25 cents a bottle;  
\$1.00 for six.

L. S. JOHNSON & COMPANY,  
Boston, Mass.

## KOUCHIBOUQUAC NOTES.

Mr. John Bell of Richibucto, paid a visit to Kouchibouguac last week.

Mr. Geo. Jardine went to Chatham on Thursday.

Miss Susie Tweedie returned from Richibucto on Tuesday.

Mrs. Robt. Patterson and Miss Maggie Patterson were visiting in Nicholas River last week.

Mr. Ernest Weldon drove through from Chatham on Tuesday.

Mr. John Wright of Richibucto, was here on Saturday.

When Mr. Jas. Sullivan was driving the mail down to the Beach last Wednesday, his horse stumbled and hurt its leg. It is feared that the leg is broken.

Mrs. John Patterson and Sinclair Patterson visited Rexton on Wednesday. While standing at a store door, their horse took fright and ran away upsetting and smashing the waggon.

The remains of Mr. Wm. Wood were brought from Acadieville on Thursday. The funeral took place on Friday afternoon at two o'clock, and was largely attended. Services were held at the house and grave by the Rev. Mr. Fraser of Rexton. The pallbearers were Messrs. Ward McDonald, Robt. Carter, Robt. Patterson, Ruben Smith, William Tweedie and Alex. Jardine. Mrs. McIsaac and Mrs. Wilt sisters of the deceased were present at the funeral. Mr. Wood leaves a wife and six children.

## PEADODY, MASS.

Seeing no notes from this town for some time, I thought I would endeavour to write a few.

We are having very pleasant weather here at present, and it is beginning to look like summer again.

A very enjoyable surprise party took place at Mr. Thomas Cail's of Lynnfield, last Friday evening, a number from this town attended, among them were Miss Minnie Baldwin, Agnes and Alma Thompson, N. L. Spencer, Joseph Baldwin and John Little.

Miss Helen Campbell who has been seriously ill for a number of weeks at the Lynn Hospital, is convalescent.

Miss Laura Spencer has resumed her position at Wm. G. Webber's large dry goods store at Salem.

Mr. and Mrs. John Baldwin of Cambridge, spent "Patriot's Day" in Peabody, visiting friends. They returned Sunday evening accompanied by Mrs. Robt. Baldwin, Sr.

Quite a number of young folks from this town contemplate spending the summer in the Province.

## NOTRE DAME.

The smelts, which are the staple fish of the Cocagne river, have arrived and are being captured in large quantities. A very novel and original way of entrapping the unwary fish is resorted to. The custom of fishing with rod and line, or even netting is too slow, so the natives set out armed with large scoop nets, which are dipped in the water and pushed rapidly down stream, meeting and imprisoning the fish as they ascend the river.

The eager sportsman is quietly wishing for the trout and smiling inwardly as he dreams of the four-pounder which he hopes to land.

While Arthur Teed and E. S. Williams, two of the prominent athletes of this place, were trying feats of strength, a distinct snap was heard and on investigation it was found that one of Mr. Teed's fingers was broken close to the joint. Mr. Teed will be unable to attend to his business for some time.

Mrs. Marston, Miss Etta and Alpha Graky have arrived from Boston to visit their mother.

Mr. J. A. Chapman, one of Notre Dame's most prominent and respected young men, has lately been appointed to the honorable position of His Majesty Justice of the Peace and will no doubt exhibit the same prudence and judgment for which he is noted as an employee of C. E. Lockhart & Co.'s store.

Mr. A. Haines, who was called away to Fredericton by the serious illness of his son, has returned and reports his son to be improving.

One of the oldest residents of this place William Crawford, passed to his long resting place this morning after a few months' illness with dropsy. He had been failing fast for the last week and for 24 hours was in a state of semi-consciousness from which he never rallied. Mr. Crawford was one of the pioneers who settled and built up this place, enduring many trials and hardships such as are common in a new country without roads or railways or any of the modern means of transportation. He was 76 years of age and leaves a wife and seven children, Elisha, George, William John, Hazen, Mrs. Eliza Jane Atherton, Mrs. Bertha Hope, and Miss Julia Crawford, all of whom, with the exception of Elisha, who lives on the old homestead, have taken up their residence in the United States. The sympathy of the community is with Elisha in his sad bereavement, as he was very much attached to his parent and feels the loss keenly.

