IF YOU CATCH COLD

6

Many things may happen when you catch cold, but the thing that usually happens first is a cough. An inflammation starts up in the bronchial tubes or in the throat, and the discharge of moc. us from the head constantly poisons this. Then the very contraction of the throat muscles in the act of coughing helps to irritate so that the more you cough the more you have to cough. It is, of course, beyond question that in a cases the irritation started in this as results in lung troubles that are cal serious names. 1 is in this irritated oronchial tube that the germ of consumption finds lodgment and breeds.

Cuba's Forests.

No less than 30,000,000 acres of Cuba. nearly half the island, are forest. There are thirty different species of palms alone found there.

A Full Mail.

A transatlantic steamer carrying what is called "a full mail" usually has 200,000 letters and 300 sacks of newspapers for London, to say nothing of the five hundred and odd sacks for other places.

A Fish's Tail.

The tail of a fish is his sculling oar. He moves it first on one side and then on the other, using his fins as balances to guide his motion. If the fish is moving fast and wants to stop, he straightens out his fins just as the rower of a boat does his oars.

The True Poker Fint. In 1852 Poker Flat produced \$700,000

in gold bullion in a single month and celebrated the event with a triple hanging. Then came the public spasm of virtue which caused the John Oakbursts and the "outcasts of Poker Flat" to depart from thence and die of cold and starvation on the snow bound road to Sandy Bar. There are no "Oakhursts" nor "Uncle Billys" in Poker Flat today, and when the stranger makes the slow descent and suddenly by a sharp turn in the trail comes upon the famous camp he finds in that hudthe of cabins little to remind him of the Poker Flat of 1852.

The famous slope presents almost a picture of utter ruin. There are but eight persons living in the old town, while a hundred dead ones sleep in the cemetery. Some of the graves are marked with wooden headboards, some with stakes, but many have nothing above them. Nearly all of them were laid to rest without religious rites save a Bible reading by old Charlie Pond, who, though a professional gambler, was selected for the religious office owing to his excellent voice and oratorical ability.

In 1853 and 1854 there were 2,000 souls in Poker Flat and 15 stores, 5 hotels, 3 dance halls and 7 gambling houses. There is but one man left today of that original company. He is an old and grizzled veteran, who delights to tell how in 1856 a circus came to town and sold 1,500 tickets of admission at \$20 each .- W. M. Clemens in Bookman.

A Day Dream of Tennyson.

In the "Life of Tennyson" occurs the following:

"A kind of waking trance I have frequently had, up from boyhood, when I have been all alone. This has generally come upon me through repeating my own name two or three times to myself silently, till all at once, as it were out of the intensity of the consciousness of individuality, the individuality itself seemed to dissolve and fade away into boundless being, and this not in a confused state, but the clearest of the clearest, the sub-st of the surest, the happily, too, the growth has been most weirdest of the weirdest, utterly be rapid in recent years. vond words, where death was an almost laughable impossibility, the loss of personality , if so it were) seeming. This might be the state which St. Paul a week all the year round. describes, 'whether in the body I cannot tell, or whether out of the body 1 cannot tell.' I am ashamed of my feeble description. Have I not said the state is utterly beyond words? But in a moment when I come back to my normal state of 'sanity' I am ready to fight for mein liebes Ich and hold that

full history of my case, to be used at your discretion. About five years ago my right ear began to sing, and this kept on getting worse, until I lost my hearing in this ear entirely.

I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you Very truly yours. F. A. WERMAN, 730 S. Broadway, Baltimore, Md. heartily and beg to remain

In Holland the extent of the mail service routes is over 30,000 miles. The uniform of the postmen is semimilitary in character, and they themselves are said to be a remarkably handsome body.

Gold In the Bible.

The earliest book which mentions gold is the Bible. It occurs in Genesis 11, 11.

Hair and Wool.

Through the whole range of human, plant, goat's hair and sheep's wool na. ture shows such close gradations that it would be difficult to draw an exact line or to distinguish beyond a question of doubt between wool and hair.

Baking Powder.

A Dog's Attack.

