#### AT THE CHANGE OF LIFE.

This trying period in woman's life usually comes between the ages of forty and fifty years and is marked by irritability, headache, dizziness, irregular monthly, fitful appetite, forebodings of evil, palpitation of the heart and constipation. Dr. Chase's Nerve Food is above all a woman's medicine because it helps her safely through this trying period. It enriches the blood, strengthens the nerves, regulates the functions of the feminine organs and tones and invigorates the whole body.

Prof. Samuel Williston of the University of Kansas, has been appointed head professor of paleontology in the University of Chicago. He was born in Boston in 1857, and was formerly a Yale professor.

Fire in New Milford, Conn., last night destroyed nearly fifty buildings, including stores, two banks and three hotels. The loss is between \$500,000 and \$600,000.

Four men were killed, two were fatally injured and two others were terribly burned by a torrent of molten metal last night in an open hearth pit at the Pennsylvania Steel Works at Steelton, near Harrisburg. All of the men were Austrians.

 From Capt. F. Loye, Police Station No. 2, Montreal: "We frequently use FERRY DAVIS' PAIN-KILLER for persons in the following conditions, viz: neuralgia, toothache, headache, rheumatism, and all ailments which hold men in our position. I have no hesitation in saying that FERRY DAVIS' PAIN-KILLER is the best remedy I have ever used."  
 Used Internally and Externally.  
 Two Sizes, 25c. and 50c. bottles.

**WILL SPEND \$60,000,000.**  
 PITTSBURG, Pa., May 9.—The Gazette says: "The United States Steel Corporation will expend \$60,000,000 in making improvements to their buildings, and instead of building one large tube mill in the vicinity of Pittsburgh, three will be erected. The greater part of this money, which has been appropriated, will be spent on the works of the corporation in and around Pittsburgh. The plant of the National Tube Co at McKeesport will not be moved, but will be fully repaired and operated to its capacity."

### CURIOUS KOREAN CUSTOM

The Battle of Stones Which Marks Beginning of New Year.

One of the most curious customs in Korea marks the advent of the new year. This is the battle with stones, participated in by inhabitants of Seoul. At a spot about a mile and a half outside the city walls, on the main road to the Han river, the people assemble by thousands either as witnesses or participants in this truly remarkable exhibition of warlike good will. By previous arrangement piles of stones are in readiness, all carefully selected and of convenient size.

Without previous selection of combatants the participants form themselves into opposing armies, about the only qualification for service being apparently the ability to hurl a stone at the advancing forces of the enemy. At first the stone throwing is at long range and uninteresting, but as the throwing continues the forces draw nearer, and the fight waxing fast and furious, men being detailed to collect the stones into heaps again or fetch fresh ammunition for the firing line. Then the clash comes, the two bodies meet, fierce rushes are made, stones are discarded, and knives and clubs are freely used. The clash of weapons, the screams of the combatants, the surging mass of men, some being trampled to death, now falling, now struggling to their feet, the blood flowing from numerous cuts—the whole goes to make a picture that depicts anything but the joy we attribute to the coming of a new year. The fight is kept up until the clang of the great city bell tells the combatants that it is time to return home.

Perhaps the most singular feature of the celebration is that during the remaining eleven months of the year the Korean is as amiable a person as can be found in any country, and by some writers the average Korean is characterized as the most abject coward on the face of the earth.

But, cowards or no cowards, the Korean people still indulge, as they have for years, in this annual warlike welcome of the new year. Indeed it is legal in Korea to fight not only on New Year's day, but during the first moon or month of the year. The custom has become a national institution, sanctioned by the government and patronized by the king and the nobility. The police attend the battles, but merely to keep order among the spectators. Fighting is the Korean's privilege with the advent of each new year, and he is expected to exercise that privilege to the extent of his ability if he would be accounted a good, country loving Korean.

#### Florence Nightingale's Real Name.

The fact is but little known that the family name of Florence Nightingale was not originally Nightingale, but Shore. Her father was a rich Sheffield banker of the name of Shore and connected with an old family which had been in possession of land in the counties of Derby and York since the fifteenth century. Mr. Shore assumed the name of Nightingale long after the birth of his children and because he inherited the fortune and estates of his mother's uncle. There were but two children in the family, both girls. The eldest was named Parthenosse, because she was born in Athens, and this name was supposed to indicate her father's profound admiration for the Parthenon. The younger, Florence, was also named after the city of her birth.

#### The Retort Judicial.

When Judge Barvard was on the bench and holding court in Poughkeepsie, a lawyer who did not like him chanced to see a one cent coin lying on the floor. Picking it up and holding it forth in ostentatious display, he said: "I imagine, your honor, from the value of this coin, that it must belong to the court."

"And I imagine," replied Judge Barvard, "that if it was not such a small coin the court never would have seen it."

#### Ria Sent.

It takes 5,000 unloaded bees to make a pound—that is, when the bee leaves its hive in search of honey it weighs only the five-thousandth part of a pound. When it returns, however, from the fields and flowers, freighted with honey, it is three times that heavy.

### Apply This Test To Your Nerves

Study these symptoms. They are for your guidance. You may not have them all, but if you have any of them your nervous system is not up to the mark, and a little extra expenditure of nerve force may bring the dreadful downfall.

Intolerance of motion, noise and light; twitching of the muscles of the face and eyelids; fatiguing sleep, sudden startings and jerking of the limbs; dizziness and flashes of light before the eyes; irritability and restlessness in every part of the body; headache, indigestion, feelings of weariness and depression, and loss of interest in the affairs of life.

So long as the daily expenditure of nerve force is greater than the daily income, physical bankruptcy is certain to result sooner or later. Nerve force must be increased, and this can best be accomplished by the use of Dr. Chase's Nerve Food, because it contains in concentrated form the very elements of nature which go directly to form nervous energy. 50 cents a box, all dealers, or Edmanston, Bates & Co., Toronto.

## Burdock BLOOD BITTERS.

### Turns Bad Blood into Rich Red Blood.

This spring you will need something to take away that tired, listless feeling brought on by the system being clogged with impurities which have accumulated during the winter. Burdock Blood Bitters is the remedy you require.

It has no equal as a spring medicine. It has been used by thousands for a quarter of a century with unequalled success.

#### HERE IS PROOF.

Mrs. J. T. Skine of Sbigawake, Que., writes: "I have used Burdock Blood Bitters as a spring medicine for the past four years and don't think there is its equal. When I feel drowsy, tired and have no desire to eat I get a bottle of B.B.B. It purifies the blood and builds up the constitution better than any other remedy."