## Of Special Interest to Ladies.

Unightly warts can be removed in a few hours by Putnam's Painless Corn and Wart Extractor; it is reliable, safe and sure and costs but 25c. Insist on "Putnam's," it's the best. Sold by R. O'Leary.

## COATESVILLE.

No men on hand yet to build our bridge, Patience is a virtue but it will cease to be soon in this case. To make a crossing with a team one has to travel eight miles extra.

Rev. Mr. LePage of Buctouche, gave a lecture here Thursday evening. Those who were not there missed a treat, the subject was farming, very suitable for this season.

Mrs. Margaret Coates is seriously ill. Dr. King of Buctouche, is in attendance.

Mrs. H. C. Coates is visiting her daughters in Amherst.

Inspector Doucett visited our school this week.

The smelts have arrived, but the boys say they are scarce, and a mess is hard to catch.

WANTED.—A case of Headache that KUMFORT Headache Powders will not cure within twenty minutes.

## BASS RIVER.

Mr. Hugh Campbell of Bass River, who has been drilling in Halifax for the last two years with his brother, Augustus Campbell, were here this week bidding farewell to old friends, prior to their departure for South Africa, with the 4th Contingent. Our best wishes go with them.

Miss Hattie Campbell and her sister, Mrs. Crossley, left for Bangor last week to visit relatives there.

Mr. David Allison, Jr., of Sackville, spent Sunday at Mr. E. Walker's.

Mr. Jas. Carr late teacher in the Superior school here, has returned from Dalhousie College, Halifax, and will take a school down the river for the summer months.

## REXTON NOTES.

Mr. Chas. O. Main who has been studying at Pine Hill Theological College, Halifax, during the past winter is home for a short time before he goes to take charge of a congregation in the vicinity of Sydney, C. B.

Mr. Geo. Hutchinson, law student in the office of Phinney & Crockett, Fredericton, is home for a few months.

Mrs. A. B. Carson went to St. John last week to hear the Westminster Concert Choir, which performed there on Saturday night.

Mr. W. H. McArthur visited St. John last week.

Mr. Hugh Jardine, his wife and family have moved to Moncton, where they will reside in future.

Dr. Ferguson was called from Moncton on Sunday last to consult with Dr. Tozer in the case of Mr. Robt. Main, who is dangerously ill with inflammation of the bowels.

Rev. Mr. Vans occupied the pulpit of St. Andrews Presbyterian Church on Sunday morning.

Miss Martha Jardine is home from attending Business College in St. John.

## ST. ANNE.

With the continuance of good weather farming will begin in earnest in this vicinity this week.

Herring is quite plentiful in Chockpish Bay this spring.

Mr. Bert Richard is laying the foundation for a large new barn on his premises.

## The Opal and the Thunder Stone.

The opal was looked upon as a thunder stone, and, although many women are now given to a strong superstitious prejudice against wearing one, it was in bygone days held in the highest estimation, for it was supposed to combine the virtues of several gems.

## Cut Flowers.

Before placing cut flowers, especially chrysanthemums, in water split up the stalks about two inches. This, it is said, will keep them fresh for a long time.

## Endurance of a Horse.

A horse attains his growth in five years. He will live twenty-five years and average sixteen years. A horse will live twenty-five days on water without solid food, seventeen days without eating or drinking, but only five days on solid food without drinking.

## Chemical Signs.

Many of the chemical signs are derived from the alchemists and are also to be found in works on magic. Some of them are very ancient and may be traced to Roman stenography and to more ancient sources.

New York's Cemeteries. There are forty-eight cemeteries in and around Greater New York.

## The Loss in Artificial Lights.

It is stated that in candlelight, lamp-light or gaslight the waste is more than 99 per cent. In other words, if they could be so obtained as not to throw anything away they would give nearly a hundred times the illumination which they do afford. Even the electric light is mostly waste.