The supreme court of Vermont holds that the question whether an assault by a dog was prompted by playfulness or viciousness will not be considered in imposing liability on his owner for any resulting injuries. The dog of the defendant in the case at issue jumped against the plaintiff, throwing him down and breaking his hip.

Saxon Farmers.

Many Saxon farmers who work in the fields in summer make artificial flowers in winter.

An Old Superstition.

It was once a common article of belief in England that when a maiden ran into the fields early in the morning to hear the first note of the cuckoo, and when she heard it took off her left shoe and looked into it. she would there find a man's hair of the same color as that of her future husband.

A Fly's Mouth.

If man's mouth were as large in proportion as the mouth of a fly, he would have to have a head four feet in diameter to accommodate his lips and teeth

Nervous Headaches

Mrs. Bailey, 632 Queen's Ave., London, Ont, whose husband is with the Globe Casket Co., states :-- " My nervous system was in an exhausted condition. I could not sleep well and suffered a great deal from headaches. Experience has proven to me the remarkable value of Dr. Chase's Nerve Food. I have found it a splendid tonic and can now say that I am free from headaches. I rest and sleep better than I have for a long time and feel real well in every way.' Nervous headaches can only be permanently cured by enriching the blood and setting the nervous system in perfect order. Dr. Chase's Nerve Food is not a relief for headache but a thorough and lasting cure. It creates new, rich blood and nerve force and makes the weak and sickly strong, well and vigorous. It is nature's greatest restorative. 50 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

It will last for zons and zons."

The New Rabbit.

"Why, where did you come from, Uncle Jasper?" I said to the old darky who had sent the house girl in to tell me that he wanted to see me.

"I come f'um Decatur, Miss Alice." he said. "I got to Atlanta 'bout two hours ago, but I didn't 'low you wus ready to see nobody."

"Did you come on the train?" I asked.

"No, ma'am; dat I didn't. I come in on de rabbit."

"On what?"

"On de rabbit. You sholy done heerd er de new rabbit dey's got."

A Slander.

Greene-They say that Senator Keen er is on the make. They even go so far as to say that that new house of his was given him in payment for his vote.

Gray-It puts me all out of temper to hear such slanders! It is as far'as possible from the truth! I know all about it. It was this way: Some people who were interested in a certain bill bet him that house that he would vote against the bill, and he didn't and won the house. That was all there was about it. The idea of Keener's being open to bribery !-

The Sun. Astronomers tell us that refractory elements like iron. silicon and carbon perhaps dissociated into simpler sub stances, are present as vapors in the atmosphere of the sun and that many others of our well known elements, including hydrogen, are also present in this glowing atmosphere, while the heat of the sun's surface and that of the hotter stars is vastly higher than that of the electric furnace.

A Good Tooth Powder.

Two ounces of prepared chalk, half an ounce of pow-dered orris root, quarter of an ounce of carbonate of soda. Dry. mix thoroughly and pass twice through a fine wire sieve.

Perfumed Wine.

Greek and Roman wines were perfamed by steeping the leaves of roses or violets in the liquor until it had acquired the odor of the flowers.

Swiss Avalanches.

Avalanches are so common in Switzerland that devices are made to control them. The Swiss form earthworks or intrenchments which are pointed in such a fashion that avalanches coming in contact with them are split and so driven aside.

Farmer Soldiers.

Of the soldiers in the civil war 48 per cent were farmers.

Storm Signals.

Large owners of marine property estimate that one severe storm, sweeping the Atlantic coast in the absence of danger signals, would leave not less than \$3,000,000 worth of wreckage in its wake.

Asiatic Humor.

"At one of the public dinners given by Ameer Abdur Rahman Khan." says Mr. Stephen Wheeler in his story of the ameer's life, "an excited native rushed into the midst of the assembly and prostrated himself in front of the ameer.

"'Sahib!' he gasped. 'The Russians are coming!'

"'From what direction are they visible?' asked the ameer without changing his expression.

"'From yonder hill,' replied the native.

"'Climb that tree and watch until they come?' was the royal command.

"The native ascended to the topmost branches and was forced to remain until he dropped to the ground."