## To Woo Sleep.

Victims of sleeplessness often try to put themselves to sleep and fail. Try persuading yourself that you are trying to keep awake.

## Cause of Winter's Coldness.

The earth is nearer to the sun in winter than in summer, but the cause of the cold weather of the former season is the oblique inclination of the sun's rays. Did the sun shine as directly on the earth's surface in January as in June the winter would be the hotter season.

## Why Teeth Last.

So much harder is the enamel of teeth than anything else of organic origin in nature that they outlast all things else apparently, even the rocks, and are preserved for the enlightenment of science.

## Forts Around New York.

There are eight garrisoned forts in the immediate vicinity of New York city.

## A Historic Remark.

The battle of the Nile was fought Aug. 1, 1798, between the French and English fleets. Sir Horatio Nelson was in command of the latter, and as the engagement was about to begin he exclaimed, "Victory or Westminster Abbey!" And victory it was.

## Fathom.

Fathom is from the old Aryan root, fat, to extend, and denotes the distance from tip to tip when the arms of an average sized man are fully extended.

## What Might Happen.

If the motion of the earth were suddenly arrested, the temperature produced would be sufficient to melt and even volatilize it, while if it fell into the sun as much heat would be produced as results from the combustion of 5,000 spheres of carbon of the size of her globe.

## Animals on Trial.

In 1782 a cow was tried for murder at Peltout, France, and five years later a pig which had killed a child in the streets of Menlan was thrown into prison, tried and finally strangled in the market place.

## Honey in Ireland.

Ireland produces 210 tons of honey a year, worth \$12,000.

## Saving a Tree.

At Helmsbury, Switzerland, there is a tree estimated to be over 1,000 years old. The owner has agreed, in return for an annual pecuniary consideration, not to chop it down as long as it shows signs of life.

## The Parrot's Beak.

In the parrot's beak both mandibles are movable, a peculiarity unknown in other species of birds.

## A Remarkable Fish.

Axolotl, or fish with legs, is the name Mexicans give to a queer creature which can swim like a fish or run up a smooth wall like a fly, can live and grow when kept constantly in water like a true fish and yet can live and grow entirely away from water, excepting a little to drink, like a true air breathing animal.

## Big Pearls.

A French naturalist, Raphael Dubois, asserts that all large pearls are nothing but sarcophagi, in the center of which rest the dead bodies of small marine worms.

## A FLOOD OF LIGHT

equal to 100 candlelights and comparable only to the light of noon day sun, yet soft and restful to sew or read by, such is the light of the

## AUER GAS LAMP

It makes and burns its own gas—is cheaper than oil and as easy to manage—though eight times as bright. Gives out very little heat. Our free catalogue gives full particulars. Write for it.

AUER LIGHT CO., MAKERS, MONTREAL.

Milburn's Sterling Headache Powders contain neither morphine nor opium. They promptly cure Sick Headache, Neuralgia, Headache, Headache of Grippe, Headache of delicate ladies and Headache from any cause whatever. Price 10c and 25c.

The Boer delegates left Pretoria Saturday for their various destinations to confer with the burghers in the field and submit the British terms. It is believed the Transvaalers will everywhere accept the terms, as they are in no way anxious for a winter campaign. The only difficulty likely to occur will, it is thought, be with the Orange Free Staters, many of whom are expected to prove recalcitrant. In the meantime there will be no cessation of hostilities. The delegates are expected back in Pretoria the middle of May.

## "DO IT NOW" TAKE

Constipation can be surely, quickly and permanently cured by taking Dr. Wilson's Herbine Bitters. Do not neglect nature's warnings. That full feeling, with dizziness, headache, heartburn, palpitation, foul breath and bad taste, skin pale and mummy and bloated, accompanied by loss of sleep, appetite and debility.

Herbine Bitters at once relieves and speedily cures these by toning up the stomach, causing a natural and permanent return to good health.

At all druggists or of Brayley Sons & Co. Montreal. Large size 25 cents, double size 50 cents.
